**General Manager
Doug Worthington**

On behalf of the Jim Coleman family and the entire crew at Vintage Angus, I would like to welcome you to our 32nd annual Carcass Maker Bull Sale.

We are very excited about the cattle industry and the leading role of Angus cattle in the marketplace.

The cattle market is the brightest spot in agriculture in 2025, with no signs of slowing down. The demand for High-Quality feeder steers is at a historic high and leading the way are high-quality Angus. Females that can produce the high-quality bulls needed to sire these steers have been the backbone of the VAR herd for generations.

On September 4th we are offering 264 "Multi-trait excellence" bulls. This is a term that you have heard often if you have followed Vintage Angus. Our belief that breeding cattle is not about a single trait or EPD, but the more challenging task of excellence at all the important traits delivered in one genetic package.

The \$C combined index includes all traits included in \$Maternal and \$Beef. By combining maternal and terminal traits into a single multi-trait genetic selection tool, we believe the AAA has made it easier for Vintage Angus to show in real data what we have been working on for decades: "Multi-trait Excellence."

This work will ensure that you can keep replacement females and raise high-quality feeder cattle with the same bull battery.

The proof is that the average \$Combined index for all 264 VAR sale bulls is \$336, which would rank them in the top 8% of all Angus bulls nationwide.

In today's world of program cattle, with the genetics to grade Prime dominating the top of the feeder market, it's time to make your program stand out with genetics that are proven to be "Carcass Maker" genetics.

For the first time in 2025, we will also offer a group of open, ready-to-breed fall yearling females in our bull sale. These females would make excellent additions for any quality-minded commercial or purebred breeder looking to add females.

The basics of the cattle business — reproductive soundness, longevity, fleshing ability and structural soundness — are all major economic factors in a cow herd and still take center stage at Vintage. Our females must be sound before they are kept to see if they have superior carcass qualities and superior performance.

At Vintage Angus, we are committed to keeping our customers on the leading edge of genetic information and profitability. We know our job is "to increase the profit margin of our customers."

That is why this uniform and genetically superior set of "Carcass Maker" bulls each carries the VAR brand on their hip. It's a promise to our customers to deliver the best traits and customer service with every bull we sell.

If you have any questions about the bulls or our program, please contact us and we will be happy to help in any way we can. We want to make you a satisfied Vintage customer and are confident that our bulls will perform to your high standards. Vintage Angus Ranch "Carcass Maker" bulls are bred that way and guaranteed to get the job done.

Doug Worthington
General Manager

Why Pay More? Come to V A R and "Get More" for your bull-buying dollar.

NEW

For the first time in 2025, we will also offer a group of open, ready-to-breed fall yearling females in our bull sale. These females would make excellent additions for any quality-minded commercial or purebred breeder looking to add females.

Heifers listed on page 85 thru 87.

VINTAGE ANGUS RANCH

"Carcass Maker" Bull Sale

Thursday, September 4, 2025 • Noon

At Our Foothills Ranch, La Grange, California
Three miles east of La Grange on Hwy. 132

Selling 264 Bulls
"Carcass Maker" Angus Bulls

ONLINE MARKETING & SERVICES

Details on how to participate on
inside back cover of this sale book.

Sale Day Phones:

(209) 853-2817
(209) 853-2210

GPS Address:

1771 Highway 132, La Grange, CA 95329

Auctioneer:

Rick Machado
(805) 501-3210

Sale Consultants:

Jason Judge (559) 288-8142 • Matt Myers (405) 315-7258 • Joel Judge (805) 234-7191

Accommodations in Area:

Holiday Inn Express, Oakdale, CA (209) 847-9121
Holiday Inn Express & Suites, Turlock, CA (209) 664-9999
Candlewood Suites, Turlock, CA (209) 250-1501
Holiday Inn Express, Modesto, CA (209) 543-9009

Transportation: The Vintage Angus Bull Sale site is 35 minutes from the Modesto airport which can accommodate any private aircraft. The Sacramento and Bay Area airports are approximately 1 hour and 50 minutes from La Grange with services by all major airlines.

Inspection of Cattle: Inspection of the cattle prior to the sale is available if arrangements are made with Vintage Angus.

Herd Health: The herd is tested for brucellosis, is tuberculosis free. All bulls are anaplas vaccinated and tested free for persistent BVD. All sale bulls requiring a trichomoniasis test under new state regulations will be tested and carry the certified state tag. For cattle requiring additional tests, the tests will be complete before shipment can be made.

**Consult your veterinarian to determine
if an annual anaplas booster is required in your herd.**

Yearling Bulls: The adjusted 365-day weights and scrotal measurements will be available sale day.

Fertility: All bulls selling have been semen tested and will have a fertility evaluation.

Insurance: Mortality insurance will be made available through Harding & Harding Insurance at the time of settlement.

Terms & Conditions: Cattle will sell under the suggested Terms and Conditions of the American Angus Association (http://www.angus.org/Pub/suggested_sale_terms.pdf). A copy of these terms will be available at the clerk's table.

Semen Interest: Vintage Angus Ranch is selling 100% interest and full possession in all bulls unless noted in the footnotes or announced from the block on sale day.

Delivery and Discounts: In an effort to show appreciation to our loyal customers, we once again will be giving a 5% repeat buyers discount. If you bought in our 2023 sale, you will receive the discount. If you're a new buyer in 2024, you will receive the 5% discount in 2025. We will offer an additional 5% discount if you are a volume buyer of 6 or more bulls. We also offer free delivery to buyers from California and bordering states. \$50 off per bull purchased for bulls removed from the sale site on sale day.

Bull Guarantee: All bulls selling have passed a breeding soundness exam prior to the sale. To ensure your investment, Vintage Angus will guarantee all bulls selling for \$2,500 or more against breeding injury, and to be sound breeders for the first breeding season. Breeding season is defined as the 90-day period following the first turnout of the bulls. If a problem arises, contact us and we will provide a replacement bull if available, or if the buyer prefers, credit toward a bull will be given in the upcoming sale, less salvage value of the injured bull. Please notify us as soon as possible should injury or problem occur and prior to the injured bull being sold for salvage! No claims will be accepted after six months from the sale date.

California Angus Association Representatives:

Josh Amador - President California Angus Assn.
Austin Flynn - Vice President California Angus Assn.

AM EPDs contained in the hard copy of this sale book were current as of print date. Digital versions of this sale book can be viewed online at www.angus.org and will have EPDs updated every Friday with the exception of EPD references in footnotes and photos. Any PDF downloads from the website will contain EPDs current as of the date downloaded. References: American Angus Association®, AHIR®, AngusLink®, CAB®, Pathfinder®.

COMPARISON OF VAR CARCASS MAKER BULLS TO THE BREED

Expected Progeny Difference (EPD), is the prediction of how future progeny of each bull is expected to perform relative to the progeny of other bulls listed in the database. EPDs are expressed in pounds, square inches, or centimeters (depending on the trait), plus or minus.

\$Value indexes are multi-trait selection indexes expressed in dollars per head, to assist beef producers by adding simplicity to genetic selection decisions. The \$Value is an estimate of how future progeny of each bull is expected to perform, on average, compared to progeny of other bulls in the database if the bulls were randomly mated to cows and if calves were exposed to the same environment.

Vintage Angus Bulls excel in each of these traits:

MAKE YOUR CATTLE STAND OUT

You've made a significant investment in your genetics, but does the market recognize that? Stand out by differentiating your cattle with AngusLinkSM programs: AngusVerifiedSM and the Genetic Merit ScorecardSM. AngusVerified validates your calves are sired by registered Angus bulls and make your cattle stand apart from other black hides on sale day. The Genetic Merit Scorecard gives buyers the confidence they need to pay more for your quality calves.

Users of the AngusLink programs earn **\$13-15/CWT PREMIUMS** on average. Give us a call, and learn how to claim your competitive edge with AngusLink value-added programs.

AngusVerified and the Genetic Merit Scorecard are administered by IMI Global.

ANGUSLINKSM
VALUE ADDED PROGRAMS

ANGUSLINK.COM | 816-383-5100

FASTER PROGRESS, GREATER RETURNS

Targeting the BrandTM identifies registered Angus bulls with the genetic potential to sire calves more likely to meet all 10 Certified Angus Beef[®] brand specifications.

Minimum Genetic Requirements

Marbling EPD (Marb) +0.65

Grid Value (\$G) +55.0

Selling full semen sales interest and full possession. Vintage will retain in herd semen rights and name on paper. The dam of Wesson came to Vintage as the 150,000 top-selling bred heifer of the 2022 Optum Angus sale. The third dam is a 250,000 valued former Deer Valley and Spruce Mtn. donor selected in the 2022 Spruce Mtn. sale by Lakeville farms and Frontier Acres that also produced Deer Valley Rita 0631, the 310,000 top-selling females of the 2021 Deer Valley sale selected by Express Ranches and Pollard Farms. Analysis values this bull among the breed's elite for pre-weaning growth (WW), post-weaning growth (YW), \$Maternal calf value index, added ribeye needed for improved yield grade, added marbling, \$Weaned calf value for performance from birth to weaning, progeny performance for post-weaning merit measured by \$Feedlot, progeny performance for carcass grid merit measured by \$G, the combined growth carcass excellence measured by \$Beef and the combined value of maternal and \$Beef measured by \$C.

A large, rustic wooden sign stands in a grassy field under a blue sky. The sign is made of dark wood and has the words "VINTAGE ANGUS" and "RANCH" in white, capital letters. Below this, a smaller sign reads "ANNUAL BULL SALE SEPT. 1". The sign is supported by two vertical wooden posts and a horizontal top bar. A large pile of rocks is at the base of the sign. In the background, there are rolling green hills and some trees.

NEW!

FOR THE FIRST TIME, VINTAGE WILL OFFER
FEMALES IN OUR BULL SALE.

Offering open, ready-to-breed fall yearling heifers.
These females will sell in lot order. Whoever has the
bid has control and can take one or as many as they
want in lot order.

Welcome to Sierra Ranches,

It is with great pleasure that we welcome you to our Hereford Bull Sale once again at our La Grange, California, ranch. It is without saying it's importance to acknowledge that this is where we began our Hereford Bull Sale journey many years ago. The continued working relationship between Vintage Angus, Sierra Ranches and all our customers is what drives us to continue producing cattle that can make a difference in the beef industry.

We have set out to offer bulls that are extremely well-traveled, sound and to go out and work! This set of bulls has once again been backgrounded this past winter through late spring in these foothills from December to May, grazing on native feed. It is our belief that structure, soundness, and genetics are what makes these bulls set themselves apart from other establishments. It is keeping the commercial cattleman's interests first and the continued growth within the industry. As Sierra Ranches operates a commercial program, we have firsthand knowledge of the benefits of bringing Hereford Genetics into a program. Herefords have added the docility, fertility and longevity into our cow herd. The Baldy heifers produced from our genetics have made positive influences in our herd, as well as in our longstanding customers' herds.

This group of bulls is our best set to date, being sound-footed, powerfully constructed and carrying a well-balanced set of genomic values to back them up. Herefords have increased our weaning weights, fertility and longevity, along with bringing in a great deal of docility. Having our own commercial herd allows us to also use our California Homegrown Bulls in our herd and collect the data that tells us what these bulls can do for our customers. In the best interest of the beef industry and belief in our cattle, we have continued to feed them out to verify our genetic direction. As you can see, this has allowed us to be vertically integrated from the purebred breeder to the beef packer.

Knowing what our cattle can produce and the benefit to our customers is the utmost importance to our family. Sierra Ranches has continued to gain the carcass information of the calves produced out of our purebred Hereford Bulls and Females. Over the last several years, we have utilized the American Hereford Association's feed-out program. This program continues to fuel genetic and management practices. The National Junior Hereford Association's (NJHA) Fed Steer Shootout contest teaches juniors about the opportunities and challenges of the cattle feeding industry.

If you have any questions about the bulls or our program, please contact us. We will be happy to help in any way we can. We want to make sure Sierra Ranches customers are satisfied, and are confident that SR Bulls will work in your program.

Thank you and we look forward to seeing you at this year's sale in La Grange, California.

Tim, Kara, Tyler and Kathryn Coleman

Heterozygous Polled - One of the crowd favorites is this son of our herd sire, HH Advance 2116K. Traditionally marked, big-butted, fancy-fronted, powerhouse herd bull prospect with top-end individual performance. Dam is a top young female that is out of Churchill Red Baron 8300F. This young bull would be great for any program. Calving ease to added pounds on your calves. The whole package!

Watch the Sale on CCI.live!

*The best, the fastest and most
comprehensive marketing & bidding tool!*

How to Bid Online...

- **As a buyer**, you do not need an account or to login to watch the sale but you must have a validated account to bid.
 - After you are logged in, you must proceed to the sale page for any and every auction and click **"Get Buyer Number."** Some auctions require a pass-code to obtain a buyer number even after you are approved by CCI.live. Pass codes generally come from the sale manager or ranch for that particular sale.
 - CCI.live will operate with ease on a **cellular device, laptop, desktop or tablet.**
- A **modern or current browser** is important and will make your experience better. You do not need to install the app on cellular devices to watch a sale. CCI.live is a browser-based application meaning it will play on most new browsers, but you can also download the CCI.live app at the Apple App Store or through Google Play.
- **For successful bidding you must have good Internet service!** It is very important to be stationary. If you are driving and bidding, expect to have some service issues. If you are stationary on a good device, with healthy Internet, expect a very successful bidding environment. If you have slow Internet watch the "asking price" on the screen - it is real time and refresh your browser if you feel like you have some lag.
- **Support line open during all sales. 405-400-9505** - Please contact the ranches for invoices and trucking.

Thank You
