ANGUS BULL SALE

TUESDAY • SEPTEMBER, 9, 2025 • NOON
SELLING 88 TOP QUALITY ANGUS BULLS

SALE DAY PHONES:

Gary Cardoza (559) 999-9509

Betsy Cardoza (559) 999-9510

LIVESTOCK REPRESENTATIVES

Landon Andrews, *Angus Journal*

John Dickinson, Parnell Dickinson Inc.

Jared Patterson, *Western Livestock Journal*

Jake Pickering, *Western Ag Reporter*

Rod Wesselman, Wesselman Livestock LLC

AUCTIONEER:

Jake Parnell
(916) 662-1298

SALE LOCATION:

The sale will be held at the ranch just 16 miles east of Madera, CA on Hwy 41. A map is located on the back cover.

HOSPITALITY:

A complimentary lunch will be served at 11 a.m.

HEALTH:

All bulls are Anaplasmosis vaccinated and have been tested free for BVD PI.

SEMEN TESTING:

All bulls have passed a rigid fertility and soundness examination. All bulls sell trich tested.

GUARANTEE:

O'Neal Ranch bulls are guaranteed for the first breeding season.

SALE TERMS:

Cattle will sell under the suggested Terms and Conditions of the American Angus Association (www.angus.org/Pub/suggested_sale_terms.pdf) Terms of the sale are cash.

DELIVERY:

\$100 discount per bull that is loaded and removed on sale day. Free delivery within California. Please make arrangements prior to leaving the sale if you are not picking your bulls up on sale day.

DISCLAIMER:

All persons who attend the sale do so at their own risk and O'Neal Ranch assumes no liability, legal, or otherwise, for any accidents which may occur.

GENERAL INFORMATION:

Announcements on sale day made by the owners or the auctioneers will take precedence over statements in the sale book. Mail or phone bids are accepted prior to sale. Inspection of the bulls prior to sale day is available if arrangements are made in advance..

LOT NUMBERS:

Tag numbers correspond with the lot numbers in the catalog. Freeze brand numbers correspond with the bull tattoo numbers.

Sale updates and videos available at www.onealranch.com

AM EPDs contained in the hard copy of this sale book were current as of print date. Digital versions of this sale book can be viewed online at www.angus.org and will have EPDs updated every Friday with the exception of EPD references in footnotes and photos. Any PDF downloads from the website will contain EPDs current as of the date downloaded. References: American Angus Association®, AHIR®, AngusLinkSM, CAB®, Pathfinder®.

Sale updates and videos available at www.onealranch.com

AMERICAN ANGUS ASSOCIATION SELECTION TOOLS

Expected Progeny Difference (EPD), is the prediction of how future progeny of each animal are expected to perform relative to the progeny of other animals listed in the database. EPDs are expressed in units of measure for the trait, plus or minus. Interim EPDs may appear on young animals when their performance has yet to be incorporated into the American Angus Association National Cattle Evaluation (NCE) procedures. This EPD will be preceded by an "I", and may or may not include the animal's own performance record for a particular trait, depending on its availability, appropriate contemporary grouping, or data edits needed for NCE.

Accuracy (ACC), is the reliability that can be placed on the EPD. An accuracy of close to 1.0 indicates higher reliability. Accuracy is impacted by the number of progeny and ancestral records included in the analysis.

PRODUCTION EPDs

Calving Ease Direct (CED), is expressed as a difference in percentage of unassisted births, with a higher value indicating greater calving ease in first-calf heifers. It predicts the average difference in ease with which a sire's calves will be born when he is bred to first-calf heifers.

Birth Weight EPD (BW), expressed in pounds, is a predictor of a sire's ability to transmit birth weight to his progeny compared to that of other sires.

Weaning Weight EPD (WW), expressed in pounds, is a predictor of a sire's ability to transmit weaning growth to his progeny compared to that of other sires.

Yearling Weight EPD (YW), expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny compared to that of other sires.

MATERNAL EPDs

Maternal Milk EPD (Milk), is a predictor of a sire's genetic merit for milk and mothering ability as expressed in his daughters compared to daughters of other sires. In other words, it is that part of a calf's weaning weight attributed to milk and mothering ability.

CARCASS EPDs

Carcass Weight EPD (CW), expressed in pounds is a predictor of the differences in hot carcass weight of a sire's progeny compared to progeny of other sires.

Marbling EPD (Marb), expressed as a fraction of the difference in USDA marbling score of a sire's progeny compared to progeny of other sires.

Ribeye Area EPD (RE), expressed in square inches, is a predictor of the difference in ribeye area of a sire's progeny compared to progeny of other sires.

Fat Thickness EPD (Fat), expressed in inches, is a predictor of the differences in external fat thickness at the 12th rib (as measured between the 12th and 13th ribs) of a sire's progeny compared to progeny of other sires.

\$VALUE INDEXES

\$Value indexes, an economic selection index allows multiple change in several different traits at once pertaining to a specific breeding objective. The \$Value is an estimate of how future progeny of each sire are expected to perform, on average, compared to progeny of other sires if the sires were randomly mated to cows and if calves were exposed to the same environment.

Maternal Weaned Calf Value (\$M), an index, expressed in dollars per head, predicts profitability differences from conception to weaning with the underlying breeding objective assuming that individuals retain their own replacement females within herd and

sell the rest of the cull female and all male progeny as feeder calves. The model assumes commercial producers will replace 25% of their breeding females in the first generation and 20% of their breeding females in each subsequent generation. Traits included are as follows: calving ease direct, calving ease maternal, weaning weight, milk, heifer pregnancy, docility, mature cow weight, claw set and foot angle.

Weaned Calf Value (\$W), an index, expressed in dollars per head, to predict profitability differences in progeny due to genetics from birth to weaning. The underlying objective being producers will retain 20% of the female progeny as replacements and sell the rest of the cull females and their male counterparts as feeder calves. Traits included are as follows (in no particular order): birth weight, weaning weight, milk, and mature cow weight.

Feedlot Value (\$F), an index, expressed in dollars per head, to predict profitability differences in progeny due to genetics for postweaning feedlot merit compared to the progeny of other sires. The underlying objective assumes producers will retain ownership of cattle through the feedlot phase and sell fed cattle on a carcass weight basis, but with no consideration of premiums or discounts for quality and yield grade. Traits contributing directly to the index are as follows: yearling weight (gain), carcass weight and feed efficiency.

Beef Value (\$B), a terminal index, expressed in dollars per carcass, to predict profitability differences in progeny due to genetics for postweaning and carcass traits. This terminal index assumes commercial producers wean all male and female progeny, retain ownership of these animals through the feedlot phase and market these animals on a carcass grid. Traits included in the index are as follows: yearling weight, dry-matter intake, marbling, carcass weight, ribeye area and fat.

Combined \$Value

Combined Value (\$C), expressed in dollars per head, is an index which includes all traits that make up both Maternal Weaned Calf Value (\$M) and Beef Value (\$B) with the objective that commercial producers will replace 20% of their breeding females per year with replacement heifers retained within their own herd. The remaining cull heifer and steer progeny are then assumed to be sent to the feedlot where the producers retain ownership of those cattle and eventually sell them on a quality-based carcass merit grid. Expected progeny differences (EPDs) directly influencing a combined index: calving ease direct (CED) and maternal (CEM), weaning weight (WW), yearling weight (YW), maternal milk (Milk), heifer pregnancy (HP), docility (DOC), mature cow weight (MW), foot angle (Angle), claw set (Claw), dry matter intake (DMI), marbling (Marb), carcass weight (CW), ribeye area (RE) and fat thickness (Fat).

O'NEAL RANCH

Gary & Betsy Cardoza

PO Box 768
Friant, California 93626

Dear Fellow Cattlemen,

Welcome to our 21st annual Performance Plus Bull Sale. California is having another strong feed year along with a stout market for feeder cattle. With the many challenges we face in our industry, we still have one of the most rewarding careers. As breeders slowly rebuild their cattle herds, the values of bred and replacement females are at an all-time high. This would be an opportune time to recharge your bull battery.

This year's sale offering is out of proven sires that have gone out and performed in the pasture. With some of the heifer bulls being sired out of the well-known Sitz Incentive, E&B Wild Cat, and BAR Dynamic, along with our herd sires, there are plenty to choose from. Our growth bull selection is pretty deep. Some of our highlights are out of SAV Magnum, Deer Valley Growth Fund, Linz Exemplify, Bear Mtn Stellar, along with our own O'Neals Maverick, and the list goes on and on. These bulls will not disappoint you on sale day.

We invite you to join us for a New York strip steak lunch with all the fixings. We would like to thank our sale sponsors: Evans Feed & Livestock, Zinpro, Anipro, VSI and FerAppease. The bulls will be available for preview the weekend prior to the sale at the ranch. Please call to make arrangements if you would like to view the offering. There will also be videos available on Western Video Market under production sale or check CCI live website. We look forward to seeing you ringside on September 9th.

Sincerely,

Gary & Betsy Cardoza

DIAGNOSTICS & BIOLOGICALS

Partnership. Performance. Profit.

Something powerful happens when shared expertise, care and nutritional performance come together. Unrivaled solutions designed to advance your business forward. That is the transformational power of partnership.

Enhancing the performance of your herd is imperative for maximizing profitability. Year-round supplementation of Zinpro® Availa® 4 in trace mineral programs promotes better conception rates in cows, heavier weaned calves and overall health in your cattle. Experience the power of partnering with Zinpro®.

Learn more about
the power of Zinpro.

MAKE YOUR CATTLE STAND OUT

You've made a significant investment in your genetics, but does the market recognize that? Stand out by differentiating our cattle with AngusLinkSM programs: the Genetic Merit ScorecardSM and AngusVerifiedSM.

The Genetic Merit Scorecard gives buyers the confidence they need to pay more for your quality calves.

AngusVerified validates your calves are sired by registered Angus bulls and make your cattle stand apart from other black hides on sale day.

Users of AngusLink programs earn **\$13-15/CWT PREMIUMS** on average. Give us a call, and learn how to claim your competitive edge with AngusLink value-added programs.

ANGUSLINK.COM | 816-383-5100

The Genetic Merit Scorecard and AngusVerified are administered by IMI Global.
