

BAR S RANCH

Red **ANGUS**
FEMALE DISPERSAL

OF THE DAVID & STEPHANIE DICKERSON HERD

NOVEMBER 13, 2025
AT THE RANCH IN PARADISE, KANSAS - NOON

Welcome

BAR S RANCH RED ANGUS FEMALE DISPERSAL

Fellow Cattlemen and Cattlewomen,

It is with great excitement that we welcome you to the Bar S Ranch Dispersion of the David and Stephanie Dickerson Red Angus herd. Over the last several years we have built a set of Red Angus cows that have the skeletal quality, real-world functionality, fleshing ease, and fertility necessary to thrive in our Western Kansas ranch environment. We have expected a lot out of these females and are confident that they will thrive in any environment that they are introduced to.

The lion's share of the females selling are safe in calf to the very popular ABS owned stud known as Feddes Eastwood 3284, a curve-bending sire with calving ease, growth, maternal strength, and carcass merit. We are thrilled with the quality of heifer calves that sell at the side of their productive dams and are equally as excited about the male progeny that will sell next March in our annual bull sale.

Our newlywed son, Ethan, and his wife, Lexi, will continue to build their Red Angus herd. They will produce and supply Red Angus genetics for our annual bull sales. We plan to continue expanding our existing Angus and Charolais herd.

Please make plans to join us on November 13, 2025, at the ranch near Paradise, Kansas as we offer our Red Angus division in its entirety... they ALL sell! Please reach out with any questions about this dynamic set of females. We look forward to seeing you on sale day!

Thank you for your interest,

David & Stephanie Dickerson

RedANGUS

FEMALE DISPERSAL

OF THE DAVID & STEPHANIE DICKERSON HERD

THURSDAY, NOVEMBER 13, 2025

12:00 P.M. CST – Bar S Ranch Red Angus Female Dispersal

SALE DAY CONTACTS

Sale Barn (785) 998-4378
David Dickerson (785) 483-1454
Stephanie Dickerson (785) 445-5139

Russell

INSURANCE

Insurance will be available for your purchases on sale day.

HEALTH

All females will be accompanied with interstate health certificates.

INSPECTION OF CATTLE

Please call to schedule a pre-sale ranch visit to view the females in person.

TRUCKING

We will work with customers to help coordinate the most affordable and reliable trucking option.

TERMS AND CONDITIONS

The terms of the sale are cash or good check payable immediately upon the conclusion of the sale before animals will be transferred or removed from the sale facility. Cattle sell under the standard terms and conditions of the Red Angus Association of America. All sales are final, and the cattle will become the property of the buyer when the auctioneer says "SOLD". All females are sold as sound breeders.

LIVE ONLINE BIDDING

*I*NNOVATION — AgMarketing, LLC —

Who would have ever thought that we would be well into the third year of a record cattle cycle? It's simply amazing and welcomed by many in the business as the beef economy shows no restraint on "good times," with a forecast that mirrors what we have experienced to date for many more months ahead. United States cow numbers continue to dwindle as the quick financial gains are way more appealing than investing in heifer retention resulting in reduced availability of replacement female options. David and Stephanie Dickerson have elected to disperse their entire Red Angus female battery presenting the opportunity to acquire females with reputation.

For those that are not familiar with the western Kansas operation, these cattle are built to work, constructed to endure, and bred to last longer than the competition. Longevity is the key to success in any business and in a marketplace such as we are experiencing, it is everything. These cattle are selected and sorted to withstand the pressures of the unrelenting environment and adverse terrain. The foot quality and skeletal integrity of this cowherd is unrivaled and their ability to thrive on limited inputs is unmatched. Acquiring females from this program is a must for those who are very serious about positive margins and genetic improvement regardless of commercial or seedstock operation status. This is the opportunity to invest and acquire some of Kansas' very best ranch bred females with a history and reputation that stems for three generations of selection pressure.

We feel that this offering not only focuses on cattle that are durable and fundamental, but that it is laced with rich cow family and Red Angus heritage. "Copper Lass," "Lady," and "Larkaba", are entrenched throughout and the outfit has tied into the very elite of the available herd sires in the business. The unwritten business commitment of the ranch to their customers is to only improve the beef business and the product that is in more demand than ever before. Genetics do not cost; they only pay when you acquire them from disciplined and focused entities such as Bar S.

Now, to be very clear, this dispersion is exclusively the David and Stephanie Dickerson Red Angus herd, Ethan Dickerson and his new wife, Lexi, will continue their Red Angus program. The bull calves have been retained for the annual bull sale, and Ethan and Lexi will produce the male progeny necessary to fill the gap for the annual bull sale. Red Angus will still have their place within the operation, just not to the scale that it has been for the past several years.

The team at Innovation AgMarketing believes in the program and the people of the brand. Customer service has and always will be first and foremost at Bar S. We know that good productive females are a challenge to acquire and find in the aggressive market we experience. We realize that people are very busy, so we are here to assist with sight unseen purchasing and additional needed information regarding the cattle that are in between the covers of this sale book. We hope that each of you can schedule a visit to Paradise, Kansas to view the offering in person prior to or on sale day, we promise you won't be disappointed.

Thank you for your time and interest in this offering of quality Red Angus females.

Graham Blagg Jared Shipman Tim Anderson

- Bar S Larkaba 6012 won't have issues finding fans on sale day! 6012 is quite possibly one of the very best phenotypic breeding pieces in the entire offering.
- Her heritage is saturated with dominant sires and dams as she would be derived genetically from the famous Boot Jack Ranch of Montana.
- 6012 is a FULL SISTER to the widely popular and influential LSF Boxed Beef 9063W Al sire that has influenced countless herds across the continent.
- Her cow family has built the outfit for the Haugen Family, and it will continue to flourish as the overall quality and predictability continues to keep up with today's standards of production and profitability.

Lot 2

- LOT 2A | TATTOO: 5942 | DOB: 9/18/25 | 77 LB. HEIFER CALF Sired by Feddes Eastwood 3284 (RAAA: 4787522)
- The dark red cover girl in early advertisements for the fall calving cows.
- 8435 is dense in her structure and body with a hip and hindleg construction that needs to be replicated within the breed. It's gratifying seeing her stout, low input kind around as that is exactly what the team here has set out to create.
- Even genomically she is the low input kind ranking in the top 11% for ME and top third CED.
- A daughter of Bar S Pride 8435 was the lead-off heifer in the 2025 NWSS Grand Champion Pen of Three Red Angus Heifers!

- WEBR Night Train 324 has made a significant impact on the Red Angus breed. Sure, he's not the most robust on paper, but for the real cowboys who can evaluate and sort stock with the eye and pencil, he does a lot of things right.
- The daughters of 324 are nothing short of the quality of this experienced producer. Stout, broody, impressive udder quality and fertility that keeps them in the program for life.
- This proven matriarch was selected from the Wisconsin based, TC Reds program, which approaches the business in a manner similar to the Bar S program, focusing on foot quality, udder integrity, and fertility.
- She sells with a black-red carrier heifer calf at side by Bar S Cowboy Up 1174.

- Here is a high-end daughter of NBAR Hamley S91, who has stamped quality and productivity in females across the country.
- 609 is stout constructed starting at the ground with foot size and heaviness of structure. She blends her power pieces in an attractive useful package.
- Likely service to Feddes Eastwood 3284 could be intriguing!

- Perhaps the most impactful red hided female to roam the tough country in Paradise, Kansas!
- The list of daughters and granddaughters of /S Dixie Lady Conquest 323A in this marketing event alone is impressive, even before considering the herd sires she has had a hand in generating for commercial cattlemen throughout the Central U.S. and beyond.
- This dark muzzled cow at her age is still refined in her look with structural make up that had truly stood the test time. She undoubtedly does this with dimension and density to her body and hip.
- In addition to what she's done in the pasture she's earned breed leading status ranking in the top 1% for BW and Milk, top 4% for CED and CEM, top third for STAY.

- EST DUE 4/7/26
- WEBR Resource J82 was our selection from the 2022 Weber Land & Cattle Bull Sale. J82 is a son of RED MRLA Resource 137E backed by the tried-and-true donor dam, WEBR Dolly 1257. He is siring females that resembled the fundamentals of his mother.
- With longevity a product of the Bar S Ranch blueprint, these young females will see many years of impact!

- It doesn't take an incredible amount of time spent around Bar S Ranch to understand the cowherd is ran with working ranch standards. Cows are expected to calve out in large pastures and bring that calf heavy to weaning with minimal inputs.
- The selection pressure has created productive cows like 3255 that you can bet on to generate for years to come.
- She ranks in the top 22% for HB.

- RED Soo Line Power Eye 161X is one of the best when it comes to female production. His name shows up in some of the most potent phenotypic pedigrees in Red Angus stock across North America.
- 8909 has served the outfit well over the years as she consistently produced marketable stock of either sex. Consistency is the key to success!
- I'd take productivity on the hoof over ink on paper any day of the week.

- SAFE AI - EST. DUE 3/1/26
- The cattle sired by Bieber Spartan E639 have made their way to the top end of the business nearly everywhere they roam. They are consistent for body shape and high-end phenotype but are saturated with industry advantages as well in those trait areas that drive profit and impact bottom lines.
- On the maternal side of the equation, she is led by the famous Feddes Blockana O62 with assistance from the famed WEBR Caroline 719T.
- This young breeding piece is the kind that will consistently produce herd sires and donor prospects. She charts very well within the offering for performance expectations for both WW and YW, along with extra maternal to justify daughter retention.

SPRING BRED HEIFERS

- AI BRED 5/23/25 TO HXC CONQUEST 4405P (RAAA: 975924)

- SAFE AI - EST. DUE 3/1/26
- WEBR Brigade 13G continues to stamp the ranch born progeny with the extras in terms of body and skeletal integrity.
- It's simple though to complement one who carries the cow power this bred heifer packs with her build and quality.
- She traces back to the WEBR Caroline 719T and carries maternal sires along like BUF CRK The Right Kind U199, 5L Bourne 117-48A, Feddes Granite Z132, Red Fine Line Mulberry 26P, WEBR Doc Holiday 2N, and RED Six Mile Sakic 832S.

- The "Pride" cow family has supported both black and red hided cattle for the Bar S Ranch brand for decades now. Through all the challenges the ranch has faced the namesake has truly stood the tough test of time.
- This daughter of resident herd sire, WEBR Brigade 13G is loaded with substance and practicality.
- Her maternal, low input look matches her maternal genomic ranking in the top 12% for HB, top 30% for ME, HPG, CEM and STAY.

- SAFE AI - EST. DUE 3/2/26
- Bar S Ranch is very satisfied with the job that WEBR Brigade 13G has done for the program. The cattle are consistent, dense, and thrive in the ranch's challenging environment and terrain.
- The maternal drive and support throughout the offering are simply insatiable, and the pressure applied to these cattle at every culling stage is evident in this offering from top to bottom.
- 4171 ranks in the top 14% for HB, top 15% DMI, top 17% HPG, and the top 22% for STAY.
- What a prospect for any program of any discipline!

- SAFE AI - EST. DUE 3/1/26
- We certainly appreciate the cattle that carry the sire power of WEBR Resource J82. J82 is the son of the popular RED MRLA Resource 137E and Jesse Weber's potent WEBR Dolly 1257 donor family.
- This female's kind and quality are very indicative of the "Resource" influence. She is big and open in her rib design, flawless at the surface, and as square and true as one could ask for.
- 4377 charts in the top 12% for her HB index value, the top 14% for STAY, and the top 16% for HPG.

- EST. DUE 3/23/26
- Bar S Ranch offers an elite curve bender that has the equipment to drive profit and produce the cattle desired by today's marketplace.
- Bieber CL Stockmarket E119 boosted the carcass quality expectations for this elite female, which is supported by a daughter of WEBR Brigade 13G.
- This bred heifer ranks in the top 5% for Marb, the top 13% for ProS, the top 16% for BW, the top 17% for CEM, and the top 18% for HB.
- An elite bred prospect that also posts figures in the top half or better for all necessary profit drivers and indexes.

- SAFE AI - EST. DUE 2/27/26
- One of the very prominent bred females in the bred division, as she boasts one of the very elite cow families of the Red Angus breed. The "Larkaba" line has headlined multiple programs throughout the industry, and the influence doesn't hesitate to push its stock towards the front of the line.
- This female is a maternal sister to the \$20,000 sale feature for the Paul Haugen Family, and her quality doesn't go unnoticed in this quality pen of bred heifers.
- Her premium genetic blend places her in the top 8% for HPG, the top 15% for ADG, the top 21% for both ProS and HB, and the top 22% for YW as well.
