CHAMPIONSHIP GENETICS FROM WITHIN...

FRIDAY | DECEMBER 19, 2025 | 6:00 PM | YALE, OK

Event VOLUME VI

From all of us at Buck Creek Ranch, we would like to welcome you to our Sixth Annual "Grand Event"!

This past year is one we won't soon forget. The heifers that sold through last year's sale experienced tremendous success this summer during the Junior Nationals and State Fair season. It's because of you—our loyal customers—that we continually strive to enhance our breeding program and provide the services needed to help you achieve your individual goals. A highlight of the year was when Bret Pembrook exhibited the 2025 AJSA National Classic Grand Champion Purebred Simmental Heifer with B C R Time To Shine 123M.

Our team at Buck Creek Ranch is here for you every step of the way. Garrett Cloud manages the day-to-day operations in Oklahoma, and he and his wife, Roxie, have played a major role in our continued success. This ranch would not run the way it does without them!

We have also been fortunate to surround ourselves with some of the greatest young men and women the industry has to offer. Joel Murray helps with daily tasks in Indiana. Carver Gostomsky, Cash Lehrman, Carlee Clark, Jackson Mattocks, Jonna McCullough, and Adam Miller are based in Oklahoma and have each been a vital part of our team. A special thanks goes to Josh Tolbert and Matt Scasta for preparing the cattle for this event.

Of course, none of this is possible without your support. Please feel free to contact any member of the Buck Creek Ranch team or sales staff with questions. We believe this is our strongest offering to date and invite you to join us on December 19, 2025, in Yale, Oklahoma, for the Sixth Annual "Grand Event"!

Respectfully,

Jacob, Sarah and Krew

The Moore Family

ONLINE BIDDING

It is with utmost pleasure that we welcome you to the 2025 edition of "The Grand Event" at Buck Creek Ranch. The Moore Family and the Buck Creek Ranch team are diligently preparing for your visit to the ranch in Yale, Oklahoma, on and prior to December 19, 2025, to view and appraise what is quite possibly the best set ever offered by the program! This year's offering is loaded with the best of the best from the donor pen and the bull battery that has built the program. On December 19, 2025, the B C R prefix will be represented by some of the most proven and prolific cow families in the business. The offering will be influenced by cow families such as the iconic Miss Time To Shine Y251 tribe, as well as WHF Delilah 450H, BRB4 JBSF Kandy 112J, B C R Beautiful 310K, B C R Sara G304, Wallace Lucy 8132, and many more young and prolific matrons that will continue to carry the torch at Buck Creek Ranch!

As always, the offering also includes additional investment-quality candidates of top-shelf caliber. Jacob Moore and Garrett Cloud have keen eyes for quality and are highly disciplined in the model and type of stock they prefer in terms of build and kind, which is reflected in their consistent success each year. There are countless success stories stemming from acquisition experiences across all sexes and price points from "The Grand Event" sale series, and we feel the potential for success within this year's inventory is laced with more quality and cow power than ever before offered by the firm.

This past year, the females that sold through last year's marketing event enjoyed tremendous success at every level of competition. A highlight would certainly be Bret Pembrook leading B C R Time To Shine M123 to the title of Grand Champion Purebred Heifer this summer in Madison, Wisconsin, at the 2025 AJSA National Classic! The dam, granddam, and maternal granddam of this outstanding female were all vital building blocks in the foundation of the Buck Creek Ranch breeding program.

We strongly encourage you to come early and come often, but be sure to join us on Friday, December 19, for an excellent set of SimGenetic and Angus females offered by one of the very best families in the business. The Buck Creek Ranch team is committed to doing whatever is necessary to enhance your cattle viewing and buying experience, and their hospitality is truly among the best in the industry. If you are serious about the future of your junior show program or your seedstock breeding program, this is one event you will not want to miss.

If you need any assistance with information about the offering, please do not hesitate to reach out to any of the B C R representatives or any member of the Innovation AgMarketing team. We hope to see you there!

Enjoy the cattle,

Graham Blagg Jered Shipman Tim Anderson

TERMS AND CONDITIONS

All lots sell in accordance with the suggested guidelines of the American Simmental Association, American Angus Association, or their respective breed association. For updated EPD's and information please visit www.simmental.org. Announcements made sale day from the block during the sale take precedence over printed material in this catalog. Payment will be accepted in the form of cash, cashier's check, or check. All cattle must be paid for prior to release. All funds are to be paid to Innovation AgMarketing, LLC in U.S. currency. No cattle will be transferred, delivered, or released without full payment. In the event you need expedited registration paper transfers please make plans to pay in full on sale day. All sales are final.

ANNOUNCEMENTS

A supplement sheet will be available sale day with updated information, corrections, and/or additional information relating to the sale offering in the form of breeding status, retained embryo interest, etc. This supplement sheet and any announcements made sale day from the auction block during the sale will take precedence over printed material associated with this sale.

LIABILITY

Buck Creek Ranch, Innovation AgMarketing, LLC, and authorized sale personnel assume NO liability for injury, accident, or damage to persons or personal property. All persons who attend the sale do so at their own risk.

DAILY CARE

Customer service and the day-to-day preparation of showing is something that we are very passionate about. We want to work with our customers and are always willing to lend a helping hand. If you would like to have your heifer clipped throughout the year prior to any show, you are welcome to bring the cattle back to Buck Creek Ranch at no additional cost to be clipped. It will be required that all animals that are left at Buck Creek Ranch to be managed must be insured. If you choose to have Buck Creek Ranch manage your heifer during her show career, the following costs are outlined below. Please contact Jacob or Garrett with any questions.

\$750 per month for daily care, feed, etc.

If cattle are taken to a show by Buck Creek Ranch a fee of
\$150/day will be charged to cover labor and show expenses.

FERTILITY

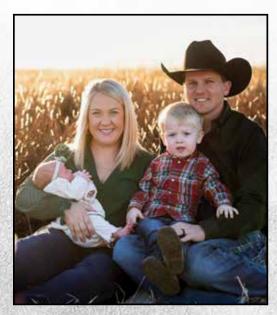

All females are sold as sound breeders. However, if we feel that a heifer has been fed to an extreme level of obesity, we will hold the feeder responsible for any reproductive problems. Seller reserves the right to take possession of any animal(s) that presents difficulty conceiving before a sale credit will be issued. Seller guarantees each female to produce a live calf or transferrable embryos.

- B C R Time To Shine 105G continues to make her mark in the Buck Creek Ranch breeding program, and it should prove to be a long-lasting one as she delivers high-quality progeny year after year.
- CMFM Time To Shine 99D, the maternal granddam of Lot 1, was relentless in her production, year after year. She, like her dam Y251, is a gift that continues to produce the next generation with outstanding quality and consistency.
- Lot 1 represents the core focus of the B C R breeding program, as she is sired by the senior herd sire Next Level and comes from the dominant "Time To Shine" donor family.
- NO26 is maternal yet striking through her front third, blending smoothly into a deep center body cavity. Her structure is exceptional from blade to hip, setting herself down on a nearly perfect hind leg. She is poetry in motion and should have no trouble attracting attention by December 19th.

- WHF/JS/CCS Woodford J001 continues to make his presence known as he sires cattle of both sexes that are in demand. His dam, WHF Summer 365C, is the timeless senior donor dam for the JS Simmentals and Wayward Hill Farm breeding programs that posted her own winning credentials during her tenure on the tanbark.
- This granddaughter of 105G is influenced by RP/B C R Eminence H005, the softer, wider based full brother to Rocking P Private Stock H010 that is also employed by RJ Cattle Co. of Mithcell, South Dakota.
- Her pedigree is certainly told by her build and overall kind. She sets to the surface with big feet, her bone shape is rugged as her loosely hinged skeleton takes her around the pen effortlessly. 037N is bold in her body shape, powerful in her muscle, and offers transitions that are smooth.
- We think highly of this brood cow prospect with show ring value and know that many others will too.

B C R TIME TO SHINE LO41 \$85,000 Full Sister to Dam of Lot 2

B C R TIME TO SHINE LO34 \$30,000 Full Sister to Dam of Lot 2

- We continue the reign of the influence of Miss Time To Shine Y251 in the initiating phases of this elite sale offering! Quality exudes from each and every direct daughter, granddaughter, and great granddaughter that graces the pastures of the Buck Creek Ranch stewardship.
- This direct daughter of RP/B C R Eminence H005 is from an outstanding two-year-old that obviously did an incredible job in production!
- The head and neck designs and attachments from the "Time To Shine" influence are so very similar with only subtle differences from one family member to the next. The presence that this female owns is quite stunning, her body shape is bold, and her genuine skeletal width will be appreciated. She too comes with substance of skeleton and foot quality that will extend her longevity beyond the tanbark.

MISS TIME TO SHINE Y251 Matriarch of the "Time To Shine" Cow Family

- A SimAngus daughter of BNWZ Dignity 8017 from the matriarch, CMFM Time To Shine 99D!
- The cattle by 8017 are distinct and chiseled about their features and pattern lines. This female sets high from her smooth, correctly angled blade with little deviation into her spinal transition. She is strong in her topline, crisp and level to her pin set with a beautiful hind leg and pastern angle.
- We love the center rib design and her shape to her forerib as well.
- A highly competitive percentage show prospect with aftermarket production value.

- A very stout built, youthful, SimAngus show prospect that
 is a maternal sister to the 2025 AJSA National Classic Grand
 Champion Purebred Simmental Heifer campaigned by
 Bret Pembrook. She is also a maternal sister to the 2022
 AJSA National Classic Reserve Grand Champion Percentage
 Simmental Heifer that was shown by Josie Phillips.
 We are aware how easy it is to find a percentage
- We are aware how easy it is to find a percentage Simmental female that can be shown, but finding one with a reputable pedigree, saturated with proven donor dams, is another level up.
- Besides B C R Time To Shine 104G on her maternal side, this May born heifer calf traces back to Angus royalty on the sire side as well, with the influence of Silveiras S Sis Sandy 2352.
- We appreciate the cowy, maternal look and build of this prospect and are certain many others will share the exact sentiment.

BCRTIME TO SHINE M123

2025 AJSA National Classic Grand Champion Purebred Simmental Heifer Maternal Sister to Lots 5 & 6

- The second of a pair of sisters from the proven B C R Time To Shine 104G. W/C Style 69E "Family Tradition" didn't fall short on influencing the quality of this March born SimAngus prospect.
- High geared and High speed in her build only indicates potential domination of the general population as a mature, heavy bred a year from now! She has the look of a High-Octane racing machine as she comes high from her blade with her high arching neck and head attachment. She is ultra chiseled about her slender, lean neck,
- She comes round and bold through her center body and has the shape to her back, hip, and stifle to offer production credentials suitable for herd sire generation.
- She's freakishly intriguing with high earning potential!

- B C R is pleased to offer a fresh new cow family to the Grand Event, WHF Delilah 450H. 450H is a direct daughter of CCS/WHF OL 'Son 48F from the Wayward Hills OG, WHF Delilah 45D, which certainly requires no introduction to the breed as she continually shells out the goods for Chris Allen and the Wayward Hill program. Jacob partnered with Jared Boyert and Tim Schaeffer to acquire this exceptional female that traces back to a past AJSA National Classic Champion, WHF Black Jasmine 240J, the rock and cornerstone for EVERYTHING good in Versailes, Kentucky.
- This April born prospect offers a proven genetic lineup that should leave most eagerly awaiting a trip to Yale, Oklahoma, before December 19th. This off-blaze marked female is incredible and balanced in her proportions. One that is seductive in her front third design, that is big and open throughout her extended center body, and offers sheer width and dimension from end to end.
- Her skeletal integrity and quality are constructed to the highest of standards, and we expect her to become nothing short of her direct or second dam in production.

WHF DELILAH 450H Dam of Lots 7 & 8

- We do appreciate the length and future that this loose built daughter of JSUL Something About Mary 8421 has to offer! Her transitions are exceptionally smooth, and when set in motion, she remains collected and functional.
- The cow family value in relationship to the green shavings is one of a kind as her maternal granddam, WHF Delilah 45D in a genetic blend with a paternal granddam of the caliber of JBSF Proud Mary, great things are bound to happen just based on facts and merit alone.
- She has the big-time features with the like pieces that increases her chances of going the desired distance.

- Exceptional design and feature refinement are captivated within this daughter of Next Level that is supported by the full sister to the National Champion, HPF Quantum Leap
- A sound, blaze faced prospect that should have the pieces to remind them all of her quality and kind next summer in Grand Island, NE.

BCR RIGHT TO LOVE H057 Dam of Lot 9

- Next Level continues to demonstrate he's a valuable part of the Simmental breed. Like any sire, he doesn't fit every cow, but when he does, it can lead to significant industry benefits. He consistently passes on hoof quality, skeletal substance, length, frame, and muscle. His sons are consistent in WDA, and his daughters are proving to have the necessary milk and maternal instinct for production. We understand that these traits may not win banners, but they are crucial for the 99% of the industry that relies on functional cattle to stay profitable.
- Lot 10 is from a full sister to RP/B C R Eminence H005 and Rocking P Private Stock H010. She is sound in her build, bold in her body shape, and goes on an impeccable set of running gear.

- As we embark on a new cow family we go to a past high selling sale feature of The Grand Event, the \$80,000 B C R Beautiful 310K.
 A pair of May-born full sisters by the in-house stud, Next Level.
 We appreciate so much that can be found in this initial daughter of the past
- high seller.
- Her power, substance, and three-dimensional presence are something that could be quantified and welcomed throughout the industry.
- We expect her to be the kind with significant returns on investment once in production.

TI 80.1 121.2 2.5 21.4 42.7 1.09 -0.06 102.9 69.8 3.6

- The other sister of the duo from Next Level and the \$80,000 past sale feature, 310K, has traits that mirror the substantial quality of her dam.
- Flexibly built, featuring a large, deep center rib design and one of the highest tying through her front third. She's an obvious, picturesque beast with phenotypic advantages that should allow her to dominate among her contemporaries in the competitive circles of our nation.
- Plenty of opportunities to secure the dark purple and hardware with maximum earning potential after exhibition.

NEXT LEVEL Sire of Lots 15 & 16

- A female marked with significance and stamped with quality from nose to tail.
- We know that many will be drawn to this female sired by the 2023 NAILE Reserve Champion Purebred Simmental Bull, SO Remnant 418J.
- Her silhouette embodies grace and perfection, from her glass-like extended front third to her robust rib
- design and her substance of bone and foot. She is supported by the high caliber kind and certainly looks to be the "top 1% kind" desired by the best of the best homes.

THE DAUGHTERS OF Sara

- The many times Champion Percentage Simmental Bull, Reckoning 711F, continues to be utilized on some of the very best and most proven females in the breed. CBAR BD Sara 927W, the maternal granddam of this duo of full sisters would have been one that never came up short on power relative to muscle and body. Her daughters are proving their worth in production with the ability to wean big calves that come with marketable phenotype.
- This January born prospect will prove to be suitable for any competitive level. She's extended, deep, and flexible.
- Her presence is discerning, with a centerfold neck design and the pattern and skeletal substance of a future champion.

CBAR BD SARA 927W Maternal Granddam to Lots 18-20

- The maternal look of the "Sara" cow family exudes from this female.
- She may not be the elite show heifer of the pair of sisters, but she is one that will be stunning in the pasture with a flawless udder design that supports a big heavy calf at side.
- Maternal function and integrity in production will be the rewarding end result with this acquisition.

- Heirloom genetics are strongly evident in this February donor prospect as she links two influential females, both averaging 18 years of age. LLSF Urababydoll U194 and STF Onyx 451W have produced daughters and sons that will influence the Simmental breed for generations. We believe that N002 will keep the torch burning once she enters production.
- The older donor dams had more width and substance to them and N002 is a prime example of what that portrays. She is set wide and genuine at the surface and compiles that advantage as one studies her through her chest floor and center body. This female is big ended, stout legged, and blessed with collected skeletal quality when set into motion.
- A true donor prospect with the phenotype needed to compete at any level, just like her maternal granddam did, as she is the ONLY back-to-back Grand Champion Purebred Female of the NAILE Simmental Open Show.

- YW MCE MILK MARB API 83.3 126.7 3.9 16.8 46.2 0.65 0.35 113.2 78.2
- One of the more dominating SimAngus females of the offering is from the CF Proven Queen 138J Angus donor owned by the Plamp and Johnson Families. 138J is rapidly proving her value to the respective programs as she continues to produce cattle that have substantial quality and raise the bar for multiple traits that are big ticket items in phenotypic evaluation.
- 526N ties high from her shoulder, she's big in her upper rib, stout in her skeletal framework, and sets to the surface effortlessly. Y'all better study up and be prepared when you show up to view them in person to evaluate a deep set of SimGenetic stock backed by royal donor dams.

- The main goal of offering open heifers is viewed as for show only. We believe that most of the general public shopping for SimGenetic open cattle have put aside the prospective replacement value so many of the open heifers have that are marketed throughout the country. Cattle like lot 25 are the kind that are most definitely dual purpose and has the credentials to produce one better than she is in production.
- We absolutely love the balance, symmetry, and significant center body that the daughter of STAG Independence 110 has to offer. Her pen presence is that of a proud, high tying brood cow with a great hip and hindleg.

TNGL HOPES DESIGN A589
2015 NWSS Reserve Grand Champion
Purebred Simmental Heifer
Maternal Granddam of Lot 25

- A SimGenetic female with a shot more shape and substance from a proven cow family of the Bloomberg program of Illinois.
- 096N not only combines two sires of different breeds with many National Champions to their direct service, but an Angus cow family tied to several high sellers and champions as well.
- Seldom Rest Pin Up Gal is a key foundation for Michigan's Seldom Rest Angus program. She consistently adds style, balance, symmetry, and quality to every hoof she produces. The donor has contributed to over a million dollars in lifetime earnings, and her daughters, like the paternal dam of this outstanding prospect, continue the legacy of quality and earning potential.

- The first of a pair of SimAngus sisters sired by RP/ BCR Eminence H005 and out of the proven and dependable Wallace Lucy 8132.
- We appreciate the sheer quality, look, and balance that N099 owns. She is a high necked, big backed, big ended, and sets to the surface with confidence and authority.
- The head and neck design would be unmatched and appealing, as her high ear set and chiseled features set her apart from most of the competition.

RP/BCR EMINENCE HO05 Sire of Lots 27 & 28

- Of the pair of sisters, we think N110 has the slight advantage in terms of center body shape and is slightly more flexible in her spine and looser hinged on the go.
- This female comes with the same high ear set and feminine skull design that's consistent with the cow family. She too, is clean chested, tidy about her throatline, and is set high in her neck/shoulder iunction.
- Their dam is a star in the donor pen as you turn the pages in this sale book and find that she impacts most of the Purebred Angus offering as well. Buy with confidence in the maternal and earning potential this pair of sisters have to their own.

- We introduce the Angus division, where we left off in the SimGenetic division with the 2020 Fort Worth Stock Show Senior Calf Champion and proven Angus donor dam, Wallace Lucy 8132. 8132 has been a very important piece of the puzzle here at B C R, and that's not changing anytime soon as her cattle continue
- to rise to the top each calving season.
 This April show prospect is the head turning kind as she ties ideally from her smoothly laid in shoulder and transitions into a big center rib design while
- setting down on a bit more substance of bone than her contemporaries.
 We appreciate her flexibility of skeleton with utmost strength to her spine and a level pin set. If you're slightly undecided on what's to come from this young prospect, then take a look at her big sister that's offered as lot 30 and see what the short-term future has in store.

- The value of the influence of SCC SCH 24 Karat 838 in the show cattle circles is recognized through his ability to sire cattle that are eccentric in their design, specifically bone and how they are made through their head, neck, and said attachments.
- You can find those traits to be true to "sire" influence as one studies this high-end prospect from the productive Wallace Lucy 8132.
- She sets the bar for quality through her front third with an ideal rib cage design, a stout hip, and a great hind leg. This prospect is built for the fast track, do not shy away on investment day.

CLF 24 KARAT 29K Sire of Lots 35 & 36

- A second daughter and full sister from the CLF 24 Karat 29K herd sire from the potent 8132!
- This female does replicate her dam from her center body design and functional hind leg. However, she doesn't shy too far away from her sire's influence as she is very sharp featured and high set in her neck and shoulder design.
- Her sire is a clear outlier in power, size, and shape, defying his pedigree lines. He was the best offered by the Bayer Family that year when Buck Creek acquired him, significantly impacting the program and attracting those seeking Angus cattle with superior phenotype.

- We introduce a pair of sisters by KR Casino 6243 that are maternal sisters to the BNWZ Dignity 8017 son that sires the initial lots of this Angus offering, B C R Dignity 510L.
- The potency of the "Sandy" line is noted and recognized from border to border and coast to coast.
- Lot 38 is a sultry February prospect that is incredibly dense, bold, and three dimensional. She is stout in her bone work, great at the surface, and takes to the pen with ultimate flexibility and presence.

- Each of these sisters are blessed with insane hair quality that is unrivaled within the offering. It's big, it's fresh, instilling buyer confidence that they should be
- able to put it on when needed. We love the May born sister for her build and kind. She is of centerfold status as she is flawless in her angles, stout in her bone, big at the surface, and arrogant
- This genetic blend is certainly no stranger to back drop opportunities, and we expect this female to gather her fair share during her show career.

- The Maine Angus division continues to grow in number and quality, as it should! The genetic blend is industry friendly with only momentum to gain. We love the pattern and build we find in this daughter of the proven BRDG Mahogany Prime 904B! Her gorgeous neck sits right on the very topside of her bold blade. Her transitions from blade to foreib, center body to rear rib are smooth as glass, and her muscle shape is abundant. Her dam won the coveted American Royal and National Western Stock Show,
- and we expect nothing short of that from this Maine Angus prospect!

- PB MAINE-ANJOU
- For those in search of a Purebred Maine Anjou female that can hunt with the best of them, we encourage your undivided attention to the lone high Maine entry in the 2025 Grand Event.
- Her neck is high attached, long, and slender as her head attaches ideally. She comes bold and stout in her upper rib with plenty of back shape, a wide pin set, while being true and genuine from her hock to the ground.

 The success expectations of this elite female are high and achievable with her
- legit build alone. Bid and buy with utmost confidence.

- What a masterful way to lead off a very elite set of bred cattle with a direct daughter of the 2024 Grand Event sale feature, CMFM Time To Shine 99D!
- We are very confident that this elite female will be easy to find upon an in person visit and that her video could get wore out from all the views!
- Her pieces are huge in the grand scheme of breeding seedstock, and it starts at the surface with a big set of feet that are hinged to big legs that are set correctly at all corners. Her base is wide and genuine like her rib design, she's big in her upper rib shape, set wide in her pins, yet maintains the attractive presence of her second dam, Y251.
- Invest confidently as the best is yet to come.

- We stay with the "Time To Shine" theme and introduce a quintet of maternal sisters to the 2025 AJSA National Classic Grand Champion Purebred Female exhibited by Bret Pembroke.
- We think this direct daughter of W/C Style 69E "Family Tradition" will gather up a fan base based on her presence alone. High arching neck, beautiful head and set with a set of running gear that sets her apart from the masses. She is so deep sided and smooth in her overall design.
- We are confident she is the generating, productive kind that will provoke a bidding war online and in the seats on investment day.

AI BRED 4/16/25 TO THSF LOVER BOY B33 (ASA: 2983443) PE 5/13/25-7/15/25 TO B C R EMINENCE 056M (ASA: 4485158) LIKELY SAFE AI - EST. DUE 1/23/26

- A Purebred daughter of the many times percentage champion stud, Reckoning 711F, that has some very close similarities to her lot 102 sister, especially in comparison to the front third of her build and the set and travel of her elite running gear.
- We love the center body design and substance she has to offer the investing program. She is most definitely one that will build a program, and from a fundamental viewpoint, her udder floor is level with very ideal teat spacing. It is the little things that turn into big ticket days after all.

B C R TIME TO SHINE M123 2025 AJSA National Classic Grand Champion Purebred Simmental Heifer Full Sister to Lot 103

- Next Level did just that on 104G! He is proving to be a sire of extended use within the business. Just as with any other sire, once a stockman figures out how and what to utilize him on, the cattle are and will continue to improve with each calving year.
- Lot 104 is longer sided, plenty deep in her rib, level and smooth in her design, and comes with a bit more skeletal substance than most of her contemporaries.
- She's built for success and bred to generate.

- We strongly believe that many will gravitate towards this full sister duo sired by the resident Angus herd sire, CLF 24 Karat 29K. 29K was the selection of B C R from the initial TC and Weis bull sale. He has been sampled in the program extensively with several positive outcomes and they look forward to more on the way in 2026. 29K is a FULL BROTHER to Tucker Bayer's 2025 American Royal ROV Reserve Grand Champion Angus Heifer and 2025 NAILE ROV Reserve Grand Champion Angus Heifer.
- One that is exceptionally sharp and chiseled about her head and neck, long sided, deep, and bold in her body, big pinned, and stout and square from her hock to the ground.
- Don't overlook a great SimAngus breeding piece.

CLF 24 KARAT 29K Sire of Lots 105 & 106

- There would be some amazing, quality pieces that the full sister to Lot 105 can offer!
- She's one that may favor the Angus side of her lineage, as she is slightly more flexible and slightly more feminine and chiseled about her skull feature.
- This creature is way big footed, huge boned, with extra capacity and volume.
- In motion, she is equally attractive, collected, and smooth, with an unforgettable presence.

- This is one of the very best sets of bred cattle offered by the youthful Yale, Oklahoma operation. The group is saturated with quality and genetics that are noticed in genetic ledgers nationwide.
- M086 is a direct daughter of the female maker, OMF Epic E27. He has been
 utilized as a calving ease option for years, but his most notable contribution
 to the business can be found within his daughters in production. Besides their
 moderate, dense, square, consistent build, the udder quality and sheer fertility
 are recognized, and their longevity in production is seemingly unmatched.
- are recognized, and their longevity in production is seemingly unmatched.
 Saturated in maternal prowess, this "Jestress" cow family member sets herself apart as one studies her huge center body, density, bone, and shape from end to end. Her kind screams production and low input efficiency, sure she may not be the most elite about her head and neck, but from her shoulder back is where profit is actually turned!

- On the bottom side of her genetic ledger, S A V Final Answer 0035 and S A V Bismarck 5682 influence the maternal instinct and calf raising ability she should have when she enters production.
- Her body shape, modern design, and moderate size should prove to be a profitable decision with longevity on board!

B C R STICKY SWEET J075 \$20,000 Maternal Sister to Lot 119

- What a great built, awesome patterned, deep ribbed, soft flanked, square pinned, deep quartered, good legged female!
- Reckoning 711F continues to prove his value to the business, as his cattle continue to surface on the tan bark and to draw notice in the pasture as well. His dam, RWA Krisha-ET, is a very wet, heavy milking female with great fertility and maternal instinct that cannot be learned, only inherited.
- CBAR BD Sara 927W, the second maternal dam of M009, was bred by one of the greatest cowboys known to the Simmental breed. Bill Couch bred cattle not only to look good, but to have more rib and shape than what could be found anywhere else. He started with the very best Angus female and developed the C-Bar brand 2.0 after his time with Express Ranches. His foresight was based on his years of experience, so take advantage of the path already charted.

- The "Frog" cow family is from the famed Ratcliff Ranches program of Vinita, Oklahoma. A set of Angus cows that were similar bred to the foundation of Express Ranches with genetic acquisitions from Rolling Rock Angus of Montana. The cattle were so fundamental and industry savvy when it came to production, feed efficiency, and carcass merit. They weren't excessive numbered or indexed, but they thrived in real world settings with real world value and longevity in production.

 We strongly believe that the cattle by RP/B C R Eminence H005 will restore production
- to the fundamentals, as they consistently offer more capacity and volume in a balanced and sensible package like 195L.

- The Angus bred section is nothing to take lightly in this year's Grand Event!
- B C R Rita M036 represents a cow family built within the famed A Cross Ranch breeding program of Western Oklahoma. The program was built on cattle that could essentially thrive in a harsh climate with very limited resources.
- M036 is a clear representation of those dams before her time. Dense, deep, square, genuine, and true with a very productive look of maternal excellence. This kind is the kind to help an outfit maintain profitability in today's high input beef business.

CHESTNUT PERFECT TIMING 341 Sire of Lots 130-133

- For those who desire to produce and market those high-end Angus opens with show ring credentials in build and quality, you should notice the gravitational pull encouraged by the pedigree and build found in B C R Lutton Maid 048M.
- The short tailed breeding piece is big hipped, broad backed, bold ribbed, deep sided, unwavering in her underline transitions, loosely hinged, and comes with a high attached, confident presence through her front third.
- Her look is relative to good stock regardless of your breeding program's discipline!

- Here is a maternal sister to multiple open Angus females that are offered as lots 27 through 36. Wallace Lucy 8132 is a dominant producer of quality and maternal prowess. She consistently shells out heifer calves that command five-digit price points, and lot 134 is another verifying example of what she continues to do in production.
- This direct daughter of KR Casino 6243 is rich in overall quality, exemplifying all the traits a "trademark" Angus female should have for her age!
- M035 is rich in center body shape, feminine, and elegant about her chiseled skull and slender neck. Her transitions are seamless, and she sets to the surface with a collected and true stride off both ends.
- Tons of earning potential and investment merit can be found in this brood cow prospect!

WALLACE LUCY 8132
Dam of Lot 134

B C R LUCY KO39 \$35,000 Maternal Sister to Lots 27-36

- Her genetic ledger is saturated with high end, high generating production females and sires that influenced the final outcomes on the tan bark for
- We are certain that many will find her pen presence beyond captivating as she graces the display run in stunning fashion only similar our nation's First Lady!
- Her very slender and extended neck ties high from her perfect angled shoulder, her center body is massive, her back and hip are both level and strong, and her ability to travel is enhanced by her textbook hind leg and perfect set to her knee.
- This one consistently produces cattle that get those backdrop opportunities often, and more importantly, she should yield the kind that capture the high dollar amounts that keep a program relevant to the business long term.

- The cattle by Conley Express 7211 work in multiple breeding scenarios and can withstand environmental pressures better than most of their "show" bred contemporaries.
- B C R Blackbird 197L is saturated with cow family and champion caliber results as her maternal granddam, Hoffman H/G Blackbird 620, is a past Champion Owned Female for the Udell Family at the NJAS. A full sister to her dam, UDE Blackbird 0153, commanded \$300,000 and was successfully campaigned by Mercedes Feree in the 2021-2022 exhibition year.
- This individual is gifted through her front third, stunning and crisp in her pattern, bold in her center body, uniform in her underline, big and level in her hip, with an incredible set of feet and legs.

Watch the Sale on CCI.live!

The best, the fastest and most comprehensive marketing & bidding tool!

How to Bid Online...

- As a buyer, you do not need an account or to login to watch the sale but you must have a validated account to bid.
- After you are logged in, you must proceed to the sale page for any and every auction and click "Get Buyer Number." Some auctions require a pass-code to obtain a buyer number even after you are approved by CCI.live. Pass codes generally come from the sale manager or ranch for that particular sale.
 - CCI.live will operate with ease on a cellular device, laptop, desktop or tablet.
- A modern or current browser is important and will make your experience better. You do not need to install the app on cellular devices to watch a sale. CCI.live is a browser-based application meaning it will play on most new browsers, but you can also download the CCI.live app at the Apple App Store or through Google Play.
- For successful bidding you must have good Internet service! It is very important to be stationary. If you are driving and bidding, expect to have some service issues. If you are stationary on a good device, with healthy Internet, expect a very successful bidding environment. If you have slow Internet watch the "asking price" on the screen it is real time and refresh your browser if you feel like you have some lag.
 - Support line open during all sales. 405-400-9505 Please contact the ranches for invoices and trucking.
