COMBINED  FORCES
2025

THE CHAMPIONS ABOVE ARE BOTH RESULTS OF PAST BRED HEIFER PURCHASES!

COMBINED FORCES

It is with great pride and sincere appreciation that we welcome you to the Combined Forces Female Sale. We are truly grateful for your time in reviewing the catalog and for your interest in our breeding programs. We also extend a warm invitation for you to join us in Cedar Rapids to view this exceptional offering in person. This event represents the culmination of countless hours of dedication, collaboration, and expertise from some of the most respected cattle operations and cow families across the nation—united to bring you Combined Forces 2025.

The cattle industry today is thriving—stronger and more rewarding than ever before. Regardless of your specific sector within the industry, opportunities for success have never been greater. The lineup of donors, cows, and bred heifers presented in this sale stands among the most elite and forward-driven groups we have ever assembled. These females are not only sired by the most influential and progressive bulls in the business, but they also descend from cow families known for their strength, productivity, and longevity. Each participating operation has meticulously selected their consignments with the next generation in mind, ensuring that every lot represents both immediate and long-term value.

Perhaps the most significant aspect of this offering lies in the thoughtful matings behind each female. These cattle have been purposefully bred so that the calves they carry will generate profit from the very start. Our goal in every mating was to produce cattle that would thrive and be financially rewarding—even if they had remained within our own herds. Now, we are proud to share this next generation of excellence—the very best of what we call “the good stuff”—with you.

Raising champions is not just our mission; it is our daily pursuit. We are confident that each female offered here has the potential to make a meaningful impact in her new operation. Should you ever need guidance in future matings or assistance in marketing offspring from your purchases, we stand ready to support you in achieving success with these cattle.

In closing, we extend heartfelt gratitude to our families, employees, and every individual who contributed their time and effort to prepare, care for, and present this outstanding group of females in Cedar Rapids. A special acknowledgment is due to the Rosa family and the entire SteerBidder team—your partnership and professionalism doesn't go unnoticed.

Once again, it is our distinct honor and privilege to welcome you to the Combined Forces Female Sale.
