

## WELCOME TO THE CLASSIC!

This has been quite the year for the cattle industry! Markets have been great, and most parts of the country have plenty of feed and moisture.

Recently Jeannie and I had the opportunity to judge the Supreme Champions in the open show at the North American. It was truly an honor. The cattle were incredible, and we had a lot of fun! Jeannie brings a calmness to me that's hard to explain. I thought I would be super nervous, but once I got out there with her and got in the zone, all the nerves were gone. It also helps that we have the same philosophy on cattle, so our decisions were almost all the same. I think it's important that our show cattle are relevant to the rest of the industry. I know the cattle we used will go out and not only generate huge profits for their owners, but I feel that their genetics can trickle down through cattle in the commercial industry also.

We have a heck of a set of breds this year. It doesn't matter if you need one or a pot load, you can find them at the Classic. Our show heifers are extra special this year also.

I would like to let our crew know how grateful we are for all the time and extra miles they go to make Griswold Cattle tick. There is no way this could happen without their dedication. We put in long hours, and they show up every day and make things happen.

Jeannie and I are so thankful we get to raise our family in the cattle business. Dad always said that kids need to have lots of chores. I truly believe that kids who are raised in this industry have a huge head start in this game we call "life."

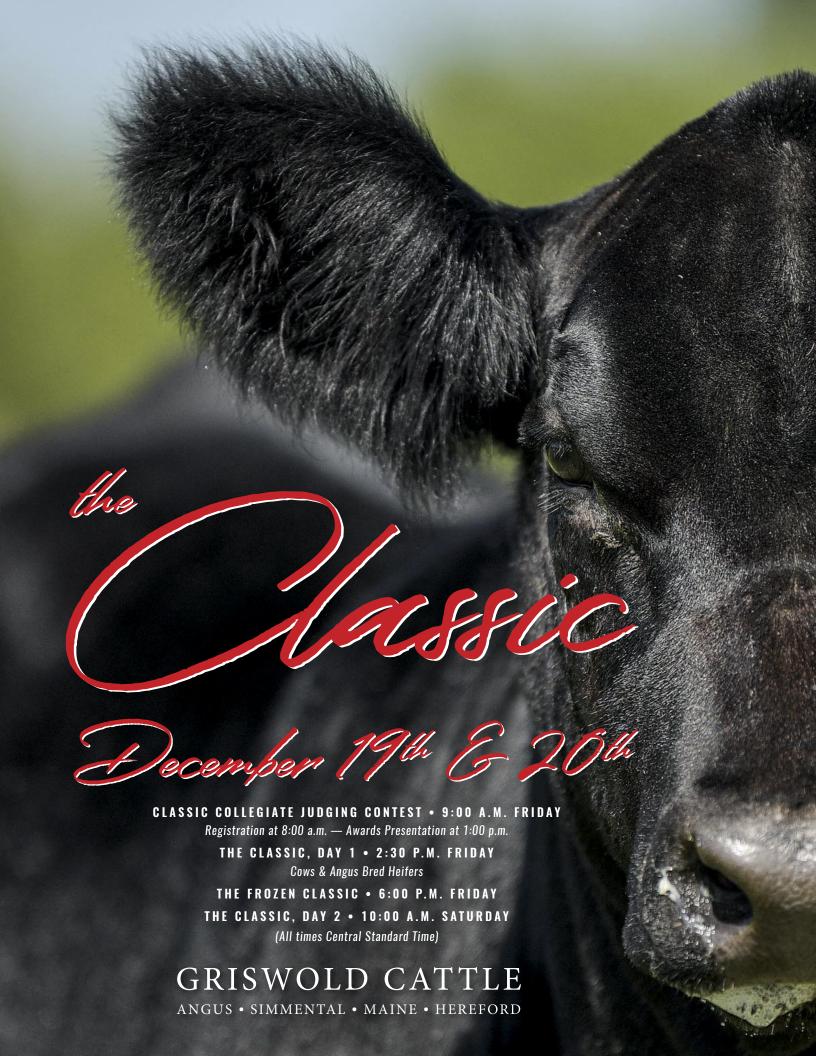

I hope you can actually come to the sale—you can just see them so much better if you are here. Even if you don't come to buy, come and spend a few days with us this December and see a heck of a set of cows.

Thanks for all your interest in the Classic and our program. We will always bring you *the best genetics we can find!* 

We will see you at the Classic!

John

### **IMPORTANT NOTES REGARDING BREEDING INFORMATION & SALE TERMS**

On bred females, the pregnancy status reported in the catalog is the projected months safe in calf as of sale day.

All of the bred females that are noted "LIKELY SAFE AI" are just what that means—likely safe in calf to the Al date.

We spend a lot of time preg checking these. We won't get every one right, but we will dang sure get most of them right.

The females that only have certain months listed on their breeding means they are likely bred to the GCC Angus clean up bulls, unless pasture exposure is noted otherwise. We won't get every one of those right either—some of them will calve to an Al date.

- Unless stated otherwise, Griswold Cattle retains 1/3 embryo interest in all females selling, meaning that if Griswold Cattle so chooses, we would have the right to every third flush on the female at our expense and the owner's convenience. If an animal is later resold, Griswold Cattle still retains the right to flush.
- Griswold Cattle retains cloning rights on all females in the Classic.
- Registered cattle sell under the standard Terms and Conditions of their respective breed registry. Exception: Females are guaranteed to breed or
  produce transferable embryos. If a female is evaluated by a licensed veterinarian and is considered obese, breeding guarantee is null and void.

AI 4/8 GOLD STANDARD / LIKELY SAFE AI / 7.5 MONTHS Griswold Cattle retains 1/2 embryo interest. An incredible way to initiate this year's offering of the 2025 Classic! Selecting the Classic Lot 101 is always a task that takes careful consideration and thought. We always try to designate one that will truly make an impact for years to come and can write her own story in the history books. This Lot 101 does just that!

A true testament to what we strive to produce at the G-, this half-blood Broker daughter is out of 847E, who has been a dominant force this year, with three of the best bred heifers in the sale being out of her. 847E has proven to produce cattle that are extraordinarily good and are packed with phenotypically heritable traits. 847E herself was a past high seller in the Classic for \$70,000 for half interest. Whether it be producing Angus, Simmental, or Maine, she knocks it out of the park, and we predict this daughter to follow in her footsteps.

It's hard not to fall in love with L3103. Since the day she was born we knew was going to be special. She is so massive in her center 1/3 yet balances up incredible from the side and is overwhelming when you step in behind and admire her hip and power. With all this extra punch and power, she is beautiful about her head and neck and can flat cover some ground. The power of her sire, the legendary Triple Crown winning Broker, keeps shining through, generation after generation. If you are looking to invest in a high-end future donor, look no further. *The 2025 Classic Lot 101!*

#### AI 4/20 GOLD STANDARD / LIKELY SAFE AI / 8 MONTHS

The Broker x 5066 mating is one that just works every time, producing full sisters like Bae and Molly that have both gone on to produce multiple high sellers and champions alike throughout the last few years. Another full sister is 99E that sells in the cow division, with a handful of daughters in the bred heifer division. And we certainly cannot forget about the most well-known maternal sister to all of them, the great Miss Boston. Not to mention the one thing they all have in common, their million dollar producing dam, 5066, who has literally shaped Griswold Cattle into the dominant force that it is. This mating is known for producing stout made, pulled apart females that have substance, muscle and foot size without sacrificing look. If you are hunting your next profitable donor, this is your girl!

### Lots 105-107

We have been doing more ET work over the past few years and as a result have a lot more high end replacement heifers out of our top donors—and you get to reap the benefits! These three are direct daughters of 7205E, a former sale feature and Fort Worth Champion for the Lockhart family that goes back to the most productive sister to Cerveza and Whizard, Z450. Two maternal sisters sold through the Classic two years ago as opens and went on to have very successful careers in the show ring, most notably as the Champion and Reserve Percentage Simmental Females at the Tulsa State Fair. Another maternal sister by SAM sold for \$35,000 in last year's Classic as a bred. To further the testament of this incredible cow family, two maternal sisters sell in this year's open division. Talk about power in the blood!

These three sisters are ones that you absolutely fall in love with. I'll let them do the talking!

#### 7 MONTHS

"Flirty" has become a household name at the G- over the last few years after highlighting the 2021 Classic at \$167K to our good friends Duane and Billy Brock in Florida. Flirty completed a successful show career for Maggie as Reserve Pair at the Junior National. Flirty is a full or maternal sister to great AI sires like Bold Move, Genoa, New California and recently the Percentage Show Bull of the Year, Next Generation. She has averaged over \$13,000 on her first four progeny to sell. This cow family is known for greatness, and Flirty has truly outdone herself on her first round of ET calves. These two daughters by Payroll are the real deal. They have "donor cow" written all over them, and I have no doubt they will produce just like their mom. Maternal sisters sell as Lots 228 and 229.

Full sister to Lot 120.

An incredibly soft made, stout featured SAM daughter out of the great Starlight donor that we purchased with our good partner Keith Lambright as a sale highlight out of the historical Bruhn Farms dispersal. Star Light is on her way to being a million-dollar producer in the donor pen. She's the dam of the popular GPG Cornerstone 1K, the \$510,000 high selling bull at Hartman Cattle Company that sold to GKB. She is also a maternal sister to the \$300,000 TL Bottom Line and to the \$250,000 TL Ledger. This one has "cow power" written all over her, and if she follows in her mother's footsteps, she is bound to be profitable.

#### Lots 122 and 123

These two purebred SAM daughters are stout, powerful, big hipped females that do a lot of things right. They are good looking, broody females that combine muscle, base width and pin set into a sound made, functional package. These sisters are backed by a female that needs no introduction. She is known around here as "Canadian Boots," the \$140,000-valued full sister to the great "Boots" who is proving herself to be a powerful and productive force in the donor battery for us and Keith Lambright. These sisters are full sibs in blood to some of the hottest genetics we can offer, like Bold Move and the \$167K "Flirty" donor, as well as maternal sibs in blood to New California, Genoa, Next Generation, Chase This and others. There is no doubt that these two can make a huge impact on any programs.

JSUL Something About Mary 8421 "SAM" Sire of Lots 118–144

#### Lot 124

Red heads that are this good are hard to make! What better way to mate SAM than to a big, stout Broker cow to make one that has all the look you could want in a good, sound, moderate, easy fleshing package. If you want one that is big bodied, sound and good looking, look no further. This one has "front pasture" written all over her!

#### 7 MONTHS

Red head alert! This heifer's dam, WINC 064H, is a full sister to the dam of the \$150K WINC All Right that Maple Lane purchased in the spring of 2023. 064H is an incredible Fort Knox daughter that embodies everything we love at the G-, including body, power and structure with that extra look (she sells as Lot 715). This female does exactly that. She is long and extended up front with an extra soft look and an incredible hip and hind leg. The SAM daughters are easy keeping and make productive, good uddered cows for years to come.

#### AI 4/20 NIGHT OWL/ LIKELY SAFE AI / 8 MONTHS

This one is the kind that deserves a star next to her lot number, and not just for a pretty face. I love her from every aspect—cowy, maternal, and sound structured. The Champion Hill cow family behind her is as good as they come, full of productive, good looking cattle. 213M is stout made, solid footed, big hipped and dang sure good looking. Circle her number and mark her with a star. She's one you need to own.

#### AI 4/9 GOLD STANDARD / 8 MONTHS

A 5/8 Simmental daughter of SAM that doesn't sacrifice the quality we have all come to expect from this great sire. This girl has all the length and extension in the world, coupled with the look and structure to satisfy even the harshest critics. Her Double Good dam is one of the prettiest uddered cows that we own; she is huge hipped and massive bodied. On top of that, 144M's maternal granddam, C209, is a beast of a cow that goes back to the great Hard As Steel. Power in the blood!

#### Full sisters sell as Lots 145-147

These three Trust Fund females out of "Wedding Bells" are lights out good! They are stout built, wide pinned, bold sprung females with big legs and good size feet that can get out and cover some ground. They are the right kind to add power and pedigree while still maintaining an incredible look of style and balance. Their dam has been a top producer for RJ over the last few years, not to mention their granddam on the bottom side is none other than Peine Rosie 677D, who needs absolutely no introduction to Simmental breeders. These cattle are bred to be great and will take your program to the next level!

#### AI 6/9 W/C NIGHT WATCH / LIKELY SAFE AI / 6.5 MONTHS

A stout Trust Fund out of another powerful donor, 138B, who is a little old school bred, going back to the powerful FBFS Wheel Man. Her dam originated from Owens Brothers in Missouri, who are no strangers to the Simmental breed and producing good females.

The Trust Fund cattle are burly, big bodied, good structured and incredible from the side. It's hard to find purebreds that are made like this!

#### Full sisters sell as Lots 152-159

We are giving you eight chances here to buy into one of the greatest matings to hit the Simmental show ring over the past few years! The Relentless x 41D mating has generated close to a million dollars since 2020. Talk about a cash cow! These are full sisters to the American Royal Champion Honey Buns, campaigned by Maggie in 2021. Another full sister is the \$285,000 Honey Butter, who was Supreme Female at the 2022 Cattlemen's Congress for Sara Sullivan. Last year Maggie campaigned another sister, Honey Bee, that was Reserve in Denver and won the Fort Worth Stock Show. We sold two other sisters over the last two years for \$105,000 and \$20,000 to the Duncan family in Texas and to the Osborn and Henricks families in Oklahoma. This mating is on fire, and this is your opportunity to acquire a bred female (or more!) that could change the direction of your program!

This might be the most genetically exciting female in the entire offering! A half-blood Relentless daughter out of an Irish Whiskey x "Kelli"...do we need to say more? There is no denying what Kelli has done for the entire industry; then throw all her daughters into production, and it takes it to a whole new level. You have to appreciate this one for her sheer mass and dimension. Her hip shape, pin width and heaviness of structure are overwhelming when you get on top of her. I really appreciate her rib shape and boldness through the center part of her body and the balance she possesses from the side while still being incredibly pretty and elegant up front. It doesn't matter what your end goal is, this gal will do it!

Here is a full sister to Maggie's show heifer that won Denver in 2023. Her dam, "Mittens," is a top donor for us and the Baty Family and highlights the cow division in this sale. Mittens is

a direct daughter of "Boots," who has proven herself time and again. A full brother, Mastermind, brought \$20,000 in the Grass to Grid. Two maternal sisters by SAM highlighted last year's Classic bred heifer offering, bringing \$70,000 and \$50,000. Here's a pedigree that is bullet proof! Simmental genetics this good are a rare find. They consistently work and consistently produce profitable progeny.

#### AI 4/17 NIGHT OWL / LIKELY SAFE AI / 8 MONTHS

The Classic is about more than just selling cattle it's about selling some of the best donor prospects that we have to offer each year. This heifer is just that! I don't care what breed or color she is, 4105M will flat out produce and make a name for herself. Her dam was a past highlight in the Classic and is now one of the hottest young donors in our lineup. It's no secret that Shocker has been our go-to bull to sire high end bred heifers every year, and 95H is living up to that paired with Reckoning. This thing is an absolute ground sow that is monster ribbed with incredible structure and has power for days. She is going to follow in her mom's footsteps and would look great in your front pasture.

#### Full sisters sell as Lots 165 and 166

The Reckoning cattle have been some of the highest quality and most sought after in the Simmental breed lately. We were late to the party, but we are loving them!

The dam of these two sisters is none other than Jimmy Choo, the Loaded Up x Boots that started Maggie's show career. Maternal sisters to these females by SAM have sold as high as \$20,000 in past Classics. Any cow family that is this good is definitely one to tie into!

Miss Secret Weapon 41D is the cornerstone donor female in the 4/B Cattle Company program. In a few short years, she has proven to be one of if not the most predictable and powerful donor in the Simmental breed today. In recent times, no other donor has generated as many dollars or quality progeny anywhere in the country as 41D. Mating W/C Relentless 32C to 41D has proved profitable time and again. Here's your opportunity to purchase maternal sisters to the great 4/B Miss Honey Buns and 4/B Miss Honey Butter that gained so much attention in the show ring in recent years for the Griswold and Sullivan families. When you study these Ruthless daughters from the side, you can't pick them apart. Stand them side by side, walk them, talk them, and you will fall in love across the board with both of them. These are genetics that never go out of style and that punch the ticket to successful production as cows. There's predictability and proven production in females like these. The dollars they will generate in the future will be absolutely unlimited.

### Loaded Up

Full sisters in blood to Bankroll sell as Lots 199-201

Come back to the auction! An opportunity like this does not come around very often. Not only is there one, but we are offering THREE full sisters in blood to the breed great W/C Bankroll! A couple of years ago, we along with our good friend Keith Lambright had the opportunity to purchase a clone to the immortal 8543U; if you know anything about the Simmental breed, you know just how influential that cow has been. I'm not going to bore you talking about this mating, as the cattle speak for themselves. In her first year of production, 8543G generated over \$100,000 in sales, with a maternal sister to these three selling for \$38,000. There are even a few opportunities to purchase direct daughters of 8543U herself throughout the sale. This will not be the last time you hear about this clone! Bid with confidence on proven pedigrees.

Lots 204 and 205 are a pair of Private Stocks out of a full sister to the legendary 41D. You will surely find these sisters sale day. Their length and extension throughout are incredible. Long necked, long spined and big middled. Love their center body and the turn and depth they have to her rib cage along with the way they carry it back into their flank. Both are very angular females with smooth joints and a brood cow look. Take either one to the donor pen and never look back.

#### **Private Stock**

Full sisters sell as Lots 206-210

Here are five direct daughters of the legendary 4/B Miss Secret Weapon 41D, who has produced close to a million dollars in sales over the past few years. Lots 206-210 are maternal sisters to some of the best heifers to walk into a show ring the last few years. The most dominant sister being 4/B Miss Honey Butter, the \$285,000 Cattlemen's Congress Supreme Champion for Sara Sullivan who is knocking it out of the park in her first year of production, with two heifer calves over \$50K! Not to mention several other daughters that have their own success stories. These heifers by Private Stock are so unique in their build and attractive while still being stout and maternally designed. These are breeding pieces that should be on your short list.

#### **Private Stock**

#### Full sisters sell as Lots 211-214

The Private Stock cattle have created quite the stir over the last couple of years, combining a quality, functional look with a balanced set of EPDs.

The dam of Lots 211–214 is none other than the original Honey Buns that started the trend of the Relentless x 41D mating. Study these purebreds from the ground up. They have the fundamentals to make great cattle.

Who doesn't love a good baldy purebred? And especially one that looks like and is bred like this?! This Next Level daughter is just that—next level. Her dam is an incredible Halftime daughter that is out of the Reba C85 donor at Sullivans that has produced numerous champions. In fact, a full sister to this heifer's dam was Supreme in Kansas City a few years back. If you want them big bodied and good footed with an incredible silhouette, you'll want to have this one marked sale day. She has an awesome maternal sister by SAM selling as Lot 129.

What a beast! Everyone knows that if you mate Broker to just about anything, you will most likely end up with something great! This Bankroll daughter quite possibly could be my favorite bred heifer that RJ sent down. She is so long and level, with big, square feet and flexible joints. Long and geek necked with more volume and rib shape then you could ever imagine. This one has all the right pieces to make that next high selling show heifer or a big time promo bull!

This is the kind of female that makes the Classic buzz with excitement. You just don't find her kind every day, and when you do...well, it's what dreams are made of. K2139 has the extra power, body shape, huge turn to her rib cage and square hip with a super wide pin setting. When you look for donor cows, this is the kind that comes right to the top of the list. She has been a favorite at our house for a long time. Capacious, open ribbed and powerful yet still maintains the poise and pretty.

Lots 228 and 229 are Bank On It flush sisters out of the \$167,000 donor "Flirty," who had a tremendous show career for Maggie and is now knocking it out of the park in the donor pen. Her first progeny have averaged north of \$10,000 on only four head, with a full sister to these selling for \$16,000 in the 2024 Classic. I love the look and balance they have along with a stout set of feet and legs under them while still maintaining good angles and smoothness. They are females with a lot of power and substance and read to have quite a bit of grow and performance. With the legendary Boots in their pedigree, they are destined to be profitable. Maternal sisters sell as Lots 109 and 110.

Come to the sale! You can just see them so much better if you are here!

Lots 242 and 243 are flush mate sisters out of Garrett's past show heifer Sweet Caroline. When visitors come to look at donors, she's at the top of everyone's short list. She is an absolute tank! These Genoas are exactly what we had hoped he would produce, and hopefully he can fulfill Bet On Red's footsteps, making them good looking, smooth made and sound. Garrett is campaigning a full sister to these females right now that was in the Bred-and-Owned Top 10 at the Junior National, Supreme Bred-and-Owned at Tulsa, and most recently reserve division at Kansas City. These females are all there and ready to go to work!

The kids have a small herd of cows that originated from a handful of cows that Jeannie brought with her when she married John. Maggie showed this heifer's mom at her first Junior National as a bred-and-owned, and she ended up being Fourth Overall. This Genoa daughter is one to get excited about from a basic build and cow power perspective. I love the boldness to her rib shape and the way she carries her underline. She has a huge hip with plenty of shape down her top, and you can tell she is making a beautiful udder. Bid with confidence on this one—she is bred to be.

### "Family Tradition"

The "Family Tradition" cattle have been very well received over the past several years, and he really seemed to work on some of our bigger, stouter cows. We should have put a halter on this one when she was little, because she is that good! Her Bandwagon dam sure knows how to crank them—five natural calves have averaged \$10,000 at public auction!

Lots 250 and 251 A pair of "Family Tradition" sisters that are practical in their build, stout made, easy doing kind of cattle. Their dam is a powerhouse Shocker daughter that goes back to one of the best cow making bulls we own, Rito 990. 95H is one of the most predictable and consistent producers that we have and has a lifetime progeny average of over \$10,000. These are profitable genetics that you want to have on your short list.

The dam of these two sisters has started out with a bang, with her first daughter (a full sister to Lots 257 and 258) selling for \$18,000 in last year's Classic. Another daughter sells as Lot 262, and 1317J sells as Lot 716.

WINC All Right 213K Sire of Lots 259-263

This will be some of the first WINC All Right daughters to sell as bred heifers, and it's a deep, consistent set. They are cattle with look and presence, yet they still have enough foot bone and muscle shape to go out and make productive cows.

4/B Dynamo has proven himself over the past year for siring good, functional cattle with look and substance. 109M is a long bodied, up headed, square made female with a big foot and plenty of bone work. Her bottom side is none other than a SAM x 41D, which needs no introduction, as her dam is a maternal sister to the record-selling Honey Butter at \$280K to Sara Sullivan. Two other maternal sisters, Honey Buns and Honey Bee, were successfully campaigned by Maggie two separate years. Honey Buns produced a female that was the high seller in the 2023 Classic for \$115K. There is power and performance in this pedigree—do not let it pass you by!

Granddaughter of "Mittens," who sells as Lot 709.

#### Good Times, Play It Safe & Spot On

A half-blood with the goods! This ultra attractive, feminine made Good Times daughter offers all the pieces to make awesome percentage show heifers. Very good looking, smooth made, awesome lines and structure with a big hip and powerful! Her dam is a full sib in blood to all the Honey sisters that highlight this entire sale.

A little different twist to Play It Safe with this quarter-blood Simmental, but this is a female that we think is extremely useful. Lot 277 is extremely soft middled, maternally built, and as sound as they come. The cow on the bottom side made her powerful, stout and pulled apart. This one will make an incredible brood

Griswold Cattle retains 1/2 embryo interest.

What an incredible way to lead off the Maine division with this beautifully made Maine Angus female that is out of the same exact donor that produced Lot 101! That should speak volumes about what we think of this cow family and the potency that it carries. 847E is a beautiful First Class daughter that is just one of those cows that you can breed to anything, and it will come out good. If you want proof, she has four daughters selling, all by different bulls.

I was always excited to see what this mating to Belmont would produce, and it was a homerun! These Belmont cattle are dang sure good and here to stay at the G-. We all love this female. When John clipped her for pictures, he called and told me he had found the lead off Belmont and that it was crazy to him that this cow would produce daughters to lead off four different Classic sire groups! This is one you will hear about for years to come.

Quite possibly my favorite Maine heifer in the sale! What is not to love about this one? I would take a whole pasture full of females that are built like her. From the ground up, everything just matches. She gives you such a good, balanced, maternal look from the side with a really nice hip and hind leg, and when you get behind her, there is plenty of pin width and dimension. Her dam is one of the best and most consistent Maternal Made cows we own. Check out Lot 352's three full sisters selling in the open division. They are lights out!

Merle and Tucker Morris might have one of the best herds of Maine-Anjou cows in the country. They are functional, productive, profitable cows that can survive in the toughest environments while keeping the look we all like. This beautiful Belmont is everything that I love and more. She is incredible from every angle, long, feminine fronted with a huge sweeping rib cage and a beautiful hip and hind leg. She is square built, wide pinned and massive hipped while still being able to float around the pen. On top of all of that, she is safe to the calving ease king Gold Standard.

A picture is worth a thousand words, and this one speaks for itself! We mated Belmont a little different here and took him back to a dual registered Simmi/ Maine donor that flat gets it done in production! This one's dam is a SAM out of the great 5066 daughter that Maggie showed that was 3rd Overall at the Junior National, Reserve Supreme at Tulsa and Reserve in Denver. A maternal sister to 4454M brought \$27,000 in last year's Classic, and two more highlight this year's open division. The one thing that matters around here is cow families, and this one has what it takes.

The Belmont cattle are as good as we have raised! Her dam, 400H, is bred as good as we can make one, going back to the legendary 1829, the mother to Cerveza and Whizard. This Belmont has the basic build and structure that we all love while still being bold and pulled apart. I love the refinement about her head and neck and how neat her chest is tucked up with a good, sweeping lower body. This High Maine female could produce those high-end show heifers everybody loves!

We always run out of time in the picture pen and space in the catalog. Come early, go through the pens, mark the ones you like, then bid! If you stay alert and watch the sale, you can buy the cattle you love.

Videos will be available to view online at griswoldcattle.com and CCi.live

#### Makin Time × Dixie Erica 461G

#### Full sisters sell as Lots 366-369

These Makin Time flushmate sisters are out of my favorite Maine donor that we own, 461G, who was a past Lot 101 and is now producing the great ones. 461G is none other than a full sister to the \$300,000 Belmont, who has blown us away in his first two calf crops. Their granddam, B571, was one of the greatest cows to ever walk in Stillwater; she was one of Jeannie's go-to cows to post on social media. Now combine all that cow power with the maternal power of Makin Time and the great cows backing him, like 1829, Z450 and 0-04. These females are legit, good looking, deep sided, and sound while still having power and shape. Tie into proven genetics!

I love this beautiful red head! Not very often do you find a red MaineTainer, and especially not one this good! This is the only Promise Keeper bred heifer in the sale, and she is dang sure a good representation. Her dam is a powerful young donor that is just getting started. Successfully campaigned by the Herndon Family, she was Champion MaineTainer in Fort Worth, not to mention that she is bred to the hilt, being a direct daughter of the million-dollar producer Miss Boston. Let these genetics speak for themselves. This one is worth looking up sale day.

K&A Promise Keeper 23K ET Sire of Lot 383; full brother to Lot 384

DONOR ALERT! This is none other than a full sister to the wildly popular Promise Keeper, who has not disappointed in his first two calf crops. Lot 384 has "cow power" written all over her.

Bring on the chrome! Bring on the good! A Game On daughter that brings it all with a different twist to the bottom side of her pedigree. Bandwagon daughters are few and far between these days, but this is proof they are still productive and can get the job done. This one is my kind all day long, good looking up front, huge center bodied with awesome balance, incredible angles and structure and still massive in her hip shape. This girl is an absolute tank!

We sold Maternal Made's mom a few years back to the Clark Family in Texas, and this Classic will probably be the last daughters we sell out of her. This was a new mating to Game On, and 4417M was the only result. NMR 0-04X proves time and again to make the high sellers and top of the pen cattle. Maternal Made has gone down as one of the all-time sires of maternaloriented genetics. Set down your satchel, buckle up, and get ready to own a maternal sister to the all-powerful Maternal Made and New Beginning. No regrets!

Having the crew's stamp of approval is a big deal. They are with these cattle day in and day out, and they have favorites for good reasons. They love the kind that catches their eye every time they walk in the pen, and that's just the kind of girl 839M is. Game On is proving to sire phenomenal cows, and combining that with a Daddys Money x Whiskey cow on the bottom side, you cannot get a better mating.

#### Griswold Cattle retains 1/2 embryo interest.

Bring on the maternal power of the Maine Angus! The Maine Angus breed has exploded over the past few years, combining maternal and power into a smooth made, functional package. This one does all that and more! She is sired by the great Ole Money, who consistently adds power, mass and bone with a good look. His first bred heifers to sell last year in the Classic averaged \$26,300, including females selling for \$100,000 and \$75,000. Now take that and cross it on a powerful First Classic Angus cow that has a tremendous amount of body, hip shape and structural integrity. Her dam, 847E, is as consistent as they come, she is the dam of Lot 101 as well as the lead off Maine, Lot 351. There is no doubt this one is as good as we have!

#### AI 4/10 DADDYS MONEY / LIKELY SAFE AI / 8.5 MONTHS

Here is one of my favorite heifers in the entire offering. These Ole Money calves are the real deal—line up and take note! This older fall-born female is incredibly well built, and she has all the pieces to be a big time producer for her new owners. Study her from the ground up-big feet and legs, ultra good structured, and as good looking as you can make one. I love the lower sweep she has to her underline and the balance she has from the side while still being so incredibly powerful when you get behind her. This female is destined for the front pasture!

DCC HARD DRIVE 138R JSC KATIE 5S GVC SUH 01W **BOF KELSEY** BPF MERCEDES BENZ 131U NMR 0-04X IRISH WHISKEY MISS CHILL 1829

#### AI 4/22 DADDYS MONEY / 7 MONTHS

Out of an incredible Maternal Made cow that goes back to the legendary Z450 and Miss Chill 1829 on the bottom side. 474F is just getting started in the donor pen, and this is her first bred heifer offering. She produced Lots 2 through 5 in the Classic two years ago that averaged \$10,000. She is John's favorite Maine donor on the place! If you follow us on social media, 474F recently created quite the stir with her new donor picture. A maternal sister sells as Lot 360.

#### Garth & Garth J438

These are the kind of females we strive to produce year after year. Big barreled, massive hipped and pretty to look at! It does not matter how we have crossed 6717D, she makes a great one every single year. Study the hip, the power, the poise, and now combine that with the consistency and maternal of her bottom side. This is a girl you ought to love, because she will be the money making kind. Bring on the Power of Garth!

This is the type and kind we have all come to love and expect from Garth, and his sons we run in Poteau are just as good. They are as consistent as they come, no matter how far down the line you get from Garth himself. Mate his influence back on a solid Angus cow base, and you are destined to get one you can build a program around. L534 is stout and cowy in her build and has the big feet and legs that we love. Breed this one any way you want.

WOW! This is the kind of female that we all strive to produce. Regardless if you want to show cattle or raise good cattle, there is no denying the quality and pieces that this one possesses. From the ground up, she is flat good cattle...big feet and trees for legs but still smooth jointed, good in her angles and so soft at the ground. Her power and mass when you get behind her are overwhelming. It is no secret the impact that "Lady Killer" has had on RJ's program the last few years, with numerous full and maternal sisters and even brothers selling in the six-figure range and winning on every platform. This Mafia will have an impact for years to come raising breeding cattle or steers. She can do it all!

Kachow! Irish Whiskey is without a doubt one of the greatest bulls to ever be in our industry. His influence is seen throughout our herd and throughout our sale offerings. It's hard to put into words what this bull has accomplished. This mating had me excited from the beginning; unfortunately, L3404 is the only one we got from this IVF cycle. She is dang sure special with a different twist on the bottom side. One of the absolute best First Class Angus donors that we own, 847E is the dam to Lot 101, the lead off Maine, Lot 400 and this Whiskey creature—that isn't luck. Study this one!

Bring on the Whiskey! From her head back, 46M takes on all the power of Whiskey. There is a reason that old bull is famous! Big, solid foot, plenty of bone, and a design that no bull since has been able to replicate with so much consistency. They have that look that makes them stand apart, the power that is hard to find and the poise that keeps drawing your eye back in. Her dam is an impressive Lazy JB Sundance daughter from the famed Caffee Ranch. You know this one has true cow power!

Take ya a shot! What a combination of power and maternal all wrapped up in one package! Combining the power, substance and bone of the immortal Irish Whiskey with the maternal build and doability of a whale of a Black Watch cow produced phenomenal results. Check out the bone and foot size, the hip and sheer muscle shape this one has. There is no denying the type of cattle she will produce. To top it off, she is safe to the ultimate calving ease Maine sire Daddys Money. Imagine the quick turnaround she could make within the next 12 months.

Play It Safe has become a household name around here the last few years, and for good reason: they come small and make incredibly good, functional females. That is exactly what happened with this Play It Safe out of one of the best young Maine cows we have. Built a lot like her dam, 447M is incredibly deep and soft middled with awesome structure and plenty of power while maintaining a feminine and attractive front end. With Boston and Data Bank on the bottom side, you cannot go wrong. Mate her back Maine and just wait for the cash to start rolling in.

Whizard cows have proven themselves to be lights out producers over the last several years, cranking out calves that have performance, structure and an overwhelming amount of body. Take that and cross it with the power and bone of Full Tilt, and you get 462M. She has big legs and a big hip with power and body galore. Look at her feet and legs and the square hip. You won't find one any squarer made than this one.

The influence of 5066 can be seen throughout the entire sale, and Masterpiece does an incredible job of carrying on her legacy. He makes cattle that are sound, functional and good looking. This one's dam is a 3C Macho granddaughter, offering a little different twist.

GCC Masterpiece 421G ET Sire of Lots 462-471

#### Masterpiece

This Masterpiece daughter is out of a beautiful Insight x Broker cow from Brett Richards. You need to study her angles, her design, and then take her home. She is made good with a big foot, a long neck, big hair, the power to go with it, and she's pretty to top it all off.

I love the boldness and the turn to this one's center body coupled with her extra pin width and shape up high. This Masterpiece has the look of a productive cow from Gold Standard on the bottom side with a shot of look from Daddys Money way back in there.

This one is as special as they come! I am not sure that there is a hotter pedigree in the steer making world right now than the In God x "Lil Red" mating. This mating has dominated the show circuit the last few years, and they have topped every sale they have been in, not to mention the impressive array of full brother promo bulls that have appeared this past year. We could fill multiple pages with pictures of her prize winning progeny. It does not matter how you mate Lil Red, she hits a homerun every time. This is your chance to own a direct daughter that has all the right pieces to make an impactful donor for years to come. Safe to Horn's low birth weight THF 1/2 Red Angus bull Red Eye. What an absolute beast! The day they got off the pot from South Dakota, we were blown away with all of them, but this one stood out like a rare jewel. John immediately called RJ and said, "I don't know what this one is, but she is my kind!" There is no doubt you will find this one-dark red, wild necked, big pipes, tons of muscle and hip shape plus incredible running gear. Her sire, Blood Diamond, is owned by Dean Kephart and has done an incredible job siring cattle that look just like this one. Her dam is an incredibly stout built, bold sprung In God x Whiskey cow that has been killing it in production, with calves selling as high as \$35,000. This is the kind of female that will make you famous!

If you like them yellow and good, this is your girl! This Dakota Gold daughter is long necked, big footed and big hipped with all that lower 1/3 you could want. There is true power and muscle in her design. She has the maternal side to carry through while still being just geeked out enough to make the great ones.

John bought a really good Charolais cross bull from Kris Black a few years back, and he has been used exclusively at the Poteau ranch to clean up cows spring and fall. They have exceeded all our expectations. This one is the real deal... bold in her center body with a big, square hip and all the look in the world.

It is no secret that Bradley Hale consistently dominates the Hereford steer market in Texas, and we are pumped that he is sharing his genetics in the Classic again this year. This one is so stout from the ground up, big feet, huge legs and a big, square hip with all the shape and power you could ask for. She is good looking with a neck a mile long and incredible structure. This was Bradley's favorite heifer when he dropped them off, and she has done nothing but get better. The Made Right cattle have dominated for years and set the tone for Hereford-marked cattle in Texas. This is one of the best Bradley has sent to Stillwater. Horned. THC / PHAC / DSF

#### 7 MONTHS

Another awesome built, powerfully made Hereford steer maker from the Hale Ranch. Appreciate this one for her look and stoutness of feature, her incredible body shape and rib design, and her near perfect feet and legs. She has an awesome, soft hair coat and the look to stamp them out. She balances up incredibly good from the side, and she is wide and square hipped with plenty of power. She is sired by the new Relentless that sired the Champion Polled Hereford Steer at Fort Worth in his first calf crop. Not to mention she herself is a full sister to the Reserve Polled Steer at Fort Worth in 2025. This one is bred to be! *Polled. THF / PHAF / DSF*

One of the very best Angus females we have ever raised! Since the day she was born, L609 has been special, with no doubt in my mind that she should have had a halter on her at some point in her life. This daughter of Good Times offers all the look and pizazz you could ask for with an impeccable hip and hind leg that can get out and cover some ground. Her dam is the ideal Angus female...easy fleshing, beautiful udder, and plenty of substance. L609 is a brood cow in the making. She is huge bodied, round middled and functional the whole way through. The icing on the cake is that she is safe to the calving ease KING Gold Standard! Take her home, IVF her, and enjoy the ride!

STAG Good Times 201 ET Sire of Lots 551–558

#### **Good Times**

#### Lot 557

A beautifully made non-registered Angus female sired by the dominant show ring sire Good Times. Lot 557 has "cow power" written all over her. She is dense made and heavy structured with plenty of hip and pin width. Her dam is a beautiful granddaughter of Soo Line Motive and has one of the prettiest udders you will find.

#### Lot 552

There is no question that the Good Times cattle have been extremely impressive females over the past few years. 900M is out of one of the most impressive Angus females we have ever owned. Even at 10 years of age, 660B was as pretty as can be. She produced well over \$300,000 in progeny sales just in the last five years of her life. This mating combines show ring look with an incredible maternal look of power, body and substance. Look in here!

#### Flushmate sisters sell as Lots 559-567

Wow! What an incredible group of Angus bred heifers Brent and Colton sent to us from 4/B Land and Cattle! Over the past few years, we have been fortunate to market and be a part of some incredible cattle they have produced. This set of bred females is exactly the kind of cattle they like to raise—cattle with look, presence and structural soundness while still maintaining power and body.

These 24 Karat daughters are out of a direct daughter of the great Lazy H Bar 5001 donor that is synonymous with quality within the Angus breed. We have marketed numerous full sisters to these bred heifers over the years as opens and as bred females. A full sister to this mating was campaigned by the Lemenager family and was Supreme at the 2022 Illinois State Fair. Another full sister, sold by Hartman Cattle Company, brought \$36,000 in last year's Customer Appreciation Sale to the Kolterman Family, who showed her to Fifth Overall at the All-American Breeders' Futurity this past summer. To add to the list of high selling sisters, another full sister brought \$35,000 in the 2021 Classic to the Wendt Family in Ohio. We sold the first set of bred females from this mating in the 2023 Classic, and they were very well received, with the high seller garnering a hammer price of \$30,000. In 2020, we sold a maternal sister by Insight for \$50,000 that was campaigned by Maggie and is just getting started in production. No matter which of these you select, I guarantee she will be profitable! Full sisters to Lots 559–567 sell in the open heifers as Lots 39 and 40. Maternal sisters sell as Lots 577 and 578.

Full sister to Lots 559-567

RJ sent down an incredibly stout set of Angus females that without question can be utilized in a multitude of ways. The flush sisters selling as Lots 568-571 are maternal sisters to the dominant half-blood Simmental female by Bankroll that Sara Sullivan campaigned in 2019 that won every show she attended, finishing as Supreme Female in Louisville that year. The difference is that these four sisters are all sired by the breed-leading Angus sire KR Casino, who has single-handedly changed Angus show cattle to give them more punch, more bone and more foot size while still maintaining look and presence. This is a set you can build a herd around.

PVF Marvel is an Angus bull that we have admired for a long time; he does a great job for our friends at PVF, siring cattle with look, substance and some foot size that still have longevity. 908M goes back to the great Debbie 0166 on the bottom side, a past high seller in the Classic and show heifer for Maggie that traces back to the famous Forever Lady 5001. A full sister to this female brought \$10,000 in last year's sale, and a maternal sister sells as Lot 41 in the open heifer division. This cow family is potent!

The most anticipated cow we have in our arsenal is the great 84H, a direct daughter of the legendary Erica 74A, who has written her own story within production Angus. There is no doubt what she has done for the Angus breed, producing multiple high end donors and AI sires alike that have left their mark on numerous herds.

84H is the next big thing at the G-. In her first year here, she has produced over \$100,000 in sales, not to mention we had 35 ET calves born out of her last fall. We believe in her and what she can do for the future of our program. I have the same confidence in each of these daughters, no matter which ones you pick. They all have look, body, power and structure and the ability to take any program to the next level. Check out 84H as the lead off cow in this year's Classic, Lot 701.

#### Coleman Donna 9309

#### Full or maternal sisters sell as Lots 590-597

Donna 9309 is one of those females that comes around once in a lifetime. We were extremely fortunate and maybe even lucky to acquire such an incredible young female in the prime of her life. She has proven herself as a dominant producer of predictable, profitable, functional cattle for us and our partners at 3R Livestock in Australia and Sadler Ranches. In her short time here, she has produced over \$200,000 in progeny sales just for us at the G-. Her sons in our spring Grass to Grid Bull Sale averaged over \$15,000, and those were all flushmate brothers to these females selling. To take it even further, 9309 is also the mother to all three bulls that were in our division Champion Pen in Denver last year. I have no doubt that 9309 will become one of the most impressive females in the breed, and this is the first opportunity for us to offer her daughters. Pick the mating you like the most, you cannot go wrong!

Full or maternal sisters sell as Lots 598-608

This royally bred set of sisters comes from the famed Chloe cow family that continues to dominate the Angus breed, producing maternal giants! The dam of Lots 598-609, Coleman Chloe 9146, is a direct daughter of the legendary Lawson Chloe C815 and by the Angus Pathfinder Sire Coleman Bravo, making her a full sister to what some consider the best female to ever walk at Coleman Angus, the \$375,000 Coleman Chloe 9275. We have several daughters of 9146 in production; they all stay in good rig and have plenty of power and body along with good feet and legs while still maintaining a maternal look with udder quality. No matter the mating, this is good quality stock.

AI 4/11 GOLD STANDARD / 7 MONTHS

We definitely stepped up our game this year when it comes to these Angus bred heifers. Not only do they look the part, but they are bred as good as you will find. Lots 598 and 599 are Argentine daughters out of the great Chloe 9146, who is a daughter of Chloe C815, who has contributed so much to so many different firms.

I love 4009's maternal look and build plus her easy fleshing ability and structural soundness. These are the types of cows that you build a program around.

You do not see many bred heifers sired by Bismarck for sale these days, but there is no denying that his daughters are some of the best cows in the breed. The dam of Lots 610–613, Coleman Donna 7301, is a powerful Renown daughter that simply does not miss, no matter how she is mated. These heifers have incredible shape and dimension, an incredible hip and hind leg, and an undeniable look of balance and presence from the side. These are some of the very best we have to offer!

Dam sells as Lot 705. Maternal sisters to Lots 610 and 611 sell as Lots 612 and 613.

### IMPORTANT NOTES REGARDING BREEDING INFORMATION & SALE TERMS

On bred females, the pregnancy status reported in the catalog is the projected months safe in calf as of sale day. All of the bred females that are noted "LIKELY SAFE AI" are just what that means—likely safe in calf to the Al date. We spend a lot of time preg checking these. We won't get every one right, but we will dang sure get most of them right. The females that only have certain months listed on their breeding means they are likely bred to the GCC Angus clean up bulls, unless pasture exposure is noted otherwise. We won't get every one of those right either —some of them will calve to an Al date.

- Unless stated otherwise, Griswold Cattle retains 1/3 embryo interest in all females selling, meaning that if Griswold Cattle so chooses, we would have the right to every third flush on the female at our expense and the owner's convenience. If an animal is later resold, Griswold Cattle still retains the right to flush.
- Griswold Cattle retains cloning rights on all females in the Classic.
- Registered cattle sell under the standard Terms and Conditions of their respective breed registry. Exception: Females are guaranteed to breed or produce transferable embryos. If a female is evaluated by a licensed veterinarian and is considered obese, breeding guarantee is null and void.

A direct daughter of the immortal Donna 504, a past Coleman high seller at \$120,000 whose testament to her profitability is her incredible progeny sales record of over \$600,000 and climbing! Combining 504 with the undeniable producer of maternal genetics Coleman Charlo, this one is destined to do great things. Moderate built, easy fleshing and wide pinned with awesome angles and structure, 4174 one would be a great donor addition to any herd.

Another daughter out of Coleman Donna 504, 3545 is sired by Duff 4Real. This impressive female is sure to add muscle, length of body, style and massive rib shape. These Donna 504 daughters are super feminine with a ton of capacity. There is no doubt they will turn into the best cows you will ever own!

Ground sow! Lot 622 is built like a modern day brood cow-big, robust middled, moderate in her kind and easy fleshing. I love her hip, power and density, and the best part is that she will make some awesome calving ease progeny. She is +18 for CED and -4.2 on BW, ranking her in the Top 1% of her Angus breed contemporaries for CED, BW and \$M. Her impressive Charlo dam has been a dominant producer for Sadler and us and sells as Lot 707.

Show cow look with an outcross pedigree! This Argentine daughter could have easily had a show halter. She is so elegantly built, long necked and up headed, combined with really good feet and legs and impeccable balance. Her dam is one of the prettiest cows we got from the Sadler herd. With Angus show genetics being so tight knit, here is a good alternative to branch out.

The sire of Lot 635, South America, is the full brother to Argentine that Colemans purchased and have had so much success with the past few years, siring multiple offspring who have topped their sales. This female is straight Argentina bred. Her dam is a result of Hummel importing embryos and the due diligence they did to introduce new genetics to the states. I love this female from every angle. If you do not have this one on your short list, we do not like the same kind of cattle.

**611M** 

Play It Safe has been our go-to calving ease Angus sire the past few years. Not only do they come small, but they have vigor, grow and wean off incredible. I love this one no matter how she is bred. So good looking and smooth jointed, robust bodied, and a tremendous amount of power. She gets her style and look from her incredible young dam, an Express daughter out of the great Rosetta 613C, who has produced over \$250,000 in progeny sales.

### 7.5 MONTHS

A maternal powerhouse! This moderate beauty combines the two best calving ease bulls we have to offer, Play It Safe and Gold Standard. I love the way 627M is built, being cowy, soggy and moderate with a giant, robust rib cage and plenty of hip and power. With all that maternal power, you get a shot of Style on the bottom side to add a little extra look and presence.

Maternally bred with some old school genetics! There is no doubt that crossing Coleman 990 on a Total Recall daughter will produce a brood cow that will thrive in any scenario. This is the easy fleshing, stout made type of Angus cow that John used to build the entire G- cow base.

When we purchased Bellringer, this is the exact kind of cattle that we were hoping he would produce. It is no secret that we do not chase the number game, but when the cattle look good and match the numbers, that is our speed, and that is exactly what Bellringer does. This incredibly well balanced, bold sprung female is a daughter of 660B, who has multiple daughters by different sires in this offering, and that is a testament to just how good that cow was. This female is no exception and might just be one of the best that she has produced.
