Welcome to the Cattlemen's Congress!

The Maine-Anjou breed is **on fire!** Make your investment and reap the dividends!! Our breeders have produced another great sale offering packed with outstanding Maine-Anjou genetics. The American Maine-Anjou Association (AMAA) and our membership appreciate your interest in the 2026 Bright Lights Maine-Anjou Sale, and we are thrilled that you made your way to Oklahoma City and the Cattlemen's Congress! Once again, the consignors have worked hard to bring you an elite group of bulls and select females. Our cattle are right for the times and have stacked up more supreme banners throughout 2025 than any other breed going. With the current cattle markets and the need for efficiency and maximizing profit, we have seen a rapidly growing interest for Maine-Anjou. This demand has been evident by the strength of sales in recent months. The cattle industry is constantly attempting to maximize efficiency in the production of a pound of beef, and **The Power Cross** can deliver! Maine-Anjou cattle are docile, calving friendly, black hided, modern, and designed without sacrifice. Our cattle can improve your bottom line by injecting feed efficiency, carcass yields, quality, and eye appeal.

The cattle selling are backed by EPDs produced from our genetic evaluation performed by Angus Genetics, Inc. (AGI). Also remember the AMAA Herdbook begins recognizing recordable cattle as 1/4 Maine, so the majority of these sale lots will generate registerable cattle on a variety of matings. Please let myself or any of the staff know if we can assist you. The AMAA is here to serve you and provide support for your operation, we are here to help!

*****Note that we have consignors from throughout the country who can assist with the trucking of your purchases to all regions of the U.S.*****

MAINE-ANJOU – POWER WITHOUT SACRIFICE!

Best Regards,

M. Blake Nelson

AMAA Executive Vice-President

Bulls

Spring Yearlings to Two-Year-Olds

Bred & Open Heifers

Show Heifer & Donor Prospects

Welcome to this year's installment of the **Bright Lights Maine-Anjou Sale**, held at the annual Cattlemen's Congress. We are, without question, seeing unprecedented times for cattle prices and demand for—more specifically—Maine-Anjou cattle. This fall, across the country Maine-influenced cattle found popularity and brought sale-topping values. During this time, it seems we witnessed a strong uptake in Maine Angus cattle, with High Maines also demanding attention and creating a buzz.

The bulls and females presented within the pages before you are a clear representation of the progress and commitment our breeders have to not only creating quality but to also moving the needle forward, with new pedigrees and more options available to buyers. This line-up doesn't just have quality, but moreover it showcases the strength and footing within the industry that Maine-Anjou breeders continue to create.

Every year the opportunity to capture a herd sire with the power to affect change is present. Elite AI sires reside within these pages—bulls that will make a difference in the coming generations. The cattle selling in Oklahoma City are backed by breeders and an Association staff that want to see them work and make your operation profitable.

It is with great excitement that Blake and I would like to invite you to this year's sale. Cattle will be on display the week prior on the grounds. Please feel free to contact Blake or myself with any questions. We look forward to seeing you in OKC!

Joshua T. Cribbs

AMAA Director of Breed Advancement and Promotion

• CAL PRYOR, WOODBINE, IA

• This herd bull prospect sired by BNWZ Data Bank is super complete in his proportions while still maintaining an elite look up front. He is bold ribbed and square built. As sleek and sharp made as he is, don't hesitate using him on heifers. His mother is just getting started. Don't miss out on a bull that reads to pass on a great look and elite pedigree. His mother was Reserve Maine Angus Heifer in Kansas City in 2023.

• WILSON CATTLE CO. & TRAE SIMMONS, CARTHAGE, IN

• Very unique individual. This dark cherry red purebred bull sired by JBOY One For All stems back to the great Simmons CiCi donor, who's knocking on \$1,000,000 in lifetime sales. We think this purebred bull's structure and presence will make him not only a cow changer but a breed changer. Purebred bull buyers, look in close here.

• Here is a good looking bull out of a "322" daughter that we are planning to lean on in the coming years. This Made Man son is a maternal sib to Unassisted, the bull Moore Cattle Company selected from us last winter. His siblings have sold for \$35,000 for half, \$38,000, and \$20,000 so far, with multiple other progeny commanding high values. Here is a promotable sire that has all the extras with the right fundamentals.

• Royally bred with the look and build to back it up! Gambler is a son of the popular champion Keno and stems back to a full sister to the infamous All Me, who also happens to be the dam of No Hard Feelings. If you're in search of a herd sire with added bone, power, and a phenomenal look from the side plus a functional rib cage and outline, look no further. Gambler grabs the ground with a huge, pliable set of running gear, remains loose and comfortable on the move, and sports that long neck that shoots directly out the top of his blade that everybody searches for.

• Fame and Maternal Made—what a match! This bull puts all of those sires' best parts together. Stout made, square hipped, big ribbed, deep bodied, clean fronted and sound, he has been one of our favorites since day one with that cocky look you want in a bull. His granddam comes from the popular I-80 and Ground Zero, so the genetics are there to produce some tremendous calves—heifers and bulls alike. We think this guy will follow in his sire's footsteps and have a great impact on the Maine-Anjou breed.

- If you're gonna be part of the Mafia, you gotta have No Fear. So here he is—the full brother to BBR Memphis Mafia and BBR Mafia M.A.X.! It is hard to make cattle with feet and bones this large, a back this big and square, and a neck this long. To top it off, he has the coal black shag and some extra length of body. Not sure if bringing an I-80 son to town in 2026 was ever on the bingo card, but dare I say his build and pedigree may be the “outcross” high Maine to work on all those All Me derivatives? Have No Fear.
- Selling full possession and 2/3 interest. Seller retains 1/3 semen interest.

• **BLIND BADGER RANCH, FORT MORGAN, CO**

• A truly elite herd sire sells here in BBR No Doubt. We hear judges talking more and more about how "dense" one is, and this is what they are talking about. This bull is dense built from end to end while still having a neat look and being athletic and proud on the go. He is backed by our up-and-coming outcross donor CPC OHL Jordan, who is a Patriot x Open Bar that we have big plans for. This Made Man son has so many similarities to his daddy, who has created quite a stir since selling in this same sale. Don't let this opportunity pass you by—get in on BBR No Doubt.

• **Selling full possession and 2/3 interest. Seller retains 1/3 semen interest.**

• **BREMER SHOW CATTLE, BLAKESBURG, IA**

• Primetime and "322" combined to make 111J, a female that was built for Made Man! The result is a burly son that descends from 322, who has proven to anchor our program here in Blakesburg in a big way. 111J's mother has full sisters that have been selected Champion at Louisville and Reserve at Kansas City and the Junior National, not to mention they have sold for \$100,000. I love this bull's build, the muscle shape he possesses, and his perfect rib cage. He's poised to make his mark wherever he lands.

• **BREMER SHOW CATTLE, BLAKESBURG, IA**

- A true sale feature, especially being one of the first sons of Made Man to be offered this spring! He's out of the popular and dominant young donor Mazy 275, which should further position him to generate. Mazy's first calf crop resulted in multiple progeny capturing \$20,000+, and we feel her best three are just now being marketed from the 2025 crop. Lincoln Lawyer's full brother was the Reserve National Champion Maine-Anjou Bull at the 2025 American Royal, and a sister anchors our daughters' show string for the coming year. Here's your chance to grab hold of a rugged, soft sided herd bull whose feet and legs along with his muscle and power should prove to create high selling, highly sought after progeny.

- Selling full possession and 1/2 interest. Seller retains 1/2 semen interest.**

• **BUCK CATTLE CO., MADILL, OK**

- BK Notorious is an elite herd bull in the making. With added look, power, and dimension, he is built with the tools to make a major impact on any breeding program. His pedigree is stacked with proven greatness, sired by the legendary BOE Epic and out of MTF Alvaro 3022, making him a full sibling to the great MTF Goosebumps 901G, a dominant show female for Devin Morton who captured Grand Champion Female honors at Kansas City, Louisville, and Cattlemen's Congress. Her legacy has only grown in production as the dam of BKMT Lucky Stars 318L, Supreme Champion Female at the American Royal and Louisville and Champion Maine in Denver for Sloane Curtin. Here is an elite herd sire prospect backed by a proven, championship pedigree from every angle.

• JUSTIN HERLAN, BLUEJACKET, OK

- The lone fullblood offering in the 2026 Bright Lights Sale, Just Lucky is the result of an embryo purchase from the Ebersole family. From the beginning, this bull has possessed the pieces to be something special. As he has matured, his features have become more distinctive, marked by his full physique, flexibility, and sound joints and his prominent hip and rib shape. As he develops, this early April bull continues to surprise, becoming more and more attractive.
- **Selling 1/2 possession and 1/2 semen interest. Seller retains full possession throughout his show career.**

• PAR FIVE CATTLE CO., LAKE CITY, SD

- We like to save a power-packed two-year-old to bring to OKC. Make sure to look for this K&A Promise Keeper son. He is backed by some of the best cow power genetics we have. If you have followed our program, the PRV Double Down and BPF Middle Man daughters have been our best producers. This bull has both on the cow side of his pedigree. Take the time to study the pedigree here, and then come look at Mercury Man when you get to OKC. If you're looking for a bull to cover cows and make a difference in your program, look up Mercury Man.

- This pedigree offers calving ease on both sides. Tannerite is the ideal selection to harness genetic potential. His dam's pedigree is highly regarded, tracing back to GVC Shania 80Z and Memphis Mafia. As a son of Lover Boy, a distinguished Simmental bull recognized for his calving ease and successful progeny in replacement pens and show rings, WLF Tannerite embodies the perfect blend of traits. His excellent demeanor, agility, and well balanced conformation make him a valuable asset. This deliberate combination ensures he will unlock genetic potential in your program.

- OSBORN CATTLE ENTERPRISES, EDMOND, OK

Here's a unique opportunity to own a son of the great MTF Goose Bumps 901G, one of the most decorated Maine-Anjou show heifers in the last decade, claiming champion titles at the Junior National, American Royal, and Cattlemen's Congress. She is now working her way up as one of the premier donors in the breed. One of her first daughters, BKMT Lucky Stars 318L, was Supreme Overall Heifer in 2024 at both the American Royal Open Show and the NAILE Junior Show. She also produced BKMT Maine Street 901M, who topped the Maine Exchange at \$67,500 to Griswold Cattle. SHLI Forbes Chills M4232 fits the same high quality phenotype as his siblings.

- No Contest is out of Abby's donor "Helen," BOE Fitzy ET. Abby successfully campaigned Helen in 2020 as she quickly became one of the most decorated females in the Maine-Anjou breed. Helen has, without a doubt, proved herself in the donor pen. No Contest is a maternal sib to greatness, including TLAC Hits Different 1409L and TLAC Safety First 1913J, and a full sib to multiple bred-and-owned heifers that were successfully campaigned by Abby in 2023 and 2024. The incredible build and skeleton of this bull certainly will rival the popular Maine-Anjou sires in the breed today.
- Selling 1/2 semen interest. Possession negotiable.

• Standout since day one! I'll be honest, I was hoping for a female when we put this mating in, but today I'm not complaining. This bull has never had a bad day. Extremely good on his feet and legs, great bodied, plenty of power, and awesome looking. Beth Dutton, his dam, is one of the top donors for Schaeffer Show Cattle in Indiana. She is well known for raising high sellers and winners. Big time quality. Big time individual. Big time offer.

• Whether you're breeding for heifers for replacements or calves for the feedlot, this is the bull you need! Point Blank combines two of the most popular bulls from the Maine and Angus breeds rolled into one package, and he doesn't disappoint! Since he was young, he has been one of the stoutest Maine Angus bulls we've seen, and when he gets on the move, you can't help but notice how sound he is. Add soundness and stoutness together paired with depth of belly, spring of rib, and a smooth front, and this bull can't miss. Put this guy to work in your herd.

THE AMERICAN MAINE-ANJOU ASSOCIATION'S MAINE ANGUS PROGRAM

WHAT IS MAINE ANGUS? The Maine Angus program is an initiative created by the American Maine-Anjou Association (AMAA) to showcase the complementation of Maine-Anjou genetics when crossed with Angus or Red Angus cattle. This program will reveal Maine-Anjou cattle's ability to enhance feed efficiency and red meat yield when placed on British-based genetics. This program should provide seedstock that will increase production and carcass yield through heterosis.

The name Maine Angus is both strong and informative by stating exactly what breeds are present in said animal. The standard requirement is that both parents must be registered at the AMAA, American Angus Association (AAA) or Red Angus Association of America (RAAA). This will provide confirmed lineage and genetic information along with valuable EPDs. Through a partnership with the AAA, EPDs are updated with the latest genetic evaluation by the AAA, which will provide breeders and customers the best genetic prediction available. This program is focused on producing quality registered offspring that will aid in the incorporation of Maine-Anjou genetics into the mainstream of the USA beef sector.

PROGRAM STANDARDS Maine Angus refers to cattle with the following characteristics: a) The animal will have from 3/8 Maine-Anjou to 5/8 Maine-Anjou blood and have from 3/8 registered Angus to 5/8 registered Angus and/or registered Red Angus blood; b) Both parents must be registered at the AMAA, AAA or RAAA to confirm lineage; c) Qualifying cattle can have no more than 1/8 of non-registered blood or other breeds; d) A registered Maine Angus bull must be proven free of genetic defects PHA and TH. Depending on the Maine Angus bull's genetic makeup, the individual must also be proven free of known Angus lethal genetic defects (e.g. AM, NH and CA) and/or known lethal Red Angus genetic defects (e.g. AM, NH, CA and OS), whether determined by pedigree or test; e) A registered Maine Angus female must be proven free of PHA and TH, whether identified by pedigree or test.

MAINE ANGUS COLOR STANDARDS All qualifying individuals will be predominantly solid black or red in color. White markings are only allowed on the underline and switch of the tail. Feet and legs must be solid black or red. **NOTE:** All Maine Angus animals that do not meet the color requirement but were registered prior to Jan. 1, 2019, will retain their Maine Angus papers. They will not be able to exhibit/show in the Maine Angus division but are still eligible to show as MaineTainers. If an animal is registered Maine Angus but is found to not meet the color requirements, they will be reverted to a MaineTainer registration.

• **SUMMERS CATTLE, GILLIAM, MO**

• This bull is a product of an embryo purchase from Minnaert Show Cattle, and this mating was probably one of Jason's most successful for the fall of 2025. Full sibs across the country highlighted sales and averaged a high number. This calving-ease bull has the look and build to make champions. The demand is high for calving-ease sires that can make good stock in the first generation, and I love how basic this bull is in his feet and structure. He always has a good day—my wife picked him out every day this summer when he was on the cow. We are very excited for his future.

• **WILD LEEF FARMS, EDGERTON, MO**

• An outstanding young Maine Angus female with a pedigree that speaks for itself. We acquired her dam through a selective flush offered by Brad Smith. Her granddam, Forever Lady 7104, had a notable show career. Her sire, BSC Take Action, is a full sib to Beauprez's BSC Freedom 147F and shares a full sibling bloodline with the popular All Me. As a bull with impressive stature and performance, Take Action brings substantial value to our program. Wild Leaf Farms is a co-owner of BSC Take Action 5073J ET with Griswold Cattle, Morgan Bobek, PKL Show Cattle, and Wacey McDuffee Cattle Co. This mating presents multiple opportunities for future development. Let WLF Pretty Lady 513N contribute to the genetic growth of your program.

AMERICAN MAINE-ANJOU ASSOCIATION SALE TERMS & CONDITIONS

Terms: Terms of the sale are cash or check, payable immediately upon conclusion of the sale and before animals will be moved. Seller will reserve the right to require a certificate check as settlement before releasing any cattle.

Risk: All animals are the owner's risk prior to their sale and become the property of the purchaser as soon as declared "sold" by the auctioneer (but will be cared for at the purchaser's risk for a reasonable length of time).

Bidding: All animals sell to the highest bidder. Any disputes or challenges regarding bids will be settled by the auctioneer, and his decision will be final.

Health: All animals sell with proper individual health certificates, making them eligible for interstate transport to most destinations within the U.S.

Announcements: Announcements from the auction block will take precedence over statements in the sale catalog and other advertising. We reserve the right to withdraw any sale lot not meeting our specifications prior to sale time.

Registry Certificates: All animals shall carry papers from the American Maine-Anjou Association. These papers will be transferred to the new owner at the consignor's expense.

Shipping: Assistance will be given in making shipment after the sale, but no risk will be assumed by the seller. Expenses incident thereto are the responsibility of the purchaser, who should furnish shipping instructions at time of settlement. We recommend that insurance be obtained on lots purchased.

Breeding Guarantee: Females Females represented as being "safe in calf" will have been examined and declared safe; they are considered breeders without further guarantee. Cows with calves at side shall be considered breeders also without further guarantee. NO guarantee shall apply to suckling calves. NO guarantee is given that bred females will deliver a live calf. **Bulls and Females:** Any animal that appears to be a non-breeder within six months after date of sale, if in healthy condition and of breeding age, may be returned to seller at buyer's expense. Seller will then reserve the right to prove the animal a breeder within a six-month period. Should the animal fail to prove a breeder, the seller, at their option, may either return purchase price to buyer or replace the animal with another of equal value in full settlement and satisfaction of all claims. In no event shall seller be responsible for more than the purchase price. In case the animal in question should develop to be a problem breeder due to negligence or improper management by the purchaser, the seller's guarantee does not apply. In cases where the animal is subjected to any hormonal or surgical reproduction techniques after this sale, this guarantee shall be null and void. Any complaints regarding breeding difficulties must be reported in writing by the buyer to seller within the time limit specified above, and animals returned must be free from disease and in good condition.

Liabilities: All persons who attend the sale do so at their own risk. The sellers and the sale manager assume no liability, legal or otherwise, for any accidents that may occur. Neither does the sale manager assume any liability for loss of or injury to livestock due to theft, mysterious disappearance, sickness, improper handling or Act of God. It is to be clearly understood that the sale manager and representatives act only as a medium between buyer and seller. They are not responsible in any way for any failure on the part of the buyer and the seller to live up to his obligations or for the truth of any warranties or representation expressed or implied. Neither does the sale manager assume any financial obligations to collect or enforce collections of monies between buyer and seller.

Contract: The above terms and guarantees shall constitute a contract between buyer and seller of each animal and shall be equally binding on both. Animals that are resold following purchase in this sale shall constitute a separate transaction, and the rights and obligations of the two parties connected thereto are not covered by these Sale Terms. **Semen/Embryo Interest:** Seller may retain an interest in an animal as specified by the catalog and/or announcement from the block. Details of the retained interest should be determined post sale between buyer and seller.
