

FOURTH ANNUAL

Show & Sale

JANUARY 6, 2026 • 5:30 PM CST

OKLAHOMA CITY, OKLAHOMA

Welcome!

Welcome back for the Fourth Annual National American Speckle Park Show and Sale located at Cattlemen's Congress!

It's always great to see new and old faces at these events and this year is no different.

Every year, the Speckle Park breed is gaining more and more interest in the U.S., and we are happy to be able to put together another excellent group of cattle for them to see. There's frozen genetics and live cattle in this offering that can fit into anybody's herds and goals within. Take a long look here and don't miss out!

We look forward to seeing you in January in Oklahoma City.

Brad Sonnentag

Nefertiti brings both length and power, with the extra volume and dimension through her hind end that this breed needs to put pounds on the rail and in the freezer. She pairs performance with pedigree, being a granddaughter of the renowned Putnam—an influence that speaks for itself. Whether you're seeking a future donor cow or a female that consistently adds weight and quality to her calves, Nefertiti will not disappoint. She has also been shown at the Royal Winter Fair and carries a calm, easy-going temperament, making her an excellent prospect for a youth project as well. **OPEN.**

Nunavut is our pick of our 2025 heifer calves and is exactly what we are striving to produce. She is a mating put together by our friends at Graham Creek Ranch, out of our bred heifer purchase from last year's sale, Graham Creek Lilli 16L. Her dam is proving to be one of our best cows already with a very exciting pedigree behind her. After 3 years of careful genetic selection and retention to our herd, we've decided to put our best foot forward and put our BEST on offer! Don't miss out on the first female offering from Cross W Cattle - right here at the Driving Force Sale. **OPEN.**

Here at Trestle Creek, we've had an outstanding year with our bred heifers. Every single lot we've consigned comes out of a first-calf heifer, which makes us incredibly excited about the potential these females carry. Nip N Tuck, in particular, has stood out for her exceptional performance. She has consistently ranked among the top gainers in her group, proving her ability to develop efficiently and stay competitive. While she may be a touch more compact, she's been the clear standout in the pen—every visitor to the farm notices her first. Structurally correct, well-balanced, and eye-appealing from every angle, Nip N Tuck is put together exactly the way we want our future cows to be. She will undoubtedly be a showcase female on anyone's farm. **OPEN.**

HC Nirvana is a March-born heifer calf that I think has tremendous potential. She's the kind we strive to raise—our best out of one of our very best, and without a doubt one of our most proven females. Her dam, HC Just Can't Get Enough, is one of the most consistent, high-impact females we've ever turned out to date. She has produced National Champions, proven herself across multiple calf crops, and continues to stamp her progeny with style and soundness. We firmly believe she's far from finished writing that legacy and could be that female that outperforms her dam, Cinder 03M 15U. Nirvana has been Brad's pick of the heifer calves since day one, and for good reason. Her genetic predictability, combined with her natural look and quality, puts her on track to be both a competitive show prospect and an exceptional cow. **OPEN.**

Notable comes from the exceptional Cinder cow family, one of the cornerstone lines in the Riverhill program. Her dam truly hit it out of the park with her first calf—Notable is refined, feminine, and smooth in all the right places, yet still carries the power and performance needed to produce high-quality seedstock for any herd. She has been successfully shown at several Canadian Speckle Park events, consistently placing in the top three. Notable also stepped onto the shavings at the Royal Winter Fair, earning second in her class. Whether you're looking for a standout youth project for next year or aiming to introduce proven genetics into your program, this girl checks all the boxes. **OPEN.**

Neon Jade is shaping up to be a big-footed, growth-driven female with all the structural qualities we look for in our future momma cows. She's out of a first-calf heifer who has already proven herself by stamping her progeny with power, correctness, and early performance. Though Neon hasn't been shown—simply because we had to cap our show string at ten—she certainly has the quality to stand with the best of them. Around the farm, she's always the first to the gate for scratches and never turns down a meal, making her an easy keeper with a great attitude. **OPEN.**

Here's a big bodied female that is going to be hard to part with. There is only two purebred heifers off her sire as we unfortunately lost him before we were able to draw semen. 64M's dam is a great producing female with an excellent udder. 64M's maternal brother was Reserve Bull Calf this year at Manitoba Ag Ex. He will be traveling down to the OKC Speckle Park Show with us.

Exposed to RH 859F Kirby 209K May 21-August 15, vet checked bred for mid to late April 2026 calving.

Consigned by Graham Creek Ranch

Lady 5M is a very tough female to part with. This is a heifer with a tremendous future and one to build a maternal powerhouse cow family around. Her dam is a cow with the fertility and maternal traits we strive for, with an impeccable udder and great milking ability. The Lady females are loaded with Femininity and are angular type that raise the good calves that always stand at the front of the bull or heifer replacement pens. Her 3/4 sister Juliet 5J sold at the Headed East Speckle Park Sale organized by Underhill SPECS in conjunction with the Canadian AGM. She garnered a fair bit of attention and this will be your chance to not let another one of these females slip by. This is only the second heifer from our Lady female line to ever leave the ranch period. **Bred to Graham Creek Lambert 7L, vet checked for first week of March calving.**

Norbit is out of a first calf heifer, sired by Samtia Castaway 33E. He is stout with powerful shoulders, square hips, and has solid feet. He is heifer safe with his 70lb birthweight, and his EPD ranking in the top 25 % for calving ease and birthweight. Born in January, this young bull is going to be a surefire herd sire soon. Selling full possession and interest. Seller reserves the right to semen for on-farm use.

A family favorite that has been a stand out since she was a calf and arrived on our farm in 2021. Greenwoods Martins Jazelle 95J, coming from a familiar pedigree with her Dam being Riverhill Cinder 03M 15U. This Cinder family goes back generations, finding these pedigrees having success all over Canada. Cory Ducherer explains "All of the Cinders offspring are great cows." Just to top that off her Sire is the well known Ulysses 25U. The Sire to these embryos are from the popular Greenwood bull Greenwood Headliner 71H. This bull has had much success in the show ring as he was named Champion Junior bull at the Farmfair International junior show in 2021. As well as many of his off spring also winning shows as one of his bull calves was named Canadian Western Agribition Reserve Champion bull calf in 2022, as well as the Champion Bull at Agribition in 2024. These embryos are qualified for the United States and Canada.

14X continues to be a front pasture donor and favourite of many that view her even at the ripe old age of fifteen...a female that can be appreciated for tying together all the fundamentals into one powerful package. Ocean deep, table top, land whale are just a few of the adjectives used to describe her, each of which speaks to her soft made, stout, and powerful build. She has the beautiful wedge shaped silhouette that makes her so easy to look at, while standing on a perfectly square set of feet and possessing an impressive udder that has stood the test of time. The mating to Gotcha maintains her outcross pedigree while adding shape, performance and presence. We feel the resulting calves will be yet another great chapter to 14X's lengthy production record.

Hundred Proof is a favorite for all that view him! A maternally driven, high performing, myostatin non-carrier option makes him a valuable addition for all Speckle Park breeders. Backed by two hard working A&W females that were both appreciated for their impressive udder quality, maternal instinct, and longevity. Avoid the guesswork and utilize this opportunity to ensure female pregnancies that possess docility, added frame and length, high end foot and udder quality.

Kobra is a royally bred individual, backed by a pedigree full of banners. He combines the 2020 Speckle Park Miss World, Pathfinder Cora DLE 3C with Greenwood Headliner 71H who was crowned Grand Champion Speckle Park Bull and a 'Top 4' All Breeds Supreme Qualifier at Stockade Roundup in 2020. Kobra himself found success on the show road in 2024 as he was the Grand Champion Speckle Park Bull at Stockade Roundup and Farmfair International. Banners aside, the proof is in his progeny. Kobra daughters are consistently flawless in their phenotype, structure and udder quality. His sons possess the sheer power, masculinity, added shape, and testicular development that we expected from him.

Black Java is everything we look for in a bull. He was the high seller out of the very last River Hill bull sale. From a very high quality offering, he was in the top percentage for frame score, ADG, REA, as well as weaning/yearling weights. He comes from a great line of females and is a myostatin non-carrier.. something that has been hard to find in a solid black bull with this much good to him. This is our first release of semen off this great bull. Use him on purebreds or commercial cows - He won't disappoint! Stored at Western Sire Services - Gordon, NE.

Kokanee is a massive, power-built bull with impressive width, muscle, and structural correctness. He stands on a big, sturdy foot with the kind of depth, shape, and performance look that consistently adds growth and mass to his progeny. His combination of rugged build, balance, and herd-bull presence makes him an elite choice for producing functional, high-quality cattle with real-world value. Offered here are 2 straws of Kokanee semen—a strong opportunity to add proven power and consistency to your program."

SCHOLARSHIP DONATION LOT

Keith Kisse Memorial Junior Scholarship Fund

Keith Kisse was instrumental in introducing the Speckle Park breed in the United States and one of the visionaries behind the creation of the American Speckle Park Association. Keith's sudden loss in 2022 was a shock to the community, however, the Speckle Park community will never forget him. The Keith Kisse Memorial Scholarship Fund was started at the first annual Speckle Park sale in Oklahoma City in 2023. Scholarship opportunities are available for all American juniors 21 years old and younger who share Keith's passion for the breed and industry. This set of outstanding genetics will sell in conjunction with the Annual Sale January 5. All proceeds will go to the ASPA Junior Scholarship Fund.

Monte was a sire that Ken and Cory both really admired when visiting the Sydney Royal Show in Australia. The ease of movement, power and gentle temperament were a few of the qualities that were evident in this breeding bull. KFC Farms and River Hill Farm are proud supporters of the American Speckle Park Association and are very pleased to offer the proceeds of this lot back to the association to further enhance the Breed in the USA and beyond! Semen Stored at Brushy Creek Sires in Texas, US Qualified Only.

ASPA FUNDRAISER LOTS

Two semen lots have been generously donated to the American Speckle Park Association. Proceeds will be used for breed improvement programs, junior programs, and the promotion of the breed.

DONATION SEMEN LOT PROCEDURE: The final bid in each round will donate the amount of that bidder's donation. Example: Round 1 - Final bid is \$300 to John Doe. John's donation is \$300.00 Round 2 - Final bid is \$250.00 to Tom Jones. Tom's donation is \$250.00. Round 3 - The embryo lot is re-auctioned on a downward scale until no further bids are received at the low of \$10.00. Each \$10.00 purchased (donated) represents one chance in the final draw. (John Doe has 30 chances, Tom Jones has 25 chances and so on down the scale to the final \$10 donation worth one chance each.) One ticket for every \$10.00 bearing the contributor's name will be put in the draw barrel. At the end of the sale, one ticket will be drawn with that person winning the lot.
