Folks you are buying a program here. My partners and I take great pride in bringing you a deeper, more consistent, higher quality set of cattle with more genetic potency and value every year. My goal when selecting this offering was to present a "No Holds Barred Set of Cattle" for This Event. And I hope that with your first glance at this catalog it obvious that we have done just that. The catalog is lotted a little different this year there highlights all the way through it...You will want to study every page. Regardless of your preference of color, breed, kind or pedigree...We think we have got something for about everybody.

All the partners involved with the Western Elite make their sole living in the cattle business and we take very seriously the fact that our success hinges on your success. - These two lead off heifers and several others in this offering are truly ELITE...Early visitors at the ranch often become frustrated because they can't decide which one they like best. Folks, I promise you that you need to study this whole catalog and every pen in Denver because THE QUALITY IS DEEPER THAN EVER.
- These Me Too's out of Icon's Full Sisters are beyond impressive...there are subtle differences but in general they are moderate, dense, correct cattle that are absolutely captivating from the profile.
- Lot 1 is (and has been since she was a baby) stunning from the profile...the head, neck set, rump squareness and hind leg are basically perfect. And she's plenty stout.
- Lot 2 is a basic mirror image of her sister... with extra bone, hair and muscle.

- The Full sisters to Icon were admired by many when we brought them to Denver in 2023. In 2025 when we brought that group of bulls there was a noticeable buzz in the Yards. After the public gets to see this set of females, I hope the breeding value of Icon and his siblings that I have been preaching about for years is known to all.
- The stoutness, balance, build, structural correctness and overall quality of this offering are absolutely second to none. Weather you want to make high end show heifers, elite breeding cattle or show steers...This set of females have the goods to get it done.
- Lots 3 and 4 are good enough to be Lot 1 in most years...The quality runs deep, AND THEY ARE HIGH MAINES!!!

- The All Mighty sons out of Full Sisters to Icon were a big hit in Denver last year and this set of heifers will be admired by everyone that gets to Denver.
- All three of these Pure Bred females, as you can see, take body, balance and structure to a new level. Lot 5 is the standout of this litter...SHE IS THE STOUTEST, BIGGEST BODIED, HEAVIEST BONED AND BEST LOOKING FEMALE THAT I HAVE EVER OFFERED OR SEEN FOR THAT MATTER. But only one of you can own her so I'll suggest you study the other two closely.
- 1004 has always been one of the stoutest Full Sisters to Icon...and boy o boy has she proven the value of that with this trio.

- It's been a long time since there have been a set of High and PB Maines with the build and body type to raise show heifers, breeding cattle and show steers depending on Sire selection. This set of breds offers that kind of diversity and quality.
 - 4026 came to the picture pen on a cloudy windy day, thus a dull, dark photo. But you can still see that she is stout, good looking and high quality. Look her up in Denver and you'll be impressed.

- The 300 Donor has generated multiple high sellers sired by All Me, Memphis Mafia and Chosen One to name a few...from \$15,000 to \$125,000. 4017 should raise steer or breeding cattle with equal potency.

- I truly believe in this great young female...first because she is a combination of the two best breeding animals I have ever owned, Icon and 007. Second among all the great daughters including 704E that 007 has produced 1049 was a Rock Star...You'll come to four great Char colored daughters later in this catalog. We lost 1049 after only one flush.
- And I finally got a solid black daughter of 007... with all the look, balance and structure you would have expected from this combination. She is not overwhelming in terms of dimension and mass, but she's got plenty. - And she is still cranking them out today. In her first group of progeny was Lot F that sold to Airharts in OKC and Word On The Street that was bought by the Zwierns in Denver. Both bulls are doing a great job for them.

- These and the All Me (Sells as Lot 8) out of Charlie Wilsons 300 Donor came to Duello Cattle via an embryo purchase. I bought 3 Icon x 300 embryos when they got ready to ship them, they only had 2 so Charlie threw this one in. Not only did I get 3 heifer calves, but they are all good. Thanks Charlie.
- The 300 Donor has generated multiple high sellers sired by All Me, Memphis Mafia and Chosen One to name a few...from \$15,000 to \$125,000. 4017 should raise steer or breeding cattle with equal potency.
- Lot 26 by Icon is especially great necked and impressively outlined, with excellent body shape and classic Icon feet and legs. BE SURE SHE IS ON YOUR LIST TO FIND IN DENVER.

- We have sold a lot of High Dollar Full Sibs to these two heifers over the years, a few of which are "I Can" was the \$20,000 High Selling Bull purchased by Ward Eckloff who sired a Steer calf that sold for more than the bull cost in the first calf crop. A Bred heifer that Dave Strohlberg gave \$20,000 for had a high selling litter of steers in his Sale last fall. Another Sib brought \$40,000 to Talich and Core last year and we anxiously await her first progeny sales.
- 4021 is a dead ringer to the Strohlberg heifer, extra deep and soft with a good look and lots of hip.
- 4073 has a lot of similarities in the way she's built to the Talich/Core heifer and is marked just like another heifer purchased by Zwiirns.

- Another SALE HIGHLIGHT BEGINS HERE... a big set of Here I Am x Whizard Full Sibs. 271 was the \$42,000 High Seller in my good friend Ryan Wents Dispersion. I bought the cow with Garret Barton a few years later. She is one of the best Wizards in the country and has proven great things when mated to HIA and Icon.
- As you can see this entire group of STEER MOMMAS is beyond impressive. They are BOLD, BIG BACKED, THICK ENDED, GREAT BALANCED AND EXTRA CORRECT...AND THEY ALL LOOK A LIKE. I sold the brothers to Johna Wing, they all did a lot of winning from Wyoming and Colorado westward.
- HIA has been KING OF THE RING in the show steer business for a number of years, the daughters are catching on in recent years as GREAT STEER MOMMAS. Especially when they are out of high-end maternal cows like these Whizard's...BIG TIME OPPURTUINTY HERE STEER FOLKS.

Our family have been breeders of Charolais cattle since the 1950's, so it is understandable that we strive to bring quality white heifers to the Western Elite. While this years version of these females has no purebreds, we have composites and those highly demanded steer making mammas. This Knock Knock heifer is TH and PHA free by pedigree. She is out of a purebred char daughter of our mainstay donor, Jacque Babe. This cow family is our most consistent producer when mated to clubby bulls. You should be able to open the semen tank and breed her to the bull of your liking and have success.

We have admired the 704E cow family of Duello's, since the time she was born. On our many trips to Dave's place, we always saw the impact she had on his program and everyone that had the chance to own one of her daughters. This heifer is the first calf out of our pick of the 704E transplants that Dave offered two years ago. While you are in Denver look at her build, I think you will agree why we are so high about her as a steer making machine. An amazing chance to get tight bred genetics of two of top producers in the country, Horn and Duello. **STEER MAMMA**

Our go to cow family for the last 10 years has been donor, Jacque Babe, a PB Charolais that is so consistent when mated to clubby bulls. She is golden in age, but we have saved a few daughters by her to replace her great consistency. Extra value is a key in this industry and this cow family excels in this trait. Lets not forget that this heifer is TH and PHA free by pedigree as she is sired by Knock Knock. I think when all the dust settles at Denver Western Elite 2026, this heifer will be one that should be considered by most top notch producers. Start the success off with the Lovin Size that she is carrying.

We have been fortunate to feature this Maternal Made X Meyer/Whiskey mating in the Western Elite over the past years. All of these females we offered came from one IVF reverse sort heifer aspiration and we sold most of them for donor figures. If you look at this pedigree you will agree, the power in the blood is perhaps as good as it gets and surely on top of the great all time producers in our lifetime. The homework is done with this Baldy female, profit is what most would say is her outcome, in most cow programs that strive for excellence. We think a great step in the right direction will be her first calf by May We All.

- 509N is out of 900G that was Grand Champion High Maine at the NJHS for Sara Sullivan. Last year a daughter by Highway 69 brought \$40,000 1/2 Interest purchased by Chamberlain/Richardson firms and our old friend Ward Eckloff gave \$19,000 for her Drivin 80 Son.
- He was a little green at picture time but I don't see that lasting long.
