An outstanding pairing in this lot — STR Ruthless Game is the 2017 National Reserve Champion and sire to multiple champions. Ruthless Game is well balanced, with excellent hoof and bone structure, producing lower birthweight calves. This champion powerhouse combines with Silva's Razzle Dazzle's outstanding qualities — excellent udder, beautiful functionality and maternal instincts — for a unique opportunity to bring home a thoughtfully bred calf. The recip cow calved spring 2025 and is an excellent mother. This lot is for a four-year-old Angus recip cow confirmed pregnant with an embryo from STR Ruthless Game x Silva's Razzle Dazzle implanted 7/31/25.

The sire of these embryos is a stunning bull with as much style, length and fleshing as you will see in a modern Highland. His strength of loin, balance and correctness through the legs saw him crowned Highland Bull of the Decade at the Royal Highland Show in Edinburgh. The embryos' dam is one of the most complete Highland cows Bairnsley has produced — square, smooth-fronted and feminine, she is well fleshed and very easy doing with a sound udder.

Nano is a very traditional, correct bull with some much sought after maternal traits — wide-hipped, deep bodied and very sound udder structure. His dam, Iona, has as good an udder as we have bred in 30 years, with teat size and suspension being sound, still now at 16 years of age. Nano's sire, Calum, heralds from Killochries, one of the largest folds in Scotland. At Bairnsley, we have not used a more consistent producer of stylish, square and well-fleshed offspring than this AI sire. 8. All animals sold as breeding animals are guaranteed not to be free-martins.

## OPTIONS AND PRIVILEGES OF RETURN OR ADJUSTMENT

1. All claims for adjustment or refund must be made in writing either within 6 months of the sale date or no later than 6 months after the animal reaches 20 months of age, with the exception of claims involving misrepresentation of service sire.
2. In the event an animal is claimed to be a non-breeder, the animal may be returned to the farm of the seller, if in good condition and complying with the health requirements of the seller's state. The seller shall be entitled to 6 months trial following the return of the animal in which to prove that the animal is a breeder. If at the end of 6 months the seller is unable to prove the animal is a breeder, the seller shall, at the option of the buyer, replace the animal with another of equal value or refund the full purchase price. The return of full purchase price shall in any case be deemed full satisfaction and settlement. Any expense incurred for transporting an animal claimed to be a non-breeder shall be the responsibility of the purchaser, except the seller shall be responsible for transportation costs in excess of the distance between the purchaser's farm and the location where the sale took place. If the seller proves the animal to be a breeder, it shall be the obligation of the purchaser to take delivery of the animal and pay all expenses incurred.
3. If a female sold as "pregnant" proves not to be in calf, the purchaser may receive service from the bull previously used, if available, or if the bull is not available, the seller shall be obligated to make satisfactory adjustment on the purchase price to the buyer or, at the buyer's option, refund the full purchase price upon return of the animal to the farm of the seller. If a female is represented as "pregnant" at the time of sale to a certain bull proves to have been bred to a different bull, the seller shall be obligated to make a satisfactory adjustment to the purchase price or, at the buyer's option, refund the full purchase price upon the return of the animal to the farm of the seller. Any expense incurred for the transportation shall be the responsibility of the purchaser, except that the seller shall be responsible for transportation costs in excess of the distance between the purchaser's farm and the location where the sale took place.
4. If a female sold as "open" proves to be with calf, the purchaser may return the animal to the farm of the seller prior to calving for a refund of the full purchase price or for another animal of equal value, whichever is acceptable to the purchaser. It shall be the obligation of the seller to bear any expense incurred for transportation.
5. Cows with calves at side are presumed to be breeders with no further fertility guarantee.
6. Any controversy or claim arising out of or related to this contract, or the breach thereof, shall be settled by arbitration administered by the American Arbitration Association under its commercial arbitration rules, and judgment on the award rendered by the arbitrator(s) may be entered in any court having jurisdiction thereof.

## AUTHENTICITY OF PEDIGREE

When an animal, through blood typing and/or DNA typing, is determined to have ancestry other than that reported on the registration certificate, the buyer shall be entitled to a refund of the full purchase price from the seller upon return of the animal to the farm of the seller at the buyer's expense. The animal in question, at the buyer's option, may be exchanged for another animal of equal value, or if agreeable with the buyer, the seller may have the certificate of registry corrected at the seller's expense with the corrected certificate returned to the buyer. Any adjustment provided herein, if selected, shall absolve the seller from further liability for authenticity of pedigree to the buyer.
