## SALE CATTLE VIEWING:

All of the live cattle selling will be available for  
viewing beginning Wednesday, January 14, 2026  
through completion of the sale and will be stalled  
next to the auction arena. A map is on page 2 of the  
Stockyard Event Center and the NWSS.

## HEALTH:

All the cattle selling will be accompanied by the  
proper health certificates for immediate shipment.  
For international buyers, please contact the  
respective sellers to coordinate international  
shipping requirements.

## LIABILITY:

Everyone attending the sale does so at their own  
risk. The Colorado Angus Association, the National  
Western Stock Show, the sale management staff,  
auctioneer, or sale staff assume no liability to loss  
of property or to accidents that might occur.

## TERMS AND CONDITIONS:

All the cattle sell under the standard terms of the  
American Angus Association. All announcements  
that take place during the sale take precedence over  
printed material. Once the sale is complete it is the  
responsibility of the seller to make contact with the  
buyer to confirm the buyer's shipping arrangements.  
On all embryo purchases, they sell with a 50%  
guarantee on even number of embryos or one less  
than half if an odd number is offered.

## ANGUS HEADQUARTERS:

Renaissance Denver Central Park Hotel  
3801 Quebec St., Denver, CO 80207  
303-399-7500

## PARKING INFORMATION:

Exhibitor parking passes will be extended to buyers  
and guests of our sales. Please contact the sale  
manager in order to request exhibitor parking  
credentials.  
Ensure all exhibitors and vehicles begin arrival  
through the new SunCor Staging Lot.

## STAY UPDATED:

# Welcome

It is with enthusiasm and excitement that we welcome you to the 2026 Foundation Angus Sale, held in conjunction with the historical National Western Stock Show.

For each of the past five years we have been humbled by the level of trust bestowed upon us by the consignors, buyers, and supporters of this great event and have often wondered if there is any way to match or exceed the level of quality with the following year's sale. Well, once again we are absolutely blown away by the caliber of programs and livestock that has been assembled for this year's event. On Friday, January 16, from the state-of-the-art Wagner Auction Arena, some of the breed's finest genetic opportunities will be offered, including rare "picks," IVF aspirations, and FOUNDATION quality live cattle. If you cannot be there to bid live in person, please login to CCI.Live. The following day, in the evening of Saturday, January 17, elite frozen genetics will be offered in an online-only auction on Salering.live, with a live auction close.

In addition to an incredible sale offering, you can expect record levels of attendance and participation this year because the brand new Sue Anshutz-Rodgers Livestock Center will be unveiled, and the traditional "HILL" portion of the National Western Stock Show will now be held down in the yards. With the opening of the world-class show facilities, the nostalgic displaying of cattle throughout the yards, along with the newly amended and convenient scheduling of Angus events, this will certainly be a can't miss kind of event for livestock enthusiasts.

As always, we hope that you can attend the sale in person. We are excited about the offerings in both events, and you should be too! Should you have any questions or need assistance with anything pertaining to the offering or the execution of the sale whether you attend or not, please do not hesitate to contact either of us, and we will assist in any way possible. We look forward to seeing everyone in the Mile-High City!

# Watch the Sale on CCI.live!

*The best, the fastest and most  
comprehensive marketing & bidding tool!*

## *How to Bid Online...*

- **As a buyer**, you do not need an account or to login to watch the sale but you must have a validated account to bid.
  - After you are logged in, you must proceed to the sale page for any and every auction and click **"Get Buyer Number."** Some auctions require a pass-code to obtain a buyer number even after you are approved by CCI.live. Pass codes generally come from the sale manager or ranch for that particular sale.
  - CCI.live will operate with ease on a **cellular device, laptop, desktop or tablet.**
- A **modern or current browser** is important and will make your experience better. You do not need to install the app on cellular devices to watch a sale. CCI.live is a browser-based application meaning it will play on most new browsers, but you can also download the CCI.live app at the Apple App Store or through Google Play.
- **For successful bidding you must have good Internet service!** It is very important to be stationary. If you are driving and bidding, expect to have some service issues. If you are stationary on a good device, with healthy Internet, expect a very successful bidding environment. If you have slow Internet watch the "asking price" on the screen - it is real time and refresh your browser if you feel like you have some lag.
- **Support line open during all sales. 405-400-9505** - Please contact the ranches for invoices and trucking.

## *Viewed around the world!*

**HA RITO LADY 3839** - The famous Pathfinder dam of the Lot A Donation Heifer.

• A result of a flush purchased through a previous Foundation Angus Sale, this female combines the \$400,000 Montana Ranch and Lindskov LT Ranch purchase, Spring Cove Grant 200K, with the million-dollar producing and dam of dozens of herd bulls, Pathfinder HA Rito Lady 3839. She is best known as the dam of the \$200,000 Hoffman Thedford, the \$120,000 Hoffman Hi Road, as well as the maternal granddam of the \$300,000 Stellflug Hoffman Rise Above. At the most recent Hoffman/Stellflug fall bull sale, a flush of 5 sons averaged over \$35,000 per bull. The first Grant progeny will be marketed this spring, and as you can see by this female and the sisters in this sale, are extremely consistent in their high-quality phenotype, extra substance and dimension they possess that made their sire one of

the most heavily utilized bulls in ET programs last year. A maternal sister also sells as Lot 36. All proceeds going to the Angus Foundation Angus Fund, which supports NJAA programs.

# Pick of the Mohnen Bred Heifers!

Lot 1

## PICK OF THE MOHNEN BRED HEIFERS

- From one of the most highly regarded Angus programs in the breed is this opportunity to take your pick from the entire bred heifer crop at Mohnen Angus in White Lake, South Dakota. This firm has established itself as one of the premier destinations for cattlemen and bull studs searching for elite AI sires, herd bulls, and feature donor females. Anchored by the famous Jilt cow family, this herd is built upon longevity, fertility, and highly productive cows that earn their way to the donor pen the old-fashioned way. The winning bidder of this genetic investment will have the distinct honor of selecting their favorite female from the 2025 heifer crop and keeper pen at the ranch, which includes over 100 open heifers.

• Selling a rare and valuable full sibling heifer calf pick to the \$175,000 Mohnen Gunsmoke. There are 6 heifer calves to be born in January and February of 2026, and we are willing to allow the pick of your choice. Gunsmoke was sought after by breeders all over the country for his overall balance, excellent foot quality and impeccable structure and true width in a calving-ease package. What sealed the deal for most was his hard-working dam behind him; with her superb udder quality and foot structure, he was a no-brainer. She stems from the famous Madame Pride cow family whose grandam is none other than the million-dollar producing SAV Madame Pride 5290, the backbone of some of our most up and coming donors and production females at our ranch. Mohnen Madame Pride 439, the dam of these heifer calves, has a calving interval of 5@369 and a WR of 5@100. This just might be the hardest and most valuable female we have ever offered. Pick can be made any time before weaning, or post DNA. More details available sale day.

# Ellingson Angus Pick of the Cow Herd to Flush!

Lot  
2

## PICK OF THE ELLINGSON COW HERD TO FLUSH

This is a never before offered opportunity to select any female two years of age or older in the Ellingson Angus cow herd to aspirate for one IVF cycle. You will have the ability to select your pick from nearly 650 registered females which includes an arsenal of 40+ current donors – there is no cow held back. The Ellingson Angus cow herd has garnered international notoriety, having produced some of the go-to sires in the AI industry today. But more importantly, is solely responsible for one of the most successful commercially focused bull sales in the country on an annual basis. For many generations, heavy selection and culling pressure has been placed upon the cow herd for all traits economically relevant to commercial ranchers, including fertility and production as well as conformation and structural soundness. A large portion of the cow herd ranks in the top 1/3 of the breed for \$M as well as many of the traits in which the index is comprised from. Some of the dams available to be aspirated of current Ellingson-bred A.I.

EA BELLS GIRL 1064

sires include the mothers of Ellingson Badlands, Ellingson Brickhouse, Ellingson Preeminent, Ellingson Progressive, Ellingson Statement, Ellingson Bold, Ellingson Turn Key, Ellingson Hi-Range, Ellingson Lakota, Ellingson Program, Ellingson Brazen, Ellingson LeDoux, Ellingson Landman and many more. Depending on which cow is selected will determine how soon the aspiration can take place. All cows would be ready no later than early May with some ready as soon as February. The buyer is responsible for aspiration costs. The aspiration will be done via Trans Ova Genetics. Ellingson Angus guarantees a minimum of six freezable embryos with no cap with a guarantee of at least 3 pregnancies.

# Pick from 500 Females to Flush!

Lot  
**3**

## PICK OF THE TEHAMA COW HERD TO FLUSH

- An incredible opportunity with, perhaps, the most storied program in the country – and unquestionably the most storied on the West Coast. Tehama Angus Ranch has been leading the Angus breed for over 80 years and has had one of the most successful bull sales for over 50. Bill Borror became a notable leader in the Angus breed, serving as president of the American Angus Association and receiving heritage honors for his pioneering work in performance record-keeping and sire evaluation programs. The Borror family has 4 generations working on this dominant program from Tehama county in Northern California. Bill Borror is a pioneer in the Angus business and has passed on his no-nonsense approach to raising quality Angus seedstock to the next generations, now in the hands of his grandson, Bryce Borror. Most recently, Tehama Angus Ranch (the Borror family) received the 2025 CAB Seedstock Commitment to Excellence award. This recognition highlights their multigenerational commitment to balanced genetics, land stewardship, and producing Angus cattle that align with CAB quality targets and customer needs. A tremendous tribute to a program that values the product we are all trying to sell. More importantly to them is the value of the Angus female and her role in the commercial cattle industry. You have the opportunity to flush one of 300 fall-calving or 200 spring-calving females. You are guaranteed a minimum of 6 embryos and no cap and a guarantee of a minimum of 3 pregnancies. Semen and flush costs are the buyer's responsibilities. Timing of the flush depends on which calving group the female is chosen out of. Details available sale day.

## PICK OF THE ALLEN BROS. COW HERD TO FLUSH

- Justin and Logan Allen and their families are some of the great young, enthusiastic and knowledgeable cattlemen in our industry. They have an outstanding and large commercial operation that produces some of the high-selling feeder cattle and replacement females in the July Western Video Market Sale. These principles drive the decisions and priorities that have made their seedstock operation so successful and their bull sale one of the highest averaging in the Northwest last year at nearly \$10,000, as well as a select group of open heifers averaging over \$15,000. The power, fleshing ability, eye-appeal, structural soundness and foot quality and overall functionality are as good as anywhere in the country. Fertility and udder quality are second to none in this elite cow herd, and they are required for every female coming into production at Allen Bros. Cattle. They have added select donor cows and herd bulls to their program from operations that are like-minded in their production goals. Coleman, Schaff, Griswold, Musgrave and Brookings are extremely successful names that have influenced the Allen Bros. cow herd. Buyer will have the right to flush any cow owned by Allen Bros. Cattle post-calving in the spring of 2026. They are guaranteed a minus of 6 embryos and no cap with a minimum of three (3) pregnancies. Semen, shipping and flush cost are the buyer's responsibility.
- Consigned by Allen Bros. Cattle, North Powder, OR
- Justin Allen (541) 962-5154
- Logan Allen (541) 519-0668

**ABC PRIM LASSIE 4558** - This daughter of Musgrave Prim Lassie 329 will calve this spring and could be on your list.

**ABC PRIM LASSIE 4824** - This daughter of Musgrave Prim Lassie 329 will calve this spring and could be on your list.

# Pick of the Yearling Heifers from a Northwest Legend - Kessler Angus!

**KESSLERS FREEWATER K171** - The \$26,000 Krebs Ranch, Gordon, Nebraska, purchase whose dam is one of the foundation donors. Many maternal sisters are in the offering.

**KESSLERS FREEWATER 4007** - A \$15,750 son of Kessler's Freewater K171 - He has a maternal sister available in the offering.

**KESSLERS JAMISON 4179** - A \$15,000 herd sire purchase by Baker Angus, Vale, OR. His flush brother, Kessler's Black Barrel 4182 brought \$15,000 to Spring Cove Ranch, Bliss, ID, and Triple L Angus, Randy Landcaster, Twin Falls, ID. His maternal sister by Prolific is available in the offering.

**BASIN KEYSTONE 2021** - Many daughters are available in this pick by this popular sire.

**SCHIEFELBEIN TOP GUN 552** - Many daughters sell by the young sire that has already sired a \$300,000 sale-topper at Hoffman's in Nebraska.

**BEAR MTN NORTH STAR** - Many daughters are available by this GENEX standout.

**KESSLERS BELLE 6537** - 6537 is a Pathfinder and is the dam of the \$26,000 Kessler's Freewater K171, who was selected by Krebs Ranch as the high seller in our 2023 bull sale. A daughter was Camas Prairie Angus' pick of the replacement females for \$12,750 in 2020.

Lot 6

## PICK OF THE KESSLER ANGUS OPEN HEIFERS

- Kessler Angus is a first-generation seedstock Angus operation and one of the most successful and longest standing in the West. It was started in 1962 when Randy's parents bought him his first heifer, Triple T Eileenmere Lassie. At 9 years old, Randy knew that he wanted to spend his life raising Angus cattle and sold his first bull in 1964. From this humble start in the Angus business, Randy and his family have grown Kessler Angus into the over 350-head operation it is today.
- In 2012, Randy received the Historic Angus Herd award from the American Angus Association, for being a continuous breeder of Angus cattle for 50 years. Randy continues to expand the herd and is always in search of the next great AI and Herd Sires. His annual production sale is extremely successful year after year and his buyer's list reads of the "who's who" of commercial and registered programs in the Northwest and beyond. Randy and his daughter, Tierra, continually use a commercially-based approach to mating and production decisions and it shows as his sale barn is continually standing-room-only every year with repeat and new buyers alike. The cow herd is built on production, fertility, soundness, performance and added carcass value.
- Randy loves a Pathfinder dam more than anyone and those are the type of cows he propagates in his ET program.
- You will be able to sort through over 55 yearling heifers and the QR code on this page has the complete list of A.I., ET and Natural Service matings along with their EPD and DNA profiles. Sires include Schiefelbein Top Gun 522, Basin Keystone 2021, Hoffman Stellflug Rise Above, Bear Mtn North Star, Basin Jamison 1076, Ellingson Prolific, Boyd Bedrock, Sitz Inspire 729J and Mason Lookout 2300. Successful bidders need to make the choice by March 1, 2026.
- Consigned by Kessler Angus, Milton-Freewater, OR

## Pick of the Architect x Georgina Females from Sankey!

**MILL BRAE IDEN GEORGINA 4086** - The \$420,000 valued dam of the Lot 7 choice and mother of the \$165,000 J Trademark 1037.

**S ARCHITECT 9501** - The sire of the Lot 7 heifer calf choice.

**J TRADEMARK 1037** - The \$165,000 maternal brother to the Lot 7 choice.

Lot  
7

### PICK OF THE S ARCHITECT 9501 X MILL BRAE IDEN GEORGINA 4086 SISTERS

• What a special mating the Sankey program has brought the Mile High City to choose from. These are maternal sisters to J Trademark 1037, the \$165,000 top-selling bull that Coleman Angus and Conley Cattle added out of the Cattleman's Cut Sale in Nebraska. Trademark has been one of the most sought-after young herd bulls the past few years, with semen selling to many of the leading registered herds across the U.S. as his EPD profile continues to improve. Jocko Valley Cattle, Arlee, MT, saw the power of this cow and added Mill Brae Iden Georgina 4086 to their program as the high-selling, \$420,000 valued female (\$210,000 for 1/2 interest) at the 2022 Coleman Angus Ranch Female Sale. This donor female has an impressive progeny production record of BR 3@96, WR 3@103, YR 19@101, U%IMF 12@101 and a calving interval of 347 on 6 head. She reads with tremendous growth and performance. When you combine Calving Ease, Growth, Marbling, and \$ Values, she is the #1 cow in AHIR for her age or older. The top-selling open heifer at the 2024 Foundation Sale was also a maternal sibling to these two females. Sired by the GENEX standout, S Architect 9501, these females are sure to have a long-lasting impact on the breed just as their dam has. You can make your decision on which one you would like at weaning and after DNA data has been processed. They are due 1/7/26 and the decision could be made after DNA is collected.

- Consigned by Sankey Angus, Economy, IN
- Cody Sankey (517) 749-5556

**SANKEY**  
ANGUS

**CONLEY GEORGINA 3724** - This maternal sister to the Lot 7 picks brought \$40,000 for 1/2 interest to Linz Heritage Angus in the 2024 Foundation Angus Sale at the NWSS.

# Pick of the 2026 Spring Born Heifer Calves from Colyer!

**RSA TRUE BALANCE** - Daughters will be available in the Lot 8 pick.

**CCC TREASURE TESS 0166** - The leading donor and producer of herd bulls. Her daughters will be available.

**BOYD BEDROCK** - Daughters will be available in the Lot 8 pick.

**C SECURITY GAL 2030** - Sold for 1/2 interest for \$17,000 in 2024 to Barber Ranch, Channing, TX, and serves as a donor for both programs.

**HF HI-Country 7L** - Daughters will be available in the Lot 8 pick.

**CCC LADY HOME TOWN 2210** - One of the leading donors at Colyer's that has daughters available in the pick.

**CCC I564 TESS 5002 ET** - \$30,000 top-selling heifer calf in the 2025 Colyer Female Sale to Parker Cattle Co., Malad, ID. Females like her will be available.

**Lot 8**

## PICK OF THE COLYER ANGUS 2026 SPRING BORN FEMALES

- Colyer Angus and Herefords is one of the premier seedstock operations in the Northwest and beyond. Although they are best known for their dominance in the Hereford circles since the late 70's, they have built an outstanding Angus cow herd that has flourished since Ray and Bonnie Colyer started it in 1989. They supply the leading commercial programs around the West with a superior set of useful, stout and rugged set of bulls in both breeds, and feeder cattle and replacement heifers sired by their bulls always bring a premium!
- They focus on truly balanced genetics that excel in all facets of the industry, but building a productive, attractive and maternally-based cow herd has made their genetics extremely sought after and their Angus program has created just as much interest as their extremely successful Hereford program.
- You are getting the opportunity to select your choice of any female born in the spring of 2026 both E.T and natural calves. There will be approximately 80 head to choose from. Sires include RSA True Balance, Boyd Bedrock, HFH-Country 7L, Ellingson Badlands, Ellingson Brickhouse, Sitz Genuine 491L, Raven Republic, Sterling Pacific 904 and Sitz Commerce 638M. Complete DNA data will be back in June on all of the cattle and we would like you to make your selection by July 1, 2026. You will have the option to partner with them or double your bid and take full interest, full possession. Either way, this is the first opportunity ever to dive into one of the nicest cow herds you will get your eyes on.
- Consigned by Colyer Hereford and Angus, Bruneau, ID
- Guy Colyer (208) 599-0340
- Kyle Colyer (208) 250-3924
- Cruz Colyer (208) 749-3915

A tremendous opportunity to pick from a long list of heifer calves by the dam of Basin Deposit 6249 and grandmother of the \$600,000 Basin Jameson 1086. Basin Lucy 4288 was the \$52,000 half-interest and top-selling female of the NILE Sale and is a featured member of the Hollow Top donor arsenal. The combination of sires represented offers versatility and stacks pedigrees from some of the breed's very best donor cows. These heifers will all be placed on a 120-day GrowSafe performance test and the winning bidder will be able to make their selection in the spring of 2026, as yearlings.

- What an opportunity Craig and Wendy Tupper have presented you in a full sister heifer pregnancy to the \$165,000 top-selling female at the 2025 Musgrave Angus Sale going to Schooley Cattle Company, IA, and English Oaks Ranch, GA. She comes from a long list of quality females, and her dam anchors the CWT ET program after coming to Oregon out of the 2023 Musgrave sale. Her second dam is one of the most beautiful females working at Musgrave, blending two of the great maternal-producing sires, Big Sky and Capitalist 316. She has a neat-lasting udder while holding an NR of 105 and a calving interval of 6@351. Her ability to transmit her good looks and quality to her progeny is consistent and profitable. The buyer will receive a pregnant recipient due with a guaranteed heifer-calf pregnancy on 2/16/26 located in Oregon.
- Consigned by CWT Angus, Yamhill, OR
- Craig and Wendy Tupper (925) 519-3561

- If you are looking for a boost to your data across the board, take a look at this mating. G A R Grand Slam will lead off the Gardiner April Sale and his semen will be marketed through Select Sires. Top 10% with majority in single digits for CED, BW, WW, YW, RADG, CW, MARB, REA, \$AXH, \$AXJ, \$M, \$W, \$F, \$G, \$B and \$C. The dam of this heifer pregnancy was a \$60,000 for 1/2 interest female that has also produced embryos that have brought up to \$12,000 per embryo. If you're a fan of data and run a very basic sort with her levels of Marb, RE, \$M, \$C and \$EN, she's the only animal in the breed that meets that criteria. Buyer will receive a pregnant recipient carrying the above mating located at Trans Ova in Iowa.

• These two heifers come from a highly proven and productive cow that is sired by the \$450,000 Coleman Bravo 6313 and is a direct daughter of Donna 4203, a full sister to the \$75,000 top-selling Coleman Banker 9215, and maternal sister to the \$90,000 valuation Donna 9220. Having already produced numerous sale features, Donna 9309 sold 17 sons in the 2025 Grass to Grid Bull sale for an average of \$15,000 for Griswold Cattle Co. They are by the \$400,000 Spring Cove Grant 200K, a bull that is ultra- complete, correct and has plenty of numeric value. These two heifers come from a highly proven and productive \$200,000 Donna 9309, having already produced numerous sale features. Donna 9309 sold 17 sons in the 2025 Grass to Grid Bull sale for an average of \$15,000 for Griswold Cattle Co. Also, the \$29,000 Sadler Bitcoin sired by Hummel Argentine, highlighted the 2025 Power Plus Bull Sale, and the full brother, Duff Harmony, is anchoring lot 2 in the year's P+ Bull Sale, both backed by the elite Donna 9309.

These two females are sired by the \$400,000 Spring Cove Grant 200K, a bull that is ultra-complete and correct, with plenty of numeric value. Both females are good-looking, broody, and stout with a donor-cow look and presence that truly ranks in the top 1% for overall phenotype. We feel like they could easily build a solid foundation for any progressive program. Donna 9309 has the ability to add low birth plus performance and maternal strengths. Ranking in the top 3% for CED and 15% for Yearling, along with a top 1% for CLAW and Angle, and a top 10% ranking for \$M in the Angus breed. A maternal sister of their dam also produced the fabulous female that sold as Lot 14.

- You can choose between these two powerhouses on sale today: the one you don't pick will go home to the Sadler donor battery.
- Consigned by Sadler Ranches, Perkins, OK

- One of the most influential females within the Angus breed is Coleman Donna 714, and here is a chance to invest in genetics from one of her most impactful granddaughters. This highly proven and productive cow is sired by the \$450,000 Coleman Bravo 6313 and is a direct daughter of Donna 4203, a full sister to the \$75,000 top-selling Coleman Banker 9215, and maternal sister to the \$90,000 valuation Donna 9220. Having already produced numerous sale features, Donna 9309 sold 17 sons in the 2025 Grass to Grid Bull sale for an average of \$15,000 for Griswold Cattle Co. Her two daughters that sell as Lots 12A and 12B represent the "proof is in the pudding!" A maternal sister also produced the fabulous female selling as Lot 14.
- You will also see a pen-of-three bulls in Denver that are all direct sons of this tremendous donor.
- Buyer is receiving an IVF aspiration on the female above. You will receive a minimum of 8 embryos and 4 pregnancies. Cost of semen, flush and shipping are buyer's responsibility.
- Consigned by Griswold Cattle Co., Stillwater, OK
- Office - (405) 372-3300

## INGRAM ANGUS PRODUCTION SALE NOVEMBER 6, 2026, PULASKI, TN

This red-carpet female is correct from every angle and mimics the stunning phenotype of her dam at the same age. She is by the \$270,000 record-selling Coleman Glacier 041 back to the featured donor in the Ingram Angus program, Coleman Donna 2417. Her mother was a recent top-selling female as Lot 1 in the 2025 Ingram Angus Fall Production Sale where she demanded \$65,000 for one half interest selling to Circle K Farms of Tennessee. 2417 is by the \$180,000 South America back to the legendary Coleman Donna 4203 that records BR 4@91, WR 4@105, YR 4@106, %IMF 3@118 with 21 daughters in production with an average nursing ratio of 104. She has produced over \$750,000 in progeny sales. Coleman Banker 9215, a maternal brother to 2417, was the \$75,000 one-half interest for \$150,000 valuation feature through the 2022 fall production sale going to Voss Angus of Iowa. Other maternal sibs to the dam include the \$45,000 one-half interest for a \$90,000 valuation female, Coleman Donna 9220, who was the featured Lot 1 female of the 2021 Coleman sale going to Richburg Angus of TX; the \$22,500 Coleman Donna 0178; the \$22,000 Coleman Donna 0121; the \$12,000 Coleman Donna 9219; and other past Coleman Sale features. Her dam just brought \$65,000 this past fall to Cornerstone Farms in TN, making her an outstanding investment. Lot 14 will accrue value the older she gets as well.

- Consigned by Ingram Angus, Pulaski, TN
- Jason Upchurch (256) 239-8540
- David Cagle (256) 616-6446

COLEMAN DONNA 2417 - The picture perfect dam of Lot 14!

- The strength and value of family history can create foundational opportunities for you! The Erica Evalina family at Vision Angus has built highly productive, functional, fertile and docile females. And they present to you the best of this family - "528".
- She's undeniably elegant, sound, maternal and yet three-dimensional in her build and power. A must-see in the Yards at National Western Stock Show!
- Vision Angus has witnessed her Koupal Advance dam consistently breed on time, flesh easily and deliver a quality heifer for the 5th year in a row regardless of progeny sire. She boasts a 367-day calving interval with a progeny record of BR 6@100, WR 6@106, YR 6@106 and RE 3@111.
- Daughters of the \$180,000 Montana Judgement 1038 are deep-ribbed, soft made and exquisitely feminine with increased power, natural width and impressive presence. Judgement sired the 2025 NWSS Grand Champion Pen of Angus Heifers for Vision Angus and creates a new vision of what's possible in improving the cowherd and profitability for cattlemen. He's one of the highest customer satisfaction sires in the breed and is revolutionary for type, maternal excellence, feed efficiency, fertility and cow longevity.

- They say a picture is worth 1,000 words; well, this one is even more impressive in person. From a highly productive cow family at Parry Angus, this maternal-focused female offers added dimension, power and performance to go with her elegant presence. This future donor stems from a dam with an impressive track record of BR 3@98, WR 3@107, YE 2@104, IMF 1@105, while obtaining an individual WR of 118. Sired by the highly maternal Coleman Rock 7200, this high-performance female is the kind that can generate herd bulls and impactful females.

- A big supporter of the Foundation Angus Sale, SV Cattle Co. has brought you another outstanding yearling heifer from a very successful and maternal-oriented cow herd. This female is powerfully made with plenty of performance and is very correct and stout in her makeup. Sons of her sire topped the Yon and Knoll Crest sale as well as the SV Cattle Co. sale. She was weaned off of an exceptional mother, that has a 365-day calving interval, at 770 pounds. Her front-pasture dam is a moderate and productive Playbook daughter with exceptional feet. With 18 traits in the top 20% of the breed or better along with powerful phenotype, it is no surprise that they will retain a flush out of her at the buyer's convenience and their cost.

• Circle L Betty 732N is an easy-fleshing, soft-made female with a big hip, and her added volume gives her a real brood-cow look. This heifer posts BR 84 and WR 121. She ranks in the Top 1% of the breed for \$M; Top 2% CED; Top 3% PAP and \$W; Top 4% HP; Top 5% CEM; Top 10% Teat, CW, and \$C; Top 15% WW, FL, Doc, \$AXH, \$AXJ, and \$F; Top 20% BW, Angle, RE, and \$B. She also posts an actual PAP Score of 39. This natural heifer calf is sired by Circle L Unified, one of the most exciting calving-ease bulls in the industry. He continues to check all the boxes and is blazing a trail in high elevation. Unified was the high-selling bull selected by Vermilion Ranch in our 2024 bull sale for \$53,000. He ranks in the Top 20% of the breed for 19 traits and was used heavily across the country in many prominent A.I. programs.

• Circle L Betty 794N comes in a very complete package. She is a phenotypical standout offering thickness and a stunning EPD profile. She ranks in the Top 1% of the breed for WW, Angle, \$M, \$W, and \$C; Top 2% of the breed for CW; Top 4% HP; Top 5% CEM; Top 10% YW, CLAW, \$AXH, and \$AXJ; Top 15% of the breed for CED, PAP, Marb, \$F, \$B and \$G. 794N is sired by the Montana record-selling Basin Jameson 1076, who is known for producing some of the most sought after progeny countrywide, hence, topping many sales. She posts an outstanding PAP Score of 38. A paternal sister to Circle L Betty 794N ET, Basin Rita 5354, was selected by Colyer Hereford & Angus and GKB Cattle Co. for \$180,000 in the Basin Angus 2025 Female Sale.

• Consigned by Circle L Angus, Dillon, MT

• Cory Lamey (406) 491-7393

What a unique opportunity to acquire one of two of the most talked about females on the 2025 Montana Angus Tour. Selling 1/2 interest with the option to double down for full interest of either 794N or 732N. If Buyer acquires full interest, Seller retains the right to one flush with a guarantee of 8 embryos. Select from two remarkable daughters of donor cow Circle L Betty J53, a tremendous producer known as our super mama. She offers stellar maternal strength and excels in calving ease, HP, CEM and \$M, while posting an impressive production record of BR of 2@90, WR of 2@122 and YR of 1@110. This multi-trait leader's impact will be felt for years to come.

LOT 22B - Circle L Betty 794N

CIRCLE L BETTY J53 - The donor dam Lot 22A, 22B and 23.

• The dam of the choice heifer lot in 22A and 22B, Circle L Betty J53, is a rising star and is best known at Circle L as our "Super Mama". Feminine, clean fronted with excellent under quality. Her production is unparalleled with a BR of 2@90, WR of 2@122 and YR of 1@110. Her combination of calving ease, maternal merit, and efficiency plus a highly-desirable EPD package with elevation makes her a tremendous find in today's industry.

• Ranks in the Top 1% of the breed for HP, CEM, \$M, and \$C; Top 4% \$W; Top 5% CED, Angle, \$F; Top 10% CW; Top 15% \$EH, CLAW, \$AXH, \$AXJ, and \$B. This much anticipated Ellingson Prosper mating excels for optimum maternal excellence, carcass merit and growth. Selling 3 IVF embryos (Grade 1) with a guarantee of one (1) pregnancy.

A beautifully-made bred heifer representing the depth and maternal excellence of the Blackcap line. Her dam, T/D Blackcap 9643, a Pathfinder female with a 5@363 ACI, records 5@103 for birth, 4@112 for weaning, and 3@109 for ribeye – a reflection of true production and longevity. 4803 combines that same functional design and do-ability with the elite phenotype and balanced data profile her sire, GC Clearview X401, is fast becoming known for – big-bodied, incredibly sound, and easy-fleshing with the kind of real-world practicality that never goes out of style.

Sired by GC Clearview X401, the big-bodied, easy-fleshing bull admired for his structural soundness, muscle shape, and unmatched practicality, 4803 exemplifies his kind with the added femininity and presence that defines the Blackcap lineage.

AI bred to Boyd Bedrock (AAA 20196731), due August 7, 2026. A mating designed to blend proven maternal power and structural excellence – the kind that build programs and stand the test of time.

49th Annual Angus Bull Sale  
MONDAY, FEBRUARY 9, 2026  
DANTE, SOUTH DAKOTA

What a tremendous opportunity to pick up a future donor from two of the most dominant and recognizable maternal cow families in the country. Both second dams, B&B Blkbd Progress 3015 and LT Forever Lady 7038, have achieved Pathfinder status and are the dams of prominent herd bulls and donor females across the country. Her sire, LT Chosen 1032, was the third high-selling bull at \$45,000 in the 2023 LT Sale to the Koupal and Montanan Ranch programs. He is nearly perfect foot structure with a kind demeanor and added body dimension. His dam, LT Forever Lady 7038, has a WR of 5@106 and a YR of 4@109. The now deceased maternal second dam, B&B Blkbd Progress 3015, was a 5th Generation Pathfinder Dam with a production record that shows a WR of 7@107 and YR of 5@108, along with 7 natural calves with a 366-day calving interval. The dam of Lot 26 was a highlight of the 2024 Foundation Sale, bringing her to a \$32,000 valuation when she sold 1/2 interest to Lawson Family Farm in Virginia.

**ELLINGSON BADLANDS 0285** - Maternal brother to Lot 28.

• One of the featured females of the bred heifer division is this direct daughter of one of the breed's most accomplished females, a Pathfinder, EA Bells Girl 7617. The dam of this female has assembled one of the most impressive track records, producing a long list of AI and herd sires that includes Ellingson Badlands, Ellingson Progressive, Ellingson Preeminent and Ellingson Brickhouse. Furthermore, she offers numerical figures that rank amongst the breed's very best, including elite EPD and index values for CLAW, Angle, CW, WW, YW, and \$C. She sells safe to the AI sire M Diamond Ranahan and is due to calve on March 20th, 2026.

- Gregg Johnson (507) 227-5331

LOT 31D - Dandy Acres Jestress 2512

A powerhouse pair of flushmate sisters! Their dam, Dandy Acres Jestress 827, has undoubtedly been our top-producing donor over the past four years, consistently producing eye-appealing offspring that are moderate in size, thick-made, and combine calving ease with performance. Even more importantly, her progeny are structurally correct with excellent feet and legs. Both females are sired by the up-and-coming ABS sire Connealy Validation, the high seller at the Spring 2024 Connealy sale. He adds a fresh pedigree to this set and has been our favorite sire group in 2025.

- This bull offers an extra shot of size and style without sacrificing the traits that matter to cow-calf operators. 2507 is a long-spined, deep-bodied, powerful prospect who was our highest-indexing weaning-weight bull. His dam comes from a set of flushmates that have been performing extremely well in our program over the past few years.
- Consigned by Dandy Acres Angus, Pipestone, MN
- Neil Johnson (507) 215-1114
- Gregg Johnson (507) 227-5331

This set of bulls has had us excited since birth. They offer a well-balanced EPD profile paired with the kind of phenotype that can move Angus cattle—and the beef industry—forward. These bulls come from our top-performing cow families and represent a true sample of what we strive to produce. They are well-balanced, attractive, sound-made cattle with a strong emphasis on the female side, without sacrificing performance or carcass quality.

- Dandy Acres will retain a 1/4 semen interest and semen and certificate revenue in all bulls sold.
- At the buyer's option, Dandy Acres will take your selection home to get them breeding-season ready, provided buyers purchase livestock insurance.

This is the Pathfinder dam of the \$40,000 feature of the 2025 Spring Cove Female Connection Sale, PEV Prolific 2M2, who is now a herd sire for Small Livestock, Winnemucca, NV, and Parnell's Dunipace Angus of Sacramento, CA. She is pictured with her 2025 Sitz Accomplishment 720F son prior to weaning this fall as well as various other candid and untouched pasture shots. She is simply an ideal Angus female from any angle, any perspective. You cannot put much more functional phenotype into one. Beautiful udder, perfect feet and leg structure, tremendous eye appeal, level, clean and square, stout and powerfully built, broody and loaded with maternal greatness.... I cannot compliment this cow enough. She has a perfect production record as well - BR 4@96, WR 4@106, YR 3@106, IMF Ratio 3@127, REA Ratio 3@103 and FAT Ratio 3@84. She has not made a mistake yet and has a bright future as a donor for her new owner. Selling 1/2 interest with the option to double up and take full interest, full possession. If you choose to stay partners with Potter's Emmett Valley, the new buyer will receive the first flush and alternate after that. If you choose to take full interest and full possession, Potter's Emmett Valley retains the rights to two flushes at their expense and buyer's convenience. Full terms to be announced sale day.

• Here is the first opportunity to own a proven donor cow offered by Thomas Angus Ranch in recent history. Thomas Lucy Rose 6336 has simply been the cornerstone of the Thomas Angus Ranch ET program for the last 5 years. Proving herself the hard way, posting a BW ratio of 76, WW ratio of 113, YW ratio of 110, RIB ratio of 104, and topping it off with an impressive IMF ratio of 142! 6336 has an impressive track record of producing herd sires. For 3 consecutive years, she produced the Lot 1 bull in our Fall Production Sale, selling for \$50,000, \$30,000, and \$55,000 with many daughters retained in the program. Thomas Lucy Rose 6336 has truly done it all and impressed a countless number of people who have had the opportunity to see her. She has been one of the most impactful donors we have ever had, and we look forward to seeing the impact she can continue to make on your program. She sells open and ready to flush. Has consistently made 6-8 embryos per aspiration.

This is an own daughter of the million-dollar-producing and dam of dozens of herd bulls and donor cows, Pathfinder HA Rito Lady 3839. She is best known as the dam of the \$200,000 Hoffman Thedford, the \$120,000 Hoffman Hi Road as well as the maternal grandam of the \$300,000 Stellpflug Hoffman Rise Above. At the most recent Hoffman/Stellpflug fall bull sale, a flush of 5 sons averaged over \$35,000 per bull. The cow is simply timeless and has clicked on every bull she has been flushed to. A daughter was a high-selling female at the 2025 Angus at the Congress, Arnett Rito Lady 54 to Poss Angus in Nebraska for \$21,000. Myers Fair-And-Square daughters are consistently females that possess high-quality udders, outstanding functionality and soundness, maternally eye-appealing and are productive with longevity built in. Lot 36 fits that description to a tee. Buying 50% interest with the option to double and take 100% interest and possession. She sells exposed A.I. on 12/23/25 to sexed female Sitz Eternity 739L.

• Consigned by Arnett and Sons - Galion, OH  
• Aaron Arnett - (614) 947-9931

• Talk about current and valuable! Take a look at this mating that might have as much quality and value as anything we have in the sale. The dam is a material masterpiece with a pedigree that would benefit and be marketable for any program in the country. The sire is hard to find and has proven himself in the U.S. and Canada as a consistent sire of power, phenotype and marketability, most notably being the sire of the \$150,000 Poss Pursuit. Buyer will receive three (3) IVF embryos with a guarantee of one (1) pregnancy when implanted by an accredited technician.

• Consigned by Arnett and Sons - Galion, OH  
• Aaron Arnett - (614) 947-9931

**SCHIEFELBEIN GABLE 311** - The sire of the Lot 36A embryos whose rare and valuable semen also sells on Saturday as Lot 302.

**STELLPLUG TOP TIER** - The \$70,000 Elwood Ranches and Rancho Casino Angus herd bull produced by a maternal sister to Lot 36.

**Expected Progeny Difference (EPD)**, is the prediction of how future progeny of each animal are expected to perform relative to the progeny of other animals listed in the database. EPDs are expressed in units of measure for the trait, plus or minus. Interim EPDs may appear on young animals when their performance has yet to be incorporated into the American Angus Association National Cattle Evaluation (NCE) procedures. This EPD will be preceded by an "I," and may or may not include the animal's own performance record for a particular trait, depending on its availability, appropriate contemporary grouping, or data edits needed for NCE.

**Accuracy (ACC)**, is the reliability that can be placed on the EPD. An accuracy of close to 1.0 indicates higher reliability. Accuracy is impacted by the number of progeny and ancestral records included in the analysis.

## PRODUCTION

**Calving Ease Direct (CED)**, expressed as a difference in percentage of unassisted births, with a higher value indicating greater calving ease in first-calf heifers. It predicts the average difference in ease with which a sire's calves will be born when he is bred to first-calf heifers.

**Birth Weight (BW)**, expressed in pounds, is a predictor of a sire's ability to transmit birth weight to his progeny compared to that of other sires.

**Weaning Weight (WW)**, expressed in pounds, is a predictor of a sire's ability to transmit weaning growth to his progeny compared to that of other sires.

**Yearling Weight (YW)**, expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny compared to that of other sires.

**Residual Average Daily Gain (RADG)**, feed efficiency expressed in pounds per day, is a predictor of a sire's genetic ability for post-weaning gain in future progeny compared to that of other sires, given a constant amount of feed consumed.

**Dry Matter Intake (DMI)**, expressed in pounds per day, is a predictor of difference in transmitting ability for feed intake during the post-weaning phase, compared to that of other sires.

**Yearling Height (YH)**, expressed in inches, is a predictor of a sire's ability to transmit yearling height compared to that of other sires.

**Scrotal Circumference (SC)**, expressed in centimeters, is a predictor of the difference in transmitting scrotal size compared to that of other sires.

## MANAGEMENT

**Claw Set (Claw)**, expressed in units of claw-set score, a lower EPD is more favorable, indicating a sire will produce progeny with more symmetrical, even and appropriately spaced toes compared to another sire.

**Foot Angle (Angle)**, expressed in units of foot-angle score, a lower EPD is more favorable, indicating a sire will produce progeny with an angle closer to 45 degrees at the pastern and appropriate toe length and heel depth compared to another sire.

**Dockity (DOC)**, expressed as a difference in yearling cattle temperament, with a higher value indicating more favorable dockity in a sire's offspring compared to another sire.

**Pulmonary Arterial Pressure (PAP)**, expressed in millimeters of Mercury (mmHg), with a lower EPD being more favorable indicating a sire should produce progeny with a lower PAP score to decrease the risk of progeny contracting high altitude disease most commonly experienced at 5,500 ft or greater in elevation.

**Hair Shed (HS)**, expressed in units of hair shed score, with a lower EPD being more favorable. This indicates a sire should produce progeny who shed their winter coat earlier in the spring and has improved environmental adaptability in heat stressed areas and grazing endophyte-infected (hot) fescue.

## MATERNAL

**Heifer Pregnancy (HP)**, is a selection tool to increase the probability or chance of a sire's daughters becoming pregnant as first-calf heifers during a normal breeding season. A higher EPD is the more favorable direction, and the EPD is reported in percentage units.

**Calving Ease Maternal (CEM)**, expressed as a difference in percentage of unassisted births, with a higher value indicating greater calving ease in first-calf daughters. It predicts the average ease with which a sire's daughters will calve as first-calf heifers when compared to daughters of other sires.

**Maternal Milk (Milk)**, expressed in pounds of calf weaned, is a predictor of a sire's genetic merit for milk and mothering ability in his daughters. In other words, it is the part of the calf's weaning weight attributes to milk and mothering ability.

**Teat Size (Teat)**, expressed in units of teat size score, with a higher EPD indicating a sire will produce daughters with smaller teat size compared to that of other sires' daughters.

**Udder Suspension (UDDR)**, expressed in units of udder suspension score, with a higher EPD indicating a sire will produce daughters with tighter udder suspension compared to that of other sires' daughters.

**Functional Longevity (FL)**, expressed in number of calves, is a predictor of the number of calves a sire's daughters are predicted to produce by 6 years of age compared to that of other sires' daughters. A higher EPD is the more favorable direction indicating more calves produced on average.

**Mature Weight (MW)**, expressed in pounds, is a predictor of the difference in mature weight of daughters of a sire compared to the daughters of other sires.

**Mature Height (MH)**, expressed in inches, is a predictor of the difference in mature height of a sire's daughters compared to daughters of other sires.

## CARCASS

**Carcass Weight (CW)**, expressed in pounds, is a predictor of the differences in hot carcass weight of a sire's progeny compared to progeny of other sires.

**Marbling (Marb)**, expressed as a fraction of the difference in USDA marbling score of a sire's progeny compared to progeny of other sires.

**Ribeye Area (RE)**, expressed in square inches, is a predictor of the difference in ribeye area of a sire's progeny compared to progeny of other sires.

**Fat Thickness (Fat)**, expressed in inches, is a predictor of the differences in external fat thickness at the 12th rib (as measured between the 12th and 13th ribs) of a sire's progeny compared to progeny of other sires.

## \$VALUE INDEXES

**\$Value Indexes**, expressed in dollars per head, are multi-trait selection indexes where a higher value suggests more profit. The \$Value is an estimate of how future progeny of each sire are expected to perform, on average, compared to progeny of other sires if sires were randomly mated to cows and if calves were exposed to the same environment.

**Maternal Weaned Calf Value (SM)**, expressed in dollars per head, predicts profitability differences in progeny due to genetics from conception to weaning by decreasing mature cow size and improving dockity, foot structure and fertility while maintaining weaning weights consistent with today's production.

**Weaned Calf Value (SW)**, expressed in dollars per head, provides the expected difference in future progeny pre-weaning performance from birth to weaning.

**Energy Value (SEN)**, expressed in dollar savings per cow per year with a larger value being more favorable. It assesses differences in cow energy requirements, due to maternal milk and mature cow size.

**Feedlot Value (SF)**, expressed in dollars per head, is the expected average difference in future progeny performance for post-weaning feedlot merit (growth and feed efficiency) compared to progeny of other sires assuming producers retain ownership of cattle through the feedlot phase and sell on a carcass-weight basis.

**Grid Value (SG)**, expressed in dollars per carcass, is the expected average difference in future progeny performance for carcass grid merit, including quality and yield grade attributes, compared to progeny of other sires.

**Beef Value (SB)**, expressed in dollars per carcass, represents the expected average differences in the progeny post-weaning performance and carcass value compared to progeny of other sires. This index assumes commercial producers wean all male and female progeny, retain ownership of these animals through the feedlot and sell on a carcass merit grid.

**Combined Value (SC)**, expressed in dollars per head, which includes all traits that make up both Maternal Weaned Calf Value (SM) and Beef Value (SB) with the objective that commercial producers will replace 20% of their breeding females per year with replacement heifers retained within their own herd. The remaining cull heifer and steer progeny are then assumed to be sent to the feedlot where the producers retain ownership of those cattle and sell them on a quality-based carcass merit grid.

From one of the industry's most prominent and highly respected cow herds is this incredible opportunity to acquire a flush from your choice of these two elite females. LT Nordica 6066 has helped anchor the embryo transfer program at Thiel Ranch for many years and is most widely recognized as the dam of the elite female sire, LT Converse. This matriarch Pathfinder dam has earned an impressive production record of BW 8@95, WW 8@107, and YW 6@106. Offspring include LT Nordica 0140 who produced a flush that sold for \$34,000 in the 2025 Foundation Angus Sale; LT Nordica 2067, who boasts a WR of 2@106; LT Nordica 3006 who just weaned her first calf with a WR of 105; and LT Converse who has produced 101 daughters with a WR of 101; 118 progeny with IMF @ 112. At nine years of age, this immaculate cow stands on incredible feet, possesses an ideal udder, and remains a fan favorite of ranch visitors. The buyer will get a minimum of six (6) embryos and a guarantee of three (3) pregnancies. Semen, flush costs and shipping of embryos are the buyer's responsibility.

In a herd that is filled with exciting and highly productive females, LT Elite Lady 2022 has earned her way to the donor pen and has quickly become one of the most impressive females within the Thiel Ranch program. This exquisite young donor cow combines impressive data with added fleshing ability, eye appeal, a refined udder, and rock-solid feet. "2022" has quickly assembled a track record of BW 2@99, WR 2@113, and YW 1@109. Most recently, her son, LT Anchor 4031, was the third highest selling bull of the 2025 Lindskov's LT Bull Sale at \$65,000 and is co-owned by ABS Global and Mason Ranch. Out of a dam with a WR of 4@104, with her grandam and great-grandam both achieving Pathfinder status, this young cow has all of the credentials you want in a herd-building foundation female. The buyer will get a minimum of six (6) embryos and a guarantee of three (3) pregnancies. Semen, flush costs and shipping of embryos are the buyer's responsibility.

Consigned by Thiel Ranch, Isabel, SD  
Brent Thiel (605) 848-1840

LT ELITE LADY 2022 - The exciting young donor that is the dam of LT Anchor 4031, who is now featured at ABS and one of the highly used young bulls across the country.

LT NORDICA 3006 - A two-year-old daughter of LT Nordica 6066 that weaned her first calf off with a WR of 105.

LT ANCHOR 4031 - The heavily used young ABS sire that brought \$65,000 and is a son of the Lot 37B donor.

LT NORDICA 2067 - A three-year-old daughter of LT Nordica 6066 with a WR of 2@106. Her first calf sold for \$47,500 to Smith Angus in Nebraska.

LT NORDICA 0140 - A mature daughter of LT Nordica 6066 that sold a flush in the 2025 Foundation Angus Sale for \$34,000.

# Yon Sarah D668 Flush Opportunity!

**LOT 38** - Yon Sarah D668 - You are getting the opportunity to flush this iconic female.

• From a program that recorded over 1,100 registrations in 2025, many influential females can be accredited for contributing to the success of Yon Family Farms, but it's irrefutable that the most influential female over the past decade is Yon Sarah D668. This incredible female is the dam of 196 progeny at Yon Family Farms and has 77 bull calves that compiled ultrasound scan data for IMF @110 and Ribeye @100. As indicated in this sale book and various semen catalogs, sons of this great female continue to remain in high demand for both AI studs and some of the breed's most respected Angus programs. D668 has produced over \$800,000 in progeny sales, with 63 head averaging \$13,210. More specifically, 12 females have commanded an average selling price of \$23,458. It's rare for a cow of this magnitude to surface within the breed; it's almost unprecedented for the general buying public to have an opportunity of this magnitude to acquire herd-changing genetics from her. The buyer will get a minimum of six (6) embryos and a guarantee of two (2) pregnancies. Semen, flush costs and shipping of embryos are the buyer's responsibility.

**POSS BLACKCAP 7152** - The dam of one of the most popular young sires in America, the \$150,000 Poss Pursuit.

An opportunity to flush the dam of the most exciting young bull in the U.S. right now, the \$150,000 Select Sires Roster Member, Poss Pursuit. Phenotypically he is as complete as you will find, with superb structural correctness, length, and an abundance of muscle and dimension that is often hard to find with his level of calving ease. At 124 \$M and 347 \$C, the powerful son of Lot 39 hits all the high points producers demand with modest CE, extra growth, fertility, foot quality and carcass quality. His dam may be the best part. She is a classic Compass daughter from the everlasting Blackcap cow family that needs no introduction whatsoever. When analyzing deep into the pedigree, you will see Compass x Capitalist x Lead On. Some of the very best maternal genetics to grace the Angus breed. Her production ratios add merit to the longstanding tradition of the genetics she comes from. A proven pedigree that provides predictability from maybe one of the best kept secrets in the Angus Breed... until now! She offers a 358-day calving interval and has recorded 5 calves at weaning for a 109 ratio. A reminder that there are 2 units of Schiefelbein Gable 311 semen selling Saturday night in the online sale as Lot 302. The flush will be available as soon as possible depending on if you choose spring or fall calves. The buyer will get a minimum of six (6) embryos and a guarantee of three (3) pregnancies. Semen, flush costs and shipping of embryos are the buyer's responsibility. Flush to be performed at Trans Ova. She has averaged 21.2 eggs on 5 aspirations.

**SPRUCE MOUNTAIN RANCH**  
**ANNUAL PRODUCTION SALE**  
SATURDAY, AUGUST 8, 2026 • LARKSPUR, COLORADO

This powerhouse donor is a full sister to EZAR Step Up 9178, the \$132,500 selection of Edisto Pines Farm as the one-time record-selling EZ herd sire now in the Select Sires roster. He is one of the most widely used bulls in the breed with his ability to consistently sire excellent phenotype while improving foot quality, PAP, HS and carcass traits, and building the \$M, \$B and \$C indexes to top 10% rankings. Lucy 9156 was selected by Spruce Mountain Ranch as the top-selling donor of the record-setting first AAA Farms sale and is a direct daughter of the \$240,000 valued prolific headliner of the Crazy K Ranch and EZ Angus donor programs, Lucy 4261, sired by the multitrait Big Step K715. Other full and maternal siblings include Lucy 8190, the \$200,000 valued half-interest selection of High Roller Angus as the top-selling open heifer of the first EZ Angus sale and Lucy 9300, the \$95,000 top-selling bred heifer of the 2020 EZ Angus Sale selected by Express Ranches and Pollard Farms. On the production side, the progeny of the Lot 40 donor include Lucy 2562, the \$110,000 selection of Express Ranches in the 2024 Spruce Mountain Sale; True Blood 3553, the \$30,000 selection of Vintage Angus Ranch in the record-setting first AAA Farms sale; Lucy 2563, the \$30,000 selection of Autumn Star Ranch in the 2024 Spruce Mountain Sale; and a \$30,000 heifer pregnancy selling to Hopson Angus. Spruce Mountain Ranch as well as Hopson Angus both sold \$150,000 valued female in their fall production sales. The buyer will get a minimum of six (6) embryos and a guarantee of three (3) pregnancies. Semen, flush costs and shipping of embryos are the buyer's responsibility.

## BULL SALE

November 14, 2026 • Bigfork, MT

- Selling an IVF aspiration from Montana Emblynette 2100 to the sire of the buyer's choice with a minimum of six viable embryos and no cap. IVF aspiration/fertilization/semen/freezing costs are the buyer's responsibility.
- Emblynette 2100 was selected by Front Range Cattle as the \$44,000 second high-selling bred heifer of the 2023 Montana Ranch female sale and has since become an overwhelming visitor favorite for her power, center mass, impeccable breed character and ideal udder structure. Her first daughter, Emblynette 4100, went to Roberts Angus for \$77,500 in the 2025 Montana sale, posted ratios of BW 95, WW 100, YW 100, IMF 124, and RE 118.
- Her dam, Emblynette 8255, was a \$140,000 featured donor in the 2025 Montana sale selling to Voss Angus and ZWT Ranch, and is from the same mating that produced the \$230,000 SAV Territory 7225.

This is as exciting and current of a mating as we may have in the sale book. Sired by the \$1.4 Million valued LT Marquee 169L, a sire with total outcross lineage and generations of Angus cattle excellence in his pedigree are highlighted stemming from the Longshore herd. He's got the power, body and structure that is a hard combination to come across in a mature herd sire. The dam is the fresh, new donor in a storied program known for the high-quality seedstock bred and produced on a daily basis. Buyer will receive three (3) IVF embryos with a guarantee of one (1) pregnancy when implanted by an accredited technician. Shipping is the buyer's responsibility.

- Consigned by Lindskov's LT Ranch, Isabel, SD
- Bryce Lindskov (605) 850-3887
- Todd Lindskov (605) 850-8132
- Jimmy Joe Henderson (403) 740-9270

- From one of the most reputable and well-established firms in the industry, that has continually produced one of the most successful bull sales in the country, comes an opportunity to flush their next up and coming donor that has the whole crew at Lindskov LT Ranch extremely excited. LT Nora 0247 will excite you, too, when you see her video on the big screen in Denver. She is exceptional in her type and kind. For the captain at the helm to say this is the next great donor of the program that sold 235 bulls in 2025 to gross \$4,358,500 and average \$18,546 per bull, is something to pay attention to! She is simply built like an Angus cow should be. LT Nora 0247 has more Pathfinder individuals in her pedigree in the last three generations than most Angus pedigrees. She comes from an elite productive cow that achieved Pathfinder status with a WR of 6@107 as well as a YR of 4@107. Her dam is owned by Nate Frederickson of South Dakota. LT Nora 0247 is currently nursing a fall bull calf and has had 4 bulls, so you will be on the ground floor of the maternal side of her greatness.

- The sire of LT Nora 0247 was a selection of Brent Thiel's from Lee Van Dyke's bull sale in 2015. VDAR Sonny Boy 1194 was sired by VDAR Hero 7072 that had sired the top-selling bulls for a few years prior. VDAR Hero 7072 goes back to Hero 6267 of RR 2418, a trait leader for calving ease, weaning weight, udder improvement and a disposition improver.
- This donor will outcross to anything popular – the breeding possibilities are endless!
- The buyer will get a minimum of six (6) embryos and a guarantee of three (3) pregnancies. Semen, flush costs and shipping of embryos are the buyer's responsibility.
- Consigned by Lindskov's LT Ranch, Isabel, SD
- Bryce Lindskov (605) 850-3887
- Todd Lindskov (605) 850-8132
- Jimmy Joe Henderson (403) 740-9270

## INGRAM ANGUS PRODUCTION SALE NOVEMBER 6, 2026, PULASKI, TN

- This special sale attraction is a featured flush from the \$185,000 one-half interest for a \$370,000 valuation, Coleman Donna 0153. She was selected as the pick of the Ingram Angus program through the 2023 Your Maternal Source Sale as a featured Lot 1 female in that event. The outstanding Pathfinder dam has a progeny production record of BR 3@89, WR 3@109, YR 2@106. She is the mother of the \$150,000 one-half interest, top-selling bull of the 2023 Coleman Angus Spring Bull Sale for a \$300,000 valuation, the GENEX Beef AI Sire, Coleman Below Zero 2106.
- Coleman Avalanche 487, another son and full brother to Below Zero, is the \$500,000 valued feature through the 2025 Your Maternal Source Sale where he sold one-half interest to Montana Ranch and Canadian Sires. Avalanche is a standout individual that has been used heavily in the Coleman Angus and Montana Ranch programs, and is represented by generations of high-maternal genetics backed by Pathfinder dams.
- Coleman Donna 8147, the Pathfinder dam, has a progeny production record of BR 4@94, WR 4@105, YR 4@102 with two daughters in production with an average nursing ratio of 105. She is a full sister to Coleman Donna 8146, the \$375,000 leadoff cow of the 2023 Your Maternal Source Sale, where she sold one-half interest for a \$750,000 valuation going to ZWT Ranch of Tennessee. The buyer will get a minimum of six (6) embryos and a guarantee of three (3) pregnancies. Semen, flush costs and shipping of embryos are the buyer's responsibility.

This maternal sister of Pathfinder Coleman Donna 439 has a progeny production record of BR2@89, YR 2@101 and her dam records BR 7@92, WR 7@106, YR 6@106 with 26 daughters in production with an average nursing ratio of 104. Coleman Donna 439, her Pathfinder dam, is a featured Lot 1 female of the 2023 Your Maternal Source Sale where she sold for \$175,000 one-half interest for a \$350,000 valuation and went on to produce \$1,455,250 on 54 head to average \$26,950 in past Coleman Angus sales. She is the mother of an array of featured herd sires including the \$270,000 record-selling Coleman Glacier 041, the \$55,000 Coleman Mission 1447, the \$30,000 Coleman Ranger 029, and the now-deceased herd sire Coleman Ace 989. Maternal sisters, who are featured donors in the Ingram Angus program, include the \$240,000 valued Coleman Donna 1448 and the \$240,000 Coleman Donna 046. Coleman Playmaker 427, a full brother to the dam, is a featured member of the GENEX Beel AI Stud and a calving-ease sire whose influence has impacted programs around the country. The buyer will get a minimum of six (6) embryos and a guarantee of three (3) pregnancies. Semen, flush costs and shipping of embryos are the buyer's responsibility.

A great blend of phenotype and quality as this is one of Stunner's grandest daughters. She holds a NR of 4@103 and comes from a Pathfinder grandam who holds a WR of 4@107 and a Pathfinder great-grandam that has a WR of 12@110. This female is just strong to write her story as her first daughter, sired by Spring Cove Grant 200K, sold at public auction topped the 2025 Spring Cove Ranch Female Connection Sale at \$80,000 to Guess Cattle Co., Tulare, CA, and Rhoades Ranch, Cambria, CA. That daughter was powerfully built, broody, stout and maternal... just like her mother. She also produced the high-selling flush at the 2024 Kern Cattle Coast to Coast Sale. If you are looking for the udder quality, fertility, production and look you have come to expect out of the Musgrave program and this popular cow family, take a look here. The buyer will get a minimum of six (6) embryos and a guarantee of three (3) pregnancies. Semen, flush costs and shipping of embryos are the buyer's responsibility.

- This productive female came to our donor pen with partners from Australia as a feature in Sitz's 2021 Fall Female Sale. She has already put two bulls into AI studs with the ABS sire, Sitz Response 8659, and the GENEX sire, Sitz Elevate. Another son was picked up as a herd bull for Raven Angus in South Dakota in 2025, Kovarik Chief 315 for \$38,000. She has a solid production record at Sitz Angus, one of the most storied cow herds in America: Birth Ratio of 98, Weaning Ratio of 105, and Yearling Ratio of 105. Her second dam achieved Pathfinder status in the same prolific Sitz cow herd. The buyer will get a minimum of eight (8) embryos and a guarantee of three (3) pregnancies. Semen, flush costs and shipping of embryos are the buyer's responsibility.

- A flush to a proven donor that we acquired this past fall at Vintage's Genetic Gold Female Sale. She was selected for her combination of calving ease, growth, carcass, and teat/udder genetic predictions. The 5H63 progeny were very well received as a V A R Cornerstone yearling heifer sold to Select Sires for \$30,000 and a C5 Ezekiel weaned heifer calf sold to Edisto Pines for \$25,000. We also acquired a son of 5H63, V A R Salvation 4179, in Vintage's Carcass Maker Bull Sale for \$17,000. 5H63's donor dam is a foundation female that was bred by Chuck Grove and his family in Virginia; she has produced more than \$500,000 in progeny sales for 4 Sons in Kentucky. 5H63 has averaged over 20 embryos per flush so the no cap on embryos makes this a surefire investment! The buyer will get a minimum of six (6) embryos and a guarantee of three (3) pregnancies. Semen, flush costs and shipping of embryos are the buyer's responsibility.

- The dam of the \$56,000 two-thirds interest top-seller of his calf crop, V A R Cornerstone 1315, who has set the Angus world on fire with his progeny acceptance at Baldrige and Vintage. He anchors her more than \$200,000 of progeny sales at Vintage; this proven young donor has a bright future ahead with Hornung Livestock. With an average progeny weaning ratio of 2 at 105, her dam records an average progeny weaning ratio of 2 at 104, and an average progeny yearling ratio of 2 at 104; five daughters of this exciting donor have sold at Vintage for an average of \$15,300. They include a \$22,000 selection of Wilks Ranches, a \$20,000 selection of Cox Cattle Company, and \$15,000 selections of Dixie Valley and Hinkson Angus. Other sons of hers sold for \$14,500 and \$10,000 in the 2023 Vintage bull sale.
- The buyer will get a minimum of six (6) embryos and a guarantee of three (3) pregnancies. Semen, flush costs and shipping of embryos are the buyer's responsibility.

- Kenny Annie 2924 is a rare breeding piece that blends undeniable phenotype and power with an impressive diverse and influential pedigree. She was the record-selling heifer of the 2023 Kenny Angus Sale, commanding \$65,000 for half-interest to GMC. Her maternal strength runs deep; her brother, Kenny Rogers, brought \$135,000 to STgenetics, and Baldridge Performance Angus invested in half of their dam, Annie 532. She backs her look with elite genetic merit, ranking in the top 25% of the breed for 21 EPDs and \$Values, highlighted by top 4% RE, 5% Claw, 10% Docility, and 20% PAP. Her structure, claw design, and quiet disposition are second to none and exactly what progressive breeders demand. In 2025, 30% of all eggs transferred at Kenny Angus originated from this donor – used across six different sires – showing the confidence she inspires and the versatility she brings. No matter the direction of your program, this female fits the mold and elevates it. Demand has followed her every time her genetics have been offered, and she has all the credentials to lead any program to new heights. The buyer will get a minimum of six (6) embryos and a guarantee of three (3) pregnancies. Semen, flush costs and shipping of embryos are the buyer's responsibility.
