Ohlrichs & Friends

COMMERCIAL MAN'S

Bull Sale

MONDAY, February 2, 2026

1:30 p.m. at the OHL Ranch | Norfolk, Nebraska

WELCOME to our 19th Ohlrichs & Friends Annual Bull Sale. We must start out by saying how blessed we are to be in the beef industry in the good times like we are in right now. We all know how long over due it has been. We are greatful and blessed for our families and all our friends - that includes all of you reading this. The hay crop and pastures ended up being really good for us and those in our area. We know Mother Nature is in control and tests us to the limits. As always, she never lets us down and her own ways of going about it. We just have to have the faith.

Again this year we appreciate Mark & Deb Core and Jared & Bailey Boyert and family for sharing with us and offering to you another set of top quality bulls. Every year we come to expect the best from our cows and the calf crop they raise for us - they have not disappointed. We are diligent about their maternal abilities, the performance that is in the calves they raise and by all means their looks is equally important to us. If they work for us, we have all confidence that they will go on and be profitable for you as you take them home to better your herd.

Much thanks as always to our numerous helpers all fall and winter. You all are invaluable to us and appreciated more than you know. It takes many people to make our sale successful - Friends and Neighbors - THANKS. A huge Thank You to all of our bidders and buyers. Please shout at us with any questions or just call to visit.

GOD BLESS A Happy and Healthy and Prosperous 2026 to ALL.

****We are offering \$100 per head off of each lot
if you take them home on sale day!

CORE **NOWS THE TIME** 268N

01.31.2025 \ ID 2684 \ Polled \ Black \ Angus \ AAA Eligible

ROSE McENCORE 0463

SIRE: ROSE REPLAY 3321 (AAA20833206)
UDE QUEEN RUTH 0204

SCC SCH 24 KARAT 838

DAM: PLUM CREEK ANNIE LU 2684 (AAA 20439278)
PLUM CREEK ANNIE LU 4472

BW: 90 lbs. / AWW: 777 lbs.

We could not be more confident that now is definitely the time to take a serious look at Core Nows The Time 268N. This Replay sired son will not disappoint you from whatever priority you have in selecting bulls. We generally wean our bulls a bit earlier than Wayne and Barb because of our fall heifer sales. However we manage them in a way to keep them fresh and green and then explode at the bunks when they get to Norfolk. We think that is better for the bulls and Ohlrichs are magic at knowing just how to feed them in a way that gets them in perfect working shape for you the bull buyers. The reason I say that is because every time Barb would call she would say Deb you cannot believe how good this Replay bull of yours looks. It is just what you want for a bull, to continue to mature into what you knew he had the potential to do. The way he combines look, structure, power and growth is harder to find than you think. Every bull sent to the OHL from Pleasantville this fall comes with power in the cow behind them. The mother of this bull is a 24 Karat and a direct daughter of our 4472 foundation donor. His mother is also a full sister to the incredible Annie Lu 230K. The point of this is that the 4472 female line has been magic and we owe that cow family a great deal of gratitude. Make no hesitations here.

DAM: CORE MISS RUTH 502 179J (AAA 20860586)

KDJ QUEEN RUTH 502

Like many breeders who have been in the business for awhile, you eventually learn the important lesson that it is all about the cow family behind the great ones. This bull goes back to the legendary Queen Ruth 502. She has put really good cattle in our pasture year in and year out. If we can continue to breed cattle as genuinely good in natural shape, with a great set of running gear under them and the look of a really functional and progressive Angus bull like this bull does I am happy with our product. Sired by Rose Replay 3321, this bull did a heck of a job raising a great set of females in our fall heifer sale. Whether it is the quality you see in this bull looking at him or his great genetics behind him, just study him close and let him add value to your program.

BW: 87 lbs. / AWW: 742 lbs.

OHL BLABBER MOUTH 3215A

Earlier this spring the thought entered our minds to cut this guy for a cool simmy steer. Guess we just could not make ourselves do it because of his genetic value and then to let him pass it on. This guy has that perfect square hip and as sound of a running gear as you can find. A bonus is his exceptional hair. If you have a bunch of crossed up cows at home that you have raised those valuable show steers out of, this is a genetically clean bull that would be just the ticket. His dam and granddam have produced the good ones every year and so will he. Make your dreams come true.

OHL TOO MUCH FUN 462-1B

We could write a book several pages long about this bulls pedigree. That would include a whole chapter or two on both the dam's side and the sire's side with all that they have done for our program and other breeders as well. His Round Up /Steel Force/ Saugahatchee dam produced one of our high selling bulls in the bull sale last year. His sire Livin' The Dream was our high seller a couple years ago and has sired countless good ones for many all across the U.S. Best way to describe this bull or better yet, the best advice would be to just buy this Livin' The Dream son and turn your Dreams into Reality. He will do it making you bulls or females.

BW: 90 lbs. / AWW: 701 lbs.

DAM: JSZC TSSC LARISSA 49G ET (LFF2265535)
RIVERSTONE CHARMED

We purchased some Larissa 49G embryos from Schaeffer/Tice. She is quite possibly the best producing female of any breed out there. No matter how they have mated her, she seems to knock it out of the ball park. They were all supposed to be females eggs but we got lucky and one turned out to be a bull. Folks we probably should not be selling this one and just keep him here at the OHL. This is a very rare opportunity to be able to find a bull out of 49G because most of them are females. This bull is just a real stud. There is no doubt in our minds that he will produce like his mother and his sire. No matter what the dollars are that you spend to take him home with you, your investment will be cheap. Do not miss out on this great opportunity.

BW: 94 lbs. / AWW: 761 lbs

It is not often you have the opportunity to purchase a bull out of a female that won the two most prestigious titles in the competitive show ring. This bulls mother was selected Supreme Champion female at both Kansas City and Louisville in 2024. When we bring a new potential donor into production we have to have a high confidence level that they are going to contribute in a big way. We purchased this bulls mother from Buck Cattle Co in Oklahoma. Jared had found her when he went down to look ahead of their sale and told Mark if you are wanting to add a really good one to your donor group here she is. Eventually the Curtain family purchased one half interest in this female to become our partners. So now it is time for her to really prove herself and I would say she stepped up to the challenge with this Bushs Lite son. Buy with confidence for quality calving ease genetics and maternal likewise.

JSUL RED THUNDER 9051W

Whole hearted honesty and when you know, you just know when you have that special one from the get go. When you look at this one he just gives you goose bumps all over. He is sired by Chances R which is one of our new herd sires. Chances R has met our expectations and then we can safely say that he has exceeded our expectations. We mated him to Foxy (Style x Red Thunder) and this guy is truely the real deal. We could go on and describe this bull all day long but lets make it short and sweet. This one is very SPECIAL. These kind do not come around very often. Chances R (are) that this guy is going to put you in the drivers seat.

DAM: BS KOW GIRL (ASA 4167141)
BS MISS DEW 925G

This is the first year for our Chances R calves to have hit the ground and yes we even used him heavier this past spring. He went way past our expectations. The dam to this bull is only a second calver and is doing an incredible job. He has the structure to live in any environment you need to put him in. He has the easy fleshing body with a long quarter when you look at him from the side and maintains the muscle shape he needs for extra pounds. Just a very classy lookin' dude. We are very hard on our cows. Each and everyone has to work. At a young age this female is proving to be a rock star and so will this bull.

MISS ROXY

Our Stormy cow has been a very consistant producer and donor. Even though she is over a decade old her natural calves are always topping the scale in the fall at weaning. There are several of her daughters back in our herd. We actually have females back out of the Stormy cow family for three generations. She has even produced the Reserve Supreme Female at the Iowa State Fair FFA show. Ask us if you should be keeping females out of this bull. Just as important is the top end weaning weights we have in the Fall.

BW: 90 lbs. / AWW: 804 lbs.

Probably the best description of this bull to give is that he is built like a big burley running back that plays for the NFL. He is chuck full of meat and still as athletic as they come. Special note, his dam is one good looking female with a picture perfect udder. No question that this ole boy will put on the extra pounds as his calves go across the scale and that means more dollars in your pocket.

OHL CREAM PUFF 365N

Most of us do not really care to have twins at calving but there are always those exceptions. This is a pair you never mind having. Our 765 cow is a combination of two of the very best cow families we own. These Next Level bulls, and with mama's pedigree, will just take your cows to the next level. Maternal power goes back for several generations on the dams side. Lots of power from the sires side also. If you are wanting the maximum performance you can get having pounds on the scale and adding those top quality replacements back into your herd, these two brothers will do it!

BW: 90 lbs. (TWIN) / AWW: 767 lbs.

SCC JANE'S TIME CHANGE 5003

This guy simply is a pound maker. From the time he hit the ground he has not stopped. It is going to be fun to run him across the scale in a couple of weeks just to see how great he has performed. Very positive that he will be one that is on the top end of the heavy weight list. Not only does he weigh well, he lacks nothing in terms of quality and structural correctness.

MISS ROXY

Stormy is no spring chicken any more and has been a donor for us all along. She has produced several champions for us in the showring including the Reserve Supreme Champion heifer at the Iowa State Fair FFA show. But, the most impressive accomplishments are the weaning weights of her natural calves. The past two years they have surpassed 900 pounds coming right off of her at weaning. That is impressive. These cattle also have the good looks with the extra body and power and still maintain smoothness. The females back out of Stormy and what they have done for us would be an additional page of footnotes. What ever price this fella brings is gonna be cheap. He will make you your money back ten times over.

Who does not love a baldy especially when it comes in a calving ease package? This bull is very good headed, smooth shouldered and has length of body. This Bet On Red female put it all into her calf. We understand why the semen is worth what it is and with the job this heifer has done.

DAM: OHL LIPSTICK 3246L (ASA 4302661)
BBR EXCLUSIVE 771E ET

We expect a lot out of our first calf heifers and man have they delivered. First of all we do not have enough Stillwater females for the job that they are doing for us. Their udder quality and the power and performance and the look that they put into their calves is second to none. If you would like to make a set of brockle face or baldy calves that your neighbors would envy and still be top sellers at sale time, look no farther. This guy has a big powerful hip and tremendous muscle shape down his top and the length of body that will add pounds and weigh heavy. He is for real.

F A ROSE 925

We were hoping this mating was going to produce us a female because father of time is starting to catch up with bulls dam. But even at her age (11 years old this spring) she has not backed off one bit in terms of performance. Again, another bull with performance and lots of maternal to back him up. Do not miss this chance to take this bull home and to keep moving your herd beyond expectations.

Pounds, pounds and more pounds. When the market is what it is right now this may be as profitable of a bull that there is in the whole entire sale. We have built on this cow family for the last five generations and it has paid off. This bull weaned right off of the cow at 946#. With all that power he is still made real smooth. Weight and maternal go hand in hand here. This bull is not a pick-up truck, he is a semi truck. We will raise this kind all day long for our customers. Call him a beast or a truck and/or profitable whatever you want.

A year ago this last fall we had to let Round Up go. He was a Bankroll out of the great RJ Rita cow. Round Up left us with an incredible set of females. A full sister to this bull was Reserve Foundation Simmy female at the NWSS for the Schroeder family. If you want the extra growth and stretch in your next calf crop this is the one to help get it done. He will also produce you a set of females that will be second to none and will be able to write their own story book.

AC MISS LORETTA 701

This is our one and only fall bull. If you want a bull to take home right away and go to work, do not hesitate with this fella. There are several bulls in the sale that are out of Stillwater cows. They produce like no other. Stillwater mated to a Style/Lutton cow makes them even better. He will fulfill the performance and maternal side as well as cover a lot of cows. He also has the looks as an add on.
