FOREWORD

Welcome to the 2026 Red Bluff Bull and Gelding Sale! What an exciting time to be in this industry!!

The Red Bluff Bull Sale, a non-profit corporation, continues to be the gold standard of consignment bull sales. What makes Red Bluff unique is the opportunity to view a variety of breeds from scores of different breeding programs all in one place and time. 2024 marks the 85th anniversary of progressive minded breeders competing and marketing bulls at Red Bluff. We would like to thank our long-time corporate sponsor of the Red Bluff Bull Sale, Zoetis. Along with other generous sponsors which make Red Bluff a top-quality event!

Bulls sold at Red Bluff are held to the highest standards. All bulls sold on Saturday, January 31st have passed through a strict sift for soundness and structure. Each entry has been tested for trichomoniasis, and P.I. BVD, semen tested and have a health certificate. Sifting and grading of the range ready bulls will take place at 9 AM on Tuesday and the halter bulls will continue Wednesday at 9 AM. Unsound bulls or bulls grading under 87 are sifted and not allowed to sell. You can buy with confidence at Red Bluff. If you are planning on taking a bull to a state that requires a TB test or Brucellosis for entry you will need to have that test performed after the sale at your expense. Please check with management before you buy. Our calving-ease section offers Angus, Red Angus and Herefords. All calving ease bulls are required to have a birth weight of 80lbs or less. Black Angus must have a BW EPD of 1.8 or less and the sire and dam must have a BW EPD 1.3 or less. Red Angus, a BW EPD of -1.8 or less and -.5 for the sire and dam. Herefords, a BW EPD of 1.5 or less and 2.5 or less on the sire and dam.

Once again, this year make sure to look for the lots that have been Zoetis 50K tested. These results will appear with each of the lots tested. This important technology is a valuable selection tool when you are looking for bulls to strengthen certain traits in your herd. For further information on each bull, you can visit our website. On our website the bulls will be linked to their association page, offering buyers an easy way to view complete pedigrees and EPD profiles.

Red Bluff Sale profits are used to support cattle and horse industry related causes and ag related youth activities and events. The Red Bluff Sale Committee members all serve as volunteers and are non-paid members of the board of directors. Directors have never received any compensation. Last year donations exceeded \$50,000!

Red Bluff Bull Sale Volunteers and staff work year-around to organize the week's events. We look forward to sharing the excitement of this year's Bull Sale. If you're in the market for stout, useful herd improving bulls, make plans to be in Red Bluff January 27th-31st!

Arena Floor Seating Pre-Sale \$40/person, \$45 at the door;

V.I.P. Premier Seating, Reception, Appetizers: \$100/person

PLEASE READ CAREFULLY

TERMS & CONDITIONS OF SALE

Buyers at this sale are bound by the terms and conditions set forth herein and are requested to please read these terms and conditions of sale. Each transaction in this sale is governed and controlled by these terms and conditions. All animals are sold in this sale "As Is" without warranty. Prospective Buyers are strongly encouraged to inspect each animal to determine its condition and to speak with the consignor/seller about any concerns. Neither the Red Bluff Bull Sale Committee, Inc., nor its directors, officers, or representatives nor the Auctioneers assume any liability, legal or otherwise, in connection with any sale or transaction conducted under the terms and conditions herein.

1. Every effort has been made to assure the correctness of the catalog; however, neither the Red Bluff Bull Sale Committee, Inc., its directors, officers or representatives, nor the Auctioneers are responsible for any errors or omissions in the catalog and assume no liability whatsoever. Any statements made in the catalog about an animal are made solely by the consignor/seller. All animals are offered for sale according to the laws of the State of California. No representations or warranties, express or implied, as to the soundness or fitness for any purpose of any animal offered in this sale is made by the Red Bluff Bull Sale Committee, Inc., or the Auctioneers. All Bulls in sale are guaranteed semen tested within 30 days prior to sale. Each Consignor/Seller guarantees that the bulls he/she consigns to the sale will breed.

Buyers suspecting a bull purchased at Red Bluff to be a non-breeder for any reason must notify the Red Bluff Bull Sale Committee regarding such bull within 90 days of the date of sale. The committee will have an examination made by a competent veterinarian. The Committee reserves the right to call in their own veterinarian if they deem it necessary. If it is determined that the bull is a non-breeder, the consignor will be required to either compensate the buyer for the difference between beef value of the bull and purchase price, or return the entire purchase price to the buyer and take the bull back at his own expense. If the buyer wishes to replace the bull, and the consignor is willing to settle in this manner, it will be satisfactory to the Bull Sale Committee. The Red Bluff Bull Sale Committee will act as AGENT ONLY. All responsibility lies between the consignor and the buyer.

2. All animals consigned and not sifted must be sold through the auction ring sale day in their respective sale order. Consignors shall not "bid in" bulls. Each animal, except those in pens, will be sold separately to the highest bidder. There will be no choosing from pen lots unless announced by management prior to sale.
3. The highest bidder, as recognized by the Auctioneer, shall be the Buyer of the animal auctioned. If any dispute arises as to bids, the Auctioneer will award the animal to the person from whom the Auctioneer recognized the last bid, or in the Auctioneer's sole discretion, all bids may be declared off and the Auctioneer may resell the animal in dispute. The Auctioneer reserves the right to reject any and all bids.
4. Title to and risk of loss passes to the Buyer when the Auctioneer's gavel falls at which time the animal is considered sold.
5. Terms of sale are cash, check, Visa, or MasterCard. A four percent (4%) service charge will be assessed to all credit card purchases. Payment in full must be made immediately after the animal is sold to the Buyer. The Buyer shall sign an acknowledgment of purchase. All checks must be made payable to the Red Bluff Bull Sale Committee, Inc. All "returned" or "insufficient fund" checks will be subject to civil penalties and collection actions, and will be immediately turned over to the District Attorney for criminal prosecution.
6. No part of the purchase price may be paid directly to the consignor/seller by the Buyer. Any such payment will not be applied toward the purchase price and will not be recognized to entitle the Buyer to obtain the animal.
7. Upon receiving full payment for the animal, the cashier shall issue an order to obtain delivery. Buyers assume all expenses and risks on animals after they have been struck down. Animals must be removed from the Fairground premises before noon the Sunday following the sale. Buyers must arrange with consignor/sellers for care of their animal until it can be removed.
8. All registration transfer papers will be withheld by the sales management until all checks clear the bank, at which time they will be mailed to the appropriate Breed Associations.
9. Attorneys Fees: In the event any action is brought to enforce these transactions by either party, then the successful party will, in addition to such other or additional relief as may be ordered by the court, be entitled to court costs and reasonable attorneys fee in an amount to be fixed by the court.

Buyers and spectators are cautioned to be careful while on the grounds. The management and the Red Bluff Bull Sale Committee, Inc. will not be responsible for accidents. ALL PARTICIPANTS AND SPECTATORS WAIVE ALL CLAIMS FOR LIABILITY FOR INJURY AS TO MANAGEMENT AND THE RED BLUFF BULL SALE AND THEIR AGENTS AND ASSUME SOLE RISK OF INJURY WHILE ATTENDING SHOWINGS AND SALES.

EPD's

EPD's (Expected Progeny Difference) are the best method of comparing genetic differences between bulls of the same breed. Bulls consigned to the Red Bluff Bull Sale come from very different environments and feeding programs. Comparing weaning weights or visually comparing bulls raised in dramatically different environments is not valid. Use of EPD's helps to reduce environmental differences in our comparisons.

When using EPD's, the largest EPD does not necessarily mean the best animal for your program. You must target EPD's for your own operation. Under extremely limited feed conditions, for example, high milk EPD's may not be desirable. Remember only to compare EPD's within breed and evaluate EPD's relative to the breed average.

EPD's posted in the catalog are at the time the catalog was put together.

EPD INFORMATION

- EPD's: Expected Progeny Difference (EPD) - The estimate of how the future progeny of each sire is expected to perform in each of the traits listed, as compared to other individuals within that breed. EPD's are expressed in the form of pounds.
- CED: Calving Ease Direct: A higher value indicating greater calving ease. It predicts the average difference in ease with which a sire's calves will be born when bred to first-calf heifers.
- BW: Birth Weight EPD - The expected progeny difference in average birth weight in pounds of progeny. Sires with lower birth weight EPD's should, in general, sire calves that will be born with less calving difficulty.
- WW: Weaning EPD - The expected progeny difference in average weaning weight in pounds of progeny. A sire's weaning EPD is an indicator of a calf's growth to weaning.
- YW: Yearling EPD - The expected progeny difference in average yearling weight in pounds of progeny. The yearling EPD is a calf's growth from birth to one year of age.
- Milk: Milk EPD - The genetic ability of a sire's daughters to produce milk, expressed in pounds of a calf's weaning weight.

2025 BREED AVERAGES

**PLEASE NOTE: The following Active Sires EPD figures are current breed averages.
Do not compare EPD's of one breed against another breed.**

In Memory of... *John Owens*

This memorial is dedicated to the life and legacy of John Burton Owens (July 24, 1948 - October 6, 2025) - John came from cattle industry roots that ran deep, particularly through the Red Bluff Bull and Gelding Sale held each January. His grandfather, Roy Owens, helped found the sale, his father, Jack Owens, faithfully carried on that tradition, and John, as a teenager, stepped into his own role alongside them. What began as a family commitment became a lifelong constant woven into John's story. That thread continues today through John's wife, Candy, his sons, Nathan and Bryan, and their families, who have carried the tradition forward.

John took the utmost pride in his cattle, dedicating himself to building a herd that reflected his remarkable eye for genetics and quality. Alongside his cattle, John had a deep affection for his horses and dogs, treating each with respect and care, as both loyal companions and essential partners in ranch life. His devotion to the land and the animals he tended was a legacy he carried with pride, and one that continues to live on through his family.

John served as a Director of the Red Bluff Bull and Gelding Sale for many years, and went on to serve as president from 2011 to 2019, giving freely of his time, knowledge, opinions, and leadership. He believed deeply in the importance of the sale - not just as an annual event, but as a cornerstone of the cattle community and standard for quality livestock on the West Coast. His involvement was never about recognition, but about doing his part to support an institution he believed in.

Though he will be deeply missed, the love he shared and the values he lived by, including his guiding principle that "My word is my reputation," will continue to guide and inspire all who were fortunate enough to know him.

Over the years, John was the volume bull buyer at the RBBGS on many occasions demonstrating his belief in the sale through action, investment, and steady presence year after year. In recognition of John's lifelong commitment to the Red Bluff Bull and Gelding Sale, his unwavering support of its consignors, and his deep belief in the quality the sale represents, the Volume Bull Buyer Award will now be known as the John Owens Memorial Volume Bull Buyer. This honor reflects not only the number of bulls purchased, but the spirit in which John approached the sale - with loyalty, integrity, and unwavering commitment to the cattle industry.

TOUGH ON TOUGH WORMS, EASY ON CATTLE PRODUCERS.

VALCOR[®]
(doramectin and levamisole injection)

You can achieve effective parasite control in one product, where before you may have needed two. Valcor (*doramectin and levamisole injection*) is the first prescription cattle dewormer with two active ingredients in one dose. It's never been easier to be tough. Get tough at ValcorTough.com.

IMPORTANT SAFETY INFORMATION: Do not treat cattle with Valcor within 15 days of slaughter. Not for use in female dairy cattle 20 months of age or older, including dry dairy cows; not for use in beef calves less than 2 months of age, dairy calves, and veal calves. Safety has not been evaluated in breeding bulls. Use with caution in cattle treated with cholinesterase inhibitors. This product is likely to cause injection site swelling; tissue damage (including granulomas and necrosis) may occur. These reactions have resolved without treatment. See Brief Summary of Full Prescribing Information on the next page.

zoetis

Nasalgen[®]3-PMH

The color of unmatched protection.

The first and only intranasal BRD vaccine against viral and bacterial pneumonia.

NASALGEN[®]3-PMH is the first intranasal vaccine that effectively protects beef and dairy cattle against five major causes of respiratory disease in one dose:

- Bovine respiratory syncytial virus (BRSV)
- Infectious bovine rhinotracheitis (IBR)
- Parainfluenza 3 (PI₃)
- *Pasteurella multocida*
- *Mannheimia haemolytica*

Easy to administer.

- Eliminates the need and stress of two separate vaccines
- Single 2 mL dose in one nostril

Unique blue shadow for confident administration.

- Avoid missing calves or double-dosing

Duration of immunity (DOI).

- 11 weeks: BRSV
- Six and a half months: IBR
- Three months: PI₃
- Four months: *P. multocida*, *M. haemolytica*

Mounts strong, early response for powerful, long-lasting protection.

- Mimics natural exposure to the most common causes of pneumonia for an effective immune response

No injection site reactions.

- Helps your operation meet Beef Quality Assurance standards

NASALGEN 3-PMH: The one and only.

- Designed with an IBR that is not temperature-sensitive, ensuring the vaccine will replicate and protect in any situation¹
- Proven safe in pregnant cows and in calves nursing pregnant cows building a strong foundation for disease protection.

¹Grissett GP, et al. Effect of Ambient Temperature on Viral Replication and Serum Antibody Titers Following Administration of a Commercial Intranasal Modified-Live Infectious Bovine Rhinotracheitis-Parainfluenza-3 Virus Vaccine to Beef Cattle Housed in High- and Moderate-Ambient Temperature Environments. *Am J Vet Res.* 2014;75(12):1076-1082.

Raise the **STEAKS**

**The North State's best Steakhouse
is waiting to exceed your expectations.**

Fresh seafood and tender hand-cut steaks are just the beginning at Six Two Eight Steakhouse! Indulge in our sommelier's wine curations, over 120 bourbon and whisky options, and our amazing desserts. You and your guests are all that's required to complete the perfect, fine dining experience!

BAKER ANGUS RANCH

ANGUS ADVANTAGE BULL SALE

SATURDAY 12 NOON • VALE, OREGON
FEBRUARY 28

Selling 150 Bulls
18-MONTH OLD ANGUS BULLS
A SELECT GROUP OF BRED AND OPEN FEMALES

THE **BAKER** **ANGUS** **ADVANTAGE**

Our age-advantaged bulls are available in volume! These bulls out of top sires can increase consistency and marketability in your calf crops.

As the second-largest registered Angus cowherd in Oregon calving out 600-plus females a year, you get the *Advantage* of only the cream-of-the-crop! The top 50% of our bulls have extremely large contemporary groups to increase predictability, consistency and quality for our customers, and are from a cowherd that has been around for nearly 40 years.

Ruthless culling for feet and legs, plus structure gives you the *Advantage* when it comes to bull selection. Our bulls are extremely athletic. They run in big pastures over the summer after weaning. They are developed in extremely large lots that require them to travel up and down hills over rocky, hard ground everyday between a high-roughage feed source and water to ensure soundness and longevity.

Our intense AI program utilizes the most current and sought-after genetics in the Angus breed, with herdsires infused and utilized that rival the most popular AI sires in the breed for genetic value and potency.

Volume and repeat discounts are available, and delivery is free. Bulls are backed by a Zoetis HD50K DNA evaluation, ultrasounded with complete performance and fertility evaluation, and backed by an industry best guarantee. Many bulls qualify for the CAB *Targeting the Brand* Program.

ZACTRAN[®]
(gamithromycin)

BRD IS THE ROADBLOCK, BLOW PAST IT.

Zactran[®] (gamithromycin) helps wipe out bovine respiratory disease (BRD), so cattle pack on pounds and you keep your hard-earned profits. Visit ZACTRAN.com.

IMPORTANT SAFETY INFORMATION: Do not treat cattle within 35 days of slaughter. Do not use in female dairy cattle 20 months of age or older, or in calves to be processed for veal. Subcutaneous injection may cause a transient local tissue reaction in some cattle that may result in trim loss of edible tissues at slaughter. **NOT FOR USE IN HUMANS.**

**24-HOUR
response.¹**

**10-DAYS
of therapy.²**

**ONE
economical dose.**

Cattle First.

INTRODUCING

NEXT GENERATION

WEANING.

DEHORNING
VACCINATING
TRANSPORTING
COMMINGLING
HANDLING

Stress prevents your cattle from performing at their best. SecureCattle®, which has been sold globally for almost 10 years, is now available in the US. It is a maternal bovine appeasing substance (mBAS) which has been proven to alleviate stress — and the energy expenditure associated with stress — so your cattle can have better immune function, improved overall health and well-being, and optimized performance.

Delivered through one convenient 5 mL dose applied to a single location on the top of the neck.

Pour on. Stress gone.

TEST YOUR HUNCH

Which heifers would you keep?

SCAN HERE

or visit SelectWithGenetics.com
to put your heifer selection skills
to the test.

How do you decide which heifers to select or sell?

Visual inspection alone leaves a lot to chance.

Pair visual and/or phenotypic data with genetic testing to make more informed decisions to help accelerate progress in your herd. Zoetis delivers comprehensive, accurate genetic predictions to aid in selection, breeding and marketing decisions.

Your Trusted Cooperative Since 1934

RUN PARASITES OUT OF TOWN.

Tauramox[®] (moxidectin)

Tauramox[®] Injectable Solution, the affordable alternative to Cydectin[®] (moxidectin) Injectable, runs gastrointestinal roundworms, lungworms, cattle grubs, mites and lice out of town. Expect the same weight gain advantage as with Cydectin[®] Injectable, but at a lower cost — it's called swagger. Get the moxi with Moxie, from your animal health provider. For more information, visit Norbrook.com.

IMPORTANT SAFETY INFORMATION:

Cattle must not be slaughtered for human consumption within 21 days of treatment. This drug is not approved for use in female dairy cattle 20 months of age or older, including dry dairy cows. Use in these cattle may cause drug residues in milk and/or in calves born to these cows. A withdrawal period has not been established for preruminating calves. Do not use in calves to be processed for veal.

© 2024 Norbrook Laboratories Limited. Tauramox and the Norbrook logos are registered trademarks of Norbrook Laboratories Limited. Cydectin is a trademark of Elanco or its affiliates.

PUT THE FARM BUREAU TO WORK FOR YOUR BUSINESS.

Being part of the California Farm Bureau means adding to the combined strength of a membership of 26,000 farmers, ranchers and families throughout the agricultural community. Together, we work tirelessly to advocate and protect the future and quality of life for all California farmers and ranchers.

www.cfbf.com
(800) 698-3276
cfbf@cfbf.com

Membership benefits include:

- Member discounts from over 25 partners offering services from vehicle rental to insurance and business services.
- Subscriptions to Farm Bureau publications like AgAlert and California Bountiful.
- Advocacy at the local, state and federal levels on your behalf.
- Much more.

THE FEEL GOOD VACCINE

Nuplura® PH+5 is the newest refined Bovine Respiratory Disease (BRD) vaccine that doesn't significantly add to the endotoxin load, helping cattle avoid some of the common negative side effects of vaccines.

Do good, feel good with Nuplura PH+5.

PERFORMANCE IS SERVED.

LESS TIME. LESS LABOR. LESS WORRY.

Winter is a busy time for cattle producers, you could use one less thing to worry about. CRYSTALYX® BioBarrel® is a single trip container that requires no collection or disposal and WeatherAll® Protection offers added weatherability in wet conditions. CRYSTALYX® supplements are available 24/7, minimize labor, time, and equipment, and improve forage utilization.

Protein supplements to help in all types
of forage and management situations:

SWINGING UDDERS
VETERINARIAN SERVICES

**Announcing: Now Partnered
with TransOva Genetics**

We are a large animal veterinary practice proudly serving the beef and dairy industries throughout California. We are a dynamic team who pairs old school work ethic with cutting-edge technologies and philosophies. We realize that every operation and client is different, so we tailor our practice and approach based on the real needs of our clients. We love what we do and consider ourselves fortunate to work in such a fantastic industry!

Veterinarians:

Dr. Gary McArthur

Dr. Theresa Frey

Dr. Maia Laabs

Dr. Josh Holme

Dr. Michael York

Services:

Herd Health

Dedicated and progressive veterinary care for your operation.

Custom Vaccine Protocols

Create a customized vaccination program for your herd, maximizing performance and marketability of calves.

Access to Foothill Abortion Vaccine.

Advanced Reproduction

Customized ET, IVF, and Semen Service packages either at our location or yours!

Data & Protocols

Utilizing your data to assist you in treatment and management decisions.

Custom Fly & Parasite

A comprehensive program is essential to the effective control of parasites and flies.

Medicine & Supplies

Full Service Pharmaceutical Sales with competitive pricing and delivery.

Starts With Protecting Your Calves from Birth to Weaning

ONE SHOT®
BVD

INFORCE 3®

Calf protection for a healthy start

Vaccinate with ONE SHOT® BVD and INFORCE 3® for effective protection against respiratory disease

INFORCE 3®

- Offers **single-nostril administration**
- Triggers **local and rapid** immune response³
- The **number one in doses sold** of respiratory vaccines on the market¹

ONE SHOT® BVD

- Helps **protect calves from the number one calf-killer** (*Mannheimia haemolytica*)² **combined with respiratory protection** (BVD Types 1 & 2)

Get comprehensive calf protection at **BuildingHealthyHerds.com**

NOTE: This vaccination program is appropriate for a calf nursing a cow on a modified-live vaccine reproductive program. If cows are receiving a killed virus reproductive vaccine, calves nursing at side should have a killed BVD vaccine at branding/turnout.

PROVEN RESULTS IDEAL PERFORMANCE

“We have 42 bulls from four different locations all blended together for the first time. We treated them this morning and they aren't fighting or riding, they are going to feed and commingling better. FerAppease is a fabulous tool.”

- DONALD BROWN, RA BROWN RANCH

Treat your calves, cows, and bulls with FerAppease for even temperament, reduced stress, and increased profitability.

Adding value to your calves doesn't have to be complicated.

Drive profitability without adding complexity with the Purina® Wind and Rain® Mineral Value-Added Program.

Fueled by the power of Wind and Rain® mineral with a proven performance advantage through 15 months of age.*

Contact your local Purina dealer to learn more.

PURINA
WIND AND RAIN
PROGRAM

If you currently feed Wind and Rain® mineral, you may already qualify!

Requirements: To qualify for the program, dams must be fed Purina® Wind and Rain® mineral or Purina® Rangeland® Pro mineral for 60 days prior to breeding through calf weaning. Calves must be fed Purina® mineral as part of their nutrition program from conception through sale delivery.

PINE  CREEK. *No better time to switch to...*

BUCKE'S LIQUID and/or DRY MINERAL SUPPLEMENTS

With Metal Amino Acid Chelated Minerals (MAAC®)

**Is your nutritional program keeping up with the
advancing genetic progress in your beef operation?**

By providing a liquid and/or a custom dry mineral supplement from Pine Creek Nutrition, you are giving your cows the nutrition they need to reach their genetic potential. Bucke's Liquid Mineral Supplements will get more of your cows bred during their first estrus cycle and help maintain their body condition throughout the year.

Advantages of using **Maac®**
as your source of
organic trace minerals:

- Reduced antagonism with other minerals
- Improves immune response and overall health
- Improves reproduction and fertility
- Increased mineral absorption and retention

Advantages of using
Bucke's Liquid Supplements:

- Delivery Cost = Fed Cost
- No Waste
- Product Consistency
- Increased Fiber Digestion
- Best Customer Value

Bucke's Feed & Grain

1308 Railroad Ave. Orland, CA 95963 (530) 865-4427
