Cattle Company

welcome

Fellow Cattlemen,

Welcome to our Spring Bull Sale and thank you for your interest in our program. We are seeing markets that most cattlemen have only dreamed of! This is an encouraging sign and hopefully allows family operations to continue to grow and thrive in this way of life. The next generation will have a chance to come home and prosper on the land the Lord has blessed us with and keep Rural America flourishing.

It seems with the incredible markets that we have had more people seek our genetics than ever before. Good genetics pay and this set of bulls is the stoutest set of both breeds as we have ever offered. We worked diligently to increase our volume without sacrificing quality - we demand the best and don't expect our customers to settle for any less! We strive for balanced cattle that combine economic importance starting with structural quality, efficiency, huge maternal traits, and most importantly...fertility! We believe in the structure and longevity of our bulls so much that we have started A 3 YEAR FOOT GUARANTEE, as well as covering the first breeding season as well. We work just as hard on our cow herd to ensure that every bull sold has a mother that we would be proud to show you.

We want your baldy calves! We believe in the power of the black baldy and the two breeds compliment each other well. The support from buyers in the sale barns shows the return on these cattle. There are many advantages to the black baldy that you can read about on the next pages.

A huge thank you to our family and crew. We're incredibly proud of the work they do day in and day out to keep the ranch moving forward. Please give us a call if we can be of assistance and hope to see you on February 20th in Thedford!

My Best, Jason Hoffman

Jason, Kaycee, Haxton, Kennedy, Hayden

CUSTOMER SERVICE

$\frac{1}{5}$ *is our brand!*

WE GO THE EXTRA MILE

Free delivery to any state in the continental United States on all bulls is something we proudly offer. Occasionally, a buyer may need to meet a trailer at a central spot, but we will do our best to get them directly to you.

WE APPRECIATE YOUR BUSINESS

We value our volume buyers and gladly offer discounts on multiple bulls purchased. Volume discounts offered at a 5% discount for 5-9 head and a 10% discount for 10+ head. Call Hoffman's for details.

WE GUARANTEE SATISFACTION

Bids can be called in to Jason (530-604-5096), Denny (406-425-0859) before the sale.
We guarantee satisfaction on all orders.

WE BELIEVE IN OUR PROGRAM

Bulls are guaranteed to be 100% sound and healthy breeders with an unconditional first breeding season guarantee.

WE ASSIST YOU IN THE MARKETING OF YOUR CALVES

Every year, we place large groups of replacement heifers throughout the U.S. We also stay in direct contact with feed yards that are interested in and familiar with our genetics.

We assist in marketing several thousand feeder cattle and replacement heifers throughout the year for our customers
...all you have to do is let us know.

*Free Transportation, Volume Discounts
and an Outstanding Guarantee!*

WE WANT YOUR BALDY CALVES.

the right place for the white face.

We have simply run out of baldy females to find for people. The baldy female is only going to get more expensive as we rebuild the nations cowherd so it's time to start making your own. American Hereford Association data over a 10-year simulation, shows baldy females return \$90 more in net income per year and \$300 more in net worth per year than their straight bred counterparts.

THE HOFFMAN IMPACT

Some of the biggest yearling, feedlot, and cow calf producers in the US are Hereford bull customers of ours. These are guys that own their cattle the whole way through harvest. The biggest we deal with have been pleased with the end product performance of our genetics and enjoy the cheaper cost of gains at closeout time.

THE HOFFMAN GUARANTEE

We like feeding cattle and certainly don't mind standing behind our genetics. In fact, maybe one day cattle will be traded on their genetics and quality opposed to hide color but until then bring us your red hided sort offs. Bring them to either of our sales and we will give you an equal price for what their contemporaries brought in bull credit.

HOFFMAN $\frac{1}{5}$ RANCH

Bringing Back Balance

WHY USE HEREFORD BULLS ON ANGUS COWS?

There are unlimited advantages to using Hereford bulls on your straight black or red cows.

FERTILITY

Time and time again the black baldy F1 female posts our highest pregnancy rates in our commercial heifer program. American Hereford Association data shows a 7% pregnancy advantage of a black baldy female compared to her straight bred counterpart!! We have always beat this difference.

EFFICIENCY

It takes less feed for us to run our black baldy females, and they still provide more output. Dr. Lalman at Oklahoma State University found that black baldy females consumed 2 pounds less feed per day and were a 0.5 body condition score better!! SHE SIMPLY DOES MORE WITH LESS!!!

LONGEVITY

Often our customers tell us they had to ship their 8-10 year-old Hereford bull because they couldn't use him anymore due to having too many daughters in the herd. Herefords are built to last and structure breeds on, these baldy females will flat last. Plus Herefords continue to receive industry praise for genetic resistance to PAP and congestive heart failure in the feedlot.

READ MORE ON THE BENEFITS OF HEREFORD HETEROSIS.

HOFFMAN $\frac{1}{5}$ RANCH
Bringing Back Balance

HEREFORD-SIRED BLACK BALDY FEMALE ADVANTAGES

- 7% higher pregnancy rate
- More calves weaned per cow exposed
- \$90 more per cow per year in net present value (2023 calculation)
- 3.5% more average rate of return on assets
- 2 pounds less pasture forage per day while maintaining more body condition

Black baldy cows require 1 acre less of moderate-quality forage per year compared to straightbred black Angus peers, according to Oklahoma State University research.

HEREFORD-SIRED BLACK BALDY STEERS ADVANTAGES

- Heavier weaning weights
- Increased feed efficiency
- Lower cost of gain
- Lower feedlot breakeven
- \$28 per head less feed cost across finishing period

Based on feed efficiency alone — breed differences documented by the U.S. Animal Research Center — Hereford has a \$51 per head advantage over the finishing period, when compared to Angus.

“Testimonial

When we came to Jason and the Hoffman Ranch, we were looking for Hereford bulls to breed our Angus-based cows. In our operation we do a little of everything. We have two feedlots, a cow/calf herd, and we background and breed heifers. The feedlot is our largest component of the business, and most cattle are harvested on the grid. First and foremost, we were looking for bulls that excelled in carcass traits so calves out of the cow/calf herd would rise to the top in the grid. We also raise our own heifer's so moderate milk and fertility are also important to our operation. Finding multiple bulls year in and year out speaks to the knowledge that Jason has and what the cattle industry needs.

What we found by buying bulls from Hoffman Ranch has far exceeded our expectations. Not only did we find bulls that help our cattle excel on the grid. We have found heifers that have turned into fantastic moderate framed cows, who are good milkers and breed back year in and year out. The calves from these bull's pack pounds on in the feedlot and year after year exceed expectations on the grid.

Outside of filling our void that we were looking for in bulls. Jason has also helped forge relationships with other cattlemen and cattlemen in the industry to help fill our pens with cattle sired by Hoffman genetics that we know will perform.

The Laner Family - Gothenburg, Nebraska

Can be used on heifers or cows. Phenotypically, one of the very best bulls we've ever offered. DEFINITE sale highlight!! This bull has look, is long bodied, yet still very deep, and has solid numbers the whole way through. He takes a really long stride, has a great foot underneath of him, and is a maternal brother to Long Teton. There is added cow power and quality like no other! It is pretty unique to have a bull built like this that can work on heifers. Top 1% \$F, Top 1% \$W, Top 1% CWT, Top 1% RADG, Top 1% WW, Top 1% YW, Top 2% \$AxJ, Top 2% \$C, Top 4% \$B, Top 5% \$AxH, Top 10% \$M, Top 10% CEM, Top 10% REA, Top 15% CED, Top 15% MCW, Top 15% Milk, Top 15% YH, Top 20% Doc, Top 25% BW

This is exactly the type of bull we hope to get out of Prosper. He is a real meat wagon!! This bull is big barreled, thick from end to end, yet still easy on the eye to look at. He's big footed and very mobile. Notice that he's out of the 3839 cow family. Top 4% CWT, Top 5% WW, Top 10% \$C, Top 10% \$F, Top 10% \$M, Top 10% \$W, Top 15% YW, Top 20% \$B, Top 20% Angle, Top 20% HPreg, Top 25% \$AxH, Top 25% \$AxJ, Top 25% REA

This bull makes really good patterned, long outlined cattle, that exhibit excellent foot quality, structure and are clean jointed. We have our first daughters in production and we are extremely pleased. A couple of our best two year olds to calve this January were Rise Aboves. Rise Above sold for \$300,000 in our 2023 Spring Bull Sale. Owned by ST Genetics and Select Sires.

customer-testimonial

I have been fortunate to work the Hoffman Ranch for several years now and can say that I am very pleased with the bulls and females I have purchased from them over the years. We are a large scale cattle operation with cow / calf herds in AZ, CA, OK and NE and we have found that the bulls and females we have purchased from Hoffman Ranch fit in anywhere and everywhere which obviously very important to us as we operate in some the most extreme conditions at times. More importantly I know that we are working with someone that is working as hard at their business as we are at ours. The cattle business is a very tough business that must be lead by passion and that is exactly what you get with Hoffmans. Their insight, work ethic and most importantly honesty is what you can count on when doing business with them and the bulls and females you purchase from them.

RICK KIECKHEFER - K4 RANCHES & CHOLLA LIVESTOCK

Bar None will stand the test of time. They are dense, easy fleshing, big barreled cattle that will weigh something. The daughters look to be extremely good uddered and efficient. They are some of the better angus cattle we have. Bar None is an own son of 3839 and is definitely one of her better breeding sons. Owned by Genex and Hilltop Angus in Denton, MT.

Teton has done an exceptionally good job. These cattle have length and eye appeal. They are consistently sound structured. The females are very feminine, and the bulls look like bulls. His mother is an outstanding donor cow for the Stellpflug and Long programs.

Definitely one of the more maternal bulls we've raised. Along with that, he produces extremely high quality, good footed, big testicled sons who should be popular on sale day. His mother is one of the very elite cows in the breed.

A bull that will get more popular as time goes by. He's extremely maternal, high quality, right for the times, and should be a female maker like no other. We've used Richmond on heifers with great success. However, he's so much more than just a heifer bull. Owned with Genex and P&R Herefords.

Homozygous Polled, Fully Pigmented. Can be used on heifers or cows. I love this bulls pedigree. He has two shots of the Gerber Dixie E066 cow, 7098, and 219Z. This heifer bull offers as much calving ease and maternal strength as there is in the offering. A true beef bull that has mass, substance, and real rib shape. His first daughters calved last spring and are among our very best as well as Stellpflug's. They are loose hided, easy fleshing, and should stand the test of time. On feed trials, his progeny have been outliers for conversion. Owned with Stellpflug Cattle Co.

Polled, Partially Pigmented. Out of one of our favorite cows!! This bull has a set of figures now. I'd feel confident in using him on heifers. The Thomas County progeny are extremely efficient on feed. His EPD's have had a recent boost due to feed efficiency testing at Schu-Lar Polled Herefords. Pay SPECIAL attention to who this bull's mom is! This low birth weight calving ease sire group is really unique, as you don't sacrifice quality for advantage in birth weight and carcass traits. We are very happy with this sire group and find them to be some of the most unique spread bulls throughout the breed. Owned by Knoll Crest Farms and Four B Farms.

One of the best breeding bulls we have ever been involved with of either breed. His sons were a true highlight in our fall bull sale, and his daughters are some of our favorite bred heifers. Breeders from across the nation have had tremendous luck with On Demand. He's out of an extremely productive donor cow that is still going strong at 11 years of age.

Homozygous Polled, Fully Pigmented. This is a true herd bull. He has been our favorite all year. He should be a female making individual and his sons are going to be easy to sell. He's dark colored and has all the cosmetics and quality most people look for in a herd bull.
