WOODALL ANGUS FARM | FEBRUARY 23, 2026

IT ALL ADDS UP!

Faith, Family, Future

FAITH — In 1961, Gary Woodall made a bold move, purchasing 16 cows at a time when such an investment was virtually unheard of. Throughout high school and college, he diligently grew his herd to 100 commercial cows, focusing on breeding and raising his own replacements. This marked the beginning of a legacy, establishing the foundation of functional, fertile cattle uniquely suited to thrive in Kentucky's fescue-rich environment.

FAMILY — Gary, David, and the grandsons continue their dedication to cattle production, proudly serving you, our fellow cattlemen. The grandchildren play an integral role in this program, with four grandsons living and working on the farm, taking on the responsibilities of the operation as if it were their own. Additionally, one grandson has returned to the area as a veterinarian to practice large animal medicine and oversee the herd health responsibilities of the farm. We take immense pride in maintaining one of the most efficient and detailed herd health programs available, ensuring the best outcomes for our cattle and our customers.

FUTURE — Each year, our entire cow herd is 100% AI bred, and we enhance our top genetics through IVF and embryo flush programs. At Woodall Angus, we DNA test all bulls and replacement heifers, conduct ultrasound scans on all bulls to refine our bull development program, and continually improve carcass genetics. Since 1986, we have dedicated ourselves to breeding and thriving with registered Angus cattle. For over forty years, our philosophy on cattle management and genetics has remained steadfast. While we uphold our standard of producing functional, fertile cattle that excel under efficient management practices, we also embrace and integrate new technologies and advancements into our systems.

This 31st Annual Sale reflects our Faith, Family effort, and shared commitment to our Future.

Woodall Angus Farm!*

IT ALL ADDS UP!

- #1 – Whole herd reporting with AHIR collection and proud members of Maternal Plus.** This provides us with accurate selection tools and consistency. This is evident with 80% of the bulls in the top 20% for \$M and 31 of the sale bulls designated as Calving ease.
- #2 – Age Advantaged Herd Sires** – Developed on grass, hay, and silage with protein and mineral supplementation. We have no desire to over-condition, but rather proper condition for extended service and longevity.
- #3 – All Bulls Genomic tested & Parent verified.** This increases the accuracy of the EPDs and guarantees the pedigrees behind our product.
- #4 – Foot Scored** – Observed and recorded as yearlings. Based on a 1-9 scoring system with a 5 considered Ideal. We believe in structure and soundness and will continue to place selection pressure to provide as problem free cattle as possible.
- #5 – Carcass Ultrasounded** – We do this in early October. A great tool for buyers to take advantage of premiums and add value to their specific program.
- #6 – Branded** – A New Years day tradition – This provides ease of identification and our commitment to our product.
- #7 – Qualify for CAIP/TAIP** – All appropriate paperwork and documentation available to make the process easier for our customers.
- #8 – Delivery** – Free delivery on bulls purchased for \$5000 or more up to 200 mile radius. Outside of that radius we will work with the buyer to get purchases delivered at a reasonable rate.
- #9 – Boarding Options** - Bulls will be housed for free at WAF for 2 weeks after the sale. If they need to stay longer they can be housed for \$5 per day and must be picked up by April 20th 2026.

BREEDING GUARANTEE

#10 – Breeding Guarantee - We guarantee that all bulls sold by Woodall Angus are fertile to the best of our knowledge. All bulls have passed a breeding soundness exam. If a bull is determined to be infertile or unsound during the first 90 days of breeding, a replacement of comparable worth will be given to the owner or a credit minus the salvage value. Please notify us as soon as possible should an injury occur. All injured bulls must be returned to Woodall Angus and evaluated in order to receive credit. All claims must be made by August 1, 2026. Please understand this is not a life insurance policy. We will not replace a dead animal if it is killed or dies for any reason. We would also emphasize that normal care still needs to be exercised towards these animals. This guarantee is in addition to the Terms and Conditions of the American Angus Association, which also apply. We also have a foot guarantee on all bulls. To qualify for credit a foot defect must become apparent within the first two years from the time of the sale and the condition must be a result from a genetic defect only. Dr. Woodall must evaluate the condition to confirm the guarantee. Once we confirm the genetic defect, we will credit you the price of the bull minus both the salvage value and the usage value. The usage value will be determined by the breeding season the bull may have been used to breed cows. The first breeding season is defined as March 1, 2026 to August 1, 2026. The second breeding season is defined as August 2, 2026 to February 28, 2027 and so forth. This guarantee is in addition to the Terms and Conditions of the American Angus Association.

This “**All ADDS up**” how we want to earn and continue providing Woodall Genetics to an Industry we our proud to be a part of.

PAST GRADUATES OF THE BULL SALE

IT ALL ADDS UP!

• A thick, deep bodied bull with an incredible balance of performance, phenotype and maternal value. This extremely gentle bull has tremendous depth, athleticism, and a set of EPD's that puts this bull to the top. Calving ease, growth, with an outstanding Commonwealth dam. Look at the ratios of his performance, his EPD's, \$M and structure to find the complete bull for fast growing calves and females that do their job. This bull has seen service here this winter.

• Sale Feature! This calving ease bull has a +12 CED & +87 WW, +.91 Marb & 1.07 REA but these figures are just the beginning. He combines structure and muscle with an attractive phenotype to put this bull in a class by himself. Few calving ease bulls combine carcass, growth and maternal value like this bull. This Commerce son is special just like his dam by Musgrave Big Sky. We would like to retain an in-herd semen use on this powerful herd sire.

• A long bodied Yon Saluda son that we liked so well that he's cleaning up a group here at Woodall Angus. Nice calving ease bull that is very gentle, thick made and has a great Concord dam behind him. Hard to find faults in this real nice bull. Find him and his numbers.

• An attractive Craftsman son with extra length and is very gentle. Calving ease CED +12, good performance and a proven bull maker behind him with his Connealy Comrade dam. High marbling and high \$M. This is a really good bull.

• Wow! A good, thick, Step Up son. Extra muscle and length on a bull that has a WW ratio of 116 with a \$M of 107. Good carcass genetics but has an extremely productive dam behind him, Woodall 9180 with WW 3@111 and YW 3@106. Nice bull!

IT ALL ADDS UP!

- Sale Feature. A Yon Flagship son out of an outstanding Commonwealth daughter we really like. This is a very thick, heavy muscled bull with length and frame. Calving ease with high marbling (Top 2%). This is a powerful calving ease bull.
