The folks that have been staying at the lodge absolutely rave about it.

Call Heather at 605-933-0178 to reserve your room. View their website at www.a1als.com

WELCOME TO WERNING CATTLE COMPANY'S 45TH ANNUAL PRODUCTION SALE

Hello to all of you! What an unbelievable cattle market we are enjoying. I have been thinking about what my Dad would say if he was here now. I'm thinking one big market steer today would bring more than a whole load of market steers on our 1964 Ford truck. Hard to believe we made any money feeding cattle back in the 60's and 70's. We need to take advantage of this market with more live calves and more pay weight. We are offering proven Simmental, SimAngus and Angus genetics within this sale that will create more dollars for you short term and in the long term with maternally focused replacements.

We work diligently to ensure that we have the industry-leading genetics available every year for our customers to build their success around. We enjoy working with progressive cattle operations that believe in producing the best cattle in the world. We are passionate and dedicated to this cattle industry and are proud of our 45 years of unwavering commitment to quality and innovation. We have been blessed.

Werning Cattle Company has had the honor and privilege of creating some very elite herd sires over the years that have left their imprint on the Simmental breed. These genetic classics will continue to be utilized as long as there are cows. These W/C greats possess performance, maternal strength, structural soundness and oh so much more. We are extremely proud of what the good Lord has let us accomplish and we are happy he has more for us to do.

This year's W/C bull crop will again create excitement that we get to enjoy and share with you. The yearling bulls will be many 1/2, 3/4 and full brothers that sell in volume. You really need to see these guys to appreciate their length, depth, thickness and soundness. This will be our largest group of them- performance, muscle, disposition and off the charts EPD's. This is a great set of genetic leaders that will do great things for the industry. The Age Advantage bulls are tremendous. Fall born bulls and 20-month-old bulls that are semen tested and ready to work. You won't find them better anywhere.

We will also be sharing an amazing group of bred heifers with you folks. They are maternal factories with volume, power and presence ready to generate for their new owners. We are offering quality and quantity of reputation females bred to the world's best sires. These elite ladies are worth the drive to Emery. Many are worthy of going into the donor pen.

Changes are coming in our beef yield grade system, and I believe we are ready with cattle that will benefit from the change. Experts believe beef carcass will be graded with 3-D imaging like CT scanning to more accurately reflect the true amount of muscle in a carcass. This would give more precise account of the true volume of meat in the chuck and round portions. We have always produced cattle with wide tops, big butts and a lot of guts.

NEW this year! We will be selling the frozen genetics the night before the live cattle will sell on Monday, February 9, 2026, at 6:00 PM. We are excited about this change and will also host a customer appreciation beef brisket supper that evening at 5:00 PM before the frozen genetic sale and is another way for us to say "Thank You" to all of you. After the meal we will be turning loose of over 100 embryos from our best donor cows and over 200 units of rare semen.

Some of you know that I have two brothers, Wayne and Mark. We are so sorry that both of their wives passed away this past year. We will forever remember Pam and Kathy. We keep them and their families in our thoughts and prayers.

We would like to thank our family, friends, and neighbors who help us in so many ways during the year and at sale time. We thank you for the trust you have in our ability to supply performance and maternal genetics for your herds. It is our privilege to serve the greatest beef producers in the world. We thank each and every one of you for your business, friendship, and trust. It takes special people to love this business – people that work with their hands and talk from their hearts. We welcome your visit to the ranch at any time. We take great pride in the W/C brand – truly the brand for results! We thank you for your interest in W/C genetics and invite any and all questions. We have a lot of great things happening here! Thanks for being a part of it!

Dale Werning Scott Werning

Predictability and quality have never been more valuable than they are today. The cow/calf producer has enjoyed unprecedented returns over the past 2 plus years, and the outlook is nothing but continued optimism for the foreseeable future. Across the industry, progressive firms are seeking high-quality, improved seedstock options and are continuing to turn towards reputable operations like the Werning Family of Emery, South Dakota.

The folks at Werning Cattle Company have been in the seedstock supplier game for five decades. Your thirst for the very best genetics and kind in a herd sire or a program revolutionizing female, drives them every day, 24-7-365! This multigenerational family operation knows no boundaries, and they are very experienced at exceeding the limits while raising the bar not only within their confines but also in the competitive industry. The edge they carry to be the best is evident in the success of the youthful third generation, the grandchildren, who excel at every level of competition in whatever they do. In today's climate, that's hard to come by in the world's general population, but in the agricultural sector it's a necessity for operations of any size or generation count to be viable and relevant for the years ahead.

Dale Werning exemplifies dedication and excellence in the livestock industry. His journey began in the early 1970s, when he attended South Dakota State University, joined the collegiate livestock judging team, and took his first steps toward becoming a visionary in the beef business. That same year marked a turning point for the industry with the birth of the first Simmental-influenced calf in the U.S. A decade later, the Werning Family hosted their first production sale, solidifying their reputation as leaders in the field. Their reputation reached national acclaim when the Champion Market Steer at the Ohio State Fair, exhibited by the Sutherly Family, showcased the superior influence of the Werning breeding program.

The 1980s were challenging for agriculturalists, with widespread droughts and soaring interest rates testing the resilience of farming and livestock operations nationwide. Yet Dale and his wife, Joan, persevered. Joan, a registered nurse, balanced her career while contributing tirelessly to the farm and ranch, ensuring their operation thrived during those tough years. Their perseverance paid off, and in 1989, the Werning Family was honored as South Dakota Cattlemen of the Year—a testament to their unwavering commitment to quality and genetic innovation. That same commitment thrives in the family and the program to this day.

In 2001, Werning Cattle Company earned recognition as the “birthplace” of the popular SimAngus genetic cross with the sale of the first SimAngus bull at public auction. This pivotal moment solidified their reputation for innovation and excellence. Over the years, their breeding program has remained profit-driven and customer-focused, consistently acquiring elite Angus females and influential bulls to meet the demands of an ever-evolving industry. Standout acquisitions such as S A V Blackcap May 4136D and S A V Blackcap May 6644 exemplify their commitment to building

a legacy of powerful cows for the future. Bulls like RFS Heavy Hitter H4, RSF Herald H104, TSN Statesman K006, and TJ Sandhills Swag 816L represent the firm's ongoing pursuit of performance, maternal strength, and carcass quality without compromising phenotypic excellence.

Their dedication has produced influential cattle such as Miss Werning 534R, her renowned daughter Miss Werning KP 8543U, and standout bulls including W/C United 956Y, W/C Loaded Up 1119Y, W/C Bankroll 811D, and W/C Executive Order 8543B. These animals continue to enhance the pedigrees of their annual offering and have had a significant impact on the breed.

The Werning Family's commitment to excellence spans generations. Scott and Ashley, along with their children Creighton and Thatcher, are carrying the torch with the same passion and vision that have defined their operation for decades. Scott, a former SDSU Livestock Judging Team member and recipient of “Cattle Business Weekly”'s “Top 20 Under 40,” is well-regarded for producing cattle with skeletal quality, structural integrity, and a balance of end-product and maternal focus. Creighton, a driven young man with big aspirations, is already leaving his mark. His influence is evident in the family's selection of top-tier genetics, such as TJ Sandhills Swag 816L, furthering the Werning legacy. His role in the future of this operation is crucial, and his passion fits the mold of those who precede him in the leadership role for the brand.

This year's offering of bulls and females is the densest and most impressive to date. The females, a source of immense pride for Dale, showcase unmatched maternal excellence. The bulls are stout, rugged, and designed to perform, representing some of the heaviest and most powerful herd sire prospects to carry the W/C mark of distinction. These animals are equipped to elevate seedstock programs and deliver exceptional results for both commercial and registered breeders. Within the pedigree ledgers of this sale offering there would be generations of excellence on both sides of the lineage and that is why so many of the respected breeders of SimGenetic seedstock make the appearance and investment the second Tuesday of February. Many past buyers have reported record-breaking success, achieving premium prices and enhanced profitability thanks to the genetic potential of W/C cattle.

Mark your calendar for February 9 and 10, 2026—your opportunity to invest in the future of your breeding program with one of the industry's most respected operations. Voted “The Best Beef Operation in the U.S.” by Sullivan Supply in both 2023 and 2025, the Werning Cattle Company stands behind every animal it produces and is committed to your success.

We encourage you to contact the Werning Family or any member of the Innovation AgMarketing team for more information about this year's exceptional offering. Join us at the climate-controlled sale facility at the ranch to experience outstanding Southeast South Dakota hospitality, including dinner Monday night prior to the frozen genetic offering. Plan to enjoy lunch and dinner before and after the unparalleled offering of seedstock on Tuesday.

VIEWING OF CATTLE

Cattle can be viewed at the farm any time before sale day.

INSURANCE

We take every precaution for the care and safety of your purchases. Yearling bulls can be kept free of charge at your risk until April 15th. Insurance available sale day.

SEMEN INTEREST

Werning Cattle Co. will be retaining at least one-third revenue sharing semen interest in all bulls selling. This means if we would like to collect semen on the bull for our own use, we would have the option to do so. Also, if semen is sold we would retain one-third revenue. The new owners of the bulls will have full possession and full salvage value.

TERMS

Terms of the sale are cash, check, or credit card payable immediately upon conclusion of the sale and before animals will be removed. 4% user fee for credit card payment.

VOLUME DISCOUNT

Purchased by one firm, discount starts with your 3rd bull as follows: 3 bulls = 3% discount; 4 bulls = 4% discount; 5+ bulls = 5% discount

FEEDING + DELIVERY

All bulls will be kept free of charge until April 15th. At that time we will semen test, give pre-breeding shots, pour, worm, and freeze brand. We will then arrange delivery to you. We offer free delivery within 300 miles. For buyers beyond that point, we will assist in the coordination and delivery of those animals. Since each animal becomes the risk of the purchaser as soon as sold, we strongly recommend mortality insurance be taken out on any animal left to be wintered at the ranch.

We would appreciate pick up or delivery arrangements of the bred heifers to be made within a few days of the sale. Bred heifers will not be removed from the ranch until payment has been made.

\$100 discount if you take your bull sale day.

FALL-CALVING OPERATIONS

With our growing number of fall-calving customers, we are now offering those of you to add \$500 to the purchase price of your bulls and we will feed them until the fall.

Delivery will then be arranged.

ON ORDER PURCHASE POLICY

If you are interested in some of the cattle selling and are unable to attend the sale, we can purchase the cattle for you on order. We guarantee your satisfaction, or you don't own them. Please call early so we have time to visit about the offering.

GUARANTEE

BULLS | Unless otherwise noted, all the breeding age bulls will have passed a breeding soundness exam prior to pick up/delivery. In addition to the standard Terms and Conditions of the American Simmental Association, we will provide the first breeding season (90 day period immediately following turn out) guarantee on all yearling and older bulls. This guarantee is not an insurance or mortality policy, but a guarantee on functional fertility. It is not a substitute for poor management. The purchaser assumes all risks for injuries due to running bulls together and management decisions outside of genetic control. We will not be responsible for the loss of any females not serviced. For this guarantee to apply, we ask that you contact us as soon as a condition is observed and before an animal is sold. We will do our best to correct any problems that may occur.

BRED HEIFERS | The bred heifers are pregnancy checked and guaranteed to calve within the reasonable time period printed. Werning Cattle Company reserves the right to 2 successful IVF or conventional flushes or a minimum of 12 grade 1 embryos, whichever is greater on every female in the entire offering. The embryo work is to be done at the buyer's convenience and sellers expense.

LIABILITY

Purchaser understands and agrees that any animal purchased is purchased as is and with all faults—both visible and latent. Werning Cattle Company makes no representations as to the welfare and health of the animal, including, but not limited to, whether the animal has any latent disease or health issue. Werning Cattle Company expressly disclaims all liability upon sale of the animal and makes no warranty as to the animal, which includes either express or implied warranties. All persons attend this sale do so at their own risk and owners or sale personnel assume no liability for accidents.

SELECTED TO INCREASE PAYWEIGHT, PERFORMANCE, PHYSICAL QUALITY AND ULTIMATELY OUR CUSTOMERS PROFITABILITY!

- Heavy Hitter and Herald are Full Brothers
- Both bulls rank high within the breed for WW, YW, REA, & ADG
- Both bulls only used exclusively by the owners, NO SEMEN was offered to the public!
- They come from a sensational Remington Lock N Load 54U Dam
- Heavy Hitter is currently the #1 Sire in the breed for Weaning Weight!

In a never-ending pursuit to try and create the most ideal and profitable bull product for our commercial customers we came across these two studs and knew they needed to make their way to Emery, SD! Both bulls rank high for the important economical traits vital to improving our customers bottom line and do it in an impressive physical package. We have been fortunate to breed and/or own some of the greatest growth bulls in the breed and these two are next in line. We feel the sons of these sires will allow you to sell more pounds on sale day whether that be at weaning, backgrounding, or the kill floor.

LOT 1

An impressive beast of a bull to lead this large and incredible sire group that is double bred for growth. 65N is loaded with thickness from end to end with that extra size and length that sets him apart. He is the #1 YW bull in the sale and the #3 REA bull among the natural calves. W/C Miss Werning 65D records a 116 nursing ratio and is the dam of the 2000 top selling bull W/C Revolution 65G to Windy Creek. Another son was a standout going to Dan Kopf in Nebraska in 2023. 65D has built her resume with all natural calves up to this point as we will get her first embryo calves born here in 2026. A full sister sells as lot 209 and another is retained in the herd. As much shape and depth as we can make and the kind of bull to quickly impact a set of calves and the herd he is used in. Herd bull look with herd bull figures!

LOT 2

A true beef bull from every angle with added rib shape and capacity. He supports a great set of data with nine traits in the top 20% of the breed. He comes from the great 534R cow family that is responsible for much of the success of the W/C program. 534R is the granddam of the lot 1 bull as well and you will find her in pedigrees throughout this catalog as she was in production until 15 years of age and has 241 progeny recorded. Over 100 sons are working for top commercial and registered operations throughout the lower 48 states. This is the kind of bull built to keep the peddle down in the right direction for any progressive cattle operation.

MISS WERNING 534R
MATERNAL GRANDDAM OF LOTS 1 & 2

LOT 3

A real phenotypic standout who offers incredible look and muscle with added length. His mother just had another full sib to this bull and is still in production with a perfect udder and feet at 11 years old. We have decided to enter her into our embryo program and she was our favorite heifer calf in that 2015 calf crop. 509C has another standout son selling as lot 85. This bull is sure to have some friends on February 10th.

LOT 4

There is just so much we love about this bull. He packs 7 traits in the top 25% of the breed and has the W/C look of quality we strive for. This bull is attractive, muscular, and athletic. Anyone who follows our program will tell you that this cow family is one of our key building blocks. O36X and K36U are responsible for injecting so much longevity and quality into our program. Both cows produced natural calves until 14 years of age and were top donor cows. The daughters of these two key players are now carrying the torch. This bull's W/C Bankroll sired dam is one beautiful cow and we are lucky enough to have a whole flush of them retained in the herd

D W HAZEL 036X
 MATERNAL GRANDDAM OF LOT 4

LOT 5

Another studly blady bull that does it on paper and in the pen with 7 traits in the top 10% of the Simmental population. He too comes from a top producing donor cow that produced the lead off bull in the 2024 sale that was sired by Herald making this bull a genetic full sibling. 793E has 40 progeny recorded with multiple sale features in the past couple years.

LOT 6

A full brother to the \$18,000 W/C Midway that was Reck Brothers selection of the 2023 sale and a full sister commanded \$12,500 to Paxton Cattle in the 2024 sale. Another full brother sold last year to Travis Balvin's good herd. His mother continues to produce tremendous offspring no matter the sire. She herself is a full sister to the great W/C Executive Order who was the most widely used 3/4 blood bulls to date. Have a little fun and see if you can spot her three other sons that lead three other sire groups. It doesn't stop there, check out the four full sisters that sell as lot's 214 - 217. They are simply stunning. This bull is so good physically and may be her best yet. Oh and it keeps getting better, 1149N is the top REA bull in the sale at nearly 19 inches and still ranks in the top 10 for IMF, not an easy thing to do. As you can tell we like this guy and he has a lot of good things going for him.

Wow what a set of flush brothers! 964G cranks out another set of ET sons to highlight another W/C sale! 964G is starting to become a household name and has yet to fail us no matter the sire we have used. She has lit it up with sons by Right Now, W/C Kaiser, Statesman, Journeyman, and now its Heavy Hitter's turn. 964G has over 20 sons working the country including many to notable breeders as Yardley's, Pembroke's, Reck's, and Hilltop Simmentals. Lot 7 may be as intriguing of an individual as we have made in some time. His ability to appeal to a wide range of cattlemen and markets is very evident to us. He has been a standout at every stage of his life and had the look from day one. We are excited about his future and invite your inquiries.

It seems to be a popular thing to do today among some breeders today to flush the hot new heifer that has never even had a calf yet. We have been guilty of that at times as well but have made a conscious effort to identify and propagate the “Good Old Cows” who have withstood the test of time and built their resume’s the old-fashioned way with superior production records. Cows that have proven to stay good on their feet and keep a quality udder. 5014C is one of those cows and is a 2015 born model. Her very first natural calf was W/C Double Down who commanded \$105,000 in our 2018 sale. This set of four brothers are impressive and peas in a pod. All are extremely muscular and stout, and you get to pick if you want them solid black or with white on their face. Lot 14 has been a great conversation piece as you will notice he has cauliflower ear. He was born with normal ears, but the

bulls got to wrestling around on one of those first cold nights and they have been this way ever since, awesome bull though. Big time beef bulls that are worth the trip to Emery!

Not only do we pride ourselves on making large sire groups for our customer's to tie into but you will notice many of the natural calves to be bred similar on their dam's side as well. This bull is very closely related to the Lots 7-9 flush brothers as he is from a Turnpike dam. 946N has a lot going on for himself. He's a big REA bull who was big at weaning time and comes in an extra-long sided athletic package. He's the kind to take a calf crop from good to great!

A purebred baldy bull who really reads well on paper with 10 traits in the top 25% of the population. If you want to select a Heavy Hitter son with a smaller birthweight and more calving ease you will have this bull marked. He is from a super good young triple threat daughter that produced one of the best bred heifers in the 2023 calf crop who we are now flushing extensively.

Check out this pedigree! He has Heavy Hitter and Herald on top and bottom. Then throw in two of the most potent cow families in the beef business in SAV Blackcap May and Miss Werning 534R. His sire was a member of that incredible Heavy Hitter x SAV Blackcap May 4136D flush we sold in 2024 and is owned by Cully Stafford in Oregon. This bull blends the best of both breeds.

This baldy bull is absolutely ripped with muscle and stoutness. His W/C Bullseye dam always brings in a good one. A big weaning weight bull who as we expected scanned a big REA. The kind of bull to stamp a calf crop and probably will sire a lot of white faces.

Top 1% growth genetics from a pedigree filled with some of the best we have to offer. His dam is one of our brightest young stars who produced W/C Total Package who sold for \$19,500 interest to Western Cattle Source and is the service sire to many of the bred heifers in this sale and he will be on display sale day. When we combine Heavy Hitter with SAV and 534R genetics good things happen. Seven traits in the top 5% of the breed! This bull ranks high on our list.

Check out this set of data! A negative BW all the way to 137+ at yearling weight. This bull can read and write, and it comes as no surprise coming from his outstanding W/C Lock Down dam. Lock Down naturally bred cows until he was 12 years old. He was one of our greatest breeding achievements. This bull comes highly recommended.

Top 2% for WW and YW, Top 1% for REA, YG, & BF. His Lock N Load dam has extra frame and performance. The kind of bull to quickly enhance a calf crop and allow you to sell more pounds on sale day. He's got the numbers, he's got the W/C look! One that can make an impact!

STOUT UNIFORM CONSISTENT

A trio of 3/4 Simmental 1/4 Angus bulls all bred very similar from Bullseye and Lock N Load Dams. All carry nice balanced EPD Profiles and exhibit great muscle shape with added eye appeal. They are the kind to make your calves stick out from the crowd and make buyers pay attention. The kind that keep buyers wanting them again the following year. A great place to consider if you want to tie some brothers together that look and read similar.

A royal flush of full brothers who have royalty deep throughout their pedigree. They are bred for performance and SimAngus perfection. We have loved the results we have gotten blending our W/C Simmental cattle with the performance Angus genetics from SAV. After seeing the results year after year it pushed us to make a move to bring SAV Blackcap May 4136D and SAV Blackcap May 6644 to Emery. SAV America is the world record selling \$1 Million dollar bull. Lot 27 ranks in the very tippy top of the breed for growth. He is the #1 3/4 Simmental bull to sell this season for WW and YW EPD's. This is an exceptional flush of brothers that have size, length, thickness, and tremendous muscle.

THE BEST OF BOTH GENEPOOLS! SIMANGUS HALF-BLOOD SONS OF HEAVY HITTER & HERALD

LOTS 33 - 49

In conversations with our customers and talking to producers, some have expressed that the number of half-blood SimAngus bulls available in the market place is not what it used to be. We have noticed that as well and have made a conscious effort to provide a nice selection of SimAngus bulls from some of the best Angus genetics we have found to cross with our W/C Simmental cattle. There is 44 half-blood SimAngus bulls in this sale as well as 40 3/4 Simmental 1/4 Angus bulls to find the perfect blend for your operation and to best suit your cowherd.

A typical Heavy Hitter ready to inject length, muscle, and breed leading growth to your next calf crop. His dam has a great udder and has done a great job. His mother is another blend of our good proven Angus cows and SAV Raindance. K36U had a profound impact on our herd and continues that today with over 100 progeny and grand progeny in our herd. This guy puts 5 traits in the top 10% of the population.

ALC HAZEL K36U
MATERNAL GRANDDAM OF LOT 34

LOT 35

8051N just kind of does it all! Strong actual weights and backs it up on paper with stellar EPD's ranking in the top 2% of the breed for WW & YW. His dam is the ideal Angus cow and is backed by an Angus Pathfinder cow in 9703. This is the prototype SimAngus bull in our opinion. A full brother sold to our friend Geff Carstens from Bryant, SD last year. The kind we like to offer in volume in Emery, SD!

LOT 36

A brilliant blend of data, powerful phenotype, and predictable pedigree. He is double stacked for growth being from a top young W/C Revolution dam who excels for length, rib shape, and udder quality. This bull is so long, smooth and athletic. He is a full brother to the Lot 2 bull last year going to our good friend Thomas Olson at Estherville, Iowa. Top 1% growth genetics never looked so good!

W/C HEAVY HITTER 1050M
 FULL BROTHER TO LOT 36
 OWNED BY THOMAS OLSON

LOT 37

982N is an absolute truck! He is so long, thick, and deep. All these physical traits lined up to make him one of the heaviest weaning weight bulls who scanned a huge REA making him the #2 REA bull among the natural calves. He is sired by a top Heavy Hitter x SAV Blackcap May 4136D son that sold to our friend Adam Wright by Turton SD. He is backed by a good Right Now dam. We absolutely loved our Right Now cattle and as you will notice we went back to using him as there is an incredible sire group of those coming down the line in this catalog.

LOT 38

Five traits in the top 5% of the breed! This bull reads good on paper and is a ringer in the pen. A big yearling weight bull that can make those scale crushing feeder cattle or front-end type of replacements. Not sure where we found this good Angus cow? I guess we are going to see if he actually reads the catalog or just shows up to call the numbers. Really good beef bull here and to top it off his full brother sold to Schnabel Land & Cattle of Tripp, SD last year. I think Craig Schnabel and the Colonel Carter may have hung out a little bit during their time at SDSU and I'm certain they didn't get into any mischief.

LOT 39

A solid blaze faced bull here that puts seven traits in the top 25% of the breed. We love his powerful phenotype and extra body capacity. His dam has the ideal udder and phenotype we look for. A full brother sold to the Edwards Family in Utah in last year's sale. An awesome option to make market topping feeder cattle and very front-end type of replacements.

LOT 40

If you're searching for that top end growth yet still want a set of heifers to make good cows with this bull can fit that bill. He is under 1 on birth and really spreads up to weaning and yearling. His dam is super good uddered and easy fleshing. A Heavy Hitter 059 son that puts a very solid set of data together and also has SAV Blackcap May 4136 in his pedigree. We love his low birth and high API numbers for the amount of growth he has. He topped it all off by being the #5 REA bull!

The natural born calf from one whale of a Red Angus cow! His dam was a past \$58,000 bred heifer we sold and has really hit her stride now as a donor cow. She is the mother of the Reserve Champion Percentage Red Angus Female at Jr Nationals this past summer. This bull is one stout and dense rascal backed by one of most awesome Red Angus cows you will lay your eyes on.

Lots of good stuff injected into this 4163N bull. To start off his dam is coming 12 years old and will calve again this spring. On paper we love his blend of high CE, low BW, and up to 127 pounds of YW EPD. It doesn't stop there he reads as a true outlier in terms of his carcass ultrasound as he was a very low backfat bull that at the same time ranks 3rd for IMF, a feat not commonly found.

Double digit calving ease and negative birth weight to 150 YW EPD! This bull really spreads a phenomenal set of numbers. Our good friend Miles Shout at Express Ranches picked us out a few open heifers that year and man have they been good. This cow stays fat all year and has a picture-perfect udder. This one checks a lot of the boxes!

EPDs VS. ADJUSTED/ACTUAL WEIGHTS

We often get asked the question of what we consider most important - weights or EPDs? In our opinion, adjusted and actual weights can vary greatly between herds. Management practices, diet energy levels, and breeder integrity can greatly affect adjusted weights. Therefore, EPDs become a more reliable tool to compare cattle raised in different herds and environments.

All Simmental and Angus bulls selling in this sale are DNA tested. The EPDs printed in this catalog are genomically enhanced.

When you buy W/C bulls you immediately brand your cattle in the marketplace. W/C sired feeder cattle have earned a reputation for being fast growing, high conversion, and high choice. We will help promote your cattle through our relationships with feed yards, order buyers, and local auction barns. You are here for us on our sale day, we want to support you on your sale day!

A SENSATIONAL SIMANGUS™ OPPORTUNITY

Each year we sit back and discuss what we need to do to make a better product for our customers to utilize. In the Spring of 2022 we made a major investment in the most influential Angus cow family in the world. We would like to thank Kelly Schaff and Kent McCune for helping us make this dream come true with the private treaty purchase of SAV Blackcap May 4136D and SAV Blackcap May 6644. I can still remember the day I saw 4136 at TransOva Yackley Division and I thought she was the best cow I had ever seen. She was just a young cow then and after that she went on to become the most influential and high-income generating cow in the beef business. She went on to produce the world record breaking flush of bulls SAV President, SAV Raintance, and SAV Rainfall. We have used all three of these bulls in our program with much success. You will notice many bulls in this sale from daughters of these bulls. SAV Blackcap May 6644 is the “one of a kind” flushmate sister to that flush of bulls and went on to be the top yearling weight heifer of that SAV calf crop. 6644 has 23 daughters retained in the SAV herd and 166 progeny have sold at SAV for a \$13,613 average. She most notably produced SAV Panther, the 2022 \$350,000 SAV top seller. The flushmate sisters to these bulls will highly impact our program going forward. These cattle are better than we had ever imagined! The sheer mass and density they consistently exhibit is like nothing we have seen before. This is the second crop of this same flush mating from our 2024 sale going to Tim Wilken, Adam Wright, Heim Ranch, and Cully Stafford. Two full sisters to these bulls stole the bred heifer show last year commanding \$40,000 to River Creek in Kansas and \$38,000 1/2 interest to King Cattle Co in Indiana. Pick out your favorite and let him positively impact your herd.

#1 IMF BULL IN THE SALE

We love it when a plan comes together! We rarely will ever have the need or desire to purchase Simmental females to bring into this operation but if we do, we do it with a plan and conviction. Chris Nicholson at Lazy C Diamond Ranch made it pretty evident he was cutting loose of some of his very top end open heifers as they transitioned to a fall sale. We could not wait to get these two females mated up to Statesman and wow did it work! When we saw Chris flushed the \$200,000 C4 for to W/C Need 4 Speed we were immediately drawn in. W/C Need4Speed was one of the most physically impressive bulls we have ever sold and commanded \$60,000 to Hilbrands. This bull physically reminds us so much of Need4Speed. Lot 50 will be one of most incredible combinations of data, EPD profile and physical quality to sell anywhere in the country this year. On paper he's got it all from low birth to solid growth and combines it with stayability and carcass merit. Very few Purebred bulls can match his EPD profile in the ASA database. Then couple that with the fact he is one easy stud to find in the pen. He's got good big feet, extra bone, expressive muscle, and tremendous hair. Physically he's been a standout since birth and then throw in that he is the #1

IMF bull in the sale make him one very valuable and intriguing breeding piece to us. Get him bought and let's have some fun making the next generation of great Simmental cattle!

Lot 51 will be one of the biggest spread Purebred Simmental bulls to sell this sale season. He is the only Purebred yearling bull in the ASA database that combines a negative BW with over 110 pounds of weaning weight EPD! Study his overall EPD profile and there will be few that can compare. Couple that with his physical quality and presence makes this dude one special individual. He's attractive, square built, and stout. He checked another box on his carcass ultrasound having a big REA while ranking 4th for IMF. The excitement and interest in TSN Statesman has been off the charts and for all the right reasons. Statesman semen is not on the open market and averaged over \$400/unit is last year's sale making these sons even intriguing not just from a cattle breeding standpoint but also an investment standpoint. A bull that jumped through all the hoops at every measurement and physical evaluation. You no longer have to choose between EPD profile and physical quality, these Statesman sons are living proof!

TSN STATESMAN K006

SIRE OF LOTS 50-62

100 UNITS OF SEMEN SELLS AS LOT 300

LOT 52

This guy really pushes the envelope for what is possible. A phenomenal physical specimen with tremendous figures. Low birth, high growth, and carcass he's hard not to love. His W/C Bankroll x SAV Blackcap May 6644 dam is one impressive bovine. You will start to notice the impact that the Blackcap May daughters are going to make on our program and we are very excited about the future. This bull is the real deal with a pedigree filled with all the good stuff.

LOT 53

One cool dude with big league figures and another Statesman son with the \$200,000 C4 donor as his maternal grandam. His dam was a past featured 1/2 interest bred heifer that sold for \$18,000 to the Mayor of Blakesburg, Iowa Mr. Brandon Reck. Cheryl at the gas station in Blakesburg told me she thought it would be a very tight Mayor race next year between Scott Sandeen, Kendall Bremer, and Brandon Reck. Either way Blakesburg is in good hands! A 3/4 brother to the lot 50 bull as both share C4 on their bottom side. His full sister is a must see and sells as lot 247, she's the current #5 non-parent female in the breed for API. For a negative BW bull to have this much foot and bone is very impressive to us. A cutting edge EPD profile and physical quality make this bull another sale attraction.

Some of you will really find this pedigree interesting as this bull is out of a W/C Relentless x Dakota D13 dam. His dam is a past show heifer for the kids who was a \$30,000 selection from Schaeffer who went on to be Champion Simmental Female at the SD State Fair for Creighton. We call her Princess and we love her. She is bred back to have a full sib to this bull again. A nice set of figures and some extra frame found in this Statesman son.

S A V PANTHER 1906
 \$350,000 MATERNAL BROTHER TO LOTS 55 & 56

Statesman sons from the great SAV Blackcap May 6644! 6644 was the lone heifer calf born in the world record selling flush of bulls at SAV that included SAV Rainfall, SAV Raindance, and SAV Governor. 6644 was also the highest yearling weight heifer of her crop at SAV. She has 23 daughters retained in the heard and 166 total progeny at SAV. As you would expect these guys are true powerhouses in every sense of the word. They are impressive on paper and in the pen. They really spread the numbers from birth to weaning and to yearling weight. They both scanned big ribeye's with some of the highest IMF scores in the group. We wish 56 acted better so full disclosure on him, he will need to go somewhere where they know how to handle him. A big-time pair of beef bulls that cover all the bases for performance, maternal, and carcass.

IT'S SANDHILLS SWAG TIME!

THE EXCITING FIRST CROP BY SWAG!

We have been patiently waiting, or maybe I should say impatiently for this day to come! We offer you the exciting first crop by the 2024 Triangle J top seller TJ Sandhills Swag. A bull who stuck out in a large contemporary group and was sought after by a wide range of top end breeders. He combines the numbers we want with the ELITE phenotype we DEMAND. His semen was in top demand as he was used by some of the best in the business this past spring. Lot 63 is a special son we chose to lead this fresh sire group. He is backed by another Blackcap May female sired by the famous W/C Bankroll. You have probably started to see a trend with this cow family. It's potent and they crank out the good stuff! Lot 64 is backed by a W/C Kaiser x 964G female who was a member of one of the most consistent flushes of cattle ever born at W/C. Full Brothers are working for Yardley's and Pembroke's. All these Swag sons are eligible to use on first calf heifers but have the performance to add value to your mature cowherd as well. It's time for SWAG!

CURVE BENDING SONS BY SWAG!

A very similar pair of Swag sons cut from the same cloth. You will notice they have that extra Swag length and extension couple with real muscle and an awesome set if EPD's. All these Swag sons in this sale are from first calf heifers and the cream has risen to the top. You are getting the freshest genetics from both Swag and our best young females. Both these particular bulls are backed by very good Angus grandam's with ideal udder quality and feet. We hope you find this sire group by Swag as good and intriguing as we do.

MORE SWAG SONS

Another trio of Swag sons ready to get to work. All offer good spread with negative BW EPD's and solid number profiles. Over 1/2 of the bred heifer offering is bred safe to Swag if that tells you anything about how we feel about him and this first calf crop. When a bull gets used harder his second or third year here at W/C there is your sign on how we feel about them.

A pen favorite and pasture standout all summer. I am confident we have not offered a bigger bodied, bolder sprung purebred bull here at W/C in 45 years! Everyone finds him and everyone asks about him. His powerful dam has built quite a resume and just keeps getting better with age. She is the dam of past sale highlight, W/C Midway and the impressive lot 5 bull in this sale. However, if you want a real treat go check out her daughter's selling as bred heifers in this sale. 6105D is also the dam of the \$170,000 top selling female at Bruhn's sale this fall that was purchased as an embryo from us. 34N is a big weaning weight bull that is #2 for IMF and #7 for REA. If you want to make better bodied Simmental cattle with more flesh & power you have found your next herd sire.

MR SR 71 RIGHT NOW E1538

W/C RJ MISS 8543 6105D
DAM OF LOT 70

BIG TIME HERD BULL CREDENTIALS!

A seriously stout and we mean stout pair of brothers backed by the \$200,000 WS Sugar C4 cow. Their dam, Halo is one of many C4 daughters we have collected here to bring you elite genetic packages like these two. Halo ratioed 205 for IMF making her the number one heifer of her calf crop that year. Two Halo daughters by RFS Herald sold to River Creek Farms and Ruby Cattle Co in our 2023 sale. This duo of brothers really puts it all together. We love their bold phenotype while being ripped with muscle and a very good set of numbers. If you're searching for that next herd sire with numbers, phenotype, and from a storied cow family you have accomplished your mission in these two brothers.

133N is a big spread bull that is negative on birth up to 120 on his YW EPD. He hails from one of the best Dream Catcher daughters we ever had in the 9002 cow who we didn't flush until she was ten years old. She kept good feet and udder until she was well past her prime. A very complete bull on paper and in the pen. He scanned well for both IMF and REA and will make stout steer calves or very elite replacement female stock.

This bull is a full brother to the bull who started it off for this famous donor cow. Her first calf was a Right Now son who sold for \$20,000 to Wade Horstman of Parkston, SD. This bull is easy to find and has been a favorite among early visitors. He's fun to look at being big bodied, smooth, and athletic. Another heifer bull prospect who packs a punch from an elite cow family. He represents much of what we are trying to do at W/C. An exciting herd bull prospect who is sure to have friends on February 10th!

LOT 77

Another big-time herd bull from 964G! He's big, he's long, and he's not for the weak. As you would expect he's one of the highest weaning and yearling weight bulls in the offering along with the genomically enhanced EPD's that back it up. One of the highest valued performance driven bulls in the sale bred for power from both sides of his pedigree. If you ready to take your performance and growth up a notch this is one that will rank high on your list. NINE traits in the top 5% of the entire breed! One that we think a lot of and a growth outlier. This bull is a true powerhouse in every sense.

SIRE OF LOT 78

FULL BROTHERS TO THE \$100,000 W/C DABO 703J!

A pair of studs that are the result of another highly proven mating. They are full brothers to the 2022 top selling W/C Dabo that sold to Windy Creek and another full brother sold for \$18,000 to the Resolution group that same year. These brothers have the ability to compliment a wide variety of cow bases to add value to the next generation. Check out their popular donor dam and her beautiful daughters selling in the female division. They are truly a testament to the breeding potency of this cow family. 6175D has now surpassed \$1 million in progeny sales and adds substantially to that with every calf crop. One of the key cow families at the W/C with much influence within this catalog.

A real stud muffin! One that ranks very high on our list for being just flat good, complete, and performance driven. Another growth standout from one of the very best young females at the W/C and is the dam of lots 81-84 in this sale. Her three sons by Journeyman are on the next page. A big weaning and yearling weight bull that screams growth and quality. One of the very best powerhouse bulls in this sale.

MISS WERNING 534R
 3RD GENERATION MATERNAL GRANDDAM OF LOTS 79-81

JOURNEYMAN SONS FROM ONE OF OUR BEST YOUNG COWS

The 2312K cow is one of the most perfectly built performance driven young cows in the herd. We love her combination of build and power. The Journeyman cattle have been very well received. They are cattle that have real muscle and get better everyday of their life. They are consistently some of our favorite bulls to deliver come May. These bulls will be studs come turnout time and make for a lot of smiles when they jump off the trailer.

A “no holes” kind of bull that really blends all the good stuff we are trying to stack into pedigrees. A performance driven herd sire prospect with good numbers, solid growth, and comes from one of the really good cows in the breed. Another great one from 6105D. She has stud sons by three different sires in this sale and her daughters highlight the bred heifer division.

Another Journeyman son from a time-tested cow. 509C just calved at 11 years of age. She was the top heifer of the 2015 calf crop and is near perfect in her phenotype. She has been one of our favorite cows in the herd for quite some time now. 627N is loaded with look and quality as you can tell by his photo. He has look, body, and muscle. This bull comes highly recommended to those of you who demand a look and presence in your cattle.

MAKE YOUR NEXT CALF CROP, YOUR BEST ONE!

A SUPERSTAR SIMANGUS PEDIGREE!

We take great pride in building various blends of SimAngus cattle to meet the demands of our fast-paced customers. 6175D has been a rockstar donor for us and this mating to the \$345,000 SAV Magnum is outstanding. They are massive, thick, and deep. They all support outstanding genomic enhanced EPD profiles with great spread from birth to growth. Full brothers sold last year to Don Bietz, Joe Ebbers, Dan Kopf, and Derek Mueller. Real world rancher bulls with an impressive combination of calving ease, growth, and a herd bull look.

LOT 94

I am a big fan of this baldy bull. If you want one built for the big leagues you just found him. I love this bull's running gear, presence, and muscle. He's so balanced and athletic with added power. We bought his dam from our friends at Hilltop Simmentals and she is very good. A pretty interesting potential heifer bull and could work well here as he is not related to our W/C pedigrees. One we are considering using back in the program.

A strikingly good-looking Trust Fund son from our beloved Fancy donor. He is a full brother to the lot 238 bred heifer that is sure to be popular. As you would expect this bull has the look, bone, and extra good hair to make the next generation very interesting. His dam was a many time champion show heifer for our kids being Reserve Overall Heifer at the SD Spotlight and 4th Overall at the SD State Fair. This one is bred for the purple and is one cool animal.

LOT 99

This bull combines two very influential animals at the W/C. 763T lived to be 15 years old and Bankroll is still kicking at 605 Sires. You will be able to tie into some very good, proven genetics with this bull. He's bred for power, muscle, and maternal. Keep every daughter and his male progeny should be stout!

DW SUSANNA 763T
DAM OF LOT 99

LOT 100

This is now the third stud bull in this catalog from the 6105D donor from the third different sire! We are really building around this cow as we are starting to embrace how special she is and what she is capable of. This bull is a full brother to the recent \$170,000 sale topping female at the 2025 Bruhn Sale in Iowa. We have sold some incredible full sisters to this bull over the years, but she is highlighting the bull offering on this go round. Check out the four bred heifers out of 6105D in the bred heifer division in lots 214 -217. This one royally bred pedigree with the top income cow of the breed on top and bottom. This bull brings power, pedigree, and phenotype all together.

S A V BLACKCAP MAY 6644
ICONIC DAM OF LOT 101

A direct son of SAV Blackcap May 6644! We have loved this mating and have more coming in 2026, you simply can't go wrong when you combine two highly influential animals of their respected breeds. This bull got weaned in November and is a little behind the rest but come turn out he will be ready for battle an be a front pasture kind of bull as he matures.

LOT 102

This bull is from an awesome Basin Payweight Angus dam who had a good Heavy Hitter son in the sale last year that sold to Eric Fiegen. 7036N combines moderate birth, high WW, and a big REA into a good-looking package for any progressive producer to utilize. We love crossing our W/C Simmental cattle on good Angus pedigrees, the results have proven time and time again. He's got muscle, cow power, and reads well on paper.

The #2 weaning weight bull among the natural calves. More top 1% growth genetics from a top growth cow family who is no stranger to making elite performance enhanced herd bulls. Her very first calf by Right Now was one of the top selling bulls going to Craig & Chad Muntefering of Parkston, they have earned the reputation of having one of the very top programs in the area and sold an incredible load of 8 weight steers in December at Mitchell.

W/C JESTER 509L "KEEPER"
SIRE OF LOTS 106-112

LOT 107

A performance and growth standout that's easy to find in the pen. He's the #3 weaning weight bull among the natural calves and was the #8 yearling weight bull with a big REA. It comes as no surprise as he is out of a W/C United 2016 model dam. W/C United set the standard in the breed for weaning weight and performance. He was the top bull in the breed for growth for many years and will go down as one of all time most used SimAngus bulls with over 6000 progeny recorded. This sire group is really good and I think they will be well liked on February 10th.

LOT 110

Another top performance Keeper son from one of the very best Angus cows on the place. A sister to this bull produced a very highly sought after Heavy Hitter son that sold for \$22,000 to Craig & Chad Muntefering last year. This bull put a very good set of data together and blends in some very potent Angus genetics. This bull comes highly recommended for his ability to make fast growing feedlot cattle and/or elite replacements. He does it on paper too with seven traits in the top 20% of the population.

LOT 111

One cool dude! We love this baldy bull's look and quality. His dam has done a great job and this bull should really develop into a front pasture kind of herd bull. He's got the extra look, muscle shape, and good hair that makes him stand out. A bull like this can work in a number of different scenarios to make the next generation better.

LOT 112

Keeper x Lock N Load!! An awesome W/C pedigree and this bull comes from a good 2014 dam who will calve here again in 2026. A lower birth option bull who scanned well for both REA and IMF.

HEIFER SAFE OPTIONS FROM W/C NIGHT WATCH 84E!

LOT 113

A pair of dense and stout made W/C Night Watch sons that are almost exact replicas of each other. Very elite heifer bull prospects who rank high within the breed for calving ease and birthweight. Night Watch has earned a reputation for being a high customer satisfaction sire that has been widely used for many years. They have extra muscle and bone for cattle you can use with confidence on virgin heifers. Elite calving ease - cow makers with extra substance!

A real looker who has been a favorite all along. He is so striking about his design and build from an awesome first calf heifer. His attitude is less than desirable but I bet he gets them all bred. He is still one of our favorite bulls in the sale from a pattern standpoint and has a nice balanced set of EPD's. This bull has a lot of good in him if you can handle his attitude.

An absolute stud from a past \$80,000 valuation top selling bred heifer to Ferguson's. On paper this bull did it all and looks just like we want them to only there is one little problem. He has yet to match to a sire on his DNA, he has matched to his impressive dam and we will continue to try alternate sires up until sale day. Either way he's an incredible bull and will sell regardless as someone is going to buy a very high-end beef bull.

W/C MISS WERNING 0122H
 \$80,000 VALUED DAM OF LOT 116

THE AGE ADVANTAGE DIVISION

We pride ourselves in being one of the only places in America to offer coming two-year-old Simmental bulls. They have been developed slowly on a high roughage – low calorie diet to ensure years of heavy use for you the end user. We are culling on these bulls all summer and fall, the ones that passed all the tests are here for your appraisal. They are semen checked and ready to go. If you want more bull for your buck, you have found the right place!

Not only is this bull a true sale feature but will certainly be one of the best strong aged bulls available for sale in the country. Opportunities like this don't come around often and we pride ourselves on transparency here at the W/C so here's the story with this bull. He was the top selling bull in last year's sale to our friend Chuck Magill in North Dakota. Chuck breeds early and needed a bull and semen quickly. He was not freezing semen at the bull stud when he needed it so we allowed Chuck to go a different route and we kept this bull here. He was impressive as a yearling and has only gotten better. Physically he's got all the bells & whistles. He's stout, attractive, heavy muscled, and has great feet & legs. We have had semen inquiries but decided to let the new buyer determine if they wanted to sell semen on him and at what price. Purebreds built like this and with an outcross pedigree are a rare find. We are big fans of this guy. A real sale attraction and must see!

This is the younger brother of one very impressive flush. Three older full brothers sold last year for a \$14,000 average. Two full sisters sell this year as lots 226 & 227. His dam was a past \$57,000 1/2 interest selection by Cole & Talli Jackson of Minnesota, a great young couple who are great to work with. I told Cole all along that this was my favorite bull of the flush and wanted to keep him for a two-year-old since he was younger. Now is 12M's time, he's going to make someone very happy with their new bull purchase, he comes highly recommended!

LOT 127

Take advantage of another older son of the popular TSN Statesman! This bull traces back to 715T, our first ever National Champion heifer we showed. She was Champion Percentage female at the 2008 American Royal. The 42B cow is a high producing donor cow and has embryos featured in this sale. He backs his nice phenotype up with a tremendous EPD profile putting nine traits in the top 25% of the breed.

TSN STATESMAN K006
SIRE OF LOT 127

LOT 128

Another bull by the growth king, Heavy Hitter backed by the world record selling SAV America on his dam's side. His grandam is the highly influential 534R cow. This baldy bull is smooth, athletic, and ready to have his chance to breed a lot of cows.

A real powerhouse from an old school pedigree backed by the famous high-income cow of the breed 8543U. The solid black version of this mating comes with extra bone, foot, muscle, and ruggedness. He has a full sister selling in the female division and a red baldy full brother selling in the red bull division.

W/C MISS WERNING 8543-1 CLONE
 DAM OF LOT 132

LOT 133

This Herald son is ultra-wide bodied and bold sprung. He has matured into one powerful beef bull! He's backed by a 2012 model dam who is set to calve again here in 2026. A negative birth weight bull with power and known maternal longevity. This bull certainly has the genetics in him to service cows for a number of years and if you keep replacements, he would be one to put on your shopping list.

17M is sired by the very popular Angus sire Good Times out of an up-and-coming donor cow we own with Andrew Barker in Ohio. We liked this bull so much we bred her back the same way and she had a little sister to this bull that sold for \$20,000 in Will Coor's show heifer sale. If you like them really athletic and demand really good hair this bull has got it. His Bankroll sired dam is one of our most promising donors going forward.

The dam of this bull is the \$57,000 1/2 interest bred heifer selection of Cole & Talli Jackson from Minnesota. She had three Journeyman sons in the sale last year that averaged just shy of \$14,000 and she is the dam of lots 121, 226, & 227 in this year's sale. She is proving to be a very potent and special producer for us. This bull is totally ripped with muscle and has the added look so many admire. He should sire a large amount of baldy and blaze faced calves.

Outcross red genetics from two incredible black red carrier parents make this bull a special treat for our red customers. An incredible opportunity to buy a red baldy maternal brother so many influential black bulls like Bankroll, Relentless, Night Watch, and Executive Order. He has been a standout from day one. Physically this red hided baldy puts it all together. He's so wide bodied and bold while being good in his design and has a real herd bull presence. He's a perfect blend of his two influential parents and we needed just a tad bit of luck for him to come out a red baldy. Yet another big-time herd sire prospect from 8543U and this may be her best Red one yet. A real sale highlight on February 10th.

LOT 143

A full brother to the \$32,500 W/C Simple Man, the 2023 top selling bull. This mating has been extremely good and consistent. Four full sib bulls sold that year for nearly a \$15,000 average. This bull is sound, good looking, and should develop into a very impressive mature bull. Man what he could do to a set of Red Angus females!

W/C BF MS SIMPLE MAN
\$32,500 FULL BROTHER TO LOT 143

LOT 144

Full brother to the \$140,000 W/C Truth Be Told! This bull is a true standout and impressive from a baby to now. He is totally massive being so wide chested, bold bodied, and very easy fleshing. A real beef bull with a big top, a big hip, and a big butt. The two full sisters we sold last year were stunning. This guy is a must see on sale day and a sale feature.

Angus time in Emery! We are excited to show you what we have been working on here. Our Angus donor cows are time-tested, proven, and potent.

These two bulls represent the best of Coleman Angus and SAV genetics into one package. Glacier himself sold for \$270,000 for 25% semen interest.

SAV Blackcap May 4136 has generated over \$10 million in progeny sales while 6644 comes from the world record selling flush of bulls at SAV. These bulls are bred for muscle, maternal, and performance.

Our Angus program may be small in numbers, but it is mighty and we offer a genetic opportunity only found in Emery SD with the acquisition of 4136D and 6644. These bulls can inject the good stuff we are all trying to find in the Angus breed today based on performance, maternal, and fertility. We are excited about what this set of Angus bulls can do for our customers and what their full sisters can do for us going forward!

**A ROYAL ANGUS PEDIGREE
THE \$400,000 SPRING COVE GRANT 200K X S A V BLACKCAP MAY 4136D**

We had heard of an Angus bull that was selling in Idaho that was supposed to be very good from our good friend Matt Macfarlane. After the dust settled he sold for \$400,000 and the quest for some semen to flush cows with was on. These Grant sons are very consistent and peas in a pod. They are very similar to the Glacier bulls ahead of them. They have top, butt, and guts. SAV Blackcap May 4136D continues to prove her worth to us and we are so thankful to have her and 6644 in Emery. These are Angus genetics with real world power and performance.

THE FIRST SONS OF THE \$400,000 SPRING COVE GRANT

A trio of Grant sons that fit right together with the previous lots from our home-grown maternal matriarch whose influence can be felt strongly throughout this catalog. These are some of the first sons to sell from the \$400,000 Spring Cove Grant. 036X lived to be 15 years old and we are thankful to still have eggs in the tank out of her to offer her genetics and hopefully retain more daughters in the herd. We love these Angus genetics that will only enhance the next generation for performance and maternal. Since our Angus offering is small, we do our research and only use bulls we are confident can make a positive contribution for our customers. We are excited about the results we have to offer you on February 10th.

AGE ADVANTAGE ANGUS BULLS

Three strong aged Angus bulls that are ready for heavy service and can all be used on virgin heifers. They are stout and ripped with muscle. Lots 155 & 156 come from an Angus acquisition from our friends Jim & Matt Gunderson. Matt is a great mentor and friend of mine as well as being my past 4-H Livestock Judging Coach. The females we selected alongside these bulls have been outstanding as well. Lot 155's mother is exceptionally good and was my favorite cow on the tour that day. Lot 157 is yet another good one from the 763T cow family, he too is heifer safe and ready to breed a lot of females. A nice way to round out the bull offering, we can't wait to see you all on February 10th!

ANGUS BULLS

THE BRAND FOR RESULTS

W/C

THE W/C FEMALE DIVISION

A TRADITION OF EXCELLENCE!

W/C MISS WERNING 088H

This female was purchased by Griswold Cattle Company in 2022 for \$15,000. She was a sale feature in the "Classic" Female Sale in December of 2023 where she sold for \$45,000 to Barber Family Farms of Georgia!

W/C MISS WERNING 652D

"W/C Miss Werning 652D was Gate and I's first purchase together from the W/C program. It was our first year of marriage, first year of coaching NJC, and we lived in a little tiny house on 5th street in Sterling, Colorado. Gate had a long list of breeds she'd like us to buy and those all went on to be high sellers on a tremendous day for the Werning's. Colby Taber was there bidding for me and said, "man I know she's not on your list, but this one is your speed". I rubbed two nickels together and got her bought. I went to pick her up and Dale said, "Young man, I am not sure how you got this one bought for so cheap, but you have the buy of the sale". He may not remember that or even the heifer, but she has changed the entire trajectory of how we breed cattle. Sons have topped sales and been featured by ABS. Daughters are tremendous producers. No questions here, get in!"
 - Curtis Doubet, Doubet Cattle Company

"TRIFECTA"

MR W/C TRIFECTA 975J

Dr. Karl and Nicole Neeser of Red Wing, Minnesota purchased W/C Miss Werning 975G for \$23,000. The calf she was carrying that day was MR W/C Trifecta 975J who sold for \$47,500 to Western Cattle Source!

THE W/C FEMALE DIVISION

ONLY BRED TO THE *BEST!*

TJ Sandhills Swag 816L was the \$40,000 top selling bull of the 2024 Triangle J Bull Sale. He was one of our best finds of the 2024 sale season and his value and popularity do nothing but grow by the day. His service to the bred heifers in this sale is a special sale attraction. An exciting individual!

40 FEMALES ARE CARRYING HIS SERVICE!

One of the very elite genetic packages to be found in the country. It took \$36,000 to bring him to Emery and he was worth every penny. An impressive beast in the flesh and even more impressive on paper. His semen averaged over \$300/unit last year and check out his first sons selling in this sale from first calf heifers. A true genetic masterpiece ready to make a significant contribution to the beef business.

RFS HEAVY HITTER H45 DAUGHTERS

LOT 200

We initiate this incredible bred heifer offering with a compelling bald-faced female that has extra look and scale. She is sired by RFS Herald H104, the lead individual from the pair of performance driven studs that were purchased from Rydeen Farms with maternal support from one of the Werning greats W/C Miss Werning A343. Numerically she is a standout as well for growth traits WW, YW and ADG, as well as top 1% for REA. Safe in calf to TJ Sandhills Swag 816L = big ROI!

W/C Miss Werning 492M is a striking blaze face female that is heavy duty in her basic build and body shape. We love the genuine power, width, and squareness this female offers. She is a long sided, deep bodied, powerful female that is out of a direct daughter of the iconic Miss Werning 534R. In addition, her pedigree aligns the influence of breed greats like Remington Lock N Load 54U, W/C United 956Y, and R&R Warehouse K609. On paper she ranks in top 1% for economically important traits WW and YW, and the top 5% for ADG. She's armed with tools to make a lasting impression on the operation she lands in!

FULL BROTHER TO LOT 213

THE 6105D DAUGHTERS!

LOT 214

A pedigree that generates! Allow us to introduce an incredible set of flushmate sisters sired by RFS Herald H104 and out of the famed W/C RJ Miss 8543 6105D donor dam. 6105D herself is a full sister the three-quarter blood king W/C Executive Order 8543B, one of the great sons of Miss Werning KP 8543U to ever exist. Full brothers to these four high end females have brought \$18,000 and \$11,500 in previous years sales along with a full sister commanding \$12,500 to Paxton Cattle in the 2024 sale. These females are stout and long bodied with an attractive look, just as we've come accustomed to from their mother. All four females carrying the exciting service to the calving ease phenom TJ Sandhills Swag 816L. Get ready to cash a check here!

WOW! This OMF Journeyman J24 daughter has a mouthwatering silhouette. The cow power backing this high tying, long bodied, ultra-attractive female is tremendous. Her young donor dam produced a tremendous set of full brothers that highlighted last year's bull division. She is a direct daughter of the bill payer herself Miss Werning 534R that has left her generational stamp not only at Werning Cattle Company but firms across the country. If your goal is to elevate your program 473M can get the job done!

SIMANGUS SUCCESS!

LOT 234

LOTS 234 & 235

There is great pride taken in the SimAngus built at Werning Cattle Company, and it's always rewarding seeing them work for progressive seedstock and commercial producers alike. Utilizing the \$345,000 S A V Magnum 1335 on the dynamic W/C Miss Werning 6175D proved to make a great pair of SimAngus cattle we've come accustomed to from the program.

431M is a tremendous baldy female with the true dimension that starts at the ground with a big foot and base width. A female that is so robust in her ribcage and reads **STOUT** from every angle. Imagine the herd bulls she could produce. An incredible pair of sisters that are worthy of further evaluation!

LOT 243

We love the silhouette and look of quality of this purebred female! A daughter of the Boyert Show Cattle and Buck Creek Ranch owned stud Next Level, Miss Werning 3014L is put together so good in her front end, loose and flexible in her spine, and correct in her hip and hind leg. Her mother has been a generator since her first natural calf, which was the \$105,000 W/C Double Down 5014E. We trust in this one's ability to elevate the next generation. An elite genetic opportunity awaits!

LOT 244

Power and presence! The work of W/C Miss Werning 964G continues to surface with this centerfold female sired by the \$110,000 OMF Journeyman J24. Making her a full sister to arguably the deepest set of flush brothers to ever sell at Werning Cattle Company. The set of full brothers averaged \$24,000 led by a star headed stud that had a final hammer price of \$67,500 going to work for Chuck Magill of Verona, North Dakota. Make no mistake, W/C Miss Werning 419M won't live in shadows of her brothers. With the incredible set and arch to her neck combined with appropriate angles and overwhelming substance, she is sure to forge her own path. A true sale highlight that will turn heads!

LOT 245

W/C Miss Werning 413M comes as some of the freshest genetics offered in Emery, South Dakota. She is sired by the young gun that is quickly making his mark, TSN Statesman K006, out of a cow that is sure to write her own chapter of maternal prowess at Werning Cattle Company. In last year's offering of yearling bulls, W/C Miss Werning 964G had 12 sons average just shy of \$23,000 with a full brother to 413M selling for \$50,000. The opportunity to get in on one of her early daughters could prove a wise investment. Stout, good built, and backed by cow power will never go out of style!

LOT 257

A stunning daughter by Ruby's Whitewater 2114K that is massive in her rib cage and easy fleshing. This female is out of an S A V President 6847 sired dam that was Dale's favorite heifer of the 2021 calf crop. This brood cow carries the maternal influence from great Miss Werning 174Y, Miss Werning 534R and S A V Blackcap May 4136. Her pedigree is lined by the most influential females in the beef industry, plain and simple! She is bred to the Werning branded calving ease specialist W/C Night Watch 84E for a quick return on the dollar!

MR W/C Trifecta 975J was selected by longtime friends and customers Jock and Brenda Beeson of Western Cattle Source with the final gavel price of \$47,500. His first set of daughters have hit production, and they are simply exceeding all expectations. Females that maintain flesh, are beautiful uddered, bring stout calves to the weaning pen, and for the discerning cowman, look good doing it. This "Trifecta" daughter is one we are confident in her ability to do the same. Backed by a highlight of a first calf heifer, she is sure to generate quickly!

SERVICE SIRE W/C NIGHT WATCH 84E (ASA: 4600153) - DUE 4/20/2026 - BREED 3/4 SM 1/4 AN - CALF SEX BULL

Some would say this pedigree is “old school cool” or some would say “if it’s not broke don’t fix it.” We will let you be the decision maker there, but the fact is two of the most prominent influences in this sale book are Remington Lock N Load 54U and DW Susanna 763T. Lucky for you, W/C Susanna 4202 has BOTH of those icons on the first line of her pedigree. 763T and her daughters have left a tremendous impact not just here in Emery, but their offspring is dispersed to purebred and commercial cowmen alike. The “Lock N Load” daughters simply speak for themselves. The opportunity for your own cornerstone female lies here!

S A V Blackcap May 6644 does it again with this W/C Bankroll 811D daughter. We’re continually impressed with 6644, who is full sister to icons like S A V President 6847, S A V Rainfall 6546 and S A V Rainsance 6848. In her tour at Schaff Angus Valley she had over 160 direct descendants sold from the auction block for an average of \$13,387, including the \$350,000 SAV Panther 1906. This pedigree aligns the \$10 million+ producing S A V Blackcap May 6644 and the \$8 million+ Miss Werning KP 8543U...the best of the beef business females are right here!

SERVICE SIRE TJ SANDHILLS SWAG 816L (ASA: 4217005) - DUE 6/3/2026 - BREED 1/2 SM 1/2 AN

This big bodied, broody quarter-blood Simmental female is destined to be a pillar in your program. She is sired by a great PVF Insight 265K son that is backed by the mainstay matron, DW Susanna 763T. This mating has produced some of the high-quality Angus females to roam Werning Cattle Company. 4204M dam's is a past bred heifer highlight that has turned into a tremendous front pasture kind type cow. The deep sided, easy fleshing female will be one you'll be excited to see what she brings to weaning pen each year.

SERVICE SIRE TJ SANDHILLS SWAG 816L (ASA: 4217005) - DUE 3/28/2026 - BREED 3/8 SM 5/8 AN

Angus enthusiasts gather 'round for an incredible pair of females! Allow us to introduce you to flushmate sisters from the Angus phenotype changer PVF Insight 0129. The daughters sired by "Insight" have left a lasting mark on firms of various breeds across the country. Their mother DW Susanna 763T is one of the great Angus matrons to serve at Werning Cattle Company. Both of these females offer a stamp of quality with added punch we would expect from such a mating. Individually, 4203 has added length of body and density to her feet and legs while 4201 offers such an elite front one-third with added depth to her center body. Pick and choose or buy them both, there is no wrong decision.

What a pair of TA Mighty River 2042 daughters. "Mighty River" is the calving ease and phenotype tandem working for Krebs Ranch in Nebraska and Thompson Angus in North Dakota. Both females come from incredible Angus prototype dams that are maternal, easy fleshing and great uddered. 4119 is a real ground sow in terms of body and dimension. She's carrying the exciting service of Angus incredible Connealy Commerce. We love the type and kind that this dense made brood cow prospect represents!
