## MISSOURI ANGUS FUTURITY BULL GUARANTEE

The seller of every breeding age bull in the Futurity Sale guarantees them to be fertile at the time of sale. All bulls have undergone a breeding soundness evaluation and are guaranteed against breeding injury for the first 90-day breeding season. This guarantee is in place for bulls sold during the bull portion of the sale and does not encompass bull calves at the side of dams. The breeding season begins the first day the bull is exposed to cows and the 90-day breeding season guarantee will not extend past June 30, 2026. Should a breeding injury occur to render the bull functionally infertile during the first breeding season guarantee time period, then a refund minus the salvage value of the bull will be issued to the buyer by the seller. If an injury should occur, the buyer must notify the seller as soon as possible and prior to the injured bull being sold for salvage. This guarantee is not a life insurance policy. There will not be a refund if the animal is killed or dies for any reason. This guarantee is in addition to the Sale Terms and Conditions of the American Angus Association, which also apply.

## REGISTRATION TRANSFER

Seller will transfer registration to the buyer of their respective lots once payment has been received by Missouri Angus Association.

## • Consigned by Thummel Angus

• One thing about Thummel Angus consignments is you always find cow power in their pedigrees. TA Achievement 436 is no exception to that rule. He has three close dams in his pedigree who produced through ten years of age. They consistently calved towards the beginning of calving season and produced progeny vital to their operation. You search back through his dam lineage you find SAF Directive, Bando 598, Bando 5175, Baldrige 38 Special. Bulls that have powerful dams shaping the Angus breed into what it is today. TA Achievement comes from a Dam who is just starting to write her own story. You will admire his perfect feet, jet black hide, his stoutness of hip, softness of middle, and definitely his herd sire presence! Read his pedigree, read his genetic profile, do not let this opportunity slip away!

Lulu has a special place in our family. Never in a million years would I have dreamed the blessings she has given my kids. We have raised every cow in her pedigree on our operation since the first Lass's hit the ground in the spring of 1995. I want to offer you the chance at the heart of the program. An opportunity to own some of our very best genetics. The two sire choices compliment LuLu very well up and down the genetic profile. These attractive power house bulls give her added performance without taking away any of LuLu's maternal abilities. Bullerman Significant's life came to an early end giving an opportunity to own genetics few will. Boyd Bedrock will keep you on the cutting edge, and maybe put you at the backdrop in 2027!
