

TC REDS & WEIS CATTLE

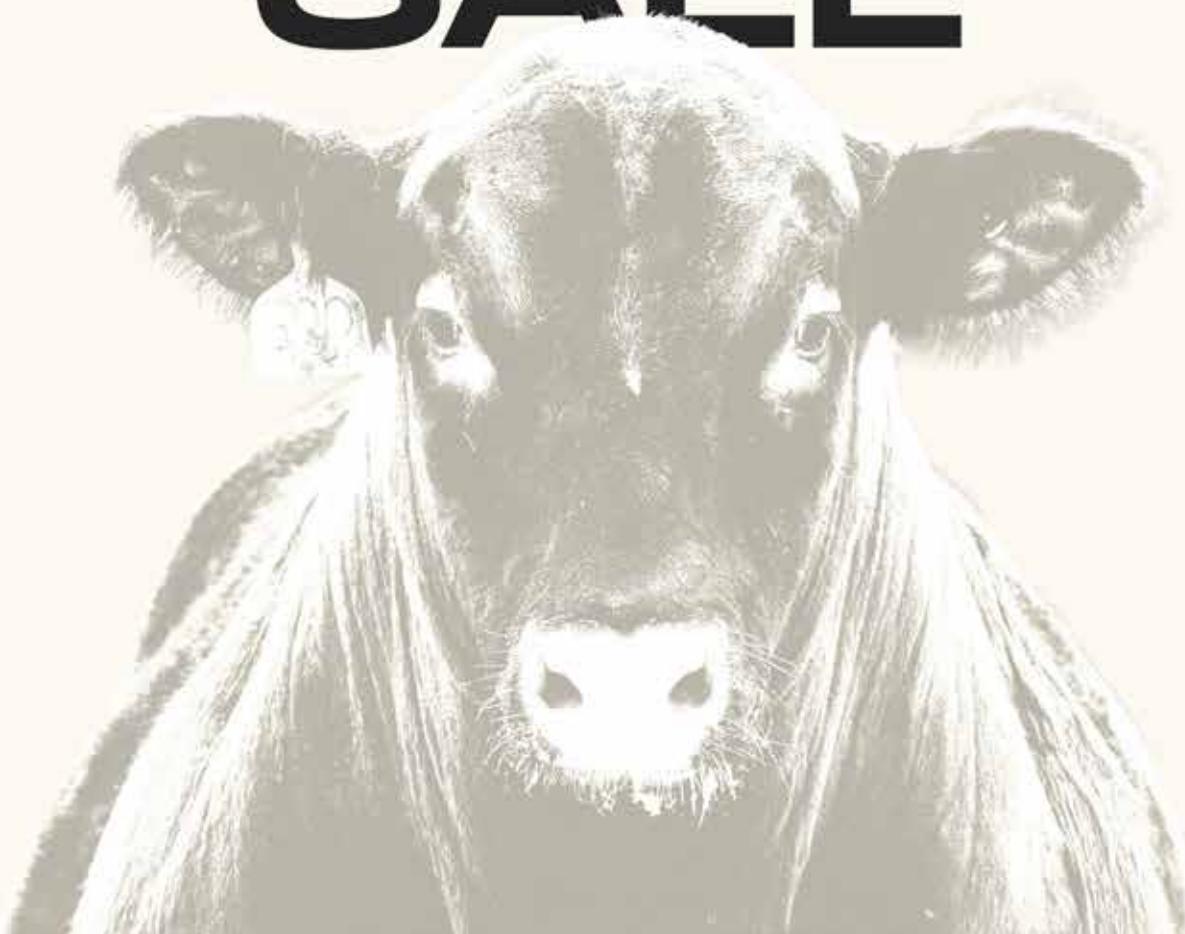

# the BULL SALE

MONDAY, FEBRUARY 16, 2026 | 1 PM CST

St. Ansgar, Iowa

WELCOME TO

# the BULL SALE

# FIRST & FOREMOST

Thank you for taking the time to view our offering for the 4th Annual TC Reds & Weis Cattle Bull and Bred Heifer sale. Every night as I glance at a day's haul of catalogs from the mail I am reminded how many firms are fighting for your business, and we are truly humbled to be in your consideration. In just the short four years of this sale we have stayed focused on offering progressive genetic options while refining our identity to a source of functional cattle for real world operations without sacrificing a look of quality.

Before getting to the cattle, I would be remiss if I didn't talk about the people that make it possible. The Bayer family have made the ultimate sale partners. Since day one I have leaned heavily on Scott and Ty for all things related to this sale, and we are very fortunate to have them to lead us in this adventure. Outside of the sale, Scott and Mia, have become incredible role models that Nikki and I look up to constantly as we raise our young family in this business. Besides our sales partners we could not do what we do without the exceptional help we have at home. Carson Rodgers and Austin Foss are both full-time and are here in the trenches everyday putting in countless hours to make sure everything is taken care of. Both of them continue to learn and refine their skills each day, which is the absolute key to our future growth and being able to better service our customers' needs.

Writing this while flying home from the NWSS with our oldest daughter, Dallas, has me soaking in how fortunate we have been in this business. There is no doubt that the people we have met and the relationships made are some of the core pieces, but this trip has reminded me that Nikki and our daughters are the fuel to my drive to be better each day. Nikki is the ultimate life partner and invests countless hours in our cattle business that never gets credited. Whether it was watching her picture cattle at 9 months pregnant this fall or editing videos in the hospital while patiently waiting for Kirby to make her entrance to the world, she sets the tone for the drive and work ethic demanded in today's industry. Finally, watching our girls' interest in the industry grow has motivated me more than ever to further push our progression and ensure our genetics are sustainable for the long haul.

I will keep the discussion on the cattle brief as we encourage you to come to St. Ansgar on or before February 16th to appraise them in person or call any of us to discuss them in detail. We keep structural integrity at the forefront of our selection and believe strongly in the power of cow families and longevity. Past that, continuing to add growth and power has become our constant pursuit, with the ultimate goal of our customers' profitability top of mind. We are proud of the livestock within these pages and are excited to watch them go to work for their future programs.

# welcome

Collaboration is the process of individuals or teams working together, sharing knowledge, skills, and resources to achieve a common goal or produce a shared outcome. The process can be very positive, especially in a production sale setting, helping generate the quality and volume needed to create demand for the event. Of course, the benefits of shared labor and reduced preparation expenses are huge assets to both entities, but the cooperation required to reach the targeted end goal can be as rewarding as anything else. The Bayer and Weis families have worked together for a number of years, and the success of the joint venture is quite impressive, as it's draped in purple and sale success stories. Willie, Scott, and Ty know each other very well, and the wives, Nikki and Mia, complement each other well to get to the finish line. These families share a passion for leadership. Each has its own approach to breeding cattle, yet those approaches are more similar than not. That's why this joint venture has been so successful, with like quality across breed lines and the ability to present them as few can. Presentation of the product is a passion, and a skill set that has placed both firms on the map. The cattle in this sale book will stimulate thought, curiosity, and interest in scheduling an in-person visit, especially after the videos are posted on CCi.Live.

The devotion to genetic improvement is evident year after year. Measured performance continues to rise, and the bulls are masculine, stout, and built to work for seedstock or commercial cattlemen alike. Quality in kind and structural build will never be sacrificed for a piece of paper. As a result, the "breed association" improvement may not be on a rapid trajectory, but over the next five to ten years, it is projected to improve to a level that will be appealing to a broader base. Regardless, the cattle are constructed right from the surface up. Each breed sets to the surface with good, big feet, skeletal quality, substance of bone, muscle shape, and center body shape advantages as well.

Annually, females that leave this sale immediately enter donor lineups for those who invest in them. They are from popular, proven donor dams with proven production and earning records. So many of the bred females offered through this sale series are full sisters to the high-selling females offered as open prospects the previous marketing year. The earning potential of these females far exceeds their investment value, and the cattle have successfully acclimated to multiple environments and climates. We know this is the very best set of bred females the joint venture has ever offered, and we are certain you will agree once your eyes take them in.

2026 is the year to invest in quality and quality in volume where and when offered. The industry's demand for quality is significant, and supply is short in some places, but it won't be at 1474 State Line Street, Saint Ansgar, Iowa. If you have not been through this sale offering before, you simply do not know what you have been missing. If you need any additional information about the offering, guidance with selection, or sight unseen purchasing assistance, do not hesitate to reach out to Willie, Scott, Ty, or any of the Innovation AgMarketing Team. We look forward to fielding your calls and texts about the stock, and we appreciate your interest.

Enjoy the cattle,

I N N O V A T I O N   A G   M A R K E T I N G

**Dick Coleman**, 765.461.0954

**Joe Taylor**, 608.697.0704

### INSURANCE

**James Bessler**, 815.762.2641

### TERMS & CONDITIONS

All cattle will sell under the suggested terms and conditions of the respective breed associations in which are represented throughout the sale offering – American Angus Association, American Simmental Association, Red Angus Association of America, and the American Maine-Anjou Association. All sales are final.

### BULL GUARANTEE

We guarantee that all bulls sold through our sale are fertile. If a bull is injured anytime in the twelve months following the sale, that makes him functionally infertile, we will provide a replacement bull or issue a credit in following sales, equal to the purchase price minus the salvage value received for your bull. The sale credit can be used on bulls or bred heifers the following year. This is not an insurance policy. The guarantee is in addition to the sale terms and conditions suggested by the respective breed associations that are represented throughout the offering.

### SEmen INTEREST

TC Reds & Weis Cattle will retain 1/3 semen interest on all bulls selling; meaning if either breeder should choose to collect semen on any sale bull, they would have the option to do so at the seller's expense. In addition, if semen is sold on any bull(s) that is collected, revenue shall be split with seller retaining 1/3 of proceeds. Buyer will receive 2/3 semen interest, full possession, and salvage value unless otherwise specified or announced.

### BRED HEIFERS

TC Reds & Weis Cattle will retain 2 successful flushes with a minimum of 6 transferable embryos per flush on every female in the offering, unless otherwise stated. The flush work to be done at the buyer's convenience and seller's expense.

### SIGHT UNSEEN GUARANTEE

If you are unable to make it to the sale, please feel free to reach out to anyone associated with the breeders, sales team, or authorized sale representatives to help find the best fit for your operation. Please reach out to TC Reds or Weis Cattle ahead of sale day to discuss the cattle in more depth. 100% customer satisfaction is guaranteed!

### BULL DEVELOPMENT

All bulls selling can be developed at no additional cost through April 15, 2026. At that point we will semen test, administer pre-breeding shots, worm, and pour your bull. If you plan to leave your purchase in our care, it is required that you insure your purchase. Any bull remaining in our care past the April 15th date are subject to yardage costs.

### ANNOUNCEMENTS

A supplement sheet will be available sale day with updated information, corrections, and additional information. This sheet and any announcements made sale day from the auction block during the sale, will take precedence over printed material associated with the sale.

### LIABILITY

Anyone attending this sale attends at their own risk. Sellers, facility owners, nor the sales team will not be held responsible for any personal injury from attending this sale.

### VIDEOS

Videos of cattle will be available prior to the sale. The videos will be available for viewing at [www.CCI.live](http://www.CCI.live) and [www.InnovationAgMarketing.com](http://www.InnovationAgMarketing.com)

- What a way to initiate as deep and diverse set of bulls ever offered in the TC Reds and Weis Cattle annual event. The script could not have been written any better and executed to higher degree of perfection right here with Lot 1.

- Kruse Independence 2237 is sired by Rosebud, Stagemeyer, and Buck Creek stud STAG independence, who himself combines high end phenotypes from both production and showing oriented cattle tracing back to dominators within their sector, S A V Bismarck 5682 and Colburn Primo 5153.

- His dam, Plum Creek Annie Lu 9271, has established herself very deserving of notoriety producing multiple high sellers and champions. That list includes the 2024 NJAS Reserve Grand Champion Owned Heifer and 2024 American Royal Rov Grand Champion Angus Heifer for the Curtin family and the 2023 Iowa State Fair Supreme Champion 4-H Breeding Heifer just to be brief.

- This dense, bold made cat has pedigree and phenotype that oozes quality. He comes with added foot, feature, and substance in a package that is constructed correctly for the surface up. Even still he maintains a presence that constitutes superiority.

- Come on up, the pay window is open!

- BNWZ Dignity 8017 has established himself as the go-to Angus sire for cattle with more punch to their upper rib, hip, and bone work than their counterparts while still maintaining a look and structure that is correct and aesthetically pleasing. His service on the famed UDE Queen Ruth 9088, better known as "Becky", that works diligently for the Lashmett and Weis partnership proved here to be a working recipe.

- A descendant of the bread-and-butter Udell mating KR Casino 6243 x KDJ Queen Ruth 502, "Becky" herself was a division winner at the 2020 NWSS ROV Angus Show and her progeny have continued her winning ways. She is the dam of Sloane Curtin's 2022 Iowa Beef Expo Reserve Supreme Champion Female and recently a division winning Angus female for the Berg Family at the 2025 North American in Louisville.

- N549 comes to us as expected from his lineage. A bull that is stout in his skull and jawline leading back to ribcage and pin set that wide and robust. The angle and construction of his joints read with the appropriate set and longevity. He does all the necessities on a big foot with a look that reads with nothing but excellence.

- Tie in here!

# THE angus BULLS

- If you are after a herd sire backed by cow families that generating good ones is the only thing they know then look in here. O1N's sire is a KR Casino 6243 son out of Seldon Rest Pin Gal 8105, who is known for generating all the quality black hided cattle around Ringle, Wisconsin, including the freshly slapped Grand Champion Angus Female in the Junior Show at the 2026 Cattleman's Congress.

- This stud's dam traces back to the legendary Udell matron, KDJ Queen Ruth 502, who simply needs no introduction. With two shots of the generational sire, KR Casino 6243, the script is written with excellence in the ink.

- He's a herd sire prospect that hits the pen with added stoutness of bone and foot with power from every angle. His impact on a phenotypically progressive cow herd will be measurable for years to come.

# THE angus BULLS

- CLF Outsider 24N is unique sire prospect in his ability to merge added length to his body and neck with roundness and shape to his ribcage – traits we often see lost or forgotten about when trying to elevate the side view image of cattle.

- He comes with a pedigree that has built high end phenotype for multiple generations and firms. With the likes of "Shadoe" and "Lady" cow families along with Angus phenotype mainstay Silveras Style 9303, he is bred for success.

- He will keep a phenotypically progressive outfit on the forefront of today's fast paced cattle business.

- We kick off the Riverstone Vegas 49H sire group with a pair of full brothers in blood. 522 and 511 come from a pair of young full sisters sired by the great KR Synergy backed a great daughter of the legendary EXAR Lutton 1831.
- This pair of bulls offer so much of what we have come accustomed to from their sire in cattle that are good and stout in their structure, have added foot quality and have the right kind of body softness.
- 522 comes with a shot more dimension when studied up high and from behind and his counterpart 511 is a notch prouder in his neck with all the presence you could ask for.
- Success rate will be high with either choice!

- The last son of Riverstone Vegas 49H comes with added base width, ribcage, and pin width in a shot more moderate package. Even with more power he still drives with the structural integrity and look we have come to know as standard for the "Vegas" sired cattle.
- CLF MC Vegas 5968 comes backed by some of the legendary sires of all time in the Angus breed. His maternal grandsire is the great EXAR Lutton 1831, that set the standard for upper echelon Angus cattle in his time.
- Genetics as predictable as they come!

- The lone MaineTainer bull is worthy of the trip Saint Ansgar, Iowa, that is if you haven't already seen him on his winning run this fall and winter. We are excited to offer you the reigning Grand Champion MaineTainer Bull at both the North American and Cattlemen's Congress.

- KMEM Popular Demand ET has created just what his names sake suggests by those that have admired his elite profile, added substance and appropriate structural build. He offers a neck set and presence that is captivating, but he is still laid back in the angle of his blade and knee coupled that with a ribcage and upper hip that is expansive.

- His sire, Weis All Me 10F, that is siring impact AI sires, donor dam, and high sellers all across the Maine Anjou breed. Backed by a daughter of NMR Maternal Made, this dude has the highlights of the breed scattered all across his pedigree.

- Hear that?? It's opportunity knockin'!

# THE simmental BULLS

- Next up is pair of WINC All Right sons. "All Right" is the \$90,000 calving ease specialist from the Windy Creek program that now is employed by Griswold Cattle. Across the country more bred heifers this fall and winter have been marketed with his service than any other SimGenetic bull – a testament to his quality and predictability.

- Weis All Right 376N is backed by an incredible MR HOC Broker dam that now is affectionally known as "Rudy."

- This extended made bull still packs some punch and growth with a moderate 81-pound birth weight and converted to a 728-pound weaning weight.

- If you are seed stock connoisseur looking for highly marketable Simmental influence progeny or a progressive commercial cattleman ready to take advantage of herd improvement, tie one on here!

- It is with great excitement we introduce to you this royal pedigreed SimAngus prospect. He comes with the freshest genetics the Bayer family has to offer, sired by SO Remnant 418J out of the tried-and-true cornerstone Angus female, FCF Phyllis 770.

- FCF Phyllis 770 was the 2019 NJAS 4th overall Owned Heifer, she is a direct daughter of the iconic SCC Phyllis 051, one of the most influential females in the history of the Angus breed when it comes to producing elite-phenotype Angus seed stock.

- It's intriguing for a bull to be genuinely bold and soft in his body, big and expansive in his upper hip and lower quarter, all the while maintaining smoothness at each of his transition points. We truly believe you should see for yourself...a sale day must see!

• HERD SIRE!

- This son of SO Remnant 418J is out of the Stella 08E donor, a female that needs no introduction to the crowd. 08E was the 2019 National Western Stock Show and Fort Worth Stock Show and Rodeo Reserve Champion Heifer that has produced countless high sellers and champions to the TC and Weis outfits.
- TC Remnant 80M comes with the tools to go the distance. Muscle, center body, structural integrity, and performance will not be sacrificed once introduced to a set of cows. Take note of an impressive weaning day performance at about 814 pounds.

- The second son on offer out of the leading Simmental lady for the Bayer firm, J6C Weis Miss Coco 16F, is stout and studly.
- J6C Weis Miss Coco 16F was a champion herself and has since turned the crank in production. Her natural calf by one of the greatest SO Remedy 7F sons in use, SO Remnant 418J, sets a new standard for dimension and density within the auction.
- If you need to add some punch and power to calf crop TCB Remnant 87N is your guy!

- The last of the SO Remnant 418J sire group is sure no slouch.
- We've been so impressed with the Remnant's first few calf crops and think his progeny will prove to have a place for progressive cattle production for years to come.
- To add to the package TCB Remnant 56N stems from an impressive young cow sired by LKCC Bold Venture 194F that is doing solid work in production.
- Bid with confidence!

- The only thing changing as we swap to the Red Angus division is the hide color, as the quality is still ALL there.
- TC Resource 02N combines the best of the best from TC Reds program. Sired by the incredible J2R Resource 144J, that has adjusted the sites for density and correctness of Red Angus bone and foot structure. 02N's dam is none other than THE WEBR MS Ellie 1024, who has ran point for the red hided team for years.
- 02N exudes the positive attributes of both his sire and dam. He has the integral power and construction of his father and the high tying odd-defying presence of his mother; with the features we've come to expect from both.
- He ranks in the top 11% for CW, top 15% for HB and top 19% for ProS.
- High-end red hided herd sire on deck here!

- Not to be repetitive but this set is deep and diverse as ever offered by the Bayer and Weis firms. These bulls are true products of the programs. Cattle that have been bred with intention and managed with conviction. The fruits of years of their tireless efforts are right here for you to take advantage of!

- The final J2R Resource 122J son is one to be admired. A stout Red Angus bull with the running gear and body type to go the distance in production no matter the environment you place him in.

- With a 717-pound weaning weight, we would say what can't he do? Put him to work!

- TC Resource 40N could have easily led off the J2R Resource 144J sire group.
- With the influence of one of bulls that will go down as one of the most influential Red Angus phenotype bulls of all time, RED MRLA Resource 137E, it is no surprise 40N reeks of quality
- It does not hurt his dam is generator herself, sired by BHR Durango 1158, she produced a 2024 "Visions in Red" sale highlight that garnered \$11,500 at the final drop of the hammer.
- His neck is set high out of laid-back shoulder and knee, his body is bold and deep and his hip and hind leg is big square. Very rarely are those traits all-inclusive in one individual.
- He comes with a set of figures that are balanced and practical. The next box to check is you owning him.

# THE red angus BULLS

- This blood red stud brings all the width, dimension, and red meat a guy could want.
- Sired by the popular DUFF HD 2046, that is passing on all the power pieces in an attractive, usable package.
- He comes with a double shot of the queen of the breed, GT Cita 4060, as well as the other household Red Angus female name, DAMAR Mimi W085.
- A stout set calves and pretty daughters – TC HD 2506 will answer the call!

AI BRED 5/20/25 TO PVF DLX KING PIN 0058 (AAA: 19812047)  
 SAFE AI WITH NO EXPOSURE - EST. DUE 2/26/2026

- We initiate the bred heifer division with none other than a direct daughter of icon, UDE Queen Ruth 9088, better known as "Becky"! She was the genesis of the great KR Casino 6243 x KDJ Queen Ruth 502 mating being the first one ever offered to the public in the 2019 "The Advantage" Production sell at Udell Cattle Company. "Becky" was a division winner at Denver before kick starting her production career for Lashmett and Weis.
- In her time at work, she produced a \$27,500 heifer in 2021 sired by SCC SCH 24 Karat 838 that was campaigned by the Curtin family. That heifer went on to have very successful show career highlighted by being selected Reserve Supreme Champion Breeding Heifer at the 2022 Iowa Beef Expo.
- The following year another SCC SCH 24 Karat 838 daughter highlighted the Weis Cattle online heifer sale and sold for \$100,000. In predictable fashion another SCC SCH 24 Karat 838 daughter garners \$19,500 in the 2023 edition sale.
- This Conley No Limit sired version is a dense made, attractive, soft centered female destined for the donor pen at her next progressive outfit.
- Safe AI to PVF DLX King Pin 0058 the return on the dollar will be quick and high!

 LIKELY SAFE AI - EST. DUE 2/20/26

- A FULL SISTER to the most proven and profitable Angus mating at Weis Cattle – SSS SCH 24 Karat 838 x UDE Queen Ruth 9088.
- Lashmett/Weis Queen Ruth M458 full sisters have sold for \$100,000, \$27,500 and \$19,500, and her maternal siblings, both male and female, have highlighted every marketing event for Weis Cattle over the recent years. A testament to the fact that UDE Queen Ruth 9088, aka “Becky”, does not miss.
- M458 has the signature look we’ve come to expect from the genetic combination. She is so angular and extended from her shoulder forward. Her hindleg is constructed in way that dense in bone work, yet flat and attractive in it’s make up. She truly has the makings to produce the qualities needed in today’s female for exhibition.
- SimGenetic enthusiasts should look in here as well as she’s carrying the service WHF/JS/CCS Woodford J001 for a SimAngus standout come late February.

- WOW, what a female!
- Exquisite front end, three-dimension rib design, hip and hind leg from the textbook, huge bone and feet, and a striking bald face. I don't know how you could build one any better no matter the breed registry.
- Her young dam, Weis Miss Lilly 35J, is a WLE Copacetic E02 daughter out the mainstay Simmental donor for Weis, JPLF/RBS Your The One, or affectionally called "Rudy". 35J was successfully exhibited by the Roeder Family being selected as 2023 Cattlemen's Congress Grand Champion Purebred Simmental Heifer. She is early in her donor career, and we feel she's just getting started.
- The "Rudy" cow family is responsible for a long list of accolades and impact that is simply incredible. We have full confidence in Weis/ KCKR Lilly 206M will add pages to that list.
- If her upper-echelon kind wasn't quite enough, her calf sired by WHF/JS/CCF Woodford J001 calf on the way should solidify the deal.

- Wille Weis is as locked in as any young cattlemen in the business on making stock of multiple breeds better and pushing them to new heights. The best part for you is he is generous with his success and letting you have the opportunity at all the good stuff!

- There is simply no denying the STCC Tecumseh 058J sired cattle when they enter the pen. The aura they present themselves with in the way their head, neck, and ears are all attractively assembled is no doubt unique for the Simmental breed.

- Backed by one of the all-time greats in the business, "Rudy", Weis Nala 104M has the genetic potency to generate. We expect her extreme look of quality to translate into the next generation just as it has for her dam and grand dam.

- Her mating with WHF/JS/CCS Woodford J001 for her first calf could be the first success story we hear out this group of future of donors.

- “Rudy” dropped off all the goods here in this pair of full sisters.

• Weis Rudy 401M sets the standard in the offering for base width, body shape and dimension from behind. With all that power she remains more than adequate in her joint work and flexibility with an undeniable head and neck.

• Sired by the \$620,000 STCC Tecumseh 058J and backed by high dollar offspring generator extraordinaire, JPLF/RBS Your The One, aka “Rudy”, there really is little guesswork to be accounted for.

• No need for sexed semen here. Her offspring of both sexes will have marketing ease.

• The second of this incredible pair of sisters comes with the extras – bone, foot, giraffe necked, and striking bald face.

• For a heavy bred female to remain chiseled through her head and neck and still explode in a robust and soft center is to be admired.

• The world record setting STCC Tecumseh 058J and “Rudy” is not something to bet against. Get ready to gather the chips.

• As unique of breeding piece in the whole offering!

# THE simmental HEIFERS

- Introducing an intriguing pair of full sisters sired by the trending Next Level out of Bayer Simmental cornerstone, J6C Weis Miss Coco 16F.

- J6C Weis Miss Coco 16F was dominant at every stage of show career. An own daughter of the show ring king, the iconic W/C Relentless 32C, she saw success in Louisville and the "mile high" city, being selected Reserve Grand Champion Purebred Heifer at the 2019 NAILE and Reserve Grand Champion Junior Purebred Simmental Heifer at the 2020 NWSS.

- M100 offers high-end look with her refinement up front but still big footed and opened up.

- M101 comes with a shot more body and stouter hipped while still maintaining a look of quality.

- Both sisters carry the exciting service of in-house stud SO Remnant 417J for an incredibly quick return on investment for both females.

- We are excited to offer a set of cows from the heart of the herd of black hided matrons at TC Reds, and what an impressive way to lead it off with none other than W/C Chica Linda 0201H.
- She's the daughter of the \$205,000 W/C Bankroll 811D backed by the influence of the famous W/C Miss Angel 2870Z donor, one of the most prolific daughters of the iconic Miss Werning KP 8543U.
- Her 2025 natural calf leads off an impressive group of SO Remnant 418J sons in this year's bull offering, and she is bred back the same way for a predictable result.
- Opportunity for success is here...dig in!

- Check out this SimAngus female!
- Weis Miss Snicker G401 is a direct daughter of the Weis leading lady JPLF/RBS Your The One, affectionately known as "Rudy". She is sired by the integral Angus sire Plum Creek Paradox 161B.

G401 is full siter to Weis Miss Nala 401H who was successfully campaigned by Tucker Bayer and has been generating standout progeny for Weis Cattle including an elite daughter as Lot 105.

The three-quarter blood calf in her belly sired by the 2023 NAILE Reserve Grand Champion Purebred Simmental Bull, SO Remnant 418J, should yield a quick a ROI!

- The nice young daughter sired by LKCC Bold Venture 194F that is just getting started in what is sure to be a productive career.

We love her correct build coupled with her productive and bold body type.  
This mating to SO Remnant 418J should yield a quality individual.

- Allow us to introduce you to Weis Jasmin 61K, a maternal sister to the program builder J6C Weis Miss Coco 16F.
- She comes with an impactful pedigree. Sired by the Triple Crown winning MR HOC Broker and traces back to many Simmental and Angus breed greats on the bottom side of the pedigree. Those greats include the likes of Yardley High Regard W242 and SVF/NJC Built Right N48 and, arguably, the greatest Angus female to influence the Werning program, DW Susanna 763T.
- Visually, she is a dense made female that is bold and deep in her body with a skeletal structure that is to be admired. Rest assured, it is a lot more than her color that gets this one noticed.
- She should have an exciting calf on the ground by sale day!

# THE simmental COWS

- What a tremendous mature cow sired by TLLC One Eyed Jack that has gas left in the tank.
- E30 produced a \$25,000 heifer calf sired by Brand New Man 001H that sold in the Weis Cattle Online Heifer Sale in 2023 to Jack Hanke of Iowa.
- The striking ring-eyed female offers a unique level of length and extension through her neck, body and hip.
- The mating to the greatest SO Remedy son to date, SO Remnant 418J, surely excites!

- What a way to wrap up what is the deepest, highest quality set of both sexes offered at the TC Reds and Weis Cattle Bull Sale!
- This young daughter of WHF/JS/CCS Double Up G365 is one to admire for her substance at the surface, sturdiness and length of hip, roundness and depth of body, and all that with a long, attractive neck.
- With her sophomore calf in her belly she is bound for favorable career in her next firm.
