# Price

## CATTLE COMPANY *with* MURDOCK CATTLE CO

**SEMEN TESTING:** All bulls have passed a rigid breeding soundness and fertility examination performed.

**RETAINED INTEREST:** Price Cattle Company will retain one-third (1/3) interest in each bull selling. Buyer receives FULL POSSESSION and FULL SALVAGE of these bulls.

**VIDEOS OF BULLS:** Individual bull videos are available at [www.pricecattleco.com](http://www.pricecattleco.com), [m3cattlemarketing.com](http://m3cattlemarketing.com) and CCI.Live

**TERMS AND CONDITIONS:** Any announcements from the block will take precedence over statements in the printed material. Cattle will sell under the suggested Terms and Conditions of the American Angus Association.

**DISCLAIMER:** Price Cattle Co., Double M Ranch, Inc., and M3 Marketing assume no liability for any accidents or injury that may occur. Attend the sale at your own risk.

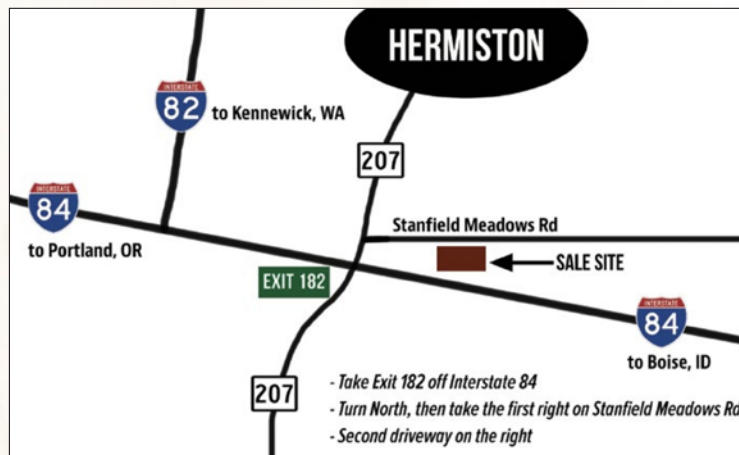

**LUNCH AND HOSPITALITY:** A complimentary lunch will be served at Noon with refreshments available throughout the day.

**WATCH AND BID ONLINE FOR FREE! WWW.CCI.LIVE • (405) 400-9505 TEXT OR CALL • SCHEDULE@CCI.LIVE**

- As a buyer, you do not need an account or to login to watch the sale but you must have a validated account to bid.
- After you are logged in, you must proceed to the sale page for any and every auction and click "Get Buyer Number." Some auctions require a pass-code to obtain a buyer number even after you are approved by CCI.live. Pass codes generally come from the sale manager or ranch for that particular sale.
- CCI.live will operate with ease on a cellular device, laptop, desktop or tablet.
- A modern or current browser is important and will make your experience better. You do not need to install the app on cellular devices to watch a sale. CCI.live is a browser-based application meaning it will play on most new browsers, but you can also download the CCI.live app at the Apple App Store or through Google Play.
- For successful bidding you must have good Internet service! It is very important to be stationary. If you are driving and bidding, expect to have some service issues. If you are stationary on a good device, with healthy Internet, expect a very successful bidding environment. If you have slow Internet watch the "asking price" on the screen - it is real time and refresh your browser if you feel like you have some lag.

**SALE LOCATION:** The sale will be held at Double M Sale Facility in Stanfield, OR. Take Exit 182 off Interstate 84. Turn North, then take the first right on Stanfield Meadows Rd. Second driveway on the right. GPS Address: Directions: 30256 Stanfield Meadows Road, Stanfield, OR 97875.

## CATTLE COMPANY

It is our pleasure to welcome you to our 2026 annual Angus and SimAngus bull and heifer sale. Once again, we delight in having the Murdock's join us with their outstanding Red Angus bulls and heifers.

This marks our 40th year of offering what we call "Herdmaker Bulls." We trademarked "Herdmaker" to emphasize the importance of trait selections that make for long-lasting productive cows.

Our goal is to provide heritable genetics most well suited for our western range environments. Our belief that fertility, calving ease, moderate frame size, and milk combined with rapid early growth and easy dispositions will develop the best traits for cow herd longevity. That being said, carcass quality and structural soundness are also emphasized since these traits are highly heritable and not antagonistic to maternal traits.

Validation of our selection protocol is evident in the finishing program of our own raised steers. Over the past several years, we have fed over 350 steers at Beef Northwest in Boardman, Oregon. Their performance has yielded 98%+ Choice, CAB, and Prime carcasses. Retention of ownership has proved profitable each year because of their rapid gain, feed efficiency, and premiums paid on the carcass grid formula.

Each and every bull undergoes rigorous selection pressure before making the sale. We offer both Purebred Angus and Composite SimAngus bulls. Our Angus and SimAngus cow herds run in common. The selection criteria for each herd are the same, following our rules for maternal traits, growth, frame size, structural soundness, and disposition.

You will recognize the pedigrees of our Angus bulls which began with Wye Plantation bred heifers in 1984. Since that beginning, a steady growth of breeding with the best available proven Angus sires has developed our herd consisting of multiple/stacked generations of known genetics.

The Composite bulls are equally well bred. In 1989, we began incorporating proven Simmental sires into selected Angus cows. The purpose of this being to add beneficial genetic components and hybrid vigor to our bulls as an outcross for our customers' herds. The benefits of the added genes and hybrid vigor are well known. However, this benefit is only better if the heritable genes from the contributing breeds are as good or superior as the purebreds from which they came. For this reason, great care is taken to only use sires with well proven performance measures.

The bulls offered for sale have met our strict standards for performance traits, structural soundness, and disposition. At birth the calves are weighed and tagged. At branding each calf is DNA sampled. In the spring after AI, the cows and calves are moved from our Buttercreek Ranch to mountain pastures in Union and Baker Counties. In early fall, the calves are weaned and evaluated. They enter the Double M Ranch feedlot for gain testing, ultrasound evaluation, and development. Bulls not meeting our standards are banded and shipped to Beef Northwest for finishing.

Our business of producing quality seedstock is a passion. We not only enjoy the process of developing the bulls, we greatly value the relationships we have with our customers. We desire to exceed your expectations. The data you see is accurate to the best of our ability. All the bulls have been tested for breeding soundness by Dr. Brent Barton of Oregon Trail Veterinary Clinic.

The bulls are conveniently located in the feed pens adjacent to the sale facility. You are welcome to stop by anytime and take a look prior to the sale. Call us if you need directions or assistance.

Sincerest regards,

*Tom and Judy Price Family and Team*

## AND THE CREW WELCOME YOU!

Tom and Judy Price thank you for your support.

A future generation of producers...Asa and Claire Price

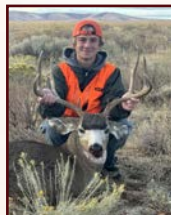

Clint Sexson is a real asset to Price Cattle Company and our livestock community.

The young Price boys enjoying a fall day of hunting at Buttercreek.

Tom and Judy Price

Ty Price ... fair chase hunting is a blessing.

Manager and consultant John Kerns moving cows to lower ground.

Sale Day!

Wes Price ... Consultant and spiritual leader at Price Cattle Company

Buttercreek Ranch Manager and friend... Casey Anderson brings a wealth of knowledge to Price Cattle Company.

America is worth celebrating.

Grant, Case and Asa Price... Our future!

I want to cordially invite you to the Price Cattle Co. and Murdock Cattle Co. Angus, SimAngus and Red Angus Bull and Female Sale. These

programs have brought their best foot forward and bred, managed and developed a superior set of breeding cattle that are commercially driven by the input of their customer base. The cattle are exceptionally well balanced phenotypically with cowherds behind them that are productive, fertile and efficient. Both sets have been thoroughly evaluated and strictly culled before they are to make this sale. New this year is we have a few more individual heifer selling including a set of Red Angus from Murdocks. These are top-quality females that will make tremendous replacements and are not easy to find.

The cattle markets are still at an all time high, and optimism has never been better in the industry. We are in the driver's seat for the protein source of choice and I believe programs like the two involved in this sale catalog are doing all they can to supply the commercial sector with genetics that work all the way through the chain and have been doing so for decades. Come by and see for yourself that they are moving us in the right direction, I know you will be impressed. I have been through all of the cattle and if you have any questions, please call me at (916) 803-3113. Thank you.

Matt Macfarlane, M3 Marketing

**TPC MR BOULDER 979G 5222N** - Lot 81 expresses the same moderate, square and heavy muscled look you expect from sons of Boulder. He sells as Lot 81.

**TPC MR DYNAMIC 3123L 5172N** - This herd bull prospect is built like one should be. Tremendous depth, length and width with a massive 3-dimensional shape. Elite calving ease, performance, API and TI numbers that are all in the top 20% and 2% respectively are the icing on the cake. Lot 85 should get a second look from everyone.

**TPC MR ARROWHEAD 693D 5246N** - Lot 83 has as much built in calving ease as any in the sale and still is deep, thick and dense made.

608

# MURDOCK CATTLE CO.

*Welcome to our friends*

It's a great time to be in the cattle business and while there might be a hiccup or two down the road due to political issues, the experts suggest there doesn't seem to be an end in sight for the current upturn in the business.

Packers are experiencing shortages and cow herd numbers are still down.

We read an article recently that talked about what a bull is worth. It offered a formula that

multiplied the value of a finished steer times five. It also pointed out what smart ranchers have always known and that's the fact the bull is half the equation. That means fifty percent of the growth factors and fifty percent of the carcass quality is added by the bull. Those who sell their cattle at the top of the market get added premiums and added weight.

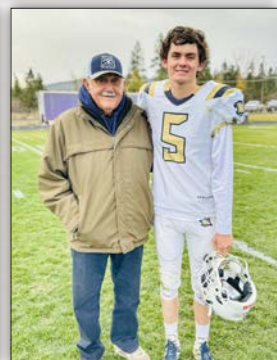

That's why we've worked so hard to continue trying to produce innovative genetics that make our bulls worth the investment for our buyers. We think you will be impressed to see the weights on our yearling bulls.

And if you are interested in adding some quality females, we are offering eleven that came out of our replacement pen.

This is our fifth year selling our bulls with Tom Price. We were honored to be invited to become part of a prestigious operation that has a decades-long reputation. Prior to this move, we were cooperators with Lorenzen's and Nine-Mile Ranch – both well-known operations. When those sales ceased to exist as an opportunity, the timing was perfect to become involved in what we hope will be a relationship for many years to come.

We have three generations involved in the Murdock Cattle Company. The senior member is a retired Umatilla County Commissioner and a member of the Red Angus Board. Donna is a retired library media specialist. Ian is a manager for Double M and one of his jobs is overseeing the development of the bulls. Lindsay is a head teacher at Echo School. The third generation includes Mason and Mack. Mason is busy launching his own business in addition to being involved with the cattle while Mack is a senior at Echo High School and plans to enroll at Eastern Oregon University next year.

We believe in powerful brood cows and we run our cattle in some very tough country. Our heavy-muscled, sound, and good-footed bulls have developed a reputation of which we are proud.

\* Cat: 1A

\* Several years ago Montana breeder Chuck Feddes tried to buy TAC Drifter. He was unsuccessful, but he was able to get a limited supply of semen. Now semen is almost impossible to find, but in his 2024 bull sale Feddes introduced his first offering of Drifter sons. We were anxious to make sure our pick of the offering found its way to Pendleton and we were successful...

\* MCC Landman 550 is out of a Top Tier daughter and is proof that we were on the right track. The combination of Drifter and Top Tier is rare, and we are proud to offer these genetics for sale. Landman 550 is in the 7th percentile for ProS and the 11th for Gridmaster. He also offers a 24% mark for WW, 14th for yearling weight, eighth for ADG, a whopping 32% for marbling, and he is 37% for REA. He also is in the top quartile for both milk and stay. He weighed 980 pounds in early October, 1202 by mid-December, and his phenotype is a combination of powerful and stunning. This stud has herd bull written all over him.

\* Cat: 1A

\* Feddes couldn't say enough about Payday, their new herd sire, and we were delighted to produce a son of our own. Says Feddes, "his calves are knocking it out of the park! The depth of rib, muscle definition and hindquarter in this bull are something to look at." Here's a son who weighed 735 when he came out of the mountains on August 31. In mid-December he weighed in at 1192. RedsPro projects that he will exceed 1450 pounds by sale day. That was over two months ago. He's calving ease with a CED of +14, a growth bull with a YW of 1%, YW of 2%, and ADG of 5%. And carcass? He is in the 12th percentile for marbling. Another herd bull prospect.

\* Cat: 3

\* One of the most exceptional cows on the place is Mika D-11. We keep all of her heifer calves and each of her other three bull calves have been popular additions to our sale including last year's entry which sold for just under \$10,000. Her 2025 edition is out of Jumpstart and weighed 860 pounds on August 31 and an amazing 1306 in mid-December. And yet he has a CED of +13 and a birthweight of -2.6. He is something to behold. If you want growth, he offers a yearling weight EPD of 14% and YG at three percent. His marbling score is near the 25th percentile, and his REA is a whopping one percent. If that isn't enough, he weighed 79 pounds at birth. In terms of registrations, Jumpstart leads the Red Angus breed by a large margin. Check out this powerful prospect.

\* Don't miss this one!! If you like data, you will like this Paycheck son out of a daughter of a donor dam we purchased from the RA Brown dispersal. He starts with a five percentile Pro-S mark and one percent Gridmaster. He doesn't just offer production data - his CED is a +13. Then we have 11 percent for yearling weight and five percent ADG. That takes care of the growth factors. Astute producers are looking for that magical combination of growth and carcass. This Paycheck son comes in at one percent for marbling and five percent for ADG. No wonder Ian keeps mentioning this son of Marie 105 as one of his favorites.

\* This is a bull we've had our eye on all summer since we were sure he would earn a spot in the top end of the sale order. He's a Checkmate son out of Pandora 002 who is out of Great Basin and a Joshua daughter. He offers that combination of growth and carcass factors that commercial producers are seeking. He stands in the 8th percentile for weaning weight, the 14th for yearling weight and the 27th for ADG.

\* Few factors are more important than growth and this son of DKK Grindstone 2044 is an excellent example. He is a month behind the older guys but weighed 760 pounds out of the mountains on August 31. By early October he was 894 and by mid-December he weighed a whopping 1222 - well short of a year. He is out of Jacobson Morgan 8060 - a female we purchased from the Jacobsons. Grindstone 573 is in the top quartile for marbling and REA as well as yearling weight and ADG. He is in the 19th percentile for yearling gain.

\* This is one of the more interesting bulls in the sale since he's a twin who still weighed 705 pounds on August 31. He is a Jumpstart son out of Sunriver Laraba 728, one of our most consistent cows. He offers an excellent array of EPDs with a weaning weight score of 6%, yearling weight of 7%, ADG of 9%, yearling gain of 24% and REA 10%. He's one worth finding when you are going through the bulls.

\* Cat: 1A

\* When the Ludvigson Stock Farm dispersed 1765 females, we had Seth Leachman pick out five for us. It was one of the better decisions we have made. This year LSF E7290 has a bull calf out of Jumpstart that carries on the tradition. In terms of growth, his numbers are four percent for weaning weight, one percent for yearling weight, and one percent for average daily gain. His carcass numbers of 37 percentile for marbling and one percent for REA are nothing to sneeze at.

\* This is a DKK Grindstone 2044 son is out of a ten-year old cow who knocks them out year after year. He is in the upper quartile for marbling and yearling gain. DKK Grindstone is a bull we purchased several years ago from the Klompiens, and we continue to use him with good results. Check out this guy's carcass scores. Despite having a ten-year-old mama, he weighed 1100 pounds in mid-December.

\* Out of Drifter and Starlette 1046. This one has some good data behind him including 24 percent for ProS; 27% for herdbuilder; 28% for CED; and then some outstanding growth factors including three percent for WW; two percent for YW; two percent for ADG and 12% for REA. A nice combination of growth and carcass factors.

\* When they sell this high in the sale, they represent the cream of the crop, and this guy has earned his place. His dam, LSF Ruby 4012, is now thirteen and going strong. His 70-pound birthweight matches his eighteen for CED. In terms of growth spread, consider that by mid-December he was already at 1150 pounds. His numbers don't end there. Add 41 percent for birthweight, 5 percent for weaning weight, 4 percent for yearling weight, 5 percent for ADG, and 24% for marbling.

\* Come back to the sale! This guy is here for a reason. We sell mostly commercial bulls, and this guy is a second generation of the Mika D-11 line that has been so popular with producers. This one is out of Laredo who has done such an outstanding job for us. This is a carcass bull with three percent for REA, two percent for YG, and 12 percent for marbling. At ten and a half months, he weighed in at 1074 pounds.

\* Cat: 1B

\* Commercial bull buyers alert. Here's a grandson of 4017, the cow who produced our first \$10,000 bull which sold in the Lorenzen sale some years ago. He's out of Drifter. He is calving ease with a CED of +16 plus he offers an impressive array of EPDs including WW 15%; YW 16%; ADG 20%; Milk 7%; CW 10% and REA 20%. Think of the calves he will produce.

\* Cat: 1A

\* This one is out of Mason's Bar H Banyan cow coupled with Checkmate. We wish we had more Checkmate calves to offer, and we will in 2027. He was new on the scene last year. This calf weighed 720 pounds when he came out of the mountains on August 31 and 894 in early October. His EPD profile shows the 6th percentile for weaning weight and the 12th for yearling weight. On the carcass side, he offers a solid 29th for marbling and 24th for REA.

\* Cat: 1A

\* This is a twin to the next bull into the ring, and with any luck Rick Machado will sell them together. TJS G175 has earned herself a special place in our herd producing quality calves year after year. He is another son of Jumpstart, the most popular bull in the Red Angus breed. This is a growth bull with a weaning weight of 7% and is his yearling weight of 9%. Average daily gain is 15%. And carcass? How about a 1% for REA. He weighed just under 800 pounds in early October.

\* Cat: 1A

\* No surprise – the top end of the EPDS are the same for Jumpstart 567 with a two percent ranking for weaning weight and one percent for yearling weight and average daily gain plus seven percent for REA. Did we mention that 566 and 567 were both raised naturally by G175. Despite that, her calves weighed in at 685 and 650 on August 31. By early October this one was 814. That's over 1,600 pounds of bull in early October from G175 who raised the twins naturally. By mid-December the pair topped 2,000 pounds.

\* Cat: 1A

\* Here's a low birthweight bull who is coming on fast and out of Laredo and a young Tina daughter. His CED cements his place as a calving ease prospect. Add Marbling at 31 percent, yearling gain at 25 percent and REA at 26% to complete the package. He's an April calf who was just under 900 pounds in December.

\* Cat: 1A

\* Like calving ease? A CED of +18 works just fine. This Jumpstart son is out of MCC Cover Girl 713 and has the numbers to satisfy those who put a premium on data. Besides calving ease, she is in the 8th percentile for birthweight, offers a weaning weight of eleven percent, a yearling weight of six percent, and an average daily gain of four percent. He was well over a thousand pounds in December.

## CATTLE COMPANY *Females*

These females are from the same cow herd and calf crop of the Price Cattle Co. bulls. They have the same AI sires that are loaded with balanced trait genetics in both breeds. These females are loaded with quality maternal lineage that are able to survive in the tough western environments that their customers run in. Soundness, fertility, fleshing ability and longevity are a must in order to turn a profit, but the envelope is pushed in terms of performance and end product merit. These females are right from the heart of the herd and are ready to be utilized in any program.

*Angus Females*

\* Cat: 1A

\* This is only the second female we have ever sold from the Princess line and boy is she loaded with upper end EPDs. In fact, she has seven in the upper quartile including birthweight, weaning weight, yearling weight, average daily gain, marbling, carcass weight, REA plus ProS and gridmaster both in the top ten percent. An amazing combination of growth and carcass numbers. She is a granddaughter of the original Princess cow we purchased from Nine-Mile and Drifter 181-3201.

\* Cat: 1A

\* Selling this heifer wasn't an easy decision. We purchased her dam in the Ludvigson Dispersal Sale and before she left Montana, Ryan asked if he could use her in his donor pen which he did for three years before she came to Echo. Her unique pedigree includes LSF H0229 and PIE Herdsman -- not genetics you are likely to find anywhere. We sell females like this because we want to see how some of our top end females do for others. Her birthweight EPD is in the upper two percent. Five EPDs are in the upper third -- weaning weight, yearling weight, milk, yearling gain, and REA.

2026 MURDOCK  
Sale heifers

## LOTS 250-260

After the enthusiastic reception our heifers received last year, we decided to offer ten elite open females this year chosen from the same pen as the heifers that won us the honor of being named the 2025 Top Consignor at the Western National Red Angus Bet on Red Sale in Reno. These are all females we would ordinarily keep to put back into our herd because of their exceptional genetics as well as phenotype. At a time when females are in short supply, this is your chance, particularly when it comes to heifers like these.

\* Cat: 1A

\* This female is out of DKK Revival and Raindance 8151. Bull calves out of 8151 have consistently sold near the top of our annual sale and for good reason. This young heifer looks just as good as her brothers have. Plus for those who study the data, begin with an eighteen percent ProS, fifteen percent gridmaster, and then add weaning weight and yearling weight in the upper one third plus exceptional carcass factors -- marbling at 18% and REA at 23%.

\* Cat: 1A

\* This is a fun heifer to begin our sale with since B032 produced our show heifers three years in a row. The quality of this family is evident in the photo. We've kept her other daughters, which is why we are finally offering one for sale. As we have said before, we like seeing how our cattle do for others. She's out of Laredo who just keeps knocking them out year after year. We like her CED of 15 plus marbling at 28%, yearling gain at 23 percent and REA at 29%.

\* Here's a Paycheck daughter with the venerable D-11 cow in her pedigree. She's out of MCC 219, a D-11 daughter. Her numbers are amazing including BW, 22%; WW, 8%; YW, 12%; ADG, 22%; Marbling, 5%; YG, 13%; CW, 20% and REA, 8%. Plus, her phenotype matches her incredible EPDs. If that isn't enough, throw in ProS at five percent, herdbuilder at nineteen percent and gridmaster at five percent.

\* Cat: 1B

\* This is the first 1B we are selling and she comes from an exceptional pedigree. She, herself, actually comes in a 97.9%. She is out of Jumpstart whose name has been mentioned all day and she is a granddaughter of 4017 who produced the first \$10,000 bull we ever sold. Add in the Oracle influence and it would be no surprise why the 4017 line, which is deep in our herd. Consistently makes a difference. She has a CED of 20 which is in the upper one percent. Add BW at 13%, WW at 22%, YW at 28%, Marbling at 33%, and REA at 22%. She is going to make a great cow.

\* Cat: 2

\* Blue Chip is one of the most popular sires in the breed and for good reason. Here's a daughter out of the Cameo line. She offers a whopping seven EPDs in the upper quartile including BW, WW, YW, ADG, Marbling, and REA. We are particularly impressed with the five percent for marbling. She also comes in a t seven percent for ProS, fifteen percent for herdbuilder, and twelve percent for gridmaster.

\* Cat: 1B

\* A Laredo daughter out of Empress 201 with an amazing array of EPDs. These include 8% Gridmaster, 15% ProS, 22% WW, 18% and 15% ADG. These are impressive growth factors. But not as impressive as the carcass numbers which show 7% for marbling, six percent for yearling gain, and 2% REA.
