KORBIN, LUCI, MYLA AND MILLY MEHAFFEY

## Friends and neighbors,

Welcome to year three of the Rafter 5M Land & Cattle production sale. The years have started coming and going without warning. We've seen record high cattle prices that have us producers saying one word to each other; finally! It brings such great relief to me to finally feel like we are being rewarded for the blood, sweat and tears we each put into our individual operations. One thing that has remained true, even in times of prosperity, is that the good ones bring a premium. In our region of the US as well as many others, it almost seems like drought is a given rather than a possibility. We had a much better summer in Southeast Oklahoma but as we have rolled into the colder months it has turned off dry again. Every step of the way these consistent, hearty and tough angus cows have continued to do their job and not ask questions.

As always, we brought bulls to town that have made it through a rigorous sort and have been developed with you, the commercial cowman, in mind. Selling aged bulls doesn't come without it's challenges, however, offering aged bulls is a real benefit to the buyers. The bulls are developed in large pastures, made to travel and prosper on forage. Their mothers are fed only hay as a supplement in the colder months in order to mimic the only real asset we have at our disposal in our part of the world; grass.

I can confidently proclaim that this set of bulls is ready to go to work and breed a lot of cows. Please don't hesitate to ask any questions, comments and concerns. Feel free to call at any time about the sale offering. To go along with the bulls, I have included a special sale highlight bred cow, exposed heifers and open heifers to really show off exactly what we are trying to do on our ranch. To go along with the registered stock this year, I have also opted to bring the commercial replacements that have been paying our bills for years and years. They're as good of a set of open heifers as I have ever raised. Join us Friday, February 27th for fellowship and appraisal at Atoka Livestock Auction. I will be around all afternoon prepping and conversing for sale day. Sale day falls on Saturday, February 28th at 1 PM. I want to be the first to welcome you to the sale and thank you from the bottom of my heart for taking the time to come hang out with me and my family. I say it every year and I will keep saying that the commercial cowboys and cowgirls are the lifeblood of the industry and they are the ones I aim to please. I can't wait to help move your program in a positive direction!

Thanks to each and every one of you for being here - *Korbin*

Another year, another son by 1134. I really like how this bull puts it all together. Wide topped, deep and stout. I'm reluctant to call a cow 'can't miss', but she's as close as it gets. This bull is exactly why you stack a pedigree with proven performance and longevity. As is the case with all 1134 sons, keep the daughters. This bull could really help a lot of people.

Full brother to Rafter 5M Stockade 353 who was a sale highlight in our 2025 sale. This bull is a standout and definitely a sale highlight. I really like how this bull ties into his front shoulder and gets out and moves with a purpose. Like his older brother, he's big ribbed, big middled and easy fleshing. 454 is sure to grab your attention and keep it.

What an incredible bull. This is a cow man's bull. Roadblock sold in our first sale and we pen bred a couple of heifers to him before delivery. I wish I had used him a lot more. This bull has been a standout since he was on his mother's side. 433 is big ribbed, big hipped, stout and just plain good. Be sure and find this one sale day. He is one of the better bulls you'll ever find.

## How to Bid Online

**As a buyer, you DO NOT need to login to watch the sale, but you must have a validated account to bid.**

To BID ONLINE go to [www.CCI.live](http://www.CCI.live) in your Chrome, Firefox, Safari or other modern browser:

- 1) Click on the sale schedule page.
- 2) Click on the sale of interest.
- 3) Click on Bid Online - Register and then Get Buyer Number

After you logged in, you must proceed to the sale page for your auction and click Bid Online - Register, then "Get Buyer Number." Some auctions require valid credit card number on file to obtain a buyer number to bid.

CCI.live will operate with ease on a modern cellular divide, laptop, desktop or tablet. (A current browser is important and will always make your experience better.)

**For successful bidding, you must have good Internet service!**

It is very important to be stationary if bidding. If you are driving and bidding, expect to have some service issues. If you are stationary on a good device, with healthy Internet, expect a very successful bidding environment. If you have slow Internet watch the "asking price" on the screen, it is real time, and refresh your browser if you feel like you have some lag.

Support line open during all sales. TEXT 405-400-9505 - Please alert the ranch for your hauling preferences.

The first Holy Water calf ever born here and another sure sale highlight. This is the prettiest fronted bull in the entire offering out of a very nice young cow. Her mother was a donor in our program that really did a great job of adding length and base width. 401 has a beautiful strut with his head picked up above his shoulders and an extremely long gate. This bull is an athlete. I have a lot of favorites this year. This bull is awesome.

You can always pick out the Renown cattle out. 0231 has a tendency to put a huge butt on one. This bull has added muscle and length. We sell them by the pound and this bull will make them big and stout. The 0231 daughters are amazing. Keep all of these. They flat breed up on time and raise one.

The first of a nice set of bulls by our 964 herd sire. 964 and his progeny are a lot like Payweight. 423 is one of the better bulls in the offering. The common theme with all of the Payweight progeny is how big middled they are. Use him on heifers and receive a premium for your calves when you sell them.

Holy cow! What an awesome bull. Another sale highlight by Holy Water. Calving ease and real world performance. He's an extra rib longer with a huge middle. His mother out of the Glenda cow family has raised a sale bull every year. She's easy fleshing and really stamps her progeny with that huge Payweight middle. Definitely a highlight and another one of the bulls that I really think could move your program in a positive direction.

Another sale highlight here with a great back story. We don't buy a lot of cows anymore so when I do make the decision to bring in a cow, it's imperative that we make it count. When I saw this cow being offered I reached out to Hunter Farms in Sparta, TN to ask what her story was. She's been a great addition to our cow herd that is on the short list to make her way into the donor pen. He's stout, he's got extra bone, hes athletic. A bull with very few holes out of a great pathfinder cow. I am excited for this bull's future.

16025 has really turned into a great cow as a lot of these falls have. No frills, no bells, no whistles. Real world cattle that do their job. Another exciting, cow maker prospect.

658W really needs no introduction. This was supposed to be a female! What resulted was a bull that should make great females. You have to admire this bull's real Angus type. Pretty little Angus head, smooth shoulder, with added length and bone.

Myla is selling her cow under protest. A really nice cow that is out of the famous 658W that we got to own at the end of her life. We have already retained two females out of this cow and she should calve to Rafter 5M Raven 250 who was the Lot 1 bull in our inaugural sale. She raised one of the top replacement heifers last year, mated the same way. Great opportunity to get in on some ground floor genetics. Reserving the right to one flush at the buyer's convenience, seller's expense.

These Holy Water heifers are so good that I decided to pick out the very best ones to show the world just how good these Holy Water progeny are. They're long, stout, beautiful Angus females that are really hard to part with. I love how beautifully uddered and easy fleshing the first ones to calve have been.

Spring commercial heifers. For the first time I decided to offer all of my commercial replacement females instead of keeping them for myself. The bottom is already sorted off, making this a great opportunity. We've continued to focus on fleshing ability, fertility, feet and udders. These heifers should be problem free for the duration of their lives. They're open and ready to breed to the bull of your choosing. They've been cycling every day and should breed up early.
