Dear Cattlemen & Women

The Crew at Deep Creek Angus Ranch would like to take this opportunity to invite and welcome you to our 27th Annual Maternal Driven Bull Sale. We would also like to say THANK YOU for your continued support and interest in our program. We undoubtably believe it all begins and ends with YOU, our valued customers and friends, and learned very early on this is a people business and we feel very fortunate and humbled to do business with some of the greatest Cattlemen and Women in the Midwest!

What a phenomenal time to be in the cattle business! It seems all time highs in all classes of cattle are the headlines of every Ag Publication. As we push toward the future we look to the past and over the last 27 years several things have remained constant, our unwavering commitment to you, our customers, and the type and kind of cattle we have raised. MATERNAL DRIVEN. We are extremely humbled that you have considered and chosen us to be your seedstock source. The responsibility is not taken lightly, and we are very focused on the traits that are geared to make you more profitable! As we look to the past I came across the opening letter from the 1965 Ankony Hyland Bull Sale Catalog and would like to share it. It rings as true today for us as it did for them some 60 years ago! As we look toward the future, we look forward to visiting and seeing you on February 24th in Philip.

The Gabriel Family of Deep Creek Angus

Our Constant Challenge

A long time ago we learned that you can't make much of a contribution in life (or get much satisfaction out of it either) unless you base your efforts on a concept of service. Not only is this a philosophy which we hold for our personal lives, but we believe it applies equally to the business of making a living.

We have always felt that whatever gratification we receive from producing Angus cattle, and whatever the financial gain, is predicated on producing the kind of breeding stock that will be valuable to you, because it helps you, in turn, to make your cattle operation a profitable and satisfying enterprise.

To serve you better our efforts are directed first and foremost to producing a better product — better bulls and better females — that will make it easier for you to breed better cattle, increase your profits, build up your capital structure and contribute to the higher quality of the national cow herd.

This is our first big job and constant challenge —

And we never stop thinking about this or working on it and, frankly, we're not afraid to invest money as well as effort, whenever and wherever necessary to achieve this goal.

Secondly, we know that the industry is in a constant state of change. We spend a lot of time studying the changes, making those we think are right and planning for the future. We are over twenty-five years old and are still trying as hard as the day we started.

Finally, all of us, from the youngest to the oldest, are constantly studying how we can improve our concept of creative management. We have competent and experienced consultants to keep us up to date on new developments, so we can be one step ahead of tomorrow!

We don't pretend to know all the answers; but what we do learn, what we do think, is available to you, our customers, as a service we genuinely believe is part of our responsibility to you.

This concept of service is basic to us. We want you to succeed, and in any way we can help please call upon us. We believe we have something of value to offer anyone seriously interested in the profitable production of better beef.

Our door is wide open to you and the welcome mat is always out. We're just as interested in you whether you buy one bull or one hundred.

We pledge you good service, good value and good faith!

FEB. 24, 2026

Philip Livestock Auction • Philip, SD • NOON, MT

SALE LOCATION: Philip Livestock Auction
607 East Pleasant Street, Philip, SD 57567

SALE TIME: The sale begins at NOON, Mountain Time

SALE DAY PHONES:

Sale Barn..... 605-859-2577
TJs Cell..... 605-280-3069
Jeanine's Cell..... 605-280-3011

ACCOMMODATIONS

Motel West, Philip, SD (605)859-2546
We will be more than happy to take care of your accommodations for you, just let us know how we can assist you.

LUNCH: The PLA Café located in Philip Livestock will be open throughout the day. Complimentary donuts, coffee and lunch will be provided before the sale.

LIABILITY: All persons attend the sale at their own risk and the seller and sales management assume no liability, legal or otherwise, for any accidents occurring in, or about the premises. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

TERMS: The terms of the sale are cash or check. Registration certificates will be transferred to the new owner(s) after payment and upon request. Cattle will sell under the suggested Terms and Conditions of the American Angus Association.

SALE ORDER: Bulls and females sell in catalog order.

SUPPLEMENT SHEET: Scrotal, Pelvic, Frame Score and updated yearling information will be available sale day.

GENETICS: All Bulls are parent verified and free of all known defects.

VIEWING OF THE CATTLE: Cattle may be seen at any time at the ranch prior to Monday, February 23rd. On Monday, the bulls will be moved to Philip Livestock and should be in place by 2 pm. They can be viewed there up until sale time on Tuesday. Videos of each lot are also available and can be viewed at www.deepcreekangusranch.com on our sales page and at www.cci.live.

ANNOUNCEMENTS: If errors in the catalog are found they will be announced from the block and take precedence sale day.

GUARANTEE: The bulls are guaranteed 100% for everything the first breeding season. We are not responsible for any more than the purchase price of the bull. If you have any problems with the bulls, please contact us immediately. We have extra bulls available to get you through the breeding season. Your complete satisfaction is our number one objective.

FEEDING AND DELIVERY: Free keep on all the bulls, at our risk, until you need them. Free delivery to adjoining states.

ONLINE BIDDING: The sale will be broadcast via CCI.Live and on CattleUSA through Philip Livestock. If you have internet, you will be able to log in to watch the sale and bid. You will need to register a couple days prior to the sale.

Find us on the App Store and Google Play
Over 35 years in livestock marketing!
See page 9 for details.

We hope to see every one of you at our sale, but if you can't make it, we invite you to join us live online at www.CattleUSA.com. Be sure to register ahead of time.

Watch the Sale on CCI.live!

The best, the fastest and most comprehensive marketing & bidding tool!

How to Bid Online...

- As a **buyer**, you DO NOT need to login to watch the sale but you must have a validated account to bid.

To BID ONLINE go to www.CCI.live in your Chrome, Firefox, Safari or other modern browser:

- 1) Click on the sale schedule page.
- 2) Click on the sale of interest.
- 3) Click on Bid Online- Register and then Get Buyer Number

- After you are logged in, you must proceed to the sale page for your auction and click Bid Online - Register, then "Get Buyer Number." Some auctions require valid credit card number on file to obtain a buyer number to bid.

- CCI.live will operate with ease on a modern **cellular device, laptop, desktop or tablet**.

- A **current browser** is important and will always make your experience better.

- **For successful bidding you must have good Internet service!** It is very important to be stationary if bidding. If you are driving and bidding, expect to have some service issues. If you are stationary on a good device, with healthy internet, expect a very successful bidding environment. If you have slow internet watch the "asking price" on the screen, it is real time, and refresh your browser if you feel like you have some lag.

- Support line open during all sales. **TEXT 405-400-9505** - Please alert the ranch for your hauling preferences.

When selecting A.I. sires we look for bulls that will add maternal value and are backed by proven productive dams. Every female at Deep Creek is mated with the hopes of a heifer calf. We strive for easy fleshing females with excellent udders, structure and foot quality, good dispositions, longevity and fertility. **MATERNAL DRIVEN.**

Deep Creek Striker 355 • #20809092

Striker was the co-top seller in our 2024 sale to Taylor and Emily Weigel and Waltman Farms. He is a larger framed bull that is chucked full of red meat. A phenotypic standout with an excellent set of legs and feet. His dam, Deep Creek Cash Pride 732, is a Pathfinder and records a WW of 7@107 and has A.I. bred to her first service 8 out of 8 years. His Pathfinder Granddam records a WW of 6@104 and his Pathfinder Great Granddam records a WW of 7@104. Striker progeny are stout, have a classic Angus head, and are some of the top performers. Striker boosts 11 Pathfinders in his 3 generation pedigree. We mated him to some outstanding Maternal Driven Matrons and these first 15 sons will not disappoint!

Koupal Proficient 959 • #19559853

We have always wanted to inject Juneau 797 into our breeding program and last year we found two bulls that I thought would fit the bill. We found Proficient through our good friend and astute cowman Ross Beeson. Outstanding phenotype and foot quality with added muscle shape and style backed by an amazing Pathfinder cow. The Proficient progeny are thick, deep made though the flank and have a classic Angus head. They are the rancher kind that will add pounds at weaning, while maintaining maternal traits and cow size. 10 sons sell including a maternal brother to Deep Creek Square Deal.

Pine Coulee Juneau K569 • #20640122

We found K569 at the renowned Pine Coulee Angus Ranch in Montana. An own son of the great 807J gave us another opportunity to inject Juneau into our herd. His phenotype is flawless and his progeny are very correct on their legs and stand on great feet. K569 progeny are extremely long made, early maturing and are packed with Maternal Driven qualities. His donor dam's pedigree is full of Angus Royalty such as Lead On, Bando 155 and Right Time.

Deep Creek Square Deal • AAA#

20509700

Square Deal continues to impress with every hurdle he crosses. He has become one of the top sellers at Select Sires and continues to be used naturally at Bruner Angus. Square Deal progeny come easy and grow fast, they have extra depth of rib and are extremely gentle in nature. His Maternal Driven Pathfinder dam records a WR of 4@118 and has settled A.I. first service 5 out of 5 years and stems from the most productive Pathfinder cow to ever graze Deep Creek, Deep Creek Total Lass 701, who records a WR of 10@117 and A.I. bred first service 10 out of 10 years.

Deep Creek

Legitimate 203 • AAA# 20509691

The second calf crop from the \$105,000

Legitimate and they just keep getting better! Now a member in the Genex Lineup and naturally services cows at Hoover Angus. Legitimate progeny have extreme length, thickness, extra muscle dimension and are performing at the top of the crop. He is the definition of a Maternal Driven Sire! His first daughters are calving now and we couldn't be more pleased. Beautiful udders, very attentive mothers and are holding their flesh very well. His dam records a WR of 3@116 and has settled A.I. first service 4 out of 5 years. Legitimates Pathfinder Granddam records a WR of 10@101 and settled A.I. first service 9 out of 10 times and stems from a Pathfinder dam that records a WR of 10@103 and settled A.I. first service 9 out of 10 times. Almost 20 Maternal Driven sons will headline this years sale and will be highlighted with 5 flush brothers from our donor LT Prairie Peak 3286.

S Armstrong • #20143639

Armstrong provided an outcross pedigree for us to inject while keeping focus on structure and proven maternal traits. His Pathfinder dam boosts 10 Pathfinders in her 3 generation pedigree which includes Maternal Driven giants such as Foundation, Game Day and Right Time. A feature will be Deep Creek Armstrong 557, which is out of a maternal sister to Deep Creek Square Deal.

S Right Time 7861 •

#18762372

After hearing great reports on 7861 we decided to sample him last year and we were not disappointed. His strong maternal lineage traces to Right Time four times and his productive Chisum dam records a WR of 9@102. 7861 is a sire that improves

foot quality, fertility, significantly adds fleshing ability and muscle shape and udder quality. Currently 49 daughters are ratioing 102 at weaning. At 8 years of age 7861 stands on an excellent set of feet and is still naturally servicing cows. The offering includes 15 sons and will be headlined by Deep Creek Right Time 548, which stems from the same cow family that produced Legitimate and Square Deal.

- Granddam's WW Ratio 10@117 Pathfinder
- Great Granddam's WW Ratio 10@103 Pathfinder
- Dam has bred to her first cycle A.I. service 4 out of 4 years
- What a way to start off the sale than with a maternal brother to Deep Creek Square Deal. War Wagon has been at the top of the class all year and continues to prove his way! A bigger framed bull with loads of performance and a big EPD spread, but smooth and long necked enough to make some amazing productive females. 9 Pathfinders in his three generation pedigree including two Deep Creek donors.

- Granddam's WW Ratio 4@107 Pathfinder
- Great Granddam's WW Ratio 10@100 Pathfinder
- Dam has bred to her first cycle A.I. service 6 out of 6 years
- A truly unique breeding bull! 522 is no doubt the thickest made bull of the offering. Extreme length and muscle shape, added to width of base will produce steers that will pound the scale down and daughters that will make broody females. His dam, Deep Creek 38 Blossom 811, is very easy fleshing with a nice udder. Three daughters have been retained in herd and two of them have sons in the sale.

Thank you, Weigels!

A special THANK YOU to Taylor, Emily and Quinn Weigel for all their hard work

and dedication to the Deep Creek Embryo program! They do a tremendous job putting in our embryos and raising them. Taylor is a true stockman that puts a lot of hard work and passion into whatever he does. This is the 7th set of ET calves that the Weigels have raised for us and most notably they raised Deep Creek Step Lass 064, who is the dam of Square Deal.

- Very hard to find fault in this Juneau K569 son. We have admired this bull for quite sometime for his impeccable phenotype and overall presence. Very smooth made, long necked bull with exceptional depth of flank and rib.

Deep Creek B Blackbird 556 • Maternal Great Granddam of Lot 5

Weaning Weight to Body Weight Ratio: WW/BWR

We strive to produce cows that are functional, efficient, and **MATERNAL DRIVEN**. In doing so we, pay very close attention to the productivity of the cow herd. We demand that our cows **raise big calves, breed on time, and still maintain themselves in good flesh**. In this Deep Creek catalog, you will notice a box that is listed as WW/BWR. This is the actual Weaning Weight of the bull calf divided by the actual weight of the dam the day of weaning, expressed as a percentage. ***The higher the number the more pounds that cow raised per her body weight.*** As a standard we strive for 55-65%.

LT Prairie Peak 3286 • Dam of Lot 33

• For years we had admired 3286 at LT Ranch and thought she was one of the most model Angus cows we had ever seen. When Brent Theil offered me the opportunity to purchase her at 10 years of age, we jumped at the chance. She has tremendous phenotype and stands on an excellent foot. 3286 is easy fleshing with extra rib shape, extreme length and overall mass of body. At 13 years of age, she was the first cow to calve here this year and looks and acts like she is 5 years of age. Her Woodhill Blueprint son LT Tactic 0322, sold in 2021 for \$40,000. Two daughters were retained on the Theil Ranch. LT Prairie Peak 1133 by Square B Atlantis 8060 who produced a \$45,000 son and LT Prairie Peak 6159 by Koupals Advance 28 who produced a \$24,000 son both which sold in 25. We look forward to more ET progeny by this Maternal Driven Donor.

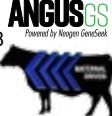

Deep Creek Imp Lass 6101 • Maternal Granddam of Lot 25

- Dam has bred to her first cycle A.I. service 4 out of 4 years and flushes were also taken the last two years.
- Deep Creek Rito Susie 060 earned her way to the donor pen. She comes from a cow family known for longevity and production. 060 is a super easy fleshing cow with extra depth of rib and shape in a moderate package.
- Maternal brother sold in 2024 to LB Haase and Sons.

Once again, we are offering the **Right to Flush the Pick of the entire Deep Creek Angus Ranch Females**. You will make your selection from over 250 mature females including over 25 Pathfinder cows and donors. To keep the female in production we will offer an IVF Flush with a guarantee of 8 eggs with an open top, you get them all! If put in by a Certified Technician, we will guarantee 3 pregnancies. Buyer is responsible for flush costs and semen expense.

A

Females that have Cow Sense! Our cows calve in adverse conditions in January and February, they need the ability to get those calves up fast and get them to suck. They should be possessive not aggressive and attentive to their calves. We calve in tight quarters, they need to be easy to handle and docile.

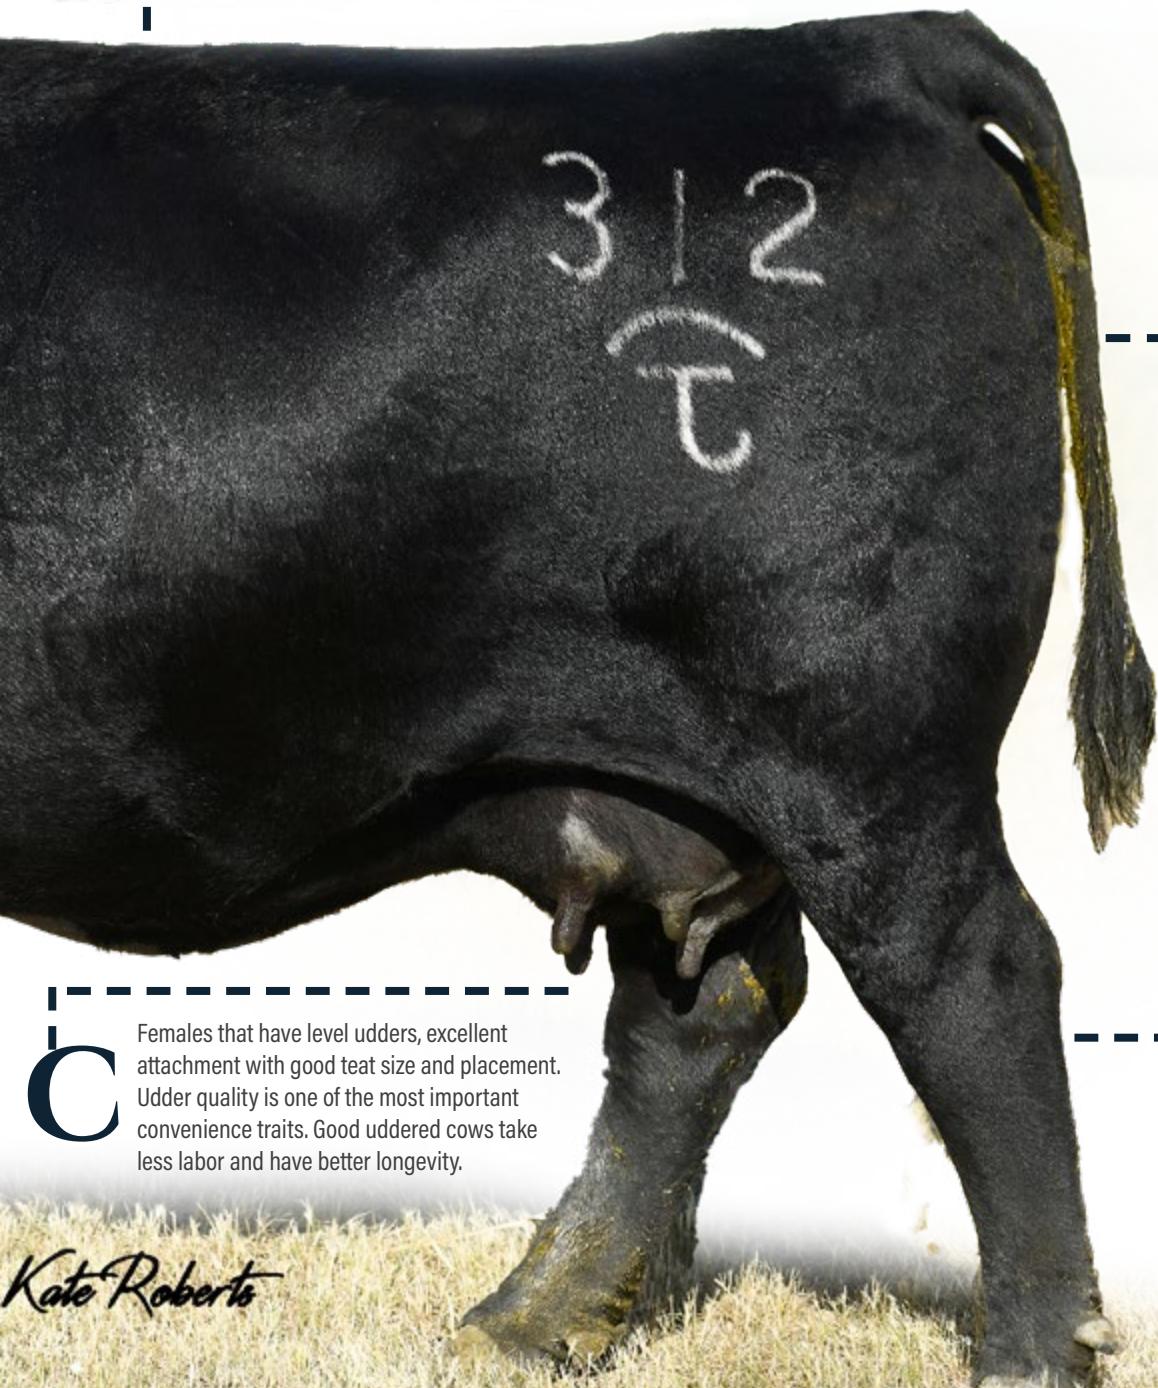

MATERNAL DRIVEN

Seems lately the buzz word in the Angus breed is Maternal. How do you define Maternal? Some would say look at her EPDs and how she ranks in the breed on traits they deem to be Maternal. Others might say look at her production record and how her calves have performed. For us at Deep Creek it is a lot of factors that work together to create an elite female. For lack of a better phrase, these traits are vertically integrated. A strong foundation that stacks traits on top of traits that we strive to enhance and procreate. Maternal has never been a fad but instead it's the basis of our program. For over 25 years our focus has never changed or veered. To better identify bulls that have females that possess these traits in their pedigree, we created the Maternal Driven Logo. When you see this logo be assured that the bull is backed by outstanding maternal excellence.

B

Females with a brood cow look. We have a very distinctive type and kind we strive to produce at Deep Creek. Classic Angus headed cows that are clean fronted, wedge shaped with extra depth of rib that carries through to the flank. Cows that have good length while maintaining a level top and stand on a wide base.

C

Females that have level udders, excellent attachment with good teat size and placement. Udder quality is one of the most important convenience traits. Good uddered cows take less labor and have better longevity.

Kate Roberts

E

Females that are fertile and productive. Cows that A.I. first service and calve on time year after year. We push for extra longevity and cows backed by multiple generations of Pathfinder dams. We expect our cows to wean 55-65 percent of their body weight while maintaining good condition.

D

Females that have strong phenotype. We pay close attention to leg structure and foot quality. Cows that have the ability to travel and thrive in any conditions.

• Granddam's WW Ratio 7@113 Pathfinder

• Great Granddam's WW Ratio 7@113 Pathfinder

• Granddam is a full sister to Deep Creek King of Spades who topped our 2019 sale to Clear Creek Angus, Montana.

DEEP CREEK BULL DEVELOPMENT

Rest assured that we do everything possible to ensure the success of the bulls. From the time they hit the ground till they are turned into the breeding pastures, we condition them to be

successful. We work closely with our vet on an extensive health program to make sure they have a great start at birth and on into weaning. We work with our nutritionist to make sure the transition from cow to the weaning pen and onto a TMR is smooth and successful. The bulls are fed a high roughage ration with a target gain of 3 lbs/day. We feed them to express their growth potential but not to fatten. The bulls are fed in a large lot and also in the spring have access to a fair sized pasture. They will come to you hard, sound, fertile and ready to breed. We came across a great piece written by Clayton Jennings in the 1964 Ankony Hyland Bull Sale Catalog. I believe there is a wealth of knowledge to be achieved by sharing it.

Correct Fundamentals

"Some cattlemen either cannot or will not recognize correct fundamentals in an unfitted bull. We have found that the time tested successful commercial breeders are among the shrewdest judges in selecting great breeding bulls. They can and will recognize correct fundamentals in a thin bull; and are willing to pay good prices. WHY? Through his years of successful operations he has had lots of bull experience. He has bought fat bulls and watched those same bulls get thin. Sad and costly breeding experiences have been his best teacher. He has bought well conditioned bulls and has been impressed with their development, livability and breeding performance. Yes, the practical cattlemen are looking for and demanding the very fundamentals that have made the Angus breed the greatest beef breed in the world. They are looking for and demanding red mated, bulky bulls, with lots of natural thickness throughout the barrel, great depth of body and good legs with plenty of the right kind of bone. We believe he is entitled to these fundamentals. He is willing to sacrifice on some other fundamentals if necessary. He is cautious and hard to fatten on the fads and extremes that creep in and out of the breed. We need this kind of cattlemen and many more to fully develop the great potential of the expansion of Angus cattle."

Clayton Jennings

- We doubled up the Lass cow family and created a Maternal Driven legend in the making. Three Deep Creek donors are incorporated in 580's pedigree. Top 1% for Teat and top 2% for UDDR.

Deep Creek Bar Lass 262 • Dam of Lot 73

In Memory of **DUANE KEFFELER**

We said goodbye to longtime Meade County rancher and friend Duane Keffeler. Once you met Duane he was a person you would never forget. Many a conversation we had over the years and two things were sure to come up, Cattle and Family. Duane purchased Deep Creek Cedar 709 from us in our 2008 sale and that was the first bull we raised that we used back into our program. We will surely miss our conversations and his laughter and wit.

Deep Creek Game Susie 577 • Maternal Great Granddam of Lot 85

Deep Creek JP Susie 177 • Maternal Granddam of Lot 85

For years we had admired 3286 at LT Ranch and thought she was one of the most model Angus cows we had ever seen. When Brent Theil offered me the opportunity to purchase her at 10 years of age, we jumped at the chance. She has tremendous phenotype and stands on an excellent foot. 3286 is easy fleshing with extra rib shape, extreme length and overall mass of body. At 13 years of age, she was the first cow to calve here this year and looks and acts like she is 5 years of age. Her Woodhill Blueprint son LT Tactic 0322, sold in 2021 for \$40,000. Two daughters were retained on the Theil Ranch. LT Prairie Peak 1133 by Square B Atlantis 8060 who produced a \$45,000 son and LT Prairie Peak 6159 by Koupals Advance 28 who produced a \$24,000 son both which sold in 25. We look forward to more ET progeny by this Maternal Driven Donor.

- Calving ease Square Deal son with an extra punch of IMF to ratio 157.

GENOMIC % Ranks

ANGUS GS

Powered by Neogen GeneSeek

Angus GS genomic percentile ranks (1-100) benchmark animals against over 1 million Canadian and American Angus records, indicating genetic potential for traits like docility or marbling. Lower percentile values (e.g., top 1-10%) represent more favorable genetic merit. While provided with tests, Genomic-Enhanced EPDs (GE-EPDs) are preferred for selection.

KEY ASPECTS OF ANGUS GENOMIC RANKS:

Purpose: These ranks help compare tested animals against the American Angus Association database to determine relative merit.

Interpretation: A 1% rank is top-tier, while a 99% rank is bottom-tier, with 50% representing the average.

Updates: Genomic scores and ranks are updated annually (e.g., May 2024 update) to include new, larger reference populations.

Vs. GE-EPDs: Genomic percent ranks are provided with tests, but GE-EPDs are the recommended tool for selection because they integrate pedigree, performance, and genomic data.

Application: These ranks are used to assess traits such as growth, efficiency, and carcass characteristics.

DOOLITTLE Ranch

Guest Consignment of Commercial Angus Replacement Heifers

Aaron and Angie Doolittle and Family, Midland, SD

65 Head of home-raised Angus replacement heifers. The Doolittle Family has been buying bulls from us just about as long as we have been having bull sales. There are generations of Deep Creek breeding in this outstanding set of heifers. They are the front-end of one of the best producing cow herds in the area. The heifers have been on a full health program, are bangs vaccinated, freeze branded and tagged to match. The heifers will weigh approximately 850-900 lbs.

Health on Heifers:

Springtime Vision 7 + Somnus

Fall: Vision 7 + Somnus
Pyramid 5 with Presponse
Poured with Ivermectin

January 2026: Preg Guard Gold 10
Poured with Ivermectin

For more information contact:
T.J. Gabriel (605) 280-3069
Aaron Doolittle..... (605) 843-2521

The Doolittle Family exhibited the Champion Pen of Bred Heifers at the 25 Central States Fair that also went on to claim the Best of Show Award. This is the second year in a row that they have won both. Congrats!!

WR

WEIGEL

Ranch

Guest Consignment of Commercial Angus Replacement Heifers

Taylor, Emily, and Quinn Weigel, Ipswich, SD

60 Head of home-raised Angus replacement heifers. An outstanding opportunity that doesn't come along very often. For years Taylor has AI bred his cows to the best and purchased outstanding bulls right through this sale. He has built an outstanding reputation and raises some of the heaviest calves in his area. These heifers will make a true performance set of cows. They have been on a full health program and are Bangs vaccinated, freeze branded and tagged to match. The heifers will weigh approximately 800-850 lbs.

Health on Heifers:

CLEMENTS

Ranch

Guest Consignment of Purebred Angus Bred Heifers

Tom and Lacey Clements and Family, Philip, SD

10 head of home-raised Purebred Angus bred heifers. The Clements Family have purchased and A.I. bred to Deep Creek bulls for many years and have built a tremendous no-nonsense cow herd. Tom has focused heavily on maternal traits, good udders and cattle that flesh easy with excellent feet. The heifers were exposed to SAV Grand Prix 2152 #20472553 and GA Essential 2363 #20759492 to start calving on April 10th for 50 days. They will weigh approximately 1,100 – 1,200# and are on a full mineral program and Form-A-Feed lick tubs. The heifers are freeze branded and tagged to match.

Health on the Heifers:

May 25:

ViraShield 6 + VL5
Fusogard
Anthrax
Cydectin pour-on

October 25:

Dectomax pour-on
Ultra Boss pour-on

January 2026:

MIDLAND
BULL TEST

is TERNAL

We are thrilled to be a part of a diverse group of Angus breeders dedicated to building the backbone of America's successful and most profitable commercial cowherds. "This is My Maternal" is a limited-episode video series featuring a network of 8 unique families that prioritize the Angus female and the maternal traits that can't be measured by EPDs or indexes. There will be 17 videos available upon the completion of the project.

Visit www.DeepCreekAngus.com to watch the entire series as it is released over the next 12 months and be sure to follow us on Facebook to be notified as each video is released.

Humbled

We are extremely humbled that you have chosen us to be your seedstock source. We work 365 days a year to make sure the cattle we raise will help you to become more profitable. *The best part of our program is YOU, our customers!*
