Angus Ranch

*Lasting Legacy*

*Frozen Genetics Sale*

*February 17, 2026 | 6 P.M. CST*

CCI  
LIVE LiveONLINE™

# Dear Friends,

We hope that you can join us on February 17, 2026, for our first frozen genetics sale, hosted by CCI.Live. We are very humbled by the interest in our program.

The genetic opportunities in this sale are the very same genetics that built the Basin Angus herd to its current level. Every embryo mating is made with the intent to use those embryos all in our program. This year we exceeded our goals for embryo production which allows us to share some of those frozen genetics with you.

As you study this offering you will see embryos from our top-tier proven donors, embryos from some of the very significant older foundation donors in our program, as well as embryos from some of our favorite young donors.

Our goal is to produce cattle that will help our customers to be successful. We have strict criteria for phenotype and structure, as well as fertility and longevity, in addition to striving for superior performance data. We are passionate about breeding cattle with the "Basin look" and that is key to a cow making it into our donor program.

If you have any questions, please do not hesitate to give us a call. We also love the opportunity to discuss our cattle.

Thank you for your interest in our program!

Sincerely,

Doug Stevenson

What a way to start off this sale with a pick of three heifer calves sired by the \$135,000 two-thirds interest ORlgen sire Basin Keystone and the \$80,000 selection of Rooney Angus in the 2025 Basin Angus sale, who is among the top 12 active Angus dams that are her age or older for \$Combined Value at +345. Basin Rita 5352 who became a Basin Angus donor after producing seven natural calves could well be the greatest living example of "Real World Functional Longevity" with her first two natural daughters producing nearly \$750,000 in progeny sales at Basin Angus. Her first natural daughter was Basin Rita 8052 that sold for \$80,000 in the 2023 Basin Elite Lasting Legacy sale to 4 Sons Angus and the Maple Lane-Nowatzke partnership. Her second natural daughter, Basin Rita 9150, sold half interest to Branch View Angus in the 2023 sale for a valuation of \$54,000. Her VERY FIRST embryo progeny born in 2024 sired by Basin Jameson 1076 produced the NUMBER 1 \$Combined Value of all the females born at Basin in 2024 with a second flush sister recording the Number 1 \$Maternal Value of the 2024 Basin heifer calf crop.

# BASIN LUCY 8108 EMBRYOS

8108 was the \$160,000 valued selection of Byrd Cattle from the 2023 Basin Female Sale. In the 2024 Basin Bull Sale, she produced the \$110,000 high selling bull to Grimmus Cattle, a \$55,000 son to Krebs Ranch, and a \$20,000 son to Belle Point. Not only does 8108 transmit tremendous depth of body and powerful phenotype to her progeny, but she is also a DNA upgrader that produced sons with the highest and second highest \$C indexes ever recorded in the Basin herd.

A guarantee of 1 pregnancy if work is performed by a licensed professional.

Here is your chance to get in on the ground floor of the \$70,000 valued selection of Boyd Beef in the 2024 sale, Basin Joy 3061, who is a maternal sister to the \$82,500 valuation in the 2024 Express Spring Bull Sale to the Meyer Cattle Company in Missouri and the Larson Angus Ranch in Kansas. The dam of this lot has progeny sales including 15 sons for an average of \$74,500 and 11 daughters for an average of \$28,365. The granddam is one of the cornerstone daughters of the great female sire Basin Rainmaker P175, in addition to being a maternal sister to the Basin Rainmaker 4404. If phenotype and performance are your thing, these embryos are just the right kind.
