We would like to take this opportunity to welcome each of you to the 28th installment of the Southwest Simmental Group Spring Production Sale. The simple fact that this sale has been continued to be held for this long of a stretch goes to show the group's commitment to provide each of you a product that will add value to your programs for years to come.

This sale group is committed to producing and providing the very best genetic and phenotypically ideal cattle they can produce. The members bring these cattle in good working shape with all the guess work removed from your decision making. Please take some time to study the large group of Age Advantage bulls being offered in this year's sale. These bulls are long aged and ready to go right to work in your pastures.

The SWSG has always been noted for providing an excellent set of replacement females and this year is no exception. I'd venture to go out on a limb and say that this year's set of bred females outpaces any offering ever assembled in this crew's 28 years of existence. The saturation of cow power in this group is second to none and will value each of you for many seasons to come!

We look forward to hearing from each of you in the coming weeks and look forward to providing a value added product for your evaluation. If you have any questions feel free to give any of us a call, we love to talk about the BEEF BUSINESS!

Thank you for your support,

The Southwest Simmental Group

Junior Incentive Program

We are proud of the open heifers that are marketed through this sale each and every season, and are very thankful for each of you that choose our offering to select your next show heifer project. With that said we look forward to giving back to those Juniors who choose to invest in our programs.

Sale Incentives:

County Fair Winners: \$100

District Show Winners: \$250

State Fair & National Winners: \$500

You must submit a backdrop picture in order to be eligible to claim your award. We wish each of you the best of success in the upcoming show season!

BOOM, BOP, BAM! A bull that's spiked my heart rate from the moment he hit the ground. Open my camera roll and all you'll see are pictures and videos of this bull, from the time he was a calf til now - it's absurd. He's built just the way we like them! He's a structurally sound, big topped, well balanced bull paired with great feet and legs. 517N has been easy to pick out in the pasture and is even easier to pick out in a stout lineup of bulls.

Here at RW Simmentals, we love to talk about the maternal side, the longevity of cow families, the ones that get the job done, plain and simple. 513N's dam, RW Dixie or "Peanut" as we call her, checks those boxes. This year is no exception - 513N is a BULL. He's going to add bone, structure, rib, and most importantly pounds. Come check this guy out on sale day!

A bull with some sentimental value here at our farm. His dam, RW Zaylie, was the very first show heifer for my sister, Maria - unfortunately, we had to part ways with her this summer at the ripe age of 13. Nevertheless, she nailed her last calf! A blend of balanced genotype and phenotype and 8 traits in the top 35% for EPD's, all wrapped up in a baldy bull package. 524N will make a lasting impact in your cow herd, just like his dam did in ours!

This genetic line comes with huge influence from the Long family, with his bloodline going back to Long's Carmen and Long's Stand Alone! 512N is an easy fleshing, ground pounding, dense made, high quality bull. One that will be able to get out and cover a large group of cows. His genetics have already proven themselves time and time again on our farm and will do so on yours. Take him home and put him to work!

Blk & Polled - Adj. BW 81 - WW 756

This guy has all the attributes we try to produce. Eye appealing with a little more frame yet abundance of body. He stems from a cow family that has longevity, great feet, and udder quality. Dam is a 2013 model and just calved on schedule again in January. His sire was \$230,000 bull recommended to us by Jered Shipman as he described as a real world cattle producing bull.

Blk & Polled - Adj. BW 82 - WW 780

5286 is our bigger framed bull and will produce not only the type of steers the industry is calling for to be able to put extra weight on, but also daughters that will stick around your herd. Same cow family as the 586 bull of ours and I feel like he represents what we are trying to produce to a T. I love his combination of Calving Ease and \$Gain, that's a money making EPD spread.

Blk & Polled - Adj. BW 85 - WW 750

5437 is a moderate framed big middled dense made bull. He will make not only eye appealing, growthy feeder cattle, but also tremendous females. His sire is Canadian bred bull we sampled and really like the density he adds to the calves and we feel 5437 will do the same. His dam was in herd til 14 years old and still had an absolutely perfect udder.

Blk & Horned - Adj BW 75

We feel Diamonds Pay 3N represents exactly what a Purebred Simmental bull should look like. He is long spined and is extended through his front that ties high into his shoulder, while still being loose enough skinned to allow growth and maneuverability. He puts a big foot to the ground while still being smooth and flexible on the move. He is well muscled and wide and carries that width throughout the length of his body. To top it all off, he is unbelievably bred. Diamonds Pay 3N is a direct grandson of the great KLS Diamond W516. We have no doubt that Diamond Pays 3N will sire calves that will have tremendous growth and striking appearances. Buy with confidence!

Here is a bull with a pedigree to make females with enough stretch and grow to make high performing commercial cattle. Both of the bulls we are bringing got turned out on pasture with groups of 20 plus mature cows and settled them all. Nobody wants to buy April bull calves so I turned them out myself and they bred them all. Proven working bull in working bull condition.

Blk & Polled - Adj BW 87

A baldy two year old that is ready to work because he already has proven to work. True performance build, great feet, the right kind to turn out on commercial cows to make pounds. Doesn't have a fancy show ring pedigree, which isn't a bad thing. Bred to grow and built that way too. Ran on a large pasture and came off in great shape. Not a fat bull, a bull ready to work that knows what he's for.

Homo Blk & Homo Polled - Adj. BW 80

Homo Blk & Polled Fall Yearling Bull. This deep sided, smooth shouldered, solid black Boxcar son has been one of our favorites from the morning we found him. We decided to blend a little of the old time genetics with the new on this guy. His sire, Boxcar, was our high selling bull from the 2007 SWSG purchased and promoted by Mike Vogt that dominated the ASA CMP Young Sire Proving Program in 2009. Momma was a first calf heifer out of Brutus that really did a great job on this one. We wanted to blend the growth, maternal, and carcass qualities from both of these sire lines but add a little more frame from Boxcar. The plan worked out better than we had hoped. Low birth weight, tremendous internal dimension, and moves out like a cat. You're gonna want to check this fellas out.

Red & Polled/S - Adj. BW 85

Polled Scurred / NON DILLUTER RED Fall yearling. Full blood Simmental Bull / 100% Full Fleckvieh Bloodlines. Ok, so it's been a minute, but here we are, bringing you a really good red goggle eyed fullblood bull that is an absolute outcross to just about every black simmental bloodline in the USA. Jubal's sire is homozygous polled, was raised by Lonnie & Karen Brown of Canada and imported to the USA by Chad Bailey. Jubal's dam is polled Maximus daughter from embryos we purchased from Little Creek Farms and is a grand daughter of Siegfried. Any way, Jubal is a red baldy bull that we really think a lot of. Low birth weight, smooth shouldered, deep bodied, broad topped, and puts it all together in a calm, cool package that really catches your eye. Tremendous internal dimension, excellent structure, and moves out on a great set of feet and legs. Unlimited potential to produce those killer baldy replacements or front end feeders. You're gonna want to check him out. Walk him for a bit, you'll be glad you took the time.

Polled / Black Baldy Spring Yearling Bull. Fitz Pol Jericho was our pick of our 2020 bull calves to keep for a dominant herd sire. He combines the show ring style of his sire, Gideon (Purchased and shown by Buck Creek Ranch / 2020 Simmental Bull of the Year) with the scale pounding growth of our Shakira donor cow family. Jericho was not for sale, BUT, we did eventually form a partnership with the Knapp Family on him. To date, all of the Jericho calves have come polled and black with the majority of them being baldies. We truly appreciate them for their correctness of structure, eye appeal, calving ease and high growth values. This one was raised by one of our very best black baldy Escalade daughters to give him that extra maternal power to sire top end replacements or top yielding feeder calves. Walk him on sale day and see what you think.

Bull born 12/11/25 by THSF Lover Boy B33

Wow! Where to start on this girl. She is an own daughter of the well known SCC SCH Phyllis 423 who has daughters spread all across the country in top programs like Jones Show Cattle, Hilbrands to name a couple. Her grand dam 051 is dam of the Phyllis 523 of Udell's that has raised several great ones including the New Heights bull. I'm sure I am missing several from the family but trust me this is high quality cow family! We have flushed her successfully twice average 11 eggs per, and have a couple tremendous heifers in the replacement pen. We wanted to offer something special this year and we think 311L is just that. It's been said before but if it doesn't hurt to sell them, maybe they're not good enough... well this one hurts!!

Heifer born 12/20/25 by WINC All Right 213K

A really nice young cow prospect doing a nice job on her first calf. Her dam sold in last years sale and was well received by the crowd. Cow family stems from a heifer purchase from High Point Genetics in Osceola. If you have ever been around Brian Oswald's cow herd you will know quality runs deep as he has one of the most successful bull sales in the midwest.

Baldy Heifer by FITZ Escalade born 11/19/25.

Polled / Black baldy Cowboy Logic daughter with her 1st calf. We have really liked our Cowboy Logic females. They are moderate framed, deep bodied, easy keepers, and great mommas. Cowboy Logic has passed on to the great beyond and there is no semen left on the open market. His daughters are in very short supply and very hard to find. Consuela represents her family tradition and is doing a great job with her first calf. Her 11-19-2025 black baldy heifer calf is sired by ESCALADE. You might want to check this pair out. **Lot 77A Calf ASA #: 4637001.**

Due 3/19/26 to GCC Night Owl

Betty and I are in our 80's and it's time for us to slow down and unhitch from calving cows. Were we 20 years younger RRCC Lady Belle 35F would never leave our farm. She is quite simply special. Study her pedigree: Dream On on the bottom and Miss Werning KP8543 on the topside. Her bull calves were always the first ones selected by bull buyers. Her only heifers are being offered in this sale; a bred by Rolex, and her 2025 heifer calf by WHF/JS/CCS Double Up G365. Rarely do you have an opportunity to view offspring from two different sires. And here's the kicker! She is AI bred to GCC Night Owl due March 19. Read what is said about Night Owl in the 2025 Cattle Visions Directory.

Due 3/19/26 to LCDR Anthem

You can find this bred heifer's dam and half sister in this sale. TRB MS Rolex Belle 02M is nicely patterned with some major cow power stacked in her pedigree. She is stout-made, big-topped, and moves fluidly. She is AI'd to LCDR Anthem and due to calve March 19; no bull exposure! Anthem is a calving ease bull with an off the chart combination of genotypic and phenotypic value. He will elevate nearly all offspring's EPD profile in the Simmental breed.

Open Heifer

TRB MS Double Dream 04N is a 2025 daughter of RRCC Lady Belle 35F and WHF/JS/CCS Double Up G365. There are lots of things to like about this Double Up sired heifer. She is soggy-middled, clean-fronted, and easy fleshing. Her pedigree is full of attractive productive cows and the Summer cow was a big time show winner. She is quiet and halter broke; ready to be a nice youth show heifer project. We've used Double Up heavily. His females are very good when they hit the pasture as momma cows.

Due 3/19/26 to GCC Night Owl

920J is a very nice young Baldy cow that has produced marketable bulls until this year. Her 2025 heifer is in this sale so you can evaluate what she is capable of. 920J is attractive, clean-fronted and has productive growth offspring expected from her sire W/C Loaded Up 1119Y. What really adds value to 920 J is being AI'ed to Night Owl and due to calve March 19. Night Owl is said to be rugged with style and design and has an excellent EPD profile. This mating significantly raises 920J's 2026 calf's EPD numbers.

Check out this girl on sale day show heifer deluxe. I love the length and extension through the front 1/3 of this heifer when she strikes a pose she can really draw you in. When you get her on the move she struts her stuff, if you look at the pedigree on this one you'll see that we are big believers of the reba cow family from Sullivans. They are competitive in the show ring and then come home and make awesome momma cows. This one also has been out and shown a few times and is first year showman safe.

Terms of Sale:

Terms of payment are cash, good check, or Visa/Master Card/Discover. All credit card payments will incur a 3% processing fee which will be applied to your total purchase price. Thus a \$1000 purchase will be charged \$1030. No cattle will be loaded until approved by sale clerks.

Terms & Conditions:

All cattle sell under the terms and conditions of their respective breed associations. All announcements made on the supplement sheet or on the sale block will take precedence over material presented in this book. EPD's are based off current Bolt data as the catalog was prepared. Please leave all transfer instructions with the sale clerks following the auction.

Trucking:

We will work with you to find the most reasonable and economical trucking available. Cattle must leave the sale site by Monday so please let us know as soon as possible following the sale what your needs may be.

Herd Health:

All cattle will have papers for interstate travel, and all bred females will be recently pregnancy checked. Buyers of bred cattle have 21 days to re-pregnancy check purchases. If any animals are found to be open please contact the seller or sale management within that 21 day period for an adjustment to be made.

Absentee Bidding:

If you will not be able to attend the sale please contact Sale Management for a member of the sale staff to obtain a bidder number in order to bid over the phone.

Liabilities:

Everyone attending this auction does so at their own risk. Sale Management, Staff, Consignors, & the Dunlap Livestock Auction assumes no risk for any injury or loss which occurs at the sale site.

Ultra Sound Sexing:

We cannot guarantee 100% that the results given to us regarding sex during ultra-sound will result in what is listed. We can however state that over the years we have had very few sex's missed by our embryologist and feel comfortable passing his word on to you.

Insurance:

Insurance will be available at the clerk's desk. Cindy Cagwin 217-370-6034.

Watch the Sale on CCI.live!

The best, the fastest and most comprehensive marketing & bidding tool!

How to Bid Online...

- **As a buyer**, you do not need an account or to login to watch the sale but you must have a validated account to bid.
- After you are logged in, you must proceed to the sale page for any and every auction and click **"Get Buyer Number."** Some auctions require a pass-code to obtain a buyer number even after you are approved by CCI.live. Pass codes generally come from the sale manager or ranch for that particular sale.
- CCI.live will operate with ease on a **cellular device, laptop, desktop or tablet.**
- A **modern or current browser** is important and will make your experience better. You do not need to install the app on cellular devices to watch a sale. CCI.live is a browser-based application meaning it will play on most new browsers, but you can also download the CCI.live app at the Apple App Store or through Google Play.
- **For successful bidding you must have good Internet service!** It is very important to be stationary. If you are driving and bidding, expect to have some service issues. If you are stationary on a good device, with healthy Internet, expect a very successful bidding environment. If you have slow Internet watch the "asking price" on the screen - it is real time and refresh your browser if you feel like you have some lag.
- **Support line open during all sales. 405-400-9505** - Please contact the ranches for invoices and trucking.

Viewed around the world!
