Bulls*

**SPRING TURN-OUT SALE
MARCH 7, 2026 AT 1:00 PM**

at the ranch in Mount Vernon, Missouri

Welcome to the Sale!

Moriondo Bulls

Fellow Cattlemen and Cattlewomen,

It's with great excitement we invite you back out to the ranch for our Spring 2026 Bull Sale! What a time to be in the beef business! The market seems to be unable to find the top of the price board, and we are sure thankful to be in times where family operations can continue to flourish and not just survive.

In times like these we are even more excited to offer these stout age advantage bulls. You will see the consistency throughout this offering and take the guess work out of what your next calf crop will be like. The genetics behind these bulls are going to produce top end feeder cattle and the keeping kind of females to grow or build a herd with. There are calving ease and power bulls throughout the sale that are loaded with quality from the ground up. We continuously cull through our bulls to make sure that we can send our customers home with a product that is going to hold up. We believe in them and they come with a full year guarantee! In addition to the guarantee, we also want to know when you market your calves, let us know where they go to town and we will bid on them and help promote your cattle!

Alongside the bulls in this offering are a very elite set of the Wilmeth Ranches spring bred heifers, bred to top end Moriondo calving ease bulls. The homework is done on these heifers, and this should prove to be a great investment opportunity. These 35 heifers are the kind to build a herd around!

We are very thankful for our crew that works tirelessly day and night to help this dream continue. It takes an army at times, and we are very proud of our crew. We are very thankful for our loyal customer base; you are trusting us with the next generation of your calves to market and replacement females to enter your cow herd. We are all about the next generation here and are very thankful for our families, we want to prolong the ranching lifestyle, and it makes me beam with pride and thank God to see my children taking interest in the beef business as well. They are very proud of their second Hereford bull that we will be offering!

We look forward to seeing you all March 7, 2026! Come out and see the bulls any time, they will be penned Friday morning before so come on out and see us here at Moriondo Bulls.

Stay safe and God bless,

Mark Moriondo

Welcome.

The Moriondo family name has been associated with integrity in business and stewardship for decades. Larry Moriondo is a true representative of what American agriculture can do for a family and a business model. He and Rita started the turf business with nothing to lose and everything to gain. His approach to his customer base was as sincere as his approach to the commercial cattle sector at Moriondo Farm and the influence he had on his three children. Larry and Rita are among the very, very good people in the world, and, like most, we are humbled and privileged to assist them with their seed stock endeavors.

Mark Moriondo and his wife, Miranda, represent the next generation to assume charge of the family business endeavors. For those who know Mark well, we are blown away by the maturity and approach he has to the bull business. His ability to cultivate relationships with generational attachment is second to few, and the customer service that comes with the purchase of a "Moriondo Bull" is as good as one can find within the 4-State Region and beyond.

The number one fact about these bulls is that the Moriondo Family is willing to turn their own bulls out on their large commercial cow/calf operation. That statement should speak volumes to the doubters. The calves sired by the same genetics you have the opportunity to select from, top of the local marketplace annually, and they have established a private treaty, direct ranch procurement with several smaller cattle feeders in the upper Midwest. Commercially, the ranching entity has a strong reputation, and the same mindset extends to its seedstock marketing endeavors. These facts are what make doing business and selecting your next genetic investment for your operation from Moriondo Farms a necessity.

These bulls are developed in large groups, and to reach "sale day," they must endure the challenges to remain sound, pass a BSE, and have the genetics and quality to surface. We promise that if you buy a bull here, he will have the grit and longevity to overcome and persevere through any harsh climates or adverse terrain they are introduced. The cattle have been sorted for hoof quality, skeletal flaws, conversion, and adverse disposition to ensure that your investment experience is pleasurable and simple. Genetically, the cattle represent the next phase of the seedstock and commercial cow herds for the family, with many sisters to the bulls in this offering entering production in the next 6 to 8 months. To back their offering as they do, they recognize the importance of removing the guesswork and establishing more certainty for your prospective investment. Ultimately, this is your decision, and we understand that you have many options for making your next herd bull investment, but it's simple for us when the firm representing the offering has so much more skin in the game than most other seedstock suppliers.

We invite you and your family to attend the March bull offering at Moriondo Farms on March 7. Their sale facility is warm and inviting, with hospitality and food as good as the people serving it. Mark Moriondo is available almost any day and at any time throughout the week, especially for those who reach out to schedule an on-farm visit prior to sale day. Mark has a great "right-hand man," Nathan, who can also facilitate a tour and a preliminary visit to view this exciting offering. If you should need any further assistance with selection, additional information, or sight-unseen purchasing, feel free to reach out to any of the Innovation AgMarketing team as well. Thank you for your interest!

Enjoy the cattle,

Graham Blagg | Jered Shipman | Tim Anderson

Watch the Sale on CCI.live!

The best, the fastest and most comprehensive marketing & bidding tool!

How to Bid Online...

- **As a buyer**, you do not need an account or to login to watch the sale but you must have a validated account to bid.
- After you are logged in, you must proceed to the sale page for any and every auction and click **"Get Buyer Number."** Some auctions require a pass-code to obtain a buyer number even after you are approved by CCI.live. Pass codes generally come from the sale manager or ranch for that particular sale.
- CCI.live will operate with ease on a **cellular device, laptop, desktop or tablet**.
- A **modern or current browser** is important and will make your experience better. You do not need to install the app on cellular devices to watch a sale. CCI.live is a browser-based application meaning it will play on most new browsers, but you can also download the CCI.live app at the Apple App Store or through Google Play.
- **For successful bidding you must have good Internet service!** It is very important to be stationary. If you are driving and bidding, expect to have some service issues. If you are stationary on a good device, with healthy Internet, expect a very successful bidding environment. If you have slow Internet watch the "asking price" on the screen - it is real time and refresh your browser if you feel like you have some lag.

- **Support line open during all sales. 405-400-9505** - Please contact the ranches for invoices and trucking.

Over 35 years in livestock marketing!

MISSOURI SHOW-ME SELECT REPLACEMENT HEIFER PROGRAM

The Show-Me-Select® Replacement Heifer Program uses the latest research on health, nutrition, genetics and reproductive science to ensure Missouri counties continue to be national leaders in providing quality beef. The program focuses on Missouri's farmers and is dependent upon active participation from regional extension livestock specialists and local veterinarians, each of which are critical components of the agricultural sector of this state.

This program is unique in that it is an educational program targeted at improving production efficiency through increased use of existing technology, coupled with the marketing component.

**Program Objective:**

Improved heifer development programs through a Total Quality Management strategy

Increased marketing opportunities for and added value for Missouri-raised heifers

Creation of reliable sources of quality replacement heifers based on management, reproduction and genetics

Genetic Requirements:

Sire requirements: Eligible sires must have known ID, be registered by their respective national breed registry, and have complete EPD (opens in new window) information. Sires will be evaluated for qualification in the program based on the EPD provided by their respective breed registry and not on EPD produced by progeny registration in any other breed or hybrid registry.

Angus minimum Calving Ease EPD of 7.0

Simmental and SimAngus minimum Calving Ease EPD of 14.0

ABOVE AVERAGE GOALS REQUIRE TARGETED BULLS

Aim High

The Targeting the Brand™ logo highlights registered Angus bulls with greater genetic potential to produce calves that meet the most challenging specifications of the *Certified Angus Beef®* brand.

Only 1 in 4 non-parent Angus bulls qualify.

Minimum Genetic Requirements

| | |
|---------------------------------|-------|
| Marbling EPD (Marb) | +0.65 |
| Dollar Grid Carcass Index (\$G) | +55.0 |

For more information on Targeting the Brand™ visit CABcattle.com.

OUR GUARANTEE TO YOU AND COMMITMENT TO SERVICE

OUR GUARANTEE

We guarantee that all bulls sold through our sale are fertile to the best of our knowledge. If a bull is injured anytime in the twelve months following the sale, that makes him functionally infertile, we will provide a replacement bull or issue a credit in following sales, equal to the purchase price minus the salvage value received for your bull. This is not a life insurance policy. The guarantee is in addition to the sale terms and conditions of the American Angus Association which apply also.

CUSTOMER SUPPORT

We believe in the cattle we are producing here and believe in the cattle that you are producing at home. When the time comes for you to market your calves, however that may be, if interested call myself and let me know your plans with your cattle and see if we can assist or bid on your calves however you may sell them. Extending every dollar in the cattle business is how it is made, and we would love to help if we can

- The leadoff spot in the 2026 Moriondo Spring Bull Sale offering goes to MMR Walk the Line 50M, a powerfully constructed purebred Simmental that is well balanced, deep bodied, and stands on a good-sized running gear.
- The sons of KCC1 Walk the Line 076J in this offering are the real deal, and this one out of the donor dam Ruby SWC Yetti G957 is a great place to start.
- He is an individual performance standout, from only 76 lb. at birth to a 724 lb. weaning weight that ratios at 113 among the sale bulls. On top of that, he measures a 42 cm scrotal circumference.
- 50M is homozygous black and homozygous polled.

- A sharp fronted, star faced KCC1 Walk the Line 076J son that carries added length of spine and muscle shape into his rear quarter.
- He is bred on the same cross as the 50M feature bull, as his dam is also a successful CCR Pay Dirt 2340C daughter.
- This moderate statured purebred bull still packs on the pounds and will be the kind to leave you the keeper kind of SimAngus daughters in the herd.
- Pretty diverse genetic package when you study his EPD profile.
- 85M is homozygous black and homozygous polled.

THE SIMGENETIC BULLS

LOT 3 - MMR WALK THE LINE 47M

LOT 4 - MMR WALK THE LINE 56M

- 47M brings added front end extension and length of spine, along with a stout hip and muscular quarter. He is a rugged made future herd bull.
- The first in a pair of flush brothers from the dam BF Miss Sweet Remedy, an own daughter of SO Remedy 7F that transmits along her eye appeal and style to her sons.
- A strong performer from birth to weaning, with his 675 lb. weaning weight calculating to a 106 ratio among this year's sale bulls.
- 47M is homozygous black and homozygous polled.

BF MISS SWEET REMEDY
DAM OF LOTS 3 & 4

BF MISS CRYSTEEL TANGO
3RD GENERATION MATERNAL
GRANDDAM OF LOTS 3 & 4

- MMR Walk the Line 56M is the blaze faced flushmate to 47M, and he carries the added extension, style, and muscle mass as his brother does.
- The KCC1 Walk the Line 076J sons are the kind of power bulls that cattlemen will appreciate.
- Only 73 lb. at birth and grew up to a 101 yearling weight ratio and a 41 cm scrotal. His birth data and CE EPDs suggest he could be used in inject some easy calving into a crop.
- 56M is homozygous black and homozygous polled.

- His dam is a nice Nichols Upgrade D104 daughter who works hard every year.
- Elite growth traits rankings when you study his EPDs.
- 18M is homozygous black and homozygous polled.

THE SIMGENETIC BULLS

LOT 34 - MMR ARROWHEAD 08M

- Transitioning into a new sire group with MMR Arrowhead 08M, a powerfully built, rugged made stud initiating the TJ Arrowhead 263G offering.
- His dam is a young Hoffman High Road daughter that raised him on her first try in production.
- Modest 74 lb. birth weight to a 1,300 lb. yearling weight.
- Study his EPD profile and you will find one of the leaders in the sale for his combination of API and TI.
- 08M is homozygous black and homozygous polled.

HOFFMAN HIGH ROAD
MATERNAL GRANDSIRE OF LOT 34

LOT 35 - MMR ARROWHEAD 52M

- Another deep bodied representation from the TJ Arrowhead 263G sire group.
- Dam brings the Triangle J influence in again on the bottom side, as she is a TJ Gold 274G first-calf heifer.
- Light 65 lb. birth weight showcases calving ease ability.
- Should inject calving ease and marbling genetics in a calf crop.
- 52M is homozygous black and homozygous polled.

- A deep bodied, proportionally built prospect with plenty of herd bull character to his front third.
- His two-year-old dam did a nice job raising a sale bull on her first go.
- Showcases a nice spread on his performance from a nice 69 lb. birth weight to a yearling weight that ratios at a 105 among the sale bulls.
- He's a breed leader in almost every EPD on the sheet. Use this bull for all-around genetic improvement.

- Here is a bull that brings added length and quality of skeletal structure to the table when you study him in the pens.
- The dam of this purebred herd bull prospect is Ruby SWC Yetti G957, who is also the dam of Lot 1 in this sale. She's a powerful producer.
- Perhaps the most impressive performance ledger in the offering: a 73 lb. birth weight, a 121 weaning ratio, a 109 yearling ratio, and a 43 cm scrotal circumference.
- Put this high-octane stud to work creating added pounds and reap the benefits next fall.
- 53M is homozygous black and homozygous polled.

- MMR Domain 29M is a deep bodied, bold shaped herd sire that is ready to go to work for you.
- This low percentage Simmental prospect is a performance powerhouse from birth to yearling. He measured a 42 cm scrotal circumference.
- Only 72 lb. at birth, then built up to a 112 weaning weight ratio and a 109 yearling weight ratio.
- High rankings for multiple traits in his genetic profile.
- 29M is homozygous black and homozygous polled.

- A half-blood SimAngus standout from the Chestnut Force 482 sire group.
- His dam is a young TJ Teardrop 783F daughter that we like her potential.
- He's a good-sized bull with a 1,350 lb. yearling weight and a 105 yearling ratio.
- His growth EPDs indicate curve bending potential with light birth and added performance down the production cycle.
- 59M is homozygous black and homozygous polled.

THE ANGUS BULLS

The Angus bulls are registered within the American Simmental Association herdbook in order to help you as a buyer more easily compare their EPDs to the SimGenetic bulls. We felt that this would provide a more accurate comparison between the breeds and eliminate any confusion. Heterosis is the key to success in the beef industry, and it is our unwavering commitment to provide our customers with a product that will enhance your profit margins!

- 20M is an impressive lead candidate in the Angus offering. He is balanced in his type and kind, while being deep ribbed and carrying plenty of muscle throughout.
- Only 72 lb. at birth, he grew to a 109 weaning weight ratio and a 105 yearling weight ratio.
- Big league growth EPD rankings on this guy in the Angus database.
- These Angus bulls are a great candidate to go back on your Simmental influenced cows to make awesome females and scale pounding steers.

THE ANGUS BULLS

LOT 54 - MMR FORCE 17M

- Another high growth genetic option from the Chestnut Force 482 sire group, MF MM Force 17M is a stockman's kind of bull with his depth, mass, and herd bull character.
- One of the powerful bulls in this class with his 110 weaning and 109 yearling ratios.
- His data sheet reads as one that will transmit growth and performance to the next generation.

DEER VALLEY GROWTH FUND
MATERNAL GRANDSIRE OF LOT 54

LOT 55 - MMR FORCE 30M

- 30M is an impressive phenotype Angus bull with added length and look. This bull will certainly catch your attention.
- His 107 weaning weight ratio is noteworthy.
- These Chestnut Force 482 sons will get the job done; this one stems from one of our most prominent cow families.
