Dear Cattlemen,

Welcome to our 2026 spring bull sale. We are excited for our past customers to see how deep the quality runs this year. We also would like to extend an invitation to those of you who have never had the opportunity to see our genetics to come witness firsthand how our bulls and our program can make a positive impact in your bottom line. We select genetics with the most progressive cattlemen in mind and place emphasis on the criteria we have found to be of importance to our valued customers. Below lists the requirements and criteria for what we believe will add value to our customers:

- A Program with Multiple Generations of Proven AI Embryo transfer
- Have Been in the Business of Producing Bulls for Commercial Cattlemen for over 125 years – Family Owned and Committed to Agriculture
- Every Bull has Genomic Enhanced EPDs and the bulls are 100% AI sired!
- Backed by the Breed's most Productive Cows with a Focus on Cow Families that Get the Job Done
- Contact Blake Boyd (606) 375-3718 about an exciting **MARKETING OPPORTUNITY** we would like to share with you to assist with marketing your feeder calves!
- Committed to Customer Service
- Initiated a Feeder Calf Sale for our Customers to Showcase their Genetics – Ultimately adding Premiums to Their Bottom Line
- Provide Complete and Comprehensive Information on Our Genetics Including Individual Performance, Genomic Information, and the Maternal Power in Their Pedigree.
- Available to Help and Answer any Questions Throughout the Year.
- We are very optimistic about the cattle business both this year and for a considerable time during this new decade.

This year, we are once again leading off with a tremendous set of bulls from our 2026 Cattlemen's Congress Pen of Three, plus we will be selling the 2026 Cattlemen's Congress Grand Champion PGS bull, who is also a member of our pen. We believe that this offering of bulls are proof that when you set high standards for elite phenotype and genotype, together the results are "the right kind of cattle." We have been fortunate through the years to breed and market several breed-influencing AI sires and we believe that bulls with the same caliber of genetic power are selling in this offering.

We are always asked about trucking arrangements. We make every attempt to work with our buyers to coordinate trucking and delivery in the most economical manner possible. When possible, we try to make the local and regional deliveries ourselves as we enjoy getting to know each of you and seeing your programs. However, there are times where scheduling does not work out. Please keep in mind - We will always try to work with you!

You are invited to view the bulls anytime. If we can assist you in any way, feel free to contact us. Whether you are a past customer or new, we want to help your bottom line with this outstanding group of bulls.

The Boyd Family

**BULLS WILL BE AVAILABLE FOR VIEWING ALL DAY
 FRIDAY, MARCH 13, 2026 AND SATURDAY MORNING
 PRIOR TO AND DURING THE SALE.**

**We are planning a
 CUSTOMER APPRECIATION get-together
 for the Fall of 2026 – Details will be
 available this summer!**

Complimentary Lunch served at 11:00 AM

VIDEO FORMAT

We will be selling all the bulls on video, with TV screens set up around the sale ring.

All of the bulls selling will be on display beside the sale barn as in years past.

We made this decision with great consideration for you, our valuable customers, and in the end, we believe this will allow all of our customers to enjoy the warmth of the sale barn and to see the bulls in their natural environment in their sale pens.

MANAGED BY:

RANCE LONG, INC

918.510.3464 cell

RLong@RanceLong.com

www.RanceLong.com

TRUCKING:

Each buyer who brings their trailer and picks up their purchases sale day will receive \$50 off the purchase price of each bull.

FIRST BREEDING SEASON GUARANTEE:

We understand that injuries do happen during the first breeding season. If for any reason a purchased bull injures himself to where he is unable to service and settle a cow, we will provide either a satisfactory replacement, if one is available, or credit it in a future sale equal to the purchase price and less salvage value.

We define the first breeding season as the first 90 days following the day of turnout. Keep in mind this is not a mortality insurance policy. We suggest you contact an insurance representative to inquire about mortality insurance (a representative will be available sale day). We will replace and credit bulls when a licensed veterinarian determines a bull to be a non-breeder within the first breeding season.

It is mandatory that you contact the seller immediately when an injury is discovered and within the first breeding season time frame.

MATERNAL MATTERS BULL SALE

BOYD BEEF CATTLE – MATERNAL MATTERS

Every decision at Boyd Beef starts with the cow. We believe our cowherd is responsible for our success. That's why we are strict in our selection for udder quality, feet, and leg structure, fleshing ability, body volume, moderate mature size, and fertility. We demand our cows to raise a big calf, rebreed timely and have added longevity. Therefore, we have went the extra mile to participate in the Maternal Plus whole herd reporting program, where we record fertility and longevity data on every female in our herd. We also place special emphasis on the \$Maternal index that takes into account the traits that are critical to profitability for the majority of our customer base, as it selects for weaning weight, calving ease, moderate mature size, fertility, docility, and foot quality. If you sell your calves at weaning, after preconditioning or retain replacement females we'd strongly encourage you to take a look at \$M.

Behind Every Great
HERD BULL
is a Powerful High
MATERNAL FEMALE

NOON // SATURDAY // MAYS LICK, KY **MARCH 14, 2026**

WELCOME

Boyd/Myers Bull Customer:

Thank you for being a customer of our bull sales over the past years, it is our sincere hope that the bulls you have purchased have helped you move your herd in a positive direction. We continue to work hard to provide you with the kind of genetics that will help you fit your cattle into the ever-increasing demands of the marketplace. The offering in this catalog proves our commitment to providing genetics that will move any program forward.

As a service to our bull customers, we invite you to take advantage of our feeder calf marketing program. Our goal is to provide an opportunity for you to reap the benefits of purchasing superior genetics and providing sound management. The Boyd/Myers tag means quality genetics to the buyer, coupled with our recommended management of 60 day weaning with two rounds of vaccine, put you in the front of the line in terms of demand for your calves. Calves carrying the Boyd/Myers tags can be marketed at any time through Blue Grass markets and will be promoted fiercely. Your communication on when you plan to market and what management protocol you have followed is vital in helping promote your cattle. Special dedicated sales for Boyd/Myers calves may be scheduled and will be announced.

The basic health program that we recommend for the calves is:

- Weaned at least 60 days
- Pasteurella
- 2 rounds of viral vaccines, 1 of which is modified live
- dewormed, dehorned, knife castrated and healed.
- 2 rounds of Clostridials(Blackleg)

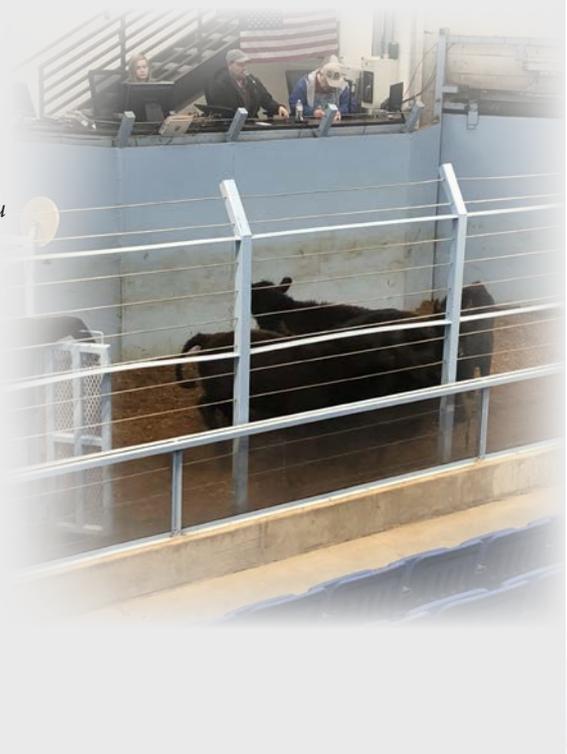

Ear tags for the program are provided by Blue Grass Stockyards at no cost to you and will be shipped from them directly to you. When your tags are shipped there will be a health form included that you will need to fill out and bring with your cattle when you deliver. To order tags call the main stockyards office at 859-255-7701 during normal business hours or email amccall@bgstockyards.com.

We encourage our bull customers to consider the option of enrolling in AngusLink, if not this year in the future. This program offers the opportunity for an added layer of value. If you have questions about the program and its requirements, please feel free to give us or Blue Grass a call or visit www.angus.org for more information.

We are excited to offer this opportunity to you, our valued customer. The partnership with Blue Grass Stockyards allows us to take our program to a higher level and hope that you will take advantage of the opportunity.

Sincerely

Charlie Boyd II Joe Myers

SITZ SHAUNA 220H

The incredible dam of Boyd Bedrock with sons selling.

- BEDROCK sold as a \$360,000 record-selling bull in the history of the Boyd Beef program in 2024 and joined the Stelloflug Cattle Company, ST Genetics and Select Sires programs.
- BEDROCK is one of the most talked about sires in the breed today, consistently transmitting exactly what his pedigree indicates - growth and performance with superior foot quality, added end-product merit and strong maternal values.
- BEDROCK'S sons are featured in this offering and offer big-time genetic merit. He currently has nearly 300 progeny weaning weights reported with an average progeny ratio of 102 and also has earned a progeny yearling ratio of 103.
- BEDROCK'S dam is one of the great donors in the entire breed - her impact in our program and throughout the breed will be huge for years to come due to her ability to consistently transmit calving ease and strong maternal values without sacrificing performance, transmitting superior foot quality, and a phenotype that all cattlemen can appreciate.
- BEDROCK'S sire is the \$175,000 ST Genetics sire, Ellingson Prolific, who is one of the breed's superiors in terms of combining growth and performance with unsurpassed foot quality.
- BEDROCK will be an impact sire for years to come.

BEDROCK

Transmitting his superb phenotype and excellent EPD figures for almost every measurable trait!

BOYD SALUTE

BOYD SALUTE

- SALUTE was selected as a \$50,000 feature in the spring of 2025.
- SALUTE is produced from the influential Boyd Abigale 6079, who is the dam of the \$80,000 Boyd Thunderstruck and she's also the maternal grandam of the \$87,500 Boyd Justification.
- SALUTE'S dam records BR 5@96, WR 5@102 and YR 5@104, along with %IMF 4@106 and is without question one of the breed's all-time great daughters of the Pathfinder sire, Connealy Thunder.
- SALUTE will transmit superior foot quality with added growth and performance and blends these traits with the strong maternal values of Saluda and the Abigale cow family.

BOYD CINCH 4031 AND BOYD JUSTIFICATION

- CINCH was selected as the lead-off Lot 1 bull of the 2025 Boyd Beef Bull Sale to join the Genex AI Stud in the Linz program.
- CINCH is sired by the \$160,000 Boyd Bellringer 2010 and produced from the same incredible dam as the \$360,000 Boyd Bedrock.
- From his calving ease to his curve-bending growth and strong end product traits, CINCH has the right EPD combination to fit into any program looking for strong maternal without sacrificing performance or the CAB ingredients.

MATERNAL MATTERS BULL SALE

BOYD JUSTIFICATION

- JUSTIFICATION sold as the \$87,500 lead-off bull of the spring 2022 Boyd Beef sale and is now featured in the Genex lineup.
- JUSTIFICATION has proven himself to be one of the breed's top double-digit CED sires who commercial cattlemen have come to trust as their choice for high maternal calving-ease genetics that still can transmit the added muscle shape to increase pounds of pay weight at weaning time.
- JUSTIFICATION excels for a multitude of traits that further lead to him being known as the cowboy's kind as he is one of the best at blending CED, BW, WW, YW, Scrotal, DOC, Claw, Angle, HS, CW, REA, \$M, and \$C!

BOYD ABIGALE 9056
The dam of Justification.

BOYD RUNWAY AND BOYD PURSUIT

- RUNWAY sold as the \$60,000 top selling Hereford bull in our 2025 bull sale and is a popular member of the Select Sires AI stud.
- He is one of the most unique Hereford herd sires in the history of the Boyd program – Heavy muscled, huge bodied and big-footed with tremendous structure!
- Backed by an outstanding Blueprint dam!

BOYD RUNWAY 4028

BOYD PURSUIT 4032

- PURSUIT sold as the \$75,000 top selling bull of the National Hereford Sale in Oklahoma City in 2025 and is now a popular member of the Genex AI stud.
- PURSUIT has an impeccable EPD profile, offering Calving Ease and low Birth with outstanding Growth values and breed leading Marbling to along with his elite CHB ranking!
- Backed by a cow family that never misses and excels with maternal strength!

SITZ SHAUNA 220H – PROVEN DAM OF HERD SIRES

SITZ SHAUNA 220H

SITZ SHAUNA 220H is earning her place among the breed's most elite and well-respected donors due to her influential ability to consistently transmit proven low birth and high maternal values with outstanding growth traits blended with a set of management and carcass EPDs that all cattlemen appreciate and ultimately offering a set of \$Indexes that are super well balanced.

220H launched herself into the elite of the breed when her son, Boyd Bedrock, sold as the \$360,000 record-selling bull of the 2024 Boyd Beef program and has become one of the most talked about young sires in the entire breed; in addition, she produced the lead-off Lot 1 bull in 2025 who sold to the Genex and Linz programs; in addition to her ability to produce breed-impacting herd sires, she's also the dam of the \$180,000 Spruce Mtn Shauna 3536, the \$150,000 Spruce Mtn Shauna 3533, the \$110,000 valued Boyd Shauna 4019 and two of the elite bred heifers of the Fall 2025 Boyd Beef Sale that included the \$55,000 one-half interest Boyd Shauna 4414 and the \$25,000 Boyd Shauna 4017.

An impact donor with breed-influencing genetic characteristics!

OVER 1.0 MILLION IN PROGENY SALES!

MATERNAL MATTERS BULL SALE

BOYD BEDROCK

BOYD BEDROCK sold as the \$360,000 record-selling bull in the spring of 2024 and has since become one of the breed's most popular AI sires, proving his ability to transmit low birth with curve-bending growth and added carcass merit with superior foot quality and outstanding \$Indexes. His sons and maternal brothers sell!

BOYD CINCH 4031

The \$30,000 lead-off Lot 1 bull in 2025; a son of Sitz Shauna 220H.

BOYD SHAUNA 4414

The \$55,000 lead-off Lot 1 bred heifer in the fall of 2025 and a daughter of Sitz Shauna 220H.

BOYD SHAUNA 4019

The \$110,000 valued daughter of Sitz Shauna 220H.

BOYD SHAUNA 4017

This highlight bred heifer in the fall of 2025 sold for \$25,000 and is a daughter of Sitz Shauna 220H.

BOYD GALAXY 5012

NOON // SATURDAY // MAYS LICK, KY MARCH 14, 2026

•SELLING ONE-HALF INTEREST - BUYER WILL BE PARTNERS WITH BOYD BEEF CATTLE AND SELECT SIRES.

- Galaxy exemplifies the goals and direction of Boyd Beef Cattle as well as any in our over 125-year history. We want to create genetics that move a population forward in all traits and keep you out of the ditches. He defines what we call progressive balance, ranking in the top 30% or better for CED, BW, WW, YW, SC, Doc, HP, FL, Claw, Angle, Teat, Udder, PAP, HS, MB, REA, \$M, \$B and \$C. In person, Galaxy sets the standard for foot quality, structural soundness, disposition, an expressive rib and muscle shape, and a captivating look.
- His greatest strength is the cow power behind him. He weaned off his productive two-year-old dam at 68% of her body weight - She is a maternal sister to the \$360,000 Boyd Bedrock and carries on the prepotent Shauna traits of calving ease, growth, teat and udder quality, docility, fertility, muscle shape and eye appeal.
- At Boyd Beef Cattle the cow comes first, and we feel Galaxy is our best attempt yet to make the next generation of females as profitable and problem free as possible, while keeping an eye on the end-product merit.
- One of the all-time great herd sires ever produced at Boyd Beef Cattle!

- This flush brother to Lot 3, leads off the first sons of the popular Boyd Bedrock to sell and are produced from the same powerful Growth Fund donor dam as the \$160,000 Lindskov's LT and Griswold Cattle herd sire, Boyd Bellringer 2010.
- Double-digit CED with curve-bending growth and superior foot quality combined in this big-time herd sire who blends two of the most powerful Boyd Beef donors in his pedigree; an elite phenotype with superior maternal power blended with growth and carcass values to cover all the necessary bases.

BOYD BEDROCK

The \$360,000 sire of Lots 2 and 3.

A BIG-TIME
 herd sire with curve-bending
 EPD credentials!

BOYD STAMINA 5022

LOT 3

- This outstanding flush brother to Lot 2 blends the \$360,000 Boyd Bedrock with the same outstanding dam as the \$160,000 Boyd Bellringer.
- Much like his flush brother who sells as Lot 2, he excels in his ability to transmit both weaning and yearling growth while also offering added marbling and strong \$Indexes; he also has the smooth, well-designed phenotype that all cattlemen are going to appreciate and with the combined cow power he offers, expect big-time performance out of his progeny and a set of females to retain as his dam has a record of BR 3@92, WR 2@113 and YR 2@104.

- **RETAINING ONE-QUARTER SEMEN INTEREST**
- A unique herd sire prospect that offers mass, density and structural correctness at a high degree while simultaneously offering an uncommon amount of marbling. As the highest \$B & \$C bull in the offering, he's sure to provide leading edge end-product merit without compromise to the fundamental cowherd traits we strive for.
- His young dam is new to our donor arsenal, ushering in a new cow family that can enrich carcass traits with phenotype and practicality. There will be many more progeny of her in future sales.
- **Recommended for Cows**

- Chart-topping growth and performance with progressive marbling and \$M and a set of growth EPDs that rank him among the top three sons of Bedrock in the breed for WW and YW traits.
- In person, you'll appreciate him for his abundance of body capacity, excellent structure and standout performance.
- His dam needs little introduction, as she's the dam of many past high-selling bulls and females.

• **Recommended for Cows**

BOYD AMBITIOUS 5020

LOT 22

- A great option for those cattlemen who either retain or who have considered retaining ownership and marketing your cattle in a value-based grid system – He excels for growth and performance while pushing the barrier for carcass values and ranks among the breed's most elite for \$B and \$C values. Individually, he offers extra rib and body shape in a smooth-designed package with a flexible structure and also possesses added frame.
- His influential dam, who is a full sister to BJ Surpass, is also the dam of the \$60,000 Boyd Separation 3015 who sold to Grimmus Cattle Company, and she's the dam of the two flush brothers, Boyd Separation 3018 and Boyd Separation 3019, who both sold to Volmer Angus in North Dakota and recently sired the Reserve Grand Champion Pen of Three Bulls at the NWSS.

• **Recommended for Heifers and Cows**

BOYD SEPARATION 3018
These two flush brothers who sold to Volmer Angus in North Dakota in 2024 recently sired the Reserve Grand Champion Pen of Three at the NWSS and are maternal brothers to Lot 22.

BOYD SEPARATION 3019
These two flush brothers who sold to Volmer Angus in North Dakota in 2024 recently sired the Reserve Grand Champion Pen of Three at the NWSS and are maternal brothers to Lot 22.

- A moderate, easy-fleshing, big-bodied future cow maker with a high \$M and double-digit calving ease for use on heifers.
- His beautiful dam is often a visitor favorite and the dam of the \$160,000 Boyd Bellringer and she sets the standard here for maternal function with her feet, udder, body type and production.
- **Recommended for Heifers and Cows**

Recommended for Cows

• Two flush brothers blending the \$600,000 Basin Jameson 1076 with the \$170,000 selection of Riverbend Ranch in the fall of 2025, Mignonne S S J139.

• This pair of brothers are impressive in person as they are big, stout, high performance bulls offering high \$C values in their EPD profiles and genomically sort themselves out with one being a powerful high performance sire to use on cows when you're looking for added pay weight at both weaning and yearling time and Lot 50 offering genomic-enhanced EPDs indicating he should work acceptable on larger-framed heifers while also transmitting super foot quality with extra marbling to hit the CAB premiums.

Recommended for Heifers and Cows

BASIN JAMESON 1076

Sons of this proven \$600,000 sire sell as Lots 48 and 49.

BOYD MIGNONNE 4431

This maternal sister to Lots 48 and 49 sold to Westwind Angus.

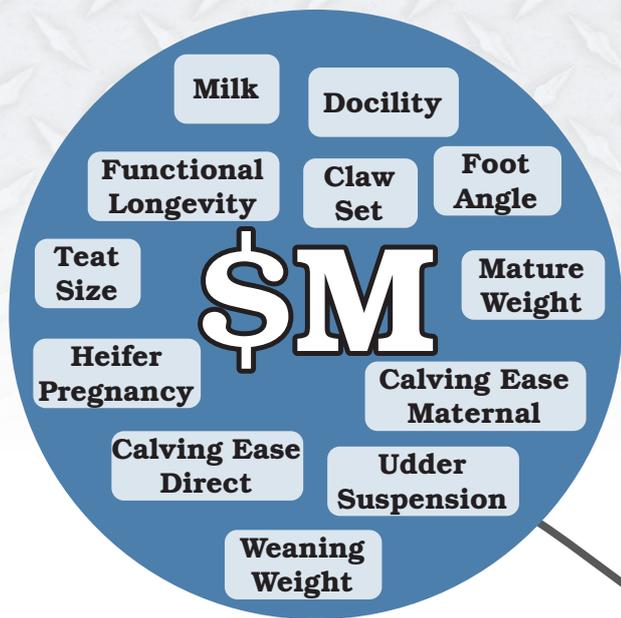

EXAR MIGNONNE 4776

A maternal sister to Lots 48 and 49 in the Katie Colin program.

MATERNAL MATTERS BULL SALE

BREED AVERAGES NON-PARENT BULLS

CED +6 BEPD +1.2 WEPD +68 YEPD +120 DOC +19 CLAW +.48 ANGLE +.47 HP +12 MILK +27 CW +48 MARB +.78 RE +.71 \$M +66 \$B +155 \$C +268

If you retain your own replacements, \$M is a crucial figure to consider. It serves as a comprehensive metric for evaluating cowherd longevity, efficiency, and maternal strength.

A higher \$M means a bull's daughters are more likely to:

- Breed up on time
 - Raise a good calf each year
 - Stay sound and functional longer
 - Cost less to maintain (reduced cow size, fewer issues)
- Over time, this translates to more profitable, lower-maintenance cows in your herd.

If you retain ownership, sell calves on the grid, or market reputation feeder cattle, \$B is a powerful terminal tool. It summarizes how your calves perform where it really counts — on the scale and on the rail.

A higher \$B means that, on average, a bull's calves will:

- Gain faster in the feedlot
- Eat less per pound of gain
- Grade better (more Choice and Prime)
- Yield more usable pounds of beef

That means more post-weaning value per calf — particularly if you retain ownership to the rail.

\$C is the most balanced, big-picture index Angus provides. Use it to find bulls that deliver maternal dependability and terminal value — especially if your operation spans multiple segments of the supply chain.

A high \$C bull is likely to sire:

- Daughters that breed early, raise good calves, and last longer
- Steers that gain well, convert feed, and hang valuable carcasses

In other words, \$C helps identify bulls that do it all — and help your operation make money in both the pasture and feedyard.

- An excellent herd sire in this son of the very popular and heavily used Select Sires AI Sire, EZAR Step Up 9178, produced from the high maternal proven dam of the ST Genetics sire, Myers Fair-N-Square M39.
- This high-performance herd sire lands in the top 30% of the breed, or higher, for many economically relevant traits and excels for Teat and Udder EPD'S as well as for Foot Quality, and also ranks high in the breed for Hair Shedding.
- He will be a favorite among cattlemen who appreciate a bull with herd sire credentials in his EPDs and a phenotype that is smooth and well designed.
- **Recommended for Heifers and Cows**

MYERS MISS BEAUTY M136

This dam of Myers Fair-N-Square M39 is also the dam of Lots 53 and 54.

EZAR STEP UP 9178

The highly-proven and popular sire of Lot 53.

MYERS ANGUS FARM

- This son of the \$500,000 Connealy Craftsman is a big stout, high performance individual with top-notch foot quality and excellent carcass figures. Plus, he is phenotypically a smooth-made, big-ribbed, deep-bodied bull with a pedigree and a look to transmit all the right ingredients to make a top-notch set of replacement females.
- His dam by Plus One is a direct daughter of one of the most influential Myers Angus donors, Myers Miss Blackcap M34.
- **Recommended for Cows**

COMMITTED TO OUR CUSTOMERS' SUCCESS!

COMMITMENT

Over 100 years of supplying our customers with superior seedstock.

PROGRAMS

The Boyd Beef Cattle and Myers Angus Farm programs are family owned and operated and backed by multiple generations of cattlemen.

FOCUS

We focus each and every breeding season on selecting genetics that will impact the bottom line of our valued customers.

CUSTOMER SERVICE

Our annual Boyd Beef Cattle and Myers Angus Farm feeder calf sale continues to grow each year. Calves sired by bulls backed by our genetics continue to top the market - all of our valued customers are invited to participate in this unique feeder calf program.

HEREFORD GENETICS

HEREFORD HETEROSIS ON ANGUS COWS PROVIDES ADDED POUNDS, MATERNAL STRENGTH AND FEED EFFICIENCY!

The Hereford bulls selling in this offering from Lots 71 through 92 represent the kind of bulls that will make big-time breeder bulls in purebred programs, and commercial cattlemen will appreciate these Hereford genetics in their own programs due to the heterosis advantage they provide.

• HOMOZYGOUS POLLED

- Homozygous polled Harvester son with a short-marked, stout-made build and extra muscle expression throughout. He offers a powerful maternal profile while maintaining an attractive, easy-fleshing design.
- Out of a beautifully-uddered 4030 daughter, he ranks in the top 5% of the breed for CE, SCF, MM and both maternal indexes, while landing in the top 10% for CW and REA — a complete package of calving ease, cow power and added carcass merit.
- **Recommended for Heifers and Cows**

MATERNAL MATTERS BULL SALE

Visit HerefordAdvantage.com to get started today!

An industry-changing program from the American Hereford Association and IMI Global to verify and add value to Hereford-influenced feeder cattle with superior genetics, health and management.

REQUIREMENTS

- **Source & Age verification**
- **Genetic merit**
 - Minimum of 50% Hereford genetics
 - Bull battery ranking in top 50% of breed for \$CHB index (bull battery average)
 - Bull ownership transferred (all bulls)
- **Vaccination program – two rounds of vaccinations pre-weaning (minimum)**
 - Recommended *minimum* protocol:

- **BQA certification**

American Hereford Association | (816) 842-3757 | 11500 NW Ambassador Drive, Suite 410, Kansas City, MO 64153 | HerefordAdvantage.com

BENEFITS

- **Genetic improvement tool**
 - **Sire EPD and profit index summary**
- **Added market exposure**
 - **Free listing at HerefordMarketplace.com**
- **Enrollment cost - \$3.00/hd. (verification + eID tag)**

Look for this logo in Hereford bull sale catalogs to identify sires meeting the genetic requirements for the Hereford Advantage program.

WHAT IS A GOOD BULL WORTH IN 2026?

By Mark Z. Johnson, Oklahoma State Extension Specialist for Livestock Evaluation

As a student at Oklahoma State University in the mid-1980s, I was taught that a good bull is worth the value of five calves he sires.

It is a good answer and a good rule of thumb to follow, but the problem is it doesn't exactly narrow down the range. As always, we need define "a good bull," check current market reports, answer some questions about how we intend to market future calf crops and do some "cowboy math" to arrive at a more precise answer.

What is Considered a "Good Bull?"

For this discussion, qualifications to meet "good bull" status are:

1. A bull that sells with a registration paper, which includes pedigree information and a complete set of genetic values (including EPDs and bio-economic indices) to be considered in the selection process.

2. A bull that has passed a breeding soundness exam (BSE) and sells with a breeding soundness warranty (terms will vary).
3. A bull that will add value to calves sired because he fits your breeding objectives, production system and marketing plans.

When Are We Marketing Our Calves? What is Their Value?

Using the end of year market prices for 2025 from Oklahoma State University livestock economist Derrell Peel's article in the Dec. 29, 2025, issue of the Cow-Calf Corner newsletter:

- 500 lb. weaned steer calves were worth about \$4.80/lb. for a value of approximately \$2,400 per head. Therefore, if my future marketing plan is to sell weaned steers, $\$2,400 \times 5 = \$12,000$ is the answer.
- 800 lb. yearling steers were worth about \$3.50/lb. for a value of \$2,800 per head. Therefore, if my future marketing plan is to sell yearling steers, $\$2,800 \times 5 = \$14,000$ is the answer.
- 1,500 lb. finished beef steers were worth \$2.29/lb. live for a value of \$3,435 each. Therefore, if my future marketing plan is to retain ownership through finishing and sell fed cattle on a live weight basis, $\$3,435 \times 5 = \$17,175$ is the answer.

So, in the current market, a good bull is worth somewhere between \$12,000 to \$17,175 to a commercial cow-calf operation.

Where exactly in that range depends on your marketing plan and the market conditions at that time. There's not an exact number because there are many variables in play.

One key point illustrated here is that the longer you own the offspring before marketing, the greater the value of the bull to your operation.

Retained ownership gives you more time and opportunity to capture the value of your investment in genetics.

It is noteworthy that we haven't considered the value added to replacement females a bull will sire. Bulls used to sire the next generation of cows have an even greater long-term economic impact on the profit potential of your operation and should be valued accordingly.

I encourage cow-calf operations to consider their breeding goals, production system and marketing plan. Doing so should dictate where to apply selection pressure.

Genetic values pay when you purchase bulls capable of improving genetic potential for the specific traits that will translate to added value at your intended marketing endpoint.
