Not only will the female be great mamma cows, but the bulls produced are sure to add tons of growth.

- When you mate the highly-coveted Nobility sire to the cornerstone of the Asti cow family here at Marda Farms, it's bound to be special. Growth is 523's strong suit—top 5% WW, YW, and a whopping 1% CW! In addition, 523 has a killer good set of dollar figures at 1% \$F, 3% \$B and \$C, and the top 5% \$W. With a pedigree you'll fall in love with and a fool-proof EPD profile, you can't go wrong here.

- When cattle come like this, I can't help but get excited. This young herd sire is the real deal. It's no wonder, because he's out of our PEAK Susanna cow. This young Susanna has had two calves hit the market, bringing \$35,000 and \$11,000. Out of the new, and ever popular 44 Faithful, he's a recipe for a stud. 529 is a calving ease option without sacrificing growth. In fact, he's in the top 5% WW, Docility, MARB, \$AxH, \$AxJ, \$F, \$B, \$G, and \$C. He's also in the top 10% Yearling Weight, MH and MW.

- These Great Lakes calves continue to excite us to this day—they are big, bold, and look like an Angus bull should. Not to mention, 5129 is out of Baldridge Isabel G286, who is simply a beast and just recently raised one of the highlights in our fall female sale. 5129 is in the top 5% WW, YW, CEM, CW, \$M, \$W, and \$C. He also boasts a +1.08 Marb and a +1.21 RE. Big-time genetics here!

- One of the very first Great Lakes sons to hit the market! A maternal sib to Marda Blacksmith, who was the top-selling bull at the 2017 National Angus Bull Sale commanding \$24,000. 486 excels in the Heifer Preg EPD, meaning he can get the job done for you.

- Calving ease deluxe trio! A set of powerful, Resonate sons out of our Bieber Susie donor, who has produced bulls selling to many states and performing well for their new owners; as for the female, they're great, easy-fleshing, great uddered mamma cows. These bulls can go on to sire some great feeder cattle, top-notch bulls, or some awesome replacements. The hardest part might be choosing which one!

Sired by the AI bull Little Cedar Equator, and out of one of the oldest daughters of our senior herd sire, Waukaru Rawhide. This balanced-trait sire prospect will add some pay weight to a set of calves while keeping the maternal traits in check. 428 has ten EPDs in the top 25% of the Shorthorn breed, making him a very balanced genotype in a very attractive package.
