Welcome to the Spring Cove Ranch Bull & Female Sale

We are proud to present to you our culmination of 107 years of progressive Angus cattle breeding. Each breeding decision made for 4 generations has been made with the intention of improvement. Improvement of fertility, improvement of structure, improvement of udder quality, improvement of end-product value and improvement of performance has always been our goal. The convenience traits of the Angus breed that keep us all in business like calving ease, fertility, mothering ability, range-ability and moderate mature cow size are paramount in our breeding decisions. We manage our herd much like commercial cattle ranchers do in our region, our cows run under western range conditions and have to work for a living. We believe cattle need to fit the environment they run in and ours is arid, rocky making form and structure imperative. *The Angus cow has provided a living for this family for 107 years and she continues to amaze us with her tenacity and endurance. Maternal instincts and calves that get up and go are imperative for survival in our western range outfit.*

We proudly produce Angus bulls for commercial ranchers who need functional genetics that excel in carcass merit, calving-ease and maternal values. It's imperative that the genetics we introduce to our herd, and to your herd, meet strict criteria for phenotype and possess the genetics to fit our western environment.

The bulls and heifers in this sale, along with their dams, were raised "outside" and under the same western range conditions that many of you deal with. The bulls are developed by Josh & Art on a roughage diet with a minimum amount of grain. We strive for maximum fertility and longevity, not maximum performance. This allows adequate growth yet keeps the bulls sound and functional and able to work and last in rough environments. We use all available tools to make our breeding decisions. DNA, performance, visual trait appraisal and EPD's but in the end **our goal is to make cows that keep us all in business.** We avoid extremes and look for balance.

The Spring Cove Ranch Genetics sale includes bulls from Randy Lancaster of Triple L Angus, and from our son Josh and his family, Denise, Wyatt, Will and Harvey Mavencamp, along with our daughter Sarah and her family, Chad, Helen, Isabelle and Seth Helmick and our nephew Dale Butler. Every bull is carefully selected for the sale by Art and Josh and developed under their care & management.

Please give us a call or drop by the ranch. We'd love to talk cows with you.

A NOTE FROM THE SALE MANAGER

Dear Northwest Cattlemen and Cattlewomen,

On behalf of Spring Cove Ranch, I would like to welcome you to their Annual Bull Sale in Bliss, ID. I am really excited about this set of bulls, especially the large set of Spring Cove Grant 200K sons that sell in a large volume. The \$400,000 industry sensation that sold two years ago to Lindskov's LT Ranch and Montana Ranch is creating a stir with his first set of market age yearlings. The industry acceptance of his daughters is exceptional as we have sold an \$80,000 female at the Fall Female Connection Sale and customers that have used Grant in their A.I. and E.T. programs have reaped the benefits as well. In January in Denver, CO four (4) daughters at the Foundation Angus Sale at the NWSS averaged \$42,125.

But the true value is what he will offer to the commercial industry through the replacement females and sought-after feeder cattle that his sons will produce out in the Great Basin and beyond. Calving ease, plenty of early performance with top 25% growth, along with retail value with top 15% Marbling and 10% \$C. The real value might be in the moderate and efficient phenotype he will express in the females with a top 1% \$ Maternal and top 4% Functional Longevity from a Pathfinder dam.

But he isn't the only elite sire with larger groups in this sale, as the \$140,000 Pine View Warbucks L114 will also have a big chunk of sons and they too are geared for all facets of the industry.

As far as the rest of the offering, if you ever were to walk through the herd bull pen at Spring Cove and Triple L, you are in for a treat. I have not seen that good of group of mature herd bulls in one place for quite some time. The bulls that they are selling semen on have to work for a living too and it shows!

The families at Spring Cove and Triple L are salt of the earth people that do things the right way with honesty and integrity. I have had the opportunity to work with them for many years and the disciplined breeding practices they have relied on for over 100 years are tried, true and alive today. If you have any questions about the offering, please do not hesitate to reach out.

Matt Macfarlane

GRANT sold in our 2024 sale for \$400,000 to Montana Ranch, Big Fork, MT and Lindskov's LT Ranch, Isabel, SD. He has been an industry sensation capturing the attention of keen commercial and registered breeders across the US, Canada, Australia and New Zealand. He's the kind we've been striving to build for over a century. We used him AI at Spring Cove Ranch and Triple L Angus and he saw pasture use in both Montana and in South Dakota. 85 sons of Grant (Lot 1-85) and 3 Grant daughters (Herd Unit A) sell in this offering.

GRANT stems from a historic Spring Cove cow family who can be traced to an ancestor born at SCR in 1928. His productive dam, Spring Cove Carol 811, earned a progeny WR of 3-110 and YR 3-106 in our harsh, desert environment. Grant's grand dam, Spring Cove Carol 655 is working in the T/D Angus herd in Nebraska and ½ interest in his 10 year old great grand dam, Spring Cove Carol 418 sold to Curtiss Cattle Co for \$46,000. Full sisters to GRANT have been purchased by progressive breeders from across the nation. Pine View Angus in Iowa & Reverse Rocking R Ranch in NM, Jones Ranch in Texas and RC Cattle in Kentucky all own sisters to Grant.

GRANT is creating a stir with his first set of market age yearlings. The industry acceptance of his daughters is exceptional. We sold an \$80,000 female at the SCR Fall Female Connection Sale and customers that have used Grant in their A.I. and E.T. programs have reaped the benefits as well. In January 2026, in Denver, CO four (4) daughters at the Foundation Angus Sale at the NWSS averaged \$42,125.

But the true value is what he will offer to the commercial industry through the replacement females and sought-after feeder cattle that his sons will produce out in the Great Basin and beyond. Calving ease, plenty of early performance with top 25% growth, along with retail value with top 15% Marbling and 10% \$C. The real value might be in the moderate and efficient phenotype he will express in the females with a top 1% \$ Maternal and top 4% Functional Longevity.

GRANT carries on the muscle, correctness and style of his now deceased sire "FEAT" with added marbling and end carcass value. He not only checks every box, he is a GENERATIONAL sire for the traits impactful for profitability in today's beef business. Whether it's siring the productive and efficient kind of cows that keep ranchers in business or the steers that gain and grade, there are very few bulls which are genuinely OPTIMUM and BALANCED for each segment of the beef industry. **GRANT 200K is one.**

CALVING EASE ★★★★★

Spring Cove Arthur 5N with his dam, Spring Cove Rachel 305, in the summer of 2025 at SCR.

- ARTHUR was named after Grandfather Arthur Harrison Butler (b.1888 d.1955), the founder and homesteader of Spring Cove Ranch and his grandson and namesake Arthur William Butler who continues to carry on this Angus legacy 107 years later.
- ARTHUR will be the first son of the \$400,000, Spring Cove GRANT 200K to sell at SCR.
- ARTHUR has been a pasture standout since birth and is impressive both phenotypically and genetically. He has a masculine look, real muscle expression, depth of body and a thick lower quarter. He's a 4 star calving ease bull with an EPD profile that is ideal for the times ranking him in the top 10% or better for WW, YW, SC, HP, FL, CW, \$B & \$C with MARB & RE in the top 25% and he Targets the Brand. His negative PAP makes him a consideration for those who run at high elevation. He was the top bull in the spring 2025 calf crop at weaning, posting a 114 WR amongst 105 contemporaries.
- ARTHUR's 3-yr-old dam, Spring Cove Rachel 305 is a daughter of Sitz Essential 731J and she has the ideal Angus look and character. Her pedigree traces to the SCR Carol cow family and to a cow born at SCR in 1928. Her second natural calf, a heifer by our new herd sire, Tehama Vindicator M302, was born 1/16/26 and is already a standout. Her 6-yr-old dam and her 9-yr-old grand dam are still in production at SCR
- We're banking on ARTHUR to lead us into the future!
- Spring Cove Arthur 5N has been successfully collected one time and sells with 50 units of semen. Spring Cove Ranch is selling 100% interest and possession and retaining 500 units annually for in herd use.

Arthur Harrison Butler with his herd sire Blackbird Bell of Whiteway at SCR in 1950.

Arthur W. Butler in the calving pasture at Spring Cove Ranch in the 1990's.

YEARLING BULLS

Lot 2 - Spring Cove Grant N26

- This outstanding GRANT son is long, stout with a good, level, wide body. His dam, by Exclusive, is creating establishing a great production record and she traces back to the original Spring Cove Kindness 420 who was out of SCR Miss Independence and VDAR New Trend 315. This bull ranks in the top 4% for \$M and he Targets the Brand.

- 4 star calving ease bull who Targets the Brand. He's a gentle, high-quality calf from a promising 2-yr-old who traces to a Hoover Dam daughter that Dale Butler purchased from Ron Torrell many years ago. His PAP EPD is negative for consideration by those who run at high elevation and his WW, YW, HP, \$M and \$C are in the top 10% or better of the breed.

Josh found **WARBUCK'S** in John Wessel's 2024 Pine View Angus Sale in Colesburg, Iowa.

We purchased Warbucks for \$140,000 with partners Triple L Angus, Twin Falls, ID and Dixie Valley Ranch, Montague, CA.

His balanced, square made, level-topped conformation, excellent foot quality and heel depth impressed us and his first progeny carry on those attributes.

WARBUCK'S outcross pedigree and no holes EPD profile, offer mating flexibility to many pedigrees.

WARBUCK'S is a sire made for the times. He will add marbling and rib eye and carcass weight with outstanding weaning and yearling growth.

WARBUCK'S ranks in the top 15% or better of the breed for WW, YW, SC, CW, MARB, RE, \$F, \$G, \$B and \$C.

We are proud to bring some of the first **WARBUCK'S** sons to the marketplace.

- Study the elite number profile on this outstanding son of WARBUCKS and Spring Cove Carol 418. He is 418's last natural calf and her grand finale. She was 12 years old when she weaned him at over 800#. He ranks in the top 10% or better for WW, YW, SC, RE, \$M and \$C and the top 20% or better for CW and MARB. He's in the top 3% of the bred for \$M and the top 4% for \$C. All these great figures are a compliment to his great structure, breed character, feet and muscle expression. He Targets the Brand, gets 4 stars in Art's calving ease ranking, will add marbling and rib to the end product value of your calf crop and leave behind some fabulous daughters. Note his low PAP EPD. Full siblings sell as lots 87 & 88. Maternal siblings sell as lots 8, 9, 137,138, 139, 140, 158, 194, 195, 213 & 214

- This wide, deep, muscular WARBUCKS son ranks in the top 1% of the breed for MARB EPD and \$C index--the highest bull in this offering for both and posts a top 4% \$M index for outstanding maternal strength. His dam traces to the legendary Mill Brae Obj Blackcap 9244, one of Mill Brae Ranch's premier foundation cows, and maternal sister, Sterling Blackcap 504, sold for \$30,000 in the 2025 Spring Cove Ranch Female Connection Sale to Poss Angus (NE). He's a 4 star calving ease bull, he targets premium branded programs by boosting marbling and ribeye while siring high quality replacement heifers from this elite Blackcap lineage.

- Natural calf out of Art's favorite, 11-yr-old "702" daughter, Spring Cove Laura 517. Laura 517 is a Pathfinder donor who packs a punch and once again weaned the 3rd heaviest bull calf in this SCR calf crop at over 800#. This WARBUCKS bull Targets the Brand, reads well on paper and will make changes in your pasture. He'll add marbling, rib and make outstanding, fertile females. Note his low PAP EPD. Maternal brothers have topped many of our past sales and at least 3 of them are working at Morgan Sandhills Ranch, NE and at Flat Top Cattle Co, Aberdeen, Idaho.

- Maternal brothers sell as lots 36, 145, 179, 180, 181, 190, 211 & 212

CALVING EASE ★★★★★

American Angus Association \$Value Indexes

Dollar value indexes, or \$Values, are a tool used to select for several traits at once based on a specific breeding objective. An economic index approach takes into account genetic and economic values as well as the relationships between traits to select for profit.

ANGUS
THE BUSINESS BREED

Maternal Weaned Calf Value (\$M), an index expressed in dollars per head, predicts profitability differences in progeny due to genetics from conception to weaning. Increased selection pressure on \$M aims to decrease overall mature cow size and improve foot structure and fertility while maintaining weaning weights consistent with today's production.

Weaned Calf Value (\$W), an index expressed in dollars per head, provides the expected difference in future progeny preweaning performance from birth to weaning. Over time, increased selection pressure on \$W will increase weaning and maternal milk traits while also continuing to increase mature cow size.

Feedlot Value (\$F), an index expressed in dollars per head, is the expected average difference in future progeny performance for postweaning merit compared to progeny of other sires. The underlying objective assumes commercial producers will retain ownership of cattle through the feedlot phase and sell fed cattle on a carcass weight basis with no considerations of premiums or discounts for quality and yield grade.

Grid Value (\$G), an index expressed in dollars per carcass, is the expected average difference in future progeny performance for carcass grid merit, including quality and yield grade attributes, compared to progeny of other sires.

Beef Value (\$B), an index expressed in dollars per carcass, facilitates simultaneous multi-trait genetic selection for feedlot and carcass merit. \$B represents the expected average differences in the progeny postweaning performance and carcass value compared to progeny of other sires. This index assumes commercial producers wean all male and female progeny, retain ownership of these animals through the feedlot phase and market these animals on a quality-based carcass grid.

Combined Value (\$C), an index expressed in dollars per head, includes all traits that make up both \$M and \$B with the objective that commercial producers will replace 20% of their breeding females per year with replacement heifers retained within their own herd. The remaining cull heifer and steer progeny are then assumed to be sent to the feedlot where the producers retain ownership of those cattle and eventually sell them on a quality-based carcass merit grid.

- **FEAT** (now deceased) was our choice of the 2021 Sitz Angus Ranch spring bull sale and we sold ½ interest to Musgrave Angus in Illinois. His progeny have been the highlights for each herd for several years and his son, the \$400,000 son Spring Cove Grant 200K, is the highest selling bull in the Spring Cove Ranch 107 year history.
- **FEAT** passes on his fault free phenotype and gentle disposition to his calves. He exhibited muscling, base width and depth in a flawless and we mean flawless skeletal design. His foot and leg structure was ideal. Our FEAT daughters are pasture standouts. Feminine, deep-bodied and good uddered. **28 Feat sons and 8 FEAT grand sons sell in this offering.** FEAT is owned by Spring Cove Ranch, Triple L Angus and Musgrave Angus.

- This wide-pinned stout, thick TARGET calf Targets the Brand as he was intended to do! He's a 5 star calving ease bull with double digit CED and a negative BW EPD. His MARB EPD, and his \$M & \$C indexes are in the top 25% of the breed. Randy purchased his dam in our 2023 female sale and she traces to same Laura cow family who produced the Grimmus sire, Spring Cove Legacy.

MAKE YOUR CATTLE STAND OUT

You've made a significant investment in your genetics, but does the market recognize that? Stand out by differentiating our cattle with AngusLinkSM programs: the Genetic Merit ScorecardSM and AngusVerifiedSM.

The Genetic Merit Scorecard gives buyers the confidence they need to pay more for your quality calves.

AngusVerified validates your calves are sired by registered Angus bulls and make your cattle stand apart from other black hides on sale day.

Users of AngusLink programs earn **\$13-15/CWT PREMIUMS** on average. Give us a call, and learn how to claim your competitive edge with AngusLink value-added programs.

ANGUSLINK.COM | 816-383-5100

The Genetic Merit Scorecard and AngusVerified are administered by IMI Global.

ESSENTIAL (now deceased) was our choice in the 2022 Sitz Angus Ranch spring bull sale. Josh, Wyatt and Will took a cross country road trip in January of 2022 to find a herd bull. They traveled 4500 miles and found the BULL just 300 miles from home in Dillion, Montana. Josh, Denise and Sarah fought a bidding war with AI studs and purchased the high selling **ESSENTIAL** for \$100, 000 and he has been used heavily at Spring Cove Ranch and at Triple L Angus. We were looking for a high marbling, calving ease bull that had extra shape, muscle, style and a low PAP EPD. Essential met those requirements and immediately put up excellent quality semen at World West Sires.

He bred our fall herd in the pasture and we leased him to Select Sires. His progeny are exactly what we intended them to be. Low birth weight cattle, with excellent weaning and yearling EPDs with outstanding marbling and low PAP EPDs. Essential has been used extensively as turnkey sire in commercial heifer AI projects and as this catalog goes to print, he has 31 daughters in 8 herds posting an average weaning ratio on their calves of 101.

ESSENTIAL TARGETS the BRAND and is owned by Spring Cove Ranch, Triple L Angus and Sitz Angus.

16 Essential sons and one daughter (Lot 252) sell in this offering.

FALL YEARLING BULLS

Lot 175 - Spring Cove Feat 158M

• 4 star calving ease, herd bull prospect. Phenotypically flawless. He's been a pasture favorite since birth. He stems from the Liza cow family that produced "Reno". This bull's dam was the last natural calf of our super cow Spring Cove Liza 721 who produced 12 calves at 106 WR and was still in production as a 14-year-old. A maternal sibling is working in the Rafter K herd in Tremonton, Utah. He TARGETS the BRAND.

CALVING EASE ★★★★★

Lot 176 - Spring Cove Feat 153M

• Another calving ease, phenotypic standout, Feat son to consider as herd bull prospect. His beautiful dam, Liza 412, was grandson Wyatt's choice of the 2014 SCR calf crop and is still in production on the range at SCR at age 12. She comes from the same productive Liza cow family as Lot 175 and super cow Liza 721 is this bull's great granddam. His dam has produced several sale toppers and herd bulls. Maternal brothers have been purchased by Metzger Angus, ND, Pat Hendren, ID, Darcy Helmick, ID, Edwards Ranch, ID, Kyle Mathews, ID, Ben Gnesa, ID, Brad Eyre, UT, O'Sullivan Ranch, OR and J&M Livestock, NV. This bull will make some awesome cows. His negative PAP EPD makes him a consideration for use at high elevation.

FALL YEARLING BULLS

Lot 177 - Spring Cove Feat 159M

- Long, stylish, 3 Star calving ease bull for use on larger heifers. Note his negative PAP EPD in consideration for use at high elevations. Dam is a maternal sister to the dam of Lot 177. Longevity and cow power in these Feat x Liza's.
