Welcome

We would like to welcome everyone to our seventh annual Cache Valley Cannon Angus Bull Sale.

We are building upon four generations of family legacy as we take a systematic approach with sound judgement, balanced eye appeal, and functional cattle that will thrive in our rigid conditions.

We select a variety of sires every year to introduce to our herd based on several key factors as we look for multi-trait excellence. Our sires excel on the measurable EPD traits, are sound, fertile and efficient. Multi-trait selection that also takes into account important economic factors is an important part of sire selection for our customers and ourselves. We pride ourselves on providing bulls for our customers now and in the future. We do not chase the latest fads; rather we believe in getting back to the basics of good footed, hearty cows that produce soggy calves year after year.

Our females are selected and bred for good maternal traits including deep ribbed, phenotype, udder quality, good footed, and docility. We plan to build a model Angus cow backed with performance and maternal traits so we can sell bulls that meet the commercial man's needs. As always, we believe the Angus cow to be the most effective in the business, and the breed will continue to dominate the genetics of the commercial cow herd.

Our auction bulls have been ultra-sounded, fertility tested, and hand selected for their structural soundness and foot quality. We have collected genomic DNA on our bulls and replacement heifers. The bulls will be on-site at the ranch for viewing.

Please join us Thursday morning, March 5, 2026, to walk through the bulls prior to lunch at 11:00 am and the sale beginning at 12:00 pm.

Thank you for your interest.

John, Olivia, Tristan, and Jojo Cannon

All of the Bulls will sell with complete Angus GS DNA data and evaluation, complete carcass ultrasound data and evaluation, along with complete yearling performance and reproductive data and evaluation. Please contact John Cannon for the results and they will be available at CCI.Live and on sale day.

ANGUS. ONLY ANGUS.

The first DNA profile created specifically for Angus cattle.

Angus GS™ is the new standard in genetic testing for Angus cattle. Created by Angus Genetics, the profile is purely Angus DNA, so it will have better predictability and deliver more power and accuracy than any previous generation genomic enhanced EPD, and at a much greater value. Visit angus.org/agi for the test that only Angus Genetics could create.

FOR ANGUS. BY ANGUS.

ANGUS GS
Powered by Neogen GenScan

ABOVE AVERAGE GOALS REQUIRE TARGETED BULLS

Aim High

The Targeting the Brand™ logo highlights registered Angus bulls with greater genetic potential to produce calves that meet the most challenging specifications of the Certified Angus Beef® brand.

Only 1 in 4 non-parent Angus bulls qualify.

Minimum Genetic Requirements

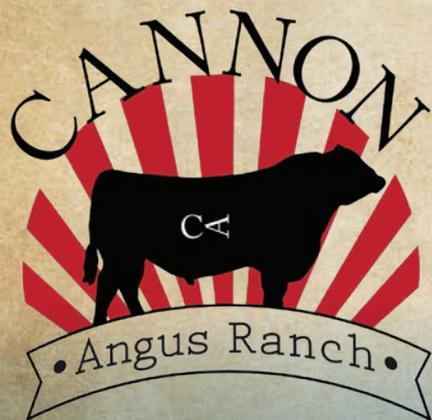

Marbling EPD (Marb)	+0.65
Dollar Grid Carcass Index (\$G)	+55.0
