— You could make an argument for numerous bulls in this year's offering to be Lot #1, but in our opinion, this is one that rises above hitting on all levels — phenotype, performance, and pedigree. 524's mother "Faith" is in a class of her own at our place as a brood cow and has countless high sellers including her first calf "Justify" that sold to Hilger Bros Charolais for \$20,000. Whether the goal is high selling bulls, sale topping calves, or a pen of top end replacement heifers this guy checks all the boxes.

— I feel like it's hard to get too excited about a composite bull, but when they are this good I start dancing a little! I wish we had 20 more like "510" to offer our commercial cattleman this year! In our opinion he is the perfect type of commercial man's bull. Stout, square, long, with plenty of performance and built in calving ease. Out of our "855" Red Angus donor means that I also would not be afraid to keep all the daughters! Can go on heifer or cows.

— The first ever Game Changer in the offering, and boy he is a good one. Kresak Cattle Company bought Game Changer for \$20,000 in 2024 and since then we have both used him heavily and he is doing exactly what we hoped he would do—moderate BW's and added shape and density. 518 is out of a first calf Redemption heifer and has grey numbers being in the top 25% of the breed for CE, BW, WW, MK, and SC. Be the first to get on the Game Changer train!

## A WORD ABOUT OUR COOPERATORS

As all of you will notice on some of the bulls not only will you see Double C Ranch's "SAC" prefix, but you will notice the "KCC", "R&K", and "HBC" prefixes as well. These are cooperators that we work with, but more importantly friends we have been able to grow with in the Charolais business. These operations have bought elite high-selling herd bulls and females from our program and have been using our genetics to grow their purebred operations. The bulls in partnership from these programs are put through the same rigorous requirements as our own. We hope that all our customers will welcome them and their genetics with open arms, because they are top notch and we couldn't be more thrilled to partner with them!

Thank you Krezak Cattle Company, R&K Charolais, and Hilger Bros Charolais.  
We are humbled and excited to have you as part of the Double C Team and to continue the growth.
