Remembering **DON COX**

In January 2026, the Red Brangus breed lost more than a leader — we lost a man who helped define who we are.

For over four decades, Don Cox believed in the potential of Red Brangus cattle with a level of conviction that was impossible to ignore. But what made Don truly influential wasn't just his eye for genetics or his ability to promote a program. It was his belief in people. He saw possibility where others saw obstacles, and he never hesitated to invest his time, knowledge, and encouragement in someone willing to learn.

From his ranch near Weimar, Texas, Don built Cox Excalibur Brangus into one of the most recognized Red Brangus programs in the world. Rooted in family land and strengthened by selection, his program stood for consistency and functionality.

As one of the founding members of the International Red Brangus Breeders Association (IRBBA), he helped shape the global identity of Red Brangus cattle. He later served for many years in leadership roles within both the IRBBA and the International Brangus Breeders Association (IBBA), always pushing for unity and opportunity for breeders at every level.

Don cared about the future. He believed the breed would only be as strong as the next generation leading it. He mentored young breeders, encouraged new leaders, and supported youth through cattle donations and opportunities to grow within agriculture.

He reached far beyond Texas. Don helped introduce Red Brangus genetics into Mexico and supported expansion throughout South America. He understood that relationships were what built lasting influence. He carried the flag for Red Brangus with pride, integrity, and purpose.

His legacy lives in the cattle, in the associations, and in the breeders he believed in. Don Cox showed us what was possible. It's now, as Red Brangus breeders, our responsibility to continue that vision by moving the breed forward with the same heart and determination

Welcome

FRIENDS & BRANGUS FAMILY,

As we get into our fourth annual Red Alliance Sale, we are very excited to display our 2026 sale cattle! We look forward to sharing our hard work and integrity that we do as breeders year in and year out. As 2026 rolls in, the cattle

market still points to strong prices! Keep the strong cattle market in mind as you browse the catalog. We hope you find something that fits into your program from building a foundation to adding refreshing genetics to your herd!

The Red Alliance Partners, Villa Ranch, Sendero Brangus, and Tajo Ranch vision is to be innovative breeders to create a path to success! We came together to be able to offer the best individuals and genetics from our programs and the breed. This year we have two breeders joining us for the sale: Circle Lee Farms and Bar C Bar Red Brangus, who both have had success in the breed!

CattleFax shows that due to the smaller herd size in America, this points to strong prices in the cow/calf operations and seed-stock breeders as quality steers prices are strong as well. We are in the midst of cowherd expansion! Prices are strong and the market outlook is positive. If you're interested in getting into the cattle business, get it while the getting is good! We need to take advantage of the market and build the cowherds. Our goal in Red Alliance is to continue to grow the industry by fulfilling the market demands by offering genetics, prospects, and donors to expand a herd! The Red Brangus can show how impactful it can be in this market!

We look forward to seeing everyone at the sale, March 21, 2026 at Villa Ranch in Hempstead, TX. We hope you enjoy the cattle and hospitality. The Red Alliance partners are grateful for your continued support and shared passion for the Brangus breed. If you have any questions, don't hesitate to call Garret Thomas, April Villarreal, or any of the partners!

See you soon!

The Red Alliance

SALE INFORMATION

TAJO RANCH

Tajo Ranch opened the gate to the donor pen to lead off the 2026 Red Alliance offering. This year you'll have the option to aspirate your choice of these 3 young females. Throughout the offering you will see the influence of Tajo Ms Kena 307J4. She was named the 2023 IBBA Red Brangus Cow/Pair of the Year. This prolific female has been mated several different ways and she simply never misses. 424M was named Grand Champion at the 2025 Brangus Futurity while remaining undefeated within her summer division. As one of the first Artillero daughters to show, she has quickly help establish him as a breeding option for so many programs. Tajo Ms Lola 204L was your Grand Champion Female at the 2024 NJBS and claimed the junior heifer calf division at the 2024 International show in Houston. These stacked pedigree read like a history book for the Red Brangus Breed, this is one of the can't miss opportunities in the Red Brangus breed. Selling the right to aspirate your choice of these 3 donors. Guaranteeing 8 transferable embryos with no cap.

Lot 2

This George daughter has been a crowd favorite for quite some time. She was acquired by Sendero Brangus in the fall of 2025 in the Villa-CX Advantage sale. Recently this female was named Grand Champion Red Brangus female at the 2026 Cattlemen's Congress. Her dark red dam is ultra functional, attractive in her hind and extended up front; all traits these passed along to this banner hanging female. 23M5 is the kind of young female who can make your herd sire at home look like a rock star, buy here at prove up the next young herdsire.

Selling the right to one flush, guaranteeing a minimum of 6 embryos with a cap of 12.

LOT 3

TAJO RANCH

3 EMBRYOS PER MATINGS (15 TOTAL); GUARANTEEING 5 TOTAL PREGNANCIES

This is a genetic opportunity like nothing offered before at Red Alliance. Tajo Ranch as put together an embryo package that represents the most cutting-edge genetics from their program and more importantly the matings they are putting in recipis right now to shape the future of their herd. If you're looking to elevate your program in one generation this is the place to lean in and invest big!

TAJO MS LEGENDS 204F5

These are full sib to the \$35,000 Tajo Ghost Pepper 204L9. The sire of this mating commonly sells for over \$5000/straw while bottomsides of this mating is a direct daughter of the \$58,000 Red Velvet 204D who is sired by 3B1.

The 38 cow family's introduction into the Red population has been nothing short of a game changer. DDD Ronna 38E20 is a past Reserve International Champion and the dam of this donor. A full sib to this heifer's dam highlighted the 2025 Red Alliance when she sold for \$42,000. The influence of this female will continue at CLF with an incredible set of Valdez ET calves on the ground in Louisiana. Her stunning phenotype is extra powerful from the ground up. Combine that with her proven pedigree and the earning potential with this female is limitless.

Lot 10

Miss -C- 826N's sire CX Mr Legends Dream 227A combines 2 great bloodlines Legends Dream 610/U1 and TK Rocky Streets 227 cow family. Her dam Miss-C- Extra Stylish 826X2 is a first generation 880P daughter. She was the 2012 Show Heifer of the Year. 826N will make a great addition to any breeder's show string and donor program. Truitt Marks campaigned a full sister to this prospect to Reserve Grand Champions honors at the 2025 Cattleman's Congress Junior Show.

-C- Red Brangus is retaining a 1/2 embryo interest in this great heifer.

Lot 11

Here is a show heifer prospect with a pedigree that needs little introduction. This direct daughter of 804F5 traces back to the \$58,000 Red Velvet 204D. This maternal sister to Tajo Ghost Pepper 204L9 who commanded \$35,000 for 50%. He's the Red Brangus bull whose show season has been nothing short of dominant in his 2025-2026 campaign. He's been named Grand Champion at Cattlemen's Congress, The National Show of Merit, The Brangus Futurity, and The Texas Invitational. This summer born female is sired by 76/D, a bull who has a long track record for producing females that hang their fair share of banners.

After much anticipation, the first progeny of Tajo Ms Velvita 204K6 have arrived and are offered in this Duff Yahtzee 22224 daughter. This heifer's dam is by all accounts the next generation of Red Brangus. Velvita is a back-to-back International Grand Champion who promises to reshape the direction of the breed. 204N11 is sired by a phenotypic standout from the Red Angus population who only accentuates the quality found in the 204 cow family. Study this female's long, level, smooth design. Coupled with her bullet proof pedigree you can bid with high level of confidence here.

VILLA RANCH DONOR PROSPECTS

LOT 14

Lot 14

When we considered the fact that this female will share the same PHN as the Red Brangus legend Sureway's Ms Ideal 204M, we did not take it lightly. While we would never say this one will surpass the impact of the Sureway female, we feel like she has the potential to carry the torch for the 204 cow family for generations to come. We don't often offer Ultra genetics through this sale, but on the occasion that we do, it's only after careful consideration to ensure they are unique breeding pieces. Physically, this one is about as unique as any to cross the sale ring at the Red Alliance. She is elite upfront, massive from there back, and impeccable in her structure. On paper, she is a major carcass improver for the breed and while she carries the 204 brand, she still has tons of mating potential. This is the kind of female that you just have to own on sale day and know that she pays for herself quickly. (Retaining 1/2 embryo interest.)

BKC LEGACY'S SUPERMAN 101U

The Red Alliance has become known as the source for George L 101G daughters and for good reason. If you like cattle wide bodied, big backed, and stout all the way to the ground, then you've found one to tie to in 10M10. The maternal side of this pedigree stacked with CX includes household names like Red Chief and CX Dream Forever 365/A. Additionally, she writes an EPD profile that only adds to her value with top 15% rankings for WW, YW, SC, CEM & REA. You will spend lots of time behind a windshield trying to find a Red Brangus female that offers this kind of quality both on paper and in the flesh offered in a public auction. (Retaining 1/3 embryo interest.)

Lot 16

The Tajo Ms Kena 307J4 is likely the most prolific female in the Tajo Ranch Donor battery. Kena is likely the most famous daughter of BKC Rumor Has It 307A who was named Grand Champion female at the 2022 Brangus Futurity. Beyond the show ring, her value is only beginning to be realized. Her Cortez daughter offered as lot 16 is a female that should fit easily into anyone's donor program immediately. Cortez is no stranger to siring elite phenotype as he produced International Champion Red Brangus Females in 2022 and 2023. You'll be impressed with this 307 branded female from any angle. She possesses plenty of shape down low, her foot structure and skeleton are near perfect, and the feminine features she maintains are hard to miss. Without question, this is the kind of female that can elevate your program on day one!

Lot 18 & 19 If you were to write a pedigree that embodies the recent history of Red Alliance, you'd write the pedigree of these two flush mates and maternal sisters to Ms Sendero Jlo 59J2. Just last year, a trio of half-sisters to these heifers sold for \$14,800, \$12,000, and \$10,000. Back in 2023, the Sendero offering at Red Alliance was highlighted by a \$16,000 maternal sister. When you think about the body type, maternal strength, and overall Brangus body type, these two females should come to mind. They offer a blend of center body mass, functionality, and balance that simply never goes out of style. Backed by the highly proven 59 cow family, these George daughters should be on everyone short list on sale day!

Lot 20 & 21 Ms Sendero JLo 59J2 has been a part of Red Alliance from the very beginning. A full sister commanded \$10,000 through the ring at a previous Red Alliance sale and last year a full sib embryo mating raised the bar with a \$2,100/embryo gavel price. While these 2 females are not peas in a pod, there are some undeniable similarities. They are rugged in the way they are built, wide in their pin set, and possess a round rib design that's highly sought after. Their dam, a past Futurity Grand Champion in 2023, has quickly made a track record producing high value cattle with big return on investment!

LOT 22

Lot 22

These George daughters check all the boxes and are proving they are truly breed-changing, high-impact females. This 59 branded female is a direct daughter of Ms Sendero Galaxy 59G8; who is the CEO sired female out of 59/Y. During her show career, Galaxy, much like her sire, hung her fair share of banners. But her true impact has been beyond the show ring with her production of daughter like 59M16. As you can see in her picture, she's balanced, refined, and built for high-end Red Brangus production. If you're searching for a donor prospect with predictability, then take a long look here!

MGD OF LOT 27
 CX MS DREAM FOREVER 59F1

Lot 27 The Patron females roaming the pastures at Tajo Ranch are something worth seeing. His consistent ability to sire heavy structured, functional progeny is known around Waller, TX. His dam, CX Excalibur's Princess 59H, is phenotypically striking and has built-in marketability with 59 cow family branded on her hip.

LOT 28

Lot 28

A rare Red Bull daughter offered to the public and this one is backed by the extra maternal 135F Vindication daughter who was raised by KTS. Here is an outcross opportunity in a smooth maternal package. This is a rare female who offers curve bending genetics with a top 3% REA epd. The breed needs a new calving ease sire... this female could be the one who raises him.

SIRE OF LOT 28
MR PB REDBULL 521/09 W

Lot 29

CX Ms Legends Dream 59/E needs little introduction to the Red Alliance and more importantly the Red Brangus Breed. A full sister to 59M8 sold for \$16,000 in 2023 and by all accounts this female rivals her in every way. This Dynamite daughter is power! She is big topped, wide based, and sets down on a massive foot.

Lot 37 & 38 These two sisters represent the direction we have taken with the acquisition of the CX genetics. Their dam 381/X is a direct daughter of CX Home Run 135/P who is one of the most sought-after sires in the breed today nearly 20 years after his first progeny hit the ground. Taking a female like that and infusing the genetics of one of the hottest Red Brangus bulls in the world like George L 101G has proven to be a can't miss combination. The resulting progeny offers breed leading figures for WW, YW, IMF, and REA while possessing a functional build.

LOT 39

Lot 39

The influence of Ms Sendero Galaxy 59G8 over the years here at Red Alliance is undeniable. As a past Grand Champion at the 2021 International Show and Reserve Grand Champion at the 2021 Futurity, it is no surprise she is one of the cornerstones of the Sendero program. This direct daughter of Dynamite offers plenty of width and mass while maintaining the maternal look you'd expect from a female carrying the 59 brand on her hip.

DAM OF LOT 39
MS SENDERO GALAXY 59G8

Lot 40

This dark red maternal sister to lot 39 is sired by Red Chief, and you can clearly see his influence in the phenotype of this female. Her dam, Galaxy, and granddam 59/Y, have been a big part of Red Alliance recently. A full sib to this heifer's mother commanded over \$15,000 in 2024 and maternal sib embryos to this stylish female sold for \$1300/embryo just last year. You can buy with confidence on either

LOT 41

Lot 41

Here is a female whose stacks some of the very best cow families in the breed today. The dam of this female was acquired in the 2024 edition of Red Alliance with this 424J heifer in her belly. Much like her dam, she offers an extra maternal look up front with a sweeping rib design you expect from a 101 branded female.

MATERNAL SISTER TO LOT 48
KTS MS VINDICATION 135F

SIRE OF LOT 48
GRC GEORGE L. 101G

Lot 48 What a way to round out this year's sale with a George daughter from 135 cow family. This maternal sister to KTS Ms Vindication 135F is a true cow prospect backed by maternal excellence.

The Brangus Value Project

The Brangus Value Project is a highly structured birth-to-beef progeny test managed by IBBA and funded by breeders like us who invest through the International Brangus Breeders Foundation.

291 research steers sired by 17 widely-used Brangus and Ultrablack sires were fed and harvested in southwest Kansas over the last 3 rounds of the project.

Performance was compared against a southwest KS benchmark of same-weight steers placed on feed at the same time.

The steers were sold on a carcass merit grid.

The BVP steers out-gained the Kansas benchmark by .8 lbs per day, graded over 90% Choice and Prime, and earned a handsome carcass premium.

The results didn't surprise us because we look at Brangus data every day. But, some people may not realize what modern Brangus and Ultrablack cattle can do beyond the ranch gate.

“ This is not a one-time deal. It has to be a continuous commitment, to collect large sets of reliable and relevant data. It is supported in the IBBA Long Term Plan as a 10-year project.

International Brangus Breeders Foundation President

Brandon Belt

“ This project is critical to the mission of IBBA and the long term prosperity of Brangus breeders. There are cattle in our breed that literally “do it all”. We need to identify and propagate them.

Past Chairman, IBBA Long Term Planning Committee

Tracy Holbert

Round 1-3

Tested 17 sires. Data is on the books.

Round 4

136 steers represented
**Including 1st Red Brangus sire tested

Round 5

6 new sires represented. Calves in utero.

Round 6

Selecting Sires, About to AI 800-1000 cows.

TERMS & CONDITIONS

BIDDING: Each animal will be sold to the highest bidder. The auctioneer will settle any disputes as to bids, and his decision on such matters shall be final.

TERMS: Each animal becomes the risk of the purchaser as soon as sold, but it shall be the obligation of the seller to see that the animals are fed and cared for until loaded for shipment. The cost of shipment of the animal(s) will be shared equally between the buyer and seller and both buyer and seller will work to determine the most efficient transportation of the animal(s). The domestic shipment of embryos and semen will be treated the same as live animals with regards to cost. All cost of international shipments including, but not limited to, actual shipping and all paperwork required will be the sole responsibility of the buyer.

SIGHT UNSEEN PURCHASES: Buyers may purchase cattle by contacting one of the people listed in the catalog as sale day contacts.

CERTIFICATE OF REGISTRY: Once proper settlement has been made, a transferred certificate of registry will be furnished to the purchaser of each live lot at the expense of the seller. Registration of offspring resulting from embryos, flushes or semen will be the responsibility of the buyer.

HEALTH: Interstate health papers suitable for interstate shipment will be furnished on all live animals.

ANNOUNCEMENTS: Any changes from the information in this catalog will be provided in a sale day supplement sheet or announced from the auction block and such information shall take precedence over cataloged information.

BREEDING GUARANTEE: All animals are guaranteed breeders with the exception of: animals shown by purchaser after the sale in which the breeding guarantee (if any) shall be agreed upon between the seller and the buyer; injury or disease occurring after sale; gross negligence or willful misconduct on the part of the purchaser; death by any reason. Safe-in-calf females have been examined by competent personnel and are so guaranteed. Exposed females have been exposed but are not guaranteed safe in calf. Open females have not been serviced and are so guaranteed. Donor females: a female is not guaranteed to be a breeder after date of sale when that female is to be used or attempted to be used in an embryo transfer program unless by separate agreement between the buyer and seller. Embryo transfer guarantee- even though it is possible some of the female lots have worked successfully in an embryo transfer program in the past, and should in the future, there is not guarantee or warranty on future embryo production of any lot. Flush records are available upon request.

EMBRYOS AND SEMEN: All semen and embryos have been collected and stored by professional personnel, however, there is no warranty or guarantee as to conception rate on either. Some but not all of the embryos in this sale are eligible for international shipment. Please check with sale personnel or sellers as to the exact lots that will be eligible and to the countries they are eligible to ship.

OPTIONS AND PRIVILEGES OF RETURN OR ADJUSTMENT: All claims for adjustment or refund must be made in writing either within six months of the sale date or no later than six months after the animal reached 18 months of age. In the event an animal is claimed to be a non-breeder, the animal may be returned to the farm of the seller if in good condition and complying with the health requirements of the seller's state. The seller shall be entitled to a six-month trial following the return of the animal in which to prove that the animal is a breeder. If at the end of six months the seller is unable to prove the animal is a breeder, the seller shall, at the option of the buyer, replace the animal with another animal of equal value or issue a credit for the initial selling price. If the seller proves the animal to be a breeder it shall be the obligation of the purchaser to take delivery of the animal and pay all expenses incurred for transportation. Any request for returns for adjustments due to disposition will be handled at the sole discretion of the seller. Notification of potential problems must be received in writing within one month of delivery date. Pregnancy exams have been conducted to the best of our ability. Cattle palpated safe are so guaranteed. The identity of the service sire represents our best estimate of conception date. In the case of AI and/or exposure to successive service sires, the identity of the service sire is not guaranteed. If a female sold as "safe-in-calf" proves not to be in calf, the purchaser will receive service from the bull previously used, if available, or if the bull is not available, the seller shall be obligated to make satisfactory adjustment on the purchase price to the buyer, refund the purchase price or issue credit for the initial selling price upon return of the animal to the farm of the seller. Any adjustment provided for herein shall absolve the seller of any further liability except in the case such female proves to be a non-breeder. If a female sold as "open" proves to be in calf, the purchaser may return the animal to the farm of the seller prior to calving for a refund of the full purchase price or for another animal of equal value or be issued a credit for the initial selling price. Cows with calves at side and bred cows are presumed to be breeders with no further fertility guarantee. If an animal sold, at a later date, proves not to be eligible for registration under the association rules, the seller shall be obligated to make satisfactory adjustment on the purchase price, refund the purchase price or issue a credit for the initial selling price upon the return of the animal to the farm of the seller. If an animal is sold and through blood typing or DNA is proven to have incorrect parentage as represented by the certificate of registration, and for which parentage can be determined, the seller shall be obligated to make a satisfactory adjustment on the purchase price to the buyer, refund the purchase price or issue a credit for the initial selling price on the return of the animal to the farm of the seller.

RIGHTS AND OBLIGATIONS: The above terms and conditions of the sale shall constitute a contract between the buyer and seller of each animal and shall be equally binding upon both. Other than the guarantees and warranties stated above no other warranties or guarantees are expressed or implied. Each sale or resale of an animal constitutes a separate transaction. Neither the seller, the sale management, nor any other person connected with management of the sale assumes liability, legal or otherwise.
