GENERAL SALE INFORMATION

Cash or check accepted. Updated PHA & TH results and current EPD's on the Hereford females by sale day. This information and the *sale order* will be posted on our website at www.buckcattle.com and our Facebook page prior to sale. All cattle sell under the standard terms and conditions of the American Maine-Anjou Association & the American Hereford Association. Exception, females are guaranteed to breed or produce transferable IVF embryos. If female is evaluated by a licensed veterinarian and is considered obese, breeding guarantee is voided. Buck Cattle Co reserves the right to two flushes on all females selling and cloning rights on all animals selling. We will pay expenses. Registration papers will be transferred following the sale if buyer has paid and provided transfer information.

ABSENTEE BUYERS

Each sale we sell several cattle to buyers that cannot attend the sale. If you are unable to attend, please contact us to discuss the cattle and we will have a representative handle your bidding confidentially.

WE WELCOME TEXAS SCRAMBLE
CERTIFICATES

Welcome to the 30th Annual Spring Edition Sale,

It's hard to believe it has been 30 years since we started this sale. We always say this one sneaks up on us. Between show season and calving, things get pretty hectic around here.

With that said, we are incredibly blessed to make a living doing what we love. Thirty years is a long time, and I am so grateful for everyone who has played a part in making it possible: our customers, breeders, employees, friends, and family. Thank you!

This offering is very special and loaded with future champions and premier donor females.

We're starting the catalog a little differently this year. While we've offered a few Angus females in the past, this time we have more, and we felt they deserved added attention.

We are flushing several Angus females, and the Moore family has assembled some truly elite genetics, so you can expect to see even more in the future. Our Maine-Anjou division is deep in quality from top to bottom, and the Herefords are as strong as ever.

We've built this program around customer service, and we look forward to working with each of you. You'll notice that many of the dams represented in this offering were purchased through our past sales. We take great pride in producing females that not only win in the show ring but also go on to produce the next generation of champions.

Junior National season is right around the corner. There is no doubt that those events provide some of the best experiences you can have as a family. Get involved and enjoy making some great memories.

We are truly blessed with an exceptional crew who make it all possible. Diego Dow, Davey Young, Isaac Grimaldo, and Seth Buckley your dedication and hard work don't go unnoticed, and we can't thank you enough. We also sincerely appreciate those who step in part-time when we need them most: Ethan Moore, Mike Bagley, Kyle Costerisan, Sam Hutchings, and Howdee Snoddy. It takes a team, and our success would not be possible without the incredible families and show-day help who work hard year-round for our program. We are grateful for each of you.

We certainly hope you can join us on sale day. If not, the sale will be broadcast live on CCI.live at 1:00 PM CST. And don't miss the great meal served before the sale, sponsored by Martindale Feeds.

Thank you,

Jirl

Over the years, we've offered a few Purebred Angus females, but never in numbers like this. The quality runs deep in this group, and we truly believe there are females here that can compete at the highest level.

The lead-off female is exceptional. Stunning from the side with huge body, rib, and power, backed by awesome feet and legs. She's built to run with the best.

Sired by the popular Mahogany Prime and out of the 8901 donor, also the dam of Curtin's Senior Calf Division Champion in Louisville this past fall, and other standout daughters in this very offering. Buck Cattle Company is retaining 50% interest in this female.

Here's the show pony of the Angus group. Wild-looking, super neat and tidy through her neck, front, and chest, then opens up into a big center body. Level, square, and super correct on her feet and legs. She's got quality to burn, with a wild look!

We only had two Mahogany Prime daughters out of 8901, and they're exceptional. They each have a bright future ahead, built to compete and backed by proven genetics.

| TJSC MISS HARMONY 58C | WEIS STELLA 23C |

Now we're talking special! She's been remarkable from day one, combining striking look, flawless structure, and extra power. Sired by the young herdsire Just Do It, one of the most impressive mature bulls you'll ever see, and absolutely fault-free, she carries his stamp of quality.

Her dam, BK Knapsack 233K, was the 2023 Maine Junior National Grand Champion Maine Angus female for the Morton family, and this female looks every bit like she could follow in those footsteps. We predict this one is going to be very, very special, a true show cow and future donor.

Here's one that's an absolute rock star. A Maintainer female with a proven pedigree, stunning looks, and elite flexibility on the move, this is the kind that rises to the top. She blends added power, balance, and genuine quality into a complete package.

Built for the long haul as a breeding piece, yet loaded with enough wow factor to be tough right out of the gate.

Here is an extremely well built female with an awesome look, square design, and extra body and length, all tied together with sound structure and balance. She has the build and presence to be highly competitive at every level of competition.

Raised by the Moonen family and out of the great Stella donor, this female is backed by one of the most proven cows in the business, a donor that has made a major impact producing elite show cattle, both bulls and heifers.

This is a big-time show prospect backed by time-tested, winning genetics, the kind that can compete at the highest level and become a valuable breeding piece when her show career is complete.

Super well-balanced, good-looking female with an extra shot of muscle and power. Stout down her top, wide based, and still very attractive in her design. Sired by Red River and backed by two foundation females of our program, Kool-Aid Points and Brain Teaser. The Moore cow herd is built around great cow families, and the Brain Teaser influence runs deep. Built for success and backed by a legacy of great females.

A female we're very excited about. Ultra-unique, tight chested, cool fronted, and opens into a big center body with a level hip and great feet and legs.

Sired by Kool Profit, Reserve Grand Champion Bull at the 2021 Cattlemen's Congress, and out of Brain Teaser 451B, an anchor donor for Moore Cattle Company that has produced multiple top sellers and standout females through our sales.

This may be my favorite Brain Teaser daughter yet. This one will be fun!

Elegant female, smooth as silk, long necked, long spined, with a great muscle pattern and extra body and rib. She's comfortable on the move and built right.

Sired by the popular Liberty and out of the Brain Teaser donor, a highly influential cow in the Moore program known for daughters with mass, power, and great udders.

Backed by some of the strongest maternal genetics in the breed.
