## Terms of Sale

Terms of payment are cash, good check, or Discover/Visa/Master Card. All credit card payments will incur a 3% processing fee. No cattle will be loaded until approved by sale clerks.

## Terms & Conditions

All cattle sell under the terms and conditions of their respective breed associations. All announcements made in the supplement sheet or on the sale block will take precedence over materials presented in this book. EPD's are based off of spring 2026. Please leave all transfer instructions with the clerks following the auction.

## Trucking

We will work with you to find the most reasonable trucking available. Please let us know as soon as possible following the sale what your needs may be.

## Insurance

Insurance will be available sale day. We suggest a mortality policy. Please visit with Jame Secondino-Kreiger at the clerking desk if you wish to purchase a policy on your investment. Jamie 812-208-0956

## Bull Guarantee

All bulls selling have passed a breeding soundness exam prior to the sale. Volk Livestock and friends guarantee all bulls selling against breeding injury, and to be sound breeders for the first breeding season. Breeding season is defined as the 90-day period following the first turnout of the bulls. If a problem arises contact Dean Volk and he will provide a replacement bull if available, or if the buyer prefers, credit towards a bull will be given in the upcoming sale, less salvage value, of the injured bull. Please notify us as soon as possible should injury or problem occur and prior to the bull being sold for salvage!

## Herd Health

All cattle will have papers for interstate travel across the US. Bred females have all be recently re-examined as safe in calf. Health Papers assigned by H&E West MO Vet Clinic 660-476-2168.  
Maggie Massey, DVM.

## Absentee Bidding

If you will not be able to attend this sale, please contact Sale Management or a member of the sales staff to obtain a bidder number prior to the auction.

## Liabilities

Everyone attending this auction does so at their own risk. Sale Management, Staff, Consignors, & Volk Livestock assume no risk for injury or loss which occurs at the sale site.

Sale time is fast approaching for this year's The Genetic Options Live Event and we look forward to welcoming each of you to this year's Live Event at Volk Livestock. We feel the set assembled by this group is the type and kind to suit a wide variety of cattlemen and yet are still grounded in the fundamentals we strive for as a breeders group. When you get a chance to see these bulls in person I'm sure you will note the foot quality, easy fleshing design, and added frame. Then when you study the pedigrees you'll quickly notice the strong presence of highly maternal sires and powerful cows backing their lineage.

We are currently witnessing some exciting times in the Simmental industry as well as the Beef Industry as a whole. As I sit down to write this sale letter I'm not sure there has ever been a better time to invest into the Simmental Industry. These cattle are widely accepted across all segments from the cow/calf, feed yards, to breeders all of which are searching for bulls with that added frame as well as to improve feet and legs in the industry.

Within the female side of the offering you'll have the opportunity to tie into an exciting group of fall bred females as well as an extra fancy set of open heifers. The female division is stacked this year, not only from a phenotype perspective but also by the depth of breeding behind the females being offered. These females are the type and kind to excel in the pasture and yet still have the look and extras needed to demand premium level prices out of their offspring for those looking to produce highly sought after show heifers.

We look forward to getting a chance to talk the cattle with each of you as sale time approaches and if you have any questions regarding to anything about this offering please feel free to reach out to any of the breeders involved in this Event.

Thank you for your consideration,

*I have known Dean with Volk Livestock for over 30 years. Back when family was showing heifers, Dean was always a phone call away with any questions. He would be at shows and would help any way he could. We have bought bulls from Dean over the years, his bulls have good feet and structure, and do not fall apart when turned out. He develops his bulls the right way. The bulls have been exactly what he said they would be. They are real cow men's bulls. We have been very pleased with Volk Livestock.*
