then go 1 mile West and 3/4 of a mile North.

Sale Schedule

Sunday, March 29, 2026
Bulls available for viewing all day

Monday, March 30, 2026
9:00 am - Bulls on Display
11:30 am - Lunch Served
1:00 pm - The Partners in Progress Bull Sale

Welcome friends and neighbors to our 14th annual Partners in Progress Production sale here at McEntire Red Angus. We hope you know how much we appreciate everyone who supports our program. We love the cattle business and the families that it brings to our Ranch. It's what we do day in and day out, except for a few sporting events with the kids every so often!

We are excited about the offering of bulls we have for you this spring. These bulls were weaned on the 1st of October and developed here at the ranch. We have had them on a high roughage ration on a 110-day test. The carcass ultrasound data came back with great results, as you will be able to see in the bull information listed with each lot. We understand that the Red Angus Breed is becoming more and more popular and that you have many options when it comes to choosing your herd bulls. We invite you out to the ranch to look over the bulls and heifers and hopefully you will find something that will bring value to your own operation and move your program forward. Good Bulls make great cows, and our mating decisions have been based on producing next generation females to be more efficient and productive than their mothers. The Red Angus cattle have been known for good dispositions, calving ease, adaptability, and keeping your operation in the black! A good set of Red Angus tagged calves will top the sale no matter where you go.

We will be selling 79 herd bull prospects that we feel will make a great addition to a seed stock producer or to a commercial cattle operation. We will also be selling 20 registered Red Angus replacement heifers from the heart of the breeding program. Additionally, we will also sell 36 commercial Red Angus first calf heifer pairs and 100+ commercial Red Angus open heifers. These heifers have been on a complete vaccination program and have been checked by Dr. Richard Prather prior to the sale for reproductive soundness.

We would like to invite you to come out to the ranch on Sunday night before the sale and enjoy supper and a social. We would love to get to know you and your family! We will eat around 6:00 pm. Please join us sale day at 11:30 am for lunch. The sale will start promptly at 1:00 pm CST. Again, this year the sale will be broadcasted live on CCI.Live for those of you that are unable to attend the sale. If you have any questions about the sale, please feel free to contact us or any of the sale staff to visit about the offering. Be sure and check out our website at www.mcentireredangus.com to view videos of all the lots in the sale. We will not sell in catalog order this year. Therefore, please be sure and look on our Facebook page or on CCI.live for the sale order on sale day. Thank you for your interest, and we look forward to doing business with you.

See you at the sale!

Randy McEntire

Congratulations Chloe Sue and Casen!

Mcentireredangus.com

Optimism continues to thrive within our U.S. beef industry! This momentum keeps surging and setting records every day from coast to coast and border to border, despite comments from country leadership and negative discussions within the packing industry about closing production and fabrication facilities. The enthusiasm among producers is very contagious, as nearly all of them have received more for their work and investment than at any other time in their lives. The daily conversations among producers are driving investments in next-generation genetics and focusing on improving through genetic acquisition rather than sticking with the traditional status quo price restrictions. Several of these producers will turn to family outfits like McEntire Red Angus to take that next step in the right direction—and rightfully so.

Randy and Crystal have taken their operation to the next level by acquiring key genetics in herd sires over the past few years. The facilities at McEntire have also been upgraded to better serve their current customers and to expand in the future, giving larger ranching operations confidence by providing the same quality in larger volumes. The foundation of this operation is strong and deeply rooted in a commercial focus, which is why they keep making the trip to the “edge of the west,” known as Sweetwater, Oklahoma.

The focus has always been to offer a product in a red hide that can improve any program, commercial, or seedstock. Searching for and acquiring genetics that keep the program moving forward is an ongoing process. Randy has done a great job of maintaining the cow herd’s quality and genetics. Each year, pressure is applied to ensure the female base is resilient enough to withstand the unpredictable environmental conditions of Western Oklahoma. This environment can be the hottest and driest place on the continent or host a record blizzard with sub-zero wind chills for an extended period. The cattle must be low-input and self-sufficient, yet are also expected to produce heavy, market-topping calves at weaning, and/or herd sires that sire premium progeny with the performance and efficiency that give that producer a reputation for having quality stock.

As always, the McEntire family has put their very best foot forward. They have assembled a carefully chosen set of seed stock for your consideration. The bulls provide significant advancement in genetic improvement and notable advantages for enhancing phenotype. If you need to add females to your herd, this outstanding group will eliminate any hesitation about investing once you see the undeniable quality they offer. Performance-focused, maternally driven cattle with the durability in skeleton and reproductive fundamentals to elevate your operation to the next level. Perhaps the best part of this offering is working with the family that supports the product!

The McEntire’s are a prime example of the good folks in the industry. Hospitality is their strength, food is a well-mastered craft, and the stock becomes secondary. This is your invitation to join us for excellent cattle and great people at the Sale Facility on the Ranch of McEntire Red Angus for the Annual Spring Bull and Female offering. Please don’t hesitate to reach out to any member of the McEntire Team or Innovation AgMarketing for assistance with selection or more information about this offering. Thank you for your interest and undivided attention to this year’s Spring offering at McEntire Red Angus!

Enjoy the cattle,

Graham Blagg Jered Shipman Tim Anderson

SALE ORDER

Cattle WILL NOT sell in catalog order this year.

A sale order will be available prior to the sale.

TERMS & CONDITIONS

Cattle sell under the standard terms and conditions as recommended by the Red Angus Association of America.

SEMEN INTEREST

McEntire Red Angus will retain 1/2 semen interest in all bulls sold.

SEMEN TEST

All bulls will be semen and Trichomonas tested prior to the sale and are guaranteed to be fertile.

INCENTIVES

Free delivery on bulls within 300 miles of the ranch. This does not include heifers. All trucking on females are the buyer's responsibility, but we will be glad to assist with trucking plans. If bulls cannot be taken sale day or arrangements have not been made with us within the first week for delivery, the seller can house bulls at McEntire Red Angus until pick up at a rate of \$6/day. However, we will not be responsible for sickness or injury.

LIABILITY & ACCIDENTS

Every precaution will be exercised to protect the safety and comfort of those attending the sale. Neither the owners, auctioneer or any sale staff assume any responsibility in this matter and disclaim any liability, legal or otherwise, in the event of accident or loss of property. All persons attending the sale do so at their own risk. We are not responsible for typographical errors.

GUARANTEE

All bulls are guaranteed by insurance only. McEntire Red Angus will pay 30% of the insurance premium on each bull purchased in the sale if the buyer chooses for the first year after purchase date. Insurance will be available for purchase on sale day. We strongly recommend purchasing insurance so that your investment is properly protected.

HERD HEALTH

All cattle sold through the sale are on a complete health program and will be accompanied by the health papers for shipment anywhere in the United States.

- An excellent candidate to lead off this year's offering is 4MC Prowler 4247E, a son of WEBR Prowler J61, backed by the leading donor 4MC Hvywt 5163.
- 4247E is a maternal brother to the \$210,000 valued 4MC King of the Cowboys 706, one of the premier Red Angus sires in the industry when it comes to siring cattle with an elite look of quality, stoutness and structural correctness!
- 4247E is long, stout, and full of quality. He is the kind of bull you gravitate to when looking for a herd sire that combines pedigree, type, and performance into one.
- He posted a 123 IMF ratio and a 105 REA ratio among his age group of sale bulls.
- His EPD profile reads as a calving ease cow maker of a feature herd sire.
- Top 10% STAY; top 15% BW, DMI; top 25% HB, CED.

- 4266 is a striking individual with his proud look and stature. He's level topped and has plenty of shape and dimension.
- Crossing WEBR Prowler J61 on Bieber Fusion C194 daughters worked well, as you will see several results of that mating in this offering.
- His individual performance is highlighted by a 73 lb. birth weight and a 13.4-inch ribeye area.
- Add a good-looking calving ease bull to your roster with bulls like 4266.
- Top 15% DMI; top 20% CEM; top 30% BW, STAY; top 35% CED.

- Another high-quality product of the predictable cross of J61 to a Bieber Fusion C194 daughter.
- One of the top bulls in the age advantaged offering for scan data when you see his 115 IMF ratio and 110 REA ratio.
- His genetic predictors excel for longevity and carcass quality.
- Top 10% DMI; top 30% STAY; top 35% MARB.

Lot 4

4MC PROWLER 4283

- 4MC Prowler 4283 is a powerhouse herd sire prospect. He's loaded with muscle shape and dimension.
- You will certainly appreciate his herd bull character when you walk the pens on sale day.
- His 111 IMF ratio should indicate ability for his sons to grade and perform in the feedyard.

RED SIX MILE BRANDO 666C
PATERNAL GRANDSIRE OF LOTS 1-12

Lot 5

4MC PROWLER SUE 4278

- Study this rugged made, bold ribbed bull that still has plenty of muscle mass.
- 4278 measured a solid 13.6-inch ribeye on his scan data.
- Longevity is built into his pedigree and his EPDs.
- Top 10% STAY; top 25% DMI.

- 4MC Hollywood 596E will be a standout in the yearling pens for his overall power, dimension, and structural correctness.
- Study his pedigree and notice that his dam is the heavyweight female in this program, 4MC Hvywt 5163.
- One of the highest WDA and fastest gaining bulls in the offering.
- He has a "do it all" EPD profile to offer breeding versatility.
- Top 3% WW, YW, ADG; top 20% MILK, MARB, CW; top 35% GM, CED, HPG.

- The full flush brother to 592E, it's hard to pass up a 4MC Hvywt 5163 son with this type of performance and genetic merit.
- He really turned it on post-weaning, as evidenced by his 4.66 lb./day ADG.
- An impressive set of numbers across the board for multi trait genetic improvement.
- Top 15% WW, CW; top 20% YW, MILK, MARB; top 25% CED; top 30% ADG; top 35% GM, HPG.

- 4MC HVYWT 5214 is one of the most impressive females to ever be offered up for appraisal from the McEntire program.
- Loaded with quality both phenotypically, and when it comes to the elite pedigree that supports this female, there is little to question about her ability to be a cowherd changer. Consistency is the name of the game, and the maternal powers here are littered with generations of cow power and reliability.
- Her dam is the cornerstone donor 4MC HVYWT 5163 whose influence is felt throughout this offering.
- 5214 is a maternal sister to the \$210,000 valued 4MC King of the Cowboys 706!
- Royal pedigree, impressive maternal build, and genomic power that checks plenty of boxes, this is the kind that gets promoted to the donor pen the first year.

- High end growth predictions are the centerpiece to the genomic package that supports this stout featured, power female.
- 4MC Karuba 523 comes with an extra shot of substance and density. She came to the weaning pen with over 650 lb. of scale pressure, and has matured impressively, being a favorite of those who have already viewed the offering in person.
- She is the lone daughter of the elite curve bending stud, Bieber Checkmate K126 to sell, so latch onto this rare opportunity.

- A direct daughter of the very popular Select Sires owned, Bieber Jumpstart J137 and out of a beautiful PIE Convo 7058 daughter. Another generation back reveals a female that has been a reliable source of added value progeny for our program for quite some time now.
- We admire her added substance and curvature, whilst maintaining a great look from the profile and high tying neck attachment.
- She sports a very balanced genomics package that sports quality and consistency across the ledger of traits evaluated.

- 4MC Raspberry 522 is one impressive specimen, and records one of the largest WDA's in the group with her class leading, 1013 ADJ. YW.
- This intriguing daughter of PIE Groundbreaker 2036 comes with an ultra-durable structural build, being dense and robust in her middle third and then able to pose with undeniable presence. She is a perfect combination of power and maternal.
- Her impressive growth trends are reflected genomically as well, with elite WW, YW and CW predictions. She will be the source of added performance in a reliable fashion.

- The daughters of PIE Groundbreaker 2036 can be trusted to inject added growth and performance and will be standouts the first year as their progeny return to the weaning pen heavier than the rest of the cohort.
- 4MC Fire Fly 589 comes with top 5% of better WW, YW, ADG, and REA, along with a very attractive GM index ranking, if you sell your stock by the pound, or over the rail, she will be the source of profits.
- Her young dam is a leading daughter of the popular PIE Captain 057 sire in the 4MC cowherd.

- We think that these PIE Groundbreaker 2036 daughters need strong consideration if a program is looking towards developing power females that are a reliable source of pay weight and profits.
- A maternal brother to 4MC Special 527 was one of the heaviest and highest ratiating bulls in the 2025 Partners in Progress Bull Sale selling to Double M Cattle.

- Delivering one of the most impressive trends from weaning to yearling time is 4MC Lydia 510. She recorded a 2.62 ADG and has continued this impressive trend through current day as she maintains her status as one of the most dominating females in the sale pens.
- If you prefer them heavier muscled and stouter shaped, then this PIE Groundbreaker 2036 daughter will be one that you mark as a favorite.
- Her genomics package is highlighted by very impressive REA, CW and GM values.

- We change gears here with a standout of the offering from many different perspectives.
- She comes with a pedigree that ties together several highly esteemed individuals from our program, being a daughter of 4MC Fullback 2224 and being maternally powered by the prolific 4MC Miss Beckton that's influence has helped build the cowherd.
- Not only does this female excel on the standstill but she is equally as impressive from a performance EPD standpoint, adding value to her chances of raising herd bulls in the future, just like her cow family is known for.
- Her build is formed with the upmost of quality and consistency in mind, while not only being extra deep sided and soft bodied, but she comes equally as long spined, extra square pinned, balanced from the profile and elegant about her front third.
- True breeding piece that you could build a cowherd around.

- The second 4MC Fullback 2224 daughter follows in the trends of her paternal sister selling as Lot 109 as she comes with a very maternally orientated body cavity, strong structural design and look of longevity.
- 4MC Lakota 529 stems from a picture perfect 9 Mile Franchise 6305 daughter, it's no secret how productive and successful that lineage is in making females that get the job done.

- 4MC Adina 5202 is the lone daughter of PIE Convoy 7058 and is out of a tried-and-true PIE The Cowboy Kind 343 female.
- The Adina cow family is held in the highest regard by cowboys that study Red Angus cow families and stems from the 5L program that raise ultra-maternal females in the heart of Montana.
- She sports a very dynamic set of expected progeny differences that help support her strong case of having a profitable future in her new home. However, it's her sound build and low maintenance outlook that we appreciate the most.

- We love the kind of these WEBR Chisum 229 cattle, as they come with some added shape and dimension, while coming built for the long haul. He delivers the maternal powers of the prolific Miss BHR Copper D 946 as well.
- She is a powerful, big bodied and denser made female who is supported by a very balanced and foolproof genomic profile.
- She floats right to the top in regard to real world performance with almost 1000lbs. at yearling time.

- 4MC Lassie 503 is an ultra-attractive 4MC Blockout 976 daughter who is maternally supported by 4MC Lassie 0317, a young PIE Prospect 5110 female.
- She reads for more excelled performance, stay ability and carcass traits, areas we foresee adding profit to any marketing strategy.
- Her design is ultra-maternal and functional, being huge bodied, wide pinned and extra shapely, combine this with a flawless structural build and this maybe be the type to build a program around.

- The perfect outline of Lot 95 will catch the eye of any astute cattle enthusiast. Her sire, 4MC Blockout 976, has built a legacy through his daughters, as they are great uddered, with a strong motherly instinct and we think they are set to have long and illustrious breeding tenures in Sweetwater, Oklahoma.
- The level spined, big middled and pretty headed 4MC Sumthin Special 504 is a breeding piece that will return profits to a program for a long time to come.
- Her maternal granddam, WW Sumthin Special 814 has been a strong addition with multiple daughters being retained.

- 4MC Ms Precision 510 is a long sided and feminine daughter of the ever-reliable maternal maker, 4MC Blockout 976 that continues the trend of exciting cow prospects that will be available for procurement on March 30th.
- She has an eye-catching look, and the prospect of her getting into production would have us excited.
- She stems back to one of the cornerstone purchases from the Pieper program, PIE Ms Precision 0352.

- A bold ribbed, easy fleshing daughter of BYU Fullback 9338 ET that is backed by the strong maternal influence of a 9 Mile Blockout 7102 daughter.
- She is sound structured, good footed and offers a productive brood cow look from every angle of evaluation.
- She offers a premium blend of growth, carcass merit and maternal strength. Without a doubt one of the premier replacement heifers in this year's offering!

4MC BOTEET 5237

Yearling Heifers

80 COMMERCIAL RED ANGUS OPEN HEIFERS

Offering 80 hand sorted commercial open heifers source from a customer in the Texas Panhandle! Traditionally we have gate cut groups of 10 head or more for our customers, but we felt this year the quality was deeper than it ever has been. These females are sorted based on size, weight, and kind for uniformity. We think that you'll agree, this is a top shelf set of red hided commercial replacement females that will add maternal strength to your cowherd.

Bid with confidence!
