We love this business, and we love looking for and trying to breed the next great bull. When you come to the Grass to Grid, you will really be able to see the results of this after you see just how deep this set of bulls is. They are the cattlemen's kind! The cattle in this sale represent so many people's passion. They are influenced by great cowmen and cow women, and the quality tells the story of the pride they all had. My dad's genetics are scattered throughout here. I would love if he could be here to see this set—he would have loved it. I'm sure he will be watching.

We have loved running cows at our Poteau ranch, but Kim just signed a contract on about half of it, so we will be selling some pairs off that ranch. If you need any good pairs or breds, we will have them!

Jeff Bourquin and I have been doing this sale for about 15 years. Jeff buys thousands of calves a year off of visual appraisal. He has the vision to realize the importance of performance-oriented cattle that are moderate and easy fleshing. Give him a call. He'd love to buy your calves.

Jeannie and I have had a blast raising these kids, and they are growing up on us. Jeannie and I have made 15 trips around the sun this year. It's hard to imagine where all the time has gone, yet as I look back, there has been a lot of water under the bridge. I don't know how many cattle we have looked at, raised, sold, bid on, and everything in between, but it's been a lot. Our kids have been right beside us through it all. We take them everywhere we go; they make our life rich. Somehow with kids we are overrun with chickens, goats, dogs, and of course cattle, and I wouldn't change a thing. The days are long and the years are short, and these are for sure the days I want to remember. It's fun to see our genetics trickle down through our kids. They work hard and live this life with us day in and day out; it's all they have ever known. If you need a goat, the boys have you covered.

Our crew is second to none. They all work hard to make the wheels turn here. From calving, to clipping, to sale prep, they do it all. Through long days and long nights, they are who we turn to, who we depend upon. We couldn't do all this without them, and we really appreciate them more than they will ever know. They know these cattle every bit as good as we do, so don't hesitate to give them a call. To our friends, our business partners, thank you for believing in us and in Griswold Cattle. You help keep the lights on. We depend upon so many of you.

On Thursday night before the sale, we are going to have Gene Lowrey from XIT Feeders, Dr. Derrell Peel from OSU, and special guest Cheramie Viator speak at a steak dinner. It will be super informative, and we would love to have you. We will make sure to feed you all day Friday. It's a great day to come together as an industry and see old friends and make new ones. It's all about connections, and we feel blessed by the ones we have.

Come see a heck of a set of bulls and females. We look forward to visiting with you. We are constantly reminded of the realization of the joint effort it takes to make an operation successful. The people we work around, talk to, and associate with day in and day out are the reason *we love this business!*

John

Unless stated otherwise in the footnote, we are selling 2/3 interest in and full possession of all bulls. This means that the bull is totally in your control, and you get 100% of the salvage value of the bull. Griswold Cattle is only retaining a 1/3 semen interest. If the bull is sold to another breeder, Griswold Cattle retains the 1/3 semen interest.

CATALOG INFORMATION

Birth weights (BW) are actual weights. Weaning weights (WW) are adjusted to 205 days.

Scrotal Circumference (SC) is the actual scrotal measurement, in centimeters, recorded March 2-4, 2026.

If available through the breed association, EPDs are listed for: Calving Ease Direct (CED), Birth Weight (BW), Weaning Weight (WW), Yearling Weight (YW) and Milk. Keep in mind that EPD accuracies on young, unproven bulls are relatively low and are more reliable for a group of bulls than an individual.

If not available, sire's EPDs are included. *Note that the fall Simmental and fall Angus bulls have genomically enhanced EPDs listed in the catalog.*

Thank you to Five Rivers Cattle Feeding!

Five Rivers Cattle Feeding, LLC will sponsor a steak dinner Thursday evening.

Gene Lowrey with their XIT Feeders; Dr. Derrell Peel from OSU; and Cheramie Viator, Westway Feed Products, will be discussing the cattle market, the advantages of retained ownership using these high quality genetics, and the bright outlook for this industry in the coming years while positioning yourself to be on top of your game during the up cycle. Come and join us Thursday evening. Then on Friday, have lunch and buy the bull/s to move your program forward!

A truly special individual to lead off this year's Grass to Grid roster and one that no doubt will make a huge impact on the Simmental breed! Ever since he was young, he has been a special creature around the ranch, always the one everyone asked about when we showed people donors on tours of the ranch. Special enough that he was always one that Cody would talk about and the reason why we flushed his mom this way to have more born this year. Even when he was young, he was always cockier than everyone else, always just a tick stouter, and always commanded attention. He was the natural calf on the side of his great dam, Carley G293, a past sale feature to Maple Lane and Thwaits; she is a Profit out of the great U613 donor that was very successful for Kim Klotz. A full sister to G293 brought \$50,000 to the Tlach family and was extremely successful for them, while G293 herself has produced countless high sellers for us. This time she truly hit a homerun! Mating her to the incredibly good looking Dryer Wallstreet produced a bull that is tremendously powerful yet smooth made and long necked with running gear that can go all day. I could go on and on about how special this bull is, but I think his picture and video will do more convincing than I will. I will say this:

Stock Market is one of the most special Simmentals we have ever offered!

SPRING YEARLING SIMMENTAL BULLS *Lots 101-181*

Maternal granddam of Lots 101-105

lots **102-105** Four brothers sired by one of the most popular Simmental bulls to surface in quite some time, TL On The Run. There is no denying the quality look and the power that he transmits while keeping them sound and functional. Their dam is the great G293 donor that has produced several \$10,000+ daughters in past Classics as well as one of the best heifers that Maggie has ever shown. These bulls are flat out good! You must love the rib shape and center body volume they possess while still being extremely powerful and big hipped with incredible bone density. I love their angles and the ability to get out and go with awesome shape to their feet, and with all that they remain attractive and masculine. This is a big-time set of brothers! Maternal brothers to Lot 101.

This guy is built like a truck! If you want to add muscle, power and body into a set of females, this is your man! Check Mate is so impressive in terms of his shape and dimension from every angle, massive in his top shape, huge hipped and big, wide pinned with big ole legs. With all that power and substance, he is still round ribbed and deep bodied with incredible look. His dam has become a proven producer within the donor pen, making cattle that have the extra substance and power to make it in the real world. This guy was bred to change a herd. Check out the great 5066 donor on the bottom side—proof is in the pedigree!

Check out this powerful baldy! 43N is built to last—big, good shaped feet, incredible on the move and easy fleshing. View this guy from a rear three-quarter view, and he has so much shape and muscle and that turn to his quarter with a wide hip that transitions to an incredible center body. He is backed by a royally bred Bankroll daughter that goes back to none other than 88X, the mother of the prolific 41D. The bottom side of this pedigree combines two of the best bulls in the breed, Bankroll and Profit. What more could you ask for?

Maternal brother to Lot 108
and sire of Lots 116–121

The On The Run progeny have created quite a stir this past year, proving to be everything we had hoped for when we purchased him. They are the right kind of cattle and ones we need to breed more of. They have the power, muscle and body real world cattle need to have while still being attractive and having balance with awesome running gear. This guy is out of a beautiful Pilgrim donor from the 4/B Ranch in Iowa—no stranger to producing some of the most sought-after Simmental cattle in the country!

The dam of this "Boots" grandson is known around the ranch as "Lava." Her show career consisted of going out one time to Fort Worth as a bred, where she won her division and was a favorite to win the show.

Reckoning 711F

Maternal brother to Lot 115
and to dam of Lot 114

Lot 114

Lot 114

We are stacked this year in terms of high quality, promotional quality bulls, with Vanderbilt being one we love for an outcross sire to most G- genetics. Raised by our good friends the Berlowitz family, Vanderbilt was named after the college where Blaze Berlowitz currently plays college football. Sired by Alpha, the \$700,000 Tecumseh son that sold at Hartman's a few years back, he is out of a beautiful baldy Broker dam that is a maternal sister to the great Reckoning! When John and Jeannie saw him last summer, they fell in love with him. He is the right kind, stout made, big footed, deep bodied, good looking and of course out of a great cow family. He has matured and developed exactly how we had hoped and then some, getting better and better every day. Check him out sale day!

Lot 115

Another Alpha son from the Berlowitz program, and not out of just an ordinary cow. He is out of the dam to the great Reckoning! This is your opportunity to tie into a maternal brother to one of the most proven and influential sires in the Simmental breed the last couple of years.

This guy is long and extended up front, long spined, big legged and has plenty of shape and muscle throughout.

These full brothers are by the \$150,000 4/B Dynamo that works for the Herbster and Moser programs and has knocked it out of the park the last couple of years. This mating to the famous Honey Buns is sure to produce cattle that are well worth the money. Honey Buns is well on her way to being the most influential donor in the 4/B program, already producing multiple high sellers in the past few Griswold sales, including the \$120,000 high selling female a couple years back. Not to mention that her daughters averaged well over \$15,000 in the last Classic. These boys are the first sons to be offered from this incredible female, and I expect nothing less of them. They are all stout built, wide based studs that have an overwhelming amount of muscle expression and center body shape while remaining good looking and sound. This is a set of brothers you cannot go wrong with!

A bigger framed, longer outlined son of the \$150,000 WINC All Right, whose first bull progeny have been extremely well received at bull sales all spring. Extra Mile is out of the "Flirty" 122J donor on the bottom side, the \$160,000 female from the 2021 Classic that is doing great things for the program, consistently stamping progeny with an insane amount foot size, bone work and body mass. The predictability of this pedigree is incredible with the legendary "Boots" on the bottom side. Study this guy for his power and foot size, overall body depth and length of spine while remaining true at the ground. Step on up to a proven pedigree and one that is sure to add pounds at weaning.

Out of the prettiest Shocker daughter we have ever been a part of! The great Dixie Shocker 95H is a past high seller in the Classic at \$35,000, and her first set of ET calves were offered in our last two sales, with eight head averaging \$12,000. Her grand-dam is a Rito 707-990, known for siring incredibly functional and fertile daughters, out of the legendary 738M, who needs no introduction. This is the first year for these All Right-sired cattle, and they just get more impressive with age. Check this guy out—he is a real beef bull. Packed full of muscle and red meat with so much power and foot size and an intriguing look!

Red head alert! The red deal is as hot now in the Simmental breed as it ever has been, and this guy is one of the best we have, regardless of hide color! 5105N is an absolute ground pounder! His muscle shape and density are unmatched. I love his build and how smooth he is assembled; his angles and structure are incredible. The softness and boldness of his center body is awesome to still be so stout and good looking. His Loaded Up dam, Jimmy Choo, is a no-miss kind of cow with an incredible build and udder design. To see that cow is to love her, not to mention that she is a full sister to the great "Mittens" donor. This guy is legit!

What a pedigree we have here! This bull combines All Right, Lover Boy and Profit all in one to give you a maternal powerhouse with look, body and predictability. I would be willing to say that his dam is one of the prettiest Lover Boy cows you will find anywhere and has a picture-perfect udder. You must admire this guy for his length, body and muscularity with the look of a true beef bull. The coolest part—he weighed off at nearly 800 pounds to match his WW EPD of +95, putting him in the top 15% of the breed!

Griswold cattle retains 1/2 semen interest.

Another sale highlight that should no doubt garner the interest of even the most astute cattlemen is this full brother to Coping With Destiny. Over the past several years, Cope has been a force to be reckoned with, whether it was in the show ring or now that he is in production, siring some of the best cattle in the business. There is no denying what he is doing within the Simmental breed, and this is your chance to get a piece of *the most impressive full brother to date*.

We purchased Six Seven from Wade Rodgers and the Grimm Family after they exhibited him in Kansas City, where he won the calf division; we thought then he was something we needed to be a part of. If you are in the business of raising show cattle, gather round. He is so high tying at the top of his shoulder, clean from his chin down to his chest and transitions so smooth through his shoulder and into his forerib. He is massive in his hip shape and dense in his bone work while remaining true at the ground. Take this opportunity seriously and bid with confidence!

— Full brothers to Coping with Destiny sell as Lots 131–133 —

Lots **132 & 133**

The Jones crew in Ohio sends an impressive group of bulls every year. Troy and his crew continue to assemble some of the best cattle in the industry. This year they sent us two full brothers to none other than the industry-leading Coping With Destiny. There is no denying the influence Cope has had on the business over the past couple of years, and these guys are cut from the same mold. They are long and extended up front, long spined, big legged and as sound as they come. They both have a wide pin set and plenty of shape throughout to add some extra pounds to a set of calves.

lots 134 & 135

These two bulls are not exactly what you expect to find at the G—in terms of a number profile, but they certainly fit in when you look at them from a phenotypic point of view. These two Guardian sons are out of none other than the only existing FULL sister to the \$340,000-valued GCC Night Owl, who is on his way to becoming one of the most influential bulls in the history of Griswold Cattle! The dam of these two bulls, 3112L, was a past Classic highlight for \$20,000 to Joel Denio in Iowa that we had virgin flushed that spring after we got her bred, and boy am I glad we did it! These two bulls exemplify everything that a true breeding bull should be—stout and wide built, big nuted, dense made, sound, and they have grow! 5154N weaned off at an astounding 823 pounds—talk about impressive! We will have their 100K results back by sale day, but for now they are both +15.4 CED (10%), -2.3 BW (10%), +87 WW (25%), +132 YW (30%), +.66 Marb (5%), +180 API (4%) and +102 TI (5%). This combination of traits truly sets them apart within the breed, making them true breeding pieces. Check with us the week of the sale for updated EPDs.

The first Night Owl calves to sell are here, and they are going to be around for years to come! We could not be happier with his first calf crop and how they have grown and developed, being powerfully made and real-world oriented. This guy has been a favorite around here since he was born, for multiple reasons. He is flat out good and is the first calf out of Maggie's all-time favorite show heifer, "Gloria." She had a tremendously successful show career, winning Reserve Supreme at Tulsa and Champion in the Junior and Open shows at Denver, always admired for being tremendously stout, huge ribbed, sound and good looking. This guy is built the same way, having huge feet and legs, tremendously wide built and big hipped with loads of body and shape. Not to mention on paper he is in the top 15% for WW, YW and REA, and he weaned off at over 900 pounds! This is one you need to have on your short list!

The cowman's kind! This Livin' The Dream son is a true breeding bull with tons of growth, tons of power and a big scrotal. You will be hard pressed to find any bull in the sale that is bigger hiped and wider pinned than this guy. Not to mention, he is a sappy bellied, robust ribbed bull that packs a true punch in terms of center body dimension. This is the first calf born out of the \$70,000 featured Bank On It daughter from the 2023 Classic, purchased by Maple Lane, and we are excited for what is to come out of her in the future! If you are serious about a big-time bull, this is your chance.

This bull goes back to the very first show heifer that Maggie showed. "Jimmy" was quite successful for a first year showman, and she has done nothing but produce good ones since then—rightfully so, being a direct daughter of the great "Boots." I love this bull's length and extension, the way he carries his head and neck and the overall presence he shows. With that presence he does not give up power or substance, with an incredible turn to his upper rib and a massive hip. I love this bull on the move and the way he can travel. A big scrotaled bull that is ready for heavy use. Get in on a royally bred one here!

Lot 144

Livin' The Dream has been one the most popular bulls in our arsenal the past year and for good reason. This bull is exactly why we love them—good looking, moderate and powerful. This guy has all the pieces you want wrapped up in a well balanced, eye appealing package with running gear for days. The center part of his body is so dense and bold. He will be easy keeping, and his daughters will be just the same.

lot 145

An impressive individual by the dominant show ring champion Coping With Destiny and out of an incredibly stout made Hammer Time cow from the Jones program in Ohio. If you want power, muscle and bone, this is your man. I love the overall amount of power, hip and body he has with big legs and feet. Truly a cowman's bull that will add pounds at weaning and has a big ole scrotal. This is one to look up sale day!

lot 146

The Coping With Destiny cattle are the real deal, and for so many different reasons. They can do it all. It does not matter if you want them to be show cattle or just the good cattlemen's kind, they have the right build for it all. Lot 146 is as stout as they come. He has big ole feet and legs, a giant hip and pin width and so much shape. Destined to stouten up any cow herd.

Full brother to Lot 149.

A purebred son of the great Reckoning, 5142N combines a masculine look of power and stoutness with a maternal look of softness and center body. A super long and attractive bull, he balances up great with heavy structure and a world of power and red meat. His dam is none other than the great “Mittens,” the Loaded Up x “Boots” daughter that has continuously produced cattle that top every sale that we have, recording a lifetime progeny average of an astounding \$25,000.

A younger bull here that doesn't give up quality. An embryo calf out of the \$167,000 donor “Flirty,” who had a tremendous show career for Maggie and is now knocking out of the park in the donor pen. Her first progeny averaged north of \$10,000 on four head, with a full sister to 5149N selling for \$16,000 in the Classic. I love the look and balance this bull offers with a stout set of feet and legs under him while still maintaining good angles and smoothness. For his age, he possesses a lot of power and substance and reads to have quite a bit of grow left in him. With the legendary “Boots” in his pedigree, he is destined to do only get better with age.

A red Purebred that is flat out impressive when you walk up on him. Talk about a bull that combines look, structure and power as good as you can find! You will be hard pressed to find another red bull anywhere with this much hip shape and width all the way through. His body shape and density are incredible, indicating he can sire calves that are easy keeping with great doability. You have to admire his foot shape and heaviness of structure that are second to none. With all that power and substance, he is still heifer safe with a -1.4 BW, +14 CED and an actual birth weight of 73 pounds. His dam is a beautiful red Lover Boy donor from the heart of the Long program in Iowa. Imagine the set of replacements that he could leave in a program.

TJSC Coping With Destiny 9K
 Maternal brother to Lot 164

A maternal brother to the dominant show ring sire Coping With Destiny! The 134C donor has become a force to be reckoned with in the Jones program, producing multiple high sellers and influential bulls and females. Sired by the \$620,000 Tecumseh, this bull combines some of the best genetics we can offer, with his granddam being none other than the \$3 million producing Serena 74Y. I have no doubt this big legged, rugged built, masculine stud is one that can change a program and will be a crowd favorite sale day.

Here's a burly made half-blood from the Jones program that is everything you could want when it comes to power, bone and substance. 10N is big backed, square hiped and wide pinned with plenty of center body. As a bonus, he is good looking and as hairy as they come. His bottom side reads maternal, backed by a whale bodied Style daughter that is a maternal sister to the great 24 Karat. Power in the blood!

Conley GCC Shocker
Sire of Lot 167

There is a ton of maternal built into this bull's pedigree. With a Bankroll dam that is as prolific as any in the herd and sired by Shocker, who has an incredible set of daughters that we have retained the last several years, this guy will sire progeny that can perform on the grid or in the pasture. Anyone who has had Shocker daughters will tell you those cows are as pretty as you can make...good uddered, big bodied and functional. Do yourself a favor and get in on the ground floor here.

This is what you come for! 568N is a powerfully constructed Wallstreet son. His dam is a purebred Loaded Up daughter that consistently produces cattle that are high growth with big scrotals and fertile. She has a beautiful udder with a high milk yield and is one that throws incredible daughters. This stout dude is as powerful as you can make one with a tremendous amount of muscle, hip and bone, all in a smooth made package. He is a long sided bull that gets out and goes with plenty of flexibility and ease for one with so much mass and dimension.

Relief

FALL LONG
YEARLING
SIMMENTAL
BULLS

Lots 182-202

Lots 182 & 183

A pair of big, stout fall-born bulls out of the legendary "Mittens" cow that is responsible for over \$250,000 in progeny sales over the past couple of years. Numerous maternal siblings have brought well over \$20,000 and have gone on to find great success. A maternal brother by Relentless sold to Brett Richards in Iowa a few years back; you can find him in our sire directory, GCC Mastermind. A maternal sister, GCC Jazz Hands, brought \$30,000 for half interest in the 2021 Classic to Maple Lane Farms and went on to win Denver the following year. In the 2024 Classic, a pair of sisters by the all-mighty SAM were Lots 101 and 101X, fetching \$50,000 and \$70,000, respectively. Enough about that. I think these two bulls are the right kind to follow right in the family footsteps.

Lot 182, known as Relief, has been an absolute stand-out since weaning, topping the group as the heaviest bull at weaning. We thought so much of him that we halter broke him and have big plans for a bright future. He is the boldest built, stoutest made, biggest bodied Simmental in the sale. If you want extra power, bone, body and foot size, tie into Relief!

Griswold cattle retains 1/2 semen interest.

Lot 184

Meat wagon! I love this SAM son for his power, muscle and substance. Wide backed, big hiped and squared pinned, he is explosive in his rib shape and as deep as they come, all in a moderate, good structured, heavy boned package. He had an actual weaning weight of over 700 pounds—talk about adding some pounds at weaning! Now look at the maternal power on the bottom side of his pedigree. His donor dam, 903A, is one of the most impressive First Class cows you will ever see, so incredibly stout, huge bodied and exactly what an Angus cow should look like. With iconic Angus bulls like New Edition, Genesis and Missing Link and females like 3114, 814G and 745R, just think about the powerful maternal replacements this stud could produce.

GCC Rosetta 903A

Maternal granddam of Lots 184 and 185

Lot 186

I dig this moderate, stout 3/4-blood. Talk about power and rib shape! He is so complete and balanced with tons of natural rib shape and dimension, yet he still has a tremendous amount of muscle shape and width of hip. His dam is a moderate, powerful ground sow with Loaded Up and goes back to the influence of Chill Factor on the bottom side—predictable genetics!

J&J Queen 414

Maternal granddam of Lots 187-192

— Flushmate brothers sell as Lots 187-192 —

Stout, stout, stout! I love the way these SAM sons are constructed. They are wide pinned, incredibly big hipped and true to the ground with muscle shape and power for days while being bold in their rib shape and easy fleshing with good feet and legs. These studs get a shot of Maine from the bottom side with Irish Whiskey to add the extra bone and look. Their dam has been a prominent donor in the program and is one of the prettiest cows you will ever see. Going back to the legendary 414 on the bottom side, these are the no-miss kind of bulls!

A big, stout half-blood that can afford heavy use on some bigger cows. He is a stout built, rugged made individual with plenty of power and a set of big feet and legs. Taking after his now-deceased sire, Payroll, he has so much muscle expression and turn to his top with a big, square hip and a wide pin set. I love the boldness and shape he has to his center body and the way he balances up compared to either end, all with an awesome look. He is out of an amazing Total Recall granddaughter that just adds to his ability to produce functional cattle.

GCC New California 131J
Sire of Lot 198

The New California cattle have been very well received over the past several years, and this guy fits the mold. His dam is a full sister to the great Miss Boston, making him that much more valuable, as the Boston progeny have averaged well over \$50,000. This guy combines the best of both the Simmental and Maine breeds, combining power, performance and maternal all in one.

...the days I want to remember

G

Purebred Angus dam of Lots 205-213

When we bought the Sadler herd, we knew we were getting a lot of good cattle...ones that would produce and make a difference, but we had no idea the type of female we were getting when we purchased **Coleman Donna 9309**. She is one of those females that you just like to stop and stare at. She is so powerfully constructed and square made, with an overwhelming amount of center body while still being so sound and functional, with an incredible udder. With that she has an awesome set of numbers on paper that allows for a solid base to breed off of. She is a full sister to the popular calving ease sire Coleman Night Watch, known for producing small, vigorous calves at birth.

It does not matter what bull you throw at 9309, they are all good. Whether she is producing high end replacement females or high caliber bulls, she can get it done! She is young and just getting started, and I can bet this is not the last time you hear about her. She is the mother to our pen of three bulls from Denver last year that averaged \$20,000 along with 13 other sons. Not to mention the impact she has had for our partners. Sadler sold three Spring Cove Grant daughters this winter to average \$70,000! The third partner, 3R Livestock in Australia, has topped the market down under with sons and daughters alike. There is no question that 9309 is well on her way to being one of the most influential cows in the Angus breed.

This Argentine son is impressive! 4544 is 9309's natural calf and one that always attracted the attention of visitors when he and his dam were at Yackley's last year. I absolutely love the look and presence he offers combined with his overall mass and density. He is so good up front with a good shaped head and long front, a smooth shoulder, and incredible in his lower sweep and turn to his rib cage. A long bodied, big hipped bull that has plenty of muscle and power with a big foot. I think this bull has the quality to be a big time producer, and to top it off he is safe to use on heifers! The attention this mating has received over the last year is insane and might be the highest averaging mating we have ever had!

Hummel Argentine
 Sire of Lot 205

Flushmate brothers sell as Lots 206–210

lots 206-210

These five brothers are an incredible group of Heritage sons out of the famed Coleman Donna 9309. Combining two of the best cows to come out of the Coleman program, 9309 and the great 8113, these guys are the real-world kind. Stout, burly and maternal in their build with so much body and center dimension and without sacrificing muscle!

Check out these brothers' GE-EPDs, and be sure to take note of Lot 206's growth numbers, plus he has a top 1% \$M at +129 and \$C at +352 (top 10%). Definitely a group worth checking out!

While EPDs are never the primary breeding objective at Griswold Cattle, we do realize they can provide valuable information to assist producers in making informed selection decisions. EPDs that traditionally contained all pedigree, performance and progeny information now also may include results from available genomic, or DNA, tests. GE-EPDs allow for increased predictability and decreased risk for young and unproven bulls due to enhanced accuracy of EPDs.

The EPDs printed in the catalog on the fall long yearling Angus (and Simmental) bulls are genomically enhanced. GE-EPDs on the spring yearling Angus bulls should also be available prior to sale day. Go online to the breed association website to view the most up-to-date EPDs. It is important to remember that EPDs cannot be compared from one breed to another.

Black/Red Carrier flushmate brothers sell as Lots 212 & 213

Here's a different twist for 9309. Duff Fearless has quickly become a dominant sire of cattle with substance, body and red meat. Combine that with the maternal power of Coleman Donna 9309, and you get Black/Red Carriers that can change a program. These two studs have it all: pounds heavy, rib shape, foot and bone, all in a sound package. Elevate your program with an intriguing mating!

Duff Fearless 20123
Sire of Lots 212 and 213

Blairswest Erica 84H

Dam of Lots 214–229

We could write a book about what we think of this Angus female and what she has achieved in just a short amount of time. 84H is going to be an essential part of Griswold Cattle over the next few years.

Her dam, Bar-E-L Erica 74A, is one of the most influential females in the Angus breed. Her progeny have become foundation breeding pieces for some of the most elite Angus operations across the country, and we believe 84H is easily one of 74A's best daughters. Long spined, explosive in all aspects and plenty of real muscle, not to mention that her udder quality and teat structure are enough to make any cattleman fall back in love with the industry. This is the type of female we should all strive to build. Sixteen sons of 84H sell.

— Flushmate brothers sell as Lots 214–218 —

Lots **214–218**

The Badlands cattle are quickly becoming some of our favorite Angus cattle on the ranch, and for multiple reasons. Badlands is a sire that can improve a cow not only on paper but phenotypically too, which in this day and age is hard to come by. This group of flush brothers out of the great Blairswest Erica 84H is as deep as any flush we have had. They are all incredibly good. From the ground up, they are sure footed, wide built, easy doing kind of bulls that are still attractive and masculine built. These bulls combine power and maternal into a genetically proven package.

CATALOG INFORMATION

- Birth weights (BW) are actual weights. Weaning weights (WW) are adjusted to 205 days.
- Scrotal Circumference (SC) listed is the actual scrotal measurement, in centimeters, recorded March 2-4, 2026.
- If available through the breed association, EPDs are listed for: Calving Ease Direct (CED), Birth Weight (BW), Weaning Weight (WW), Yearling Weight (YW) and Milk. Keep in mind that EPD accuracies on young, unproven bulls are relatively low and are more reliable for a group of bulls than an individual. If not available, sire's EPDs are included. *Note that the fall Simmental and fall Angus bulls have genomically enhanced EPDs listed in the catalog.*

Flushmate brothers sell as Lots 220–224

An incredible group of bulls by the powerhouse stud Duff Napoleon, these bulls are all there and then some. Talk about muscle expression and rib shape! These guys have what it takes to sire calves that excel at weaning while still being maternally driven to produce high end replacements. Study their GE-EPD profiles, as they all have something different to offer in terms of spread from birth to weaning.

The Barricade cattle have been some of the best we have had. They are big bodied, powerful and functionally made with the added look we all strive for. Take that and combine it with the maternal power and doability of 84H, and you get cattle that will perform at the highest level. A daughter of Bar-E-L Erica 74A, 84H is a maternal sister to Blairs External Law, who is known for siring cattle with tremendous power and body. Moderate framed and robust in his center body, 4558 has plenty of power with the running gear to last a lifetime. These genetics are bound to pay off.

*Flushmate brothers sell as
Lots 230 & 231*

A rare opportunity to acquire not one but **two full brothers to Blair's External Law**, who has become widely known for siring cattle with power and substance. Aside from being full brothers to External Law, the best part of these bulls is your chance to purchase genetics directly out of the matriarch herself, 74A! It is no secret that 74A is the hottest cow in the production Angus segment, and for good reason—she is a proven and predictable powerhouse!

These bulls are the real deal. They have been favorites of those who have visited, being admired for their length and extension while still maintaining power with substance and bone.

Out of the legendary Donna 8113 and sired by the powerful Blairs External Law, this guy is all there. If you want them good looking, well balanced and loaded with power, line on up for these guys. 4549 is a longer spined, up headed bull that has a big rib cage and a killer set of feet and legs. Their dam is the leading producer for Grand River Angus in Michigan and was a major player in the Sadler Ranch success. 8113 is a daughter of the legendary Donna 714 that is one of the cornerstone donors at Coleman's. She is the dam of Sadler Heritage and is widely known for her longevity and fertility. Tie into this set!

— Flushmate brothers sell as Lots 234 & 235 —

In an effort to assist with your bull buying selections, the fall long yearling Angus and Simmental bulls have GE-EPDs printed in the catalog; GE-EPDs on the spring yearling Angus bulls will be available sale week. GE-EPDs on unproven animals have the same amount of accuracy as if they have recorded an average of 15 progeny, depending on the trait. EPDs are updated weekly by each breed association, so we cannot guarantee the EPDs that are printed in the catalog.

Full or maternal brothers
sell as Lots 236–239

Full sibs in blood sell as
Lots 236 & 237

Beef bulls! If you came to buy a bull that is just straight up good, these are your guys! Rugged built, stout made and dense middled, these two are destined to make cattle that everyone will love. We love their center body and the depth they carry back into their rear rib and flank, and their overwhelming amount of sheer power is something to admire. They are backed by the powerhouse Charlo donor 9422 and sired by the incredible full brothers Argentine and South America, who have made quite the name for themselves lately as outcross sires. These bulls are bred to sire killer females and cattle that perform.

Maternal brothers sell as Lots 238 and 239.

The past several years, KR Casino-sired cattle have been highly sought after. They have brought back real power and foot quality to the Angus breed while still maintaining look and presence. Brent Sadler had mated all his donors that way before we acquired them, and this is what was produced from those valuable aspirations. The length and extension, base width and foot size of Casino matched perfectly with the moderate framed, huge bodied, easy fleshing 9422 donor. Take advantage here!

Be with us for dinner Thursday evening!

Five Rivers Cattle Feeding, LLC will sponsor a Steak Dinner Thursday evening. Gene Lowrey, General Manager at XIT Feeders; Dr. Derrell Peel from Oklahoma State University; and Cheramie Viator, Westway Feed Products, will be discussing the cattle market, the advantages of retained ownership using these high quality genetics, and the bright outlook for the cattle market in the coming years while positioning yourself to be on top of your game during the up cycle. Come and join us! Then Friday have lunch with us and buy the bull, or bulls, to move your program forward!

This stout, powerful bull is packed with muscle and body, showcasing exceptional depth and width. His impressive power is a true testament to his sire, Argentine, known for passing on rugged durability and incredible muscle expression. A standout performer with the potential to add both power and substance to your herd, this bull is an excellent choice for those looking to enhance performance and structure.

The dam of Lots 240 and 241 is a beautiful LD Capitalist 316 daughter that is a no-miss kind of cow and is sure to inject maternal do-ability into any herd. A maternal sister to these two bulls brought \$20,000 to Kirk Duff in the Classic. Pay attention here!

Heifer bull! This might arguably be one of the best in the entire offering. Not only is 4548 a sleep-all-night heifer bull, but he is flat good phenotypically! He reads calving ease on paper with -1.0 BW and +13 CED EPDs to rank in the top 10% of the breed for both traits, not to mention he is designed with a good shaped skull and a flat, neatly laid in shoulder. He is perfect to use on bred heifers. The best part about him is how awesome built he is with incredible feet and legs, an awesome center body and plenty of power with a look that will stop you in your tracks! His dam is one of the best donors that we acquired, and she is a direct daughter of Donna 3202. The cow power in this bull is unrivaled!

lots 249-253

An incredible flush of brothers by the popular Riverstone Vegas, who has become known for his ability to produce real world kind of cattle that have foot, bone and power without sacrificing look. The donor dam they are out of is the epitome of what a good Angus cow should look like, being huge bodied, easy keeping, powerful and sure footed. She is backed by one of the greatest Angus cows to ever call G- home, Rosetta 903A, the full sister to the popular Duff Angus 011. It does not matter what your end goal is, whether it be to produce heavy commercial calves at weaning or incredible replacement females to make your friends jealous, this set of bulls will not disappoint!

When we purchased Bellringer, this is the exact kind of cattle that we were hoping he would produce. It is no secret that we do not chase the number game, but when the cattle look good and match the numbers, that is our speed, and that is exactly what Bellringer does. M907 is an incredibly well balanced, bold sprung son of 660B, who has sold multiple sons in our bull sales that have averaged \$15,000, and that is a testament to just how good that cow was.

This Good Times son is out of a powerful Class Time cow that is built for the long haul. M901 is long and extended with the extra punch and muscle we all want. The Good Times calves have far exceeded expectations, and I think you can see why. He combines two cows in his pedigree that are highly predictable, with 925R, the mother to Gold Standard, and Queen 414, one of the highest revenue producing cows in the industry. Take hold!

Conley A 1
Sire of Lot 257

The only two-year-old Angus bull in the sale, this Conley A 1 son is as impressive as they come. If you want power and look, look no further. This guy is what we strive for every day. So much muscle, body and bone work while being smooth made, long and extended with an incredible look. His No Limit dam is one of the most impressive young Angus cows on the ranch, and she goes back to the incredible cow maker OCC Jet Stream. I think this bull's picture speaks for him. I bet you will find this one sale day!

An extremely good one here that has been one of my favorites since weaning. A son of the Donna 1047 donor, who is a Natural Law daughter out of the high producing Donna 8113 that has produced more high sellers than I can list. 1047 is one of the best donors we acquired from the Sadler program and one that you will see for years to come after proving herself with this bull. I love this guy's overall look and masculinity. The turn and depth to his center body is awesome with a great balance from the side. He is as sound as they come and still, like his sire, offers an incredible amount of muscle and power. Definitely a sale highlight!

One of the most impressive yearling Angus bulls in the sale! As soon as you see 5017 in person, you will see why we are so high on him. Sired by Quicksilver, the 74A son and maternal brother to External Law, you can see why he is so robust in his build, with so much muscle and shape and an impressive center body. His dam is a beautiful SAV President daughter that is no stranger to raising high end cattle. A full sister to this bull brought a hammer price of \$90,000 a few years back in Sadler Ranches' sale. Dive into this pedigree, and you find cows that have made the Coleman program famous.

Coleman Donna 8292
Dam of Lot 260

Unless stated otherwise in the footnote, we are selling 2/3 interest in and full possession of all bulls. This means that the bull is totally in your control, and you get 100% of the salvage value of the bull. Griswold Cattle is only retaining a 1/3 semen interest. If the bull is sold to another breeder, Griswold Cattle retains the 1/3 semen interest.

The External Law cattle are some of the best that we raise every year. They have power, muscle and true base width, all the things you need to have a successful calf crop at weaning. This guy is the natural calf off the Pine Coulee donor J54, an incredibly built Bravo daughter that has an incredible udder and a look that is unrivaled. 5018 has the look of a herd bull. He is burly made, dense bodied and chock full of red meat.

Maternal brother to Lots 265 and 266.

*Flushmate brothers sell as
Lots 265 & 266*

Wow, what a pair of flush brothers! These two brothers are sired by one of the best Angus bulls in our battery, Vegas, and out of one of the most impressive young donors that we acquired from Sadler. J54 is moderate, easy fleshing and good footed, not to mention her rib shape and capacity are incredible. To top it all off, she goes back to Bravo and Resource on the bottom side, two of the best cow makers there are. Talk about a pen of replacement females that these boys could make! They both weaned off at the top of the weaning pen and have been favorites around the ranch since they were born. Much like their dam, they are tremendous in their rib shape, chock full of muscle, sound and incredible to look at. Take your pick—you cannot go wrong.

Maternal brother sells as Lot 264.

The number one thing we want from you buying our bulls is for you to be successful, regardless if you have 10 cows or 10,000, if you send them to a feedlot, or if you're marketing purebred seedstock.

An Argentine son out of a beautiful Resource daughter whose dam is Abigale 0277, a full sister to Coleman Charlo. This bull is a stud! I love the look and extension up front while still being rugged in his build and maintaining a big, sweeping center body. He is square made and packed full of muscle. This is one to tie into, and he is heifer safe.

Heifer bull! This son of Ellingson Hi-Range has incredible balance and eye appeal with a nice shaped head and smooth shoulder, proving to be calving ease just as the numbers suggest. While being a low birth weight option, he remains powerful and extremely opened up in his center body dimension. His mother raised him as a two-year-old and did an awesome job. Going back to Donna 8113 on the bottom side means you can expect great maternal strength.

Coleman Donna 7301
Maternal granddam of Lot 271

Another son of the proven calving ease sire Hi-Range and back to a beautiful Heritage daughter. This guy came off a first-calf heifer, but he gave up nothing in terms of performance. Cracked open in the center part of his body with plenty of power and muscle and still staying smooth and good headed like a calving ease sire should.

I really like this bull. He is built perfect from the ground up, awesome feet and legs, good angles, gets out and covers some ground, is so good about the shape to his head, and his center body dimension is undeniably impressive. A son of Quicksilver, the Canadian bull we turn out on cows that is out of the great Bar-E-L Erica 74A, making him a maternal brother to External Law and 84H. 5026's dam is a beautifully constructed, really productive daughter of Connealy Confidence Plus, known for making awesome females.

Last spring John and the boys went and bought Jack his first 10 cows, and he is pumped up about them! This is one of the bull calves that was on the side of one of the cows that he bought, and low and behold he weaned off as one of the heaviest calves that we had this fall. This Iconic son is the right kind...built solid from the ground up, good structured, soggy middled and powerful. If you want a pounds heavy set at weaning, this is your guy. Buy the first J- at auction!

The commercial man's kind of bull! 534 is rugged in his build and good structured, and he has plenty of muscle. Kelvin Jorgensen always sends us an incredible set of bulls that are built right, weigh up and are truly functional cattle. This pedigree is stacked with cow makers. Do not miss this guy!

4/B Forever Lady 266K
Dam of Lots 285 and 286

Flushmate brothers sell as
Lots 285 & 286

A pair of Timeless sons out of a young donor and past feature of the 2023 Classic. Their dam, 266K, goes back to a beautiful Insight x F10 female that Maggie showed early on in her career, making her a maternal sister to numerous show heifers that we have marketed for the 4/B program for an impressive \$27,000 average! If you want to inject more look and phenotype into your cow herd, check out these boys. They are as good looking as they come, long bodied, good balanced with awesome rib shape and as athletic as you can make them.

HEREFORD BULLS *Lots 295-302*

The Hereford division here seems to grow with every passing year, and with this kind of quality, it is easy to see why. This Dominate son is flat out good, no matter what color he is. I love this bull's substance and build, his big legs and powerful hip, and the way he combines all that into a smooth made, attractive package. His center body is incredibly deep and bold while maintaining a level top and a long hip.

Griswold cattle retains 1/2 semen interest.

Each year we search for the next great promotional sire in every breed, whether it be one that we raise or one to buy. We continually strive to push forward. This year we knocked it out of the park with one that wears the G-proudly on his left rib. A direct son of the industry leading Mafia out of the 461G donor, the only FULL sister to the \$300,000-valued Belmont. 461G is a past Lot 101 from the Classic that sold to Maple Lane and Thwaits, with her bred heifers selling in this past Classic averaging \$15,000. Not to mention that the Belmont-sired calves have been highly sought after the last couple of years, topping multiple sales across the country. The cow power behind this bull is unmatched, going back to the great B571 cow that was highlighted all over our social media before her passing as one of the prettiest cows to ever live in Stillwater.

Black Tie might be the very best Maine bull that we have ever raised! He is powerful enough to put muscle back into these show heifers that we all want to raise while making them easier keeping, and he still has that look and presence you need to stay competitive in the show ring. We took Black Tie to Denver and Fort Worth, where he was named Champion High Maine bull at both events and was highly sought after by many, being praised for his look, structure and ability to transmit power with real-world muscle and hip shape back into the breed. Black Tie is as special as any animal we have ever raised, and we expect the future of this stud to be very bright. Do not hesitate when Bonham asks you to bid one more time!

SPRING YEARLING MAINE- ANJOU BULLS

Lots 305-318

Flushmate brothers sell as
Lots 306 & 307

A pair of Mafia brothers that are all there! These are the kind of cattle that the Maine-Anjou breed needs more of—powerfully made, big hipped, big nuted, huge bodied and legs the size of trees!

These two have been standouts since birth. They were always the biggest, stoutest ones in their ET group, and they proved that by weaning off with some of the heaviest weights. If you want to add pounds and power back into a cow herd, these boys are the ones. Oh, and did I mention their Maternal Made dam is one of the best young donors in our battery, with 11 head of ET calves just from 2025? I promise you will be hard pressed to find another Maine cow as soft made and sound structured as 9930. Imagine the set of replacements these studs will leave you. You will have people lined up to buy them! Bid with confidence on two powerhouse Maine bulls!

A standout for sure! The good Mafia bulls just keep on coming out of top end donor cows that give them the added advantage to become industry greats. This guy is extremely good on his feet and legs, great bodied and has plenty of power and an undeniable look and presence from the side. His dam, Beth Dutton, is one of the most impressive and productive cows in the Schaeffer Show Cattle program. Not to mention she goes back to the legendary Red Thunder cow on the bottom side. If you are wanting to invest in a big-time opportunity, this is your man!

*Don't ever hesitate to call or reach out to us.

Maternal brothers sell as
Lots 309 & 310

lot 309

There is no denying the impact that Memphis Mafia has had on the Maine-Anjou breed over the past several years, producing cattle that top just about every sale they are in. We were able to get our hands on some semen and used him on our very best donors, and I think it paid off!

This Mafia is out of the great Tots donor that was so dominating for Maggie a few years back. This bull is flat good. He has the look and extension to make show cattle, and the hip, power and structure to produce top end good cattle. It will not take you long to find this one!

lot 310

Eye appeal and royally bred! This guy has been one to admire since he was little. He is good looking, up headed, long spined and as sound as a cat. I love this bull's shape and dimension with a big hip and wide pin set. Sired by the great Belmont and one of the first calves out of the great "Tots" donor, who most notably was Champion MaineTainer at the Junior National for Maggie and finished her show career at OYE as Reserve Grand Champion Supreme Female. I expect this guy to produce incredible offspring.

 Dam of Lots 305 and 311

lot 311

There are two Promise Keeper sons in the sale, and they are good! This Lot 311 is as stout built and pulled apart as they come. From the ground up, he is rugged built with big feet and legs, wide pinned, big hipped and chock full of muscle. His dam is one of the best young donors we have, 461G (the full sister to Belmont), making this guy a maternal brother to one of the best bulls we have ever raised, Black Tie!

lot 312

Another Promise Keeper with the added bone, foot size and muscle that injected into a cow herd will weigh up at weaning. An easy fleshing kind of bull with really good rib shape and do-ability that is sure to produce cattle that will grow and have the added mass and dimension that we all look for in a good set of calves.

One of the first Double Threat bull calves to sell, and they are the right kind! Powerfully constructed, heavy muscled and wide built, he is the right kind to produce those high-end weaning cattle we all like to raise. He had an adjusted weaning weight of 706 pounds with no creep feed, and that is the kind we all want to produce. His Maternal Made dam is dense made, heavy structured and wide pinned. There is no doubt this lineage will prove to be consistent.

Maine Angus

STUD! The only two-year-old Maine bull in the offering, and boy is he special! Since he was young, he has been a standout around the ranch, always admired for his foot and leg quality, soundness of structure and his overwhelming amount of power, muscle and body shape. He combines all of this in an extremely attractive, incredibly balanced package, and I have no doubt that he has a bright future producing next level replacement type females.

His Angus dam was one of the best donors we ever owned and one that just clicked with anything you mated her to. In the Classic alone, four daughters of 847E, all by different sires, averaged an incredible \$32,000, with one being a full sister to this bull at \$46,000. There is no denying the power and predictability this guy brings to the table.

Maternal brothers sell as Lots 320 and 321.

SPRING TWO-YEAR-OLD MAINE-ANJOU BULL

FALL LONG YEARLING MAINE-ANJOU BULLS

Lots 320-328

Lot 320

— Full brothers sell as Lots 320 & 321 —

Bring on the power of the Maine Angus! The Maine Angus division of the Maine-Anjou breed has exploded over the past few years, combining maternal and power into a smooth, functional package. These two fall bulls are sired by the great Ole Money, who consistently adds power, mass and bone with a good look. His first bred heifers to sell last year in the Classic averaged \$26,300, including females selling for \$100,000 and \$75,000. Now take that and cross it on a powerful First Classic Angus cow that has a tremendous amount of body, hip shape and structural integrity. 847E is as consistent as they come, with four daughters averaging \$32,000 in the Classic, and her sons have averaged \$15,000 in the last two bull sales. These guys are stout, burly, full of muscle and ready to breed cows! Maternal brothers to Lot 319.

"Impressive" is the first word that comes to mind. This guy is stout, burly and all there! A sale standout from our good friend Odie Heck, this Good Times son is one that we all strive to produce and the right kind that the Maine breed needs more of. Big footed with huge legs, wide pinned, massive hiped and tons of red meat, while still being awesome at the ground and wrapping it together with a killer look. Not to mention he is big scrotaled and ready to breed cows. He had an adjusted weaning weight of over 900 pounds! If you want those sale topping cattle at weaning, this is your guy.

Maine Angus

The first and only calf out of the \$160,000 GCC Fenway donor, purchased by the Lockhart family in the 2021 Classic. Fenway is one of many flushmate sisters out of the great Boston that averaged over \$100,000 at public auction, and the sisters have now started to dominate in production. Fenway herself had a tremendous show career, which included being Fifth Overall Maine-Anjou Female at the 2022 Junior National.

This bull by Good Times is long and extended, good footed at the ground, and incredible in his center body. This is the easy feeding kind that will last!

I don't think you could write a better Maine pedigree at the G— than this guy has! M4410 combines two of the best cow families that we have ever owned with Belmont and B571 on the top side and Z450 and 1829 (dam of Cerveza and Whizard) on the bottom. The power and consistency this bull offers are unmatched, not to mention the longevity this pedigree offers with 1829, living and producing to dang near 20 years of age. This is a genetic gem!

No other bull in the industry consistently puts as much power, bone, hip, and look into his calves as Garth. This son is a big footed, powerful bull out of an incredible cow that knocks it out of the park every year, with her progeny averaging well over \$20,000. A full sister to this guy, H425, works in the donor battery and is one of the most powerfully constructed, dense made Maine cows you will find.

THE COMMERCIAL FEMALES

Selling 100 spring first-calf pairs and heavy breds.

Details on these top quality commercial females will be available sale day.

Watch the Sale on CCI.live!

The best, the fastest and most comprehensive marketing & bidding tool!

How to Bid Online...

- **As a buyer**, you DO NOT need to login to watch the sale but you must have a validated account to bid.
- To BID ONLINE** go to www.CCI.live in your Chrome, Firefox, Safari or other modern browser:
 - 1) Click on the sale schedule page.
 - 2) Click on the sale of interest.
 - 3) Click on Bid Online- Register and then Get Buyer Number
- After you are logged in, you must proceed to the sale page for your auction and click Bid Online - Register, then **"Get Buyer Number."** Some auctions require valid credit card number on file to obtain a buyer number to bid.
- CCI.live will operate with ease on a modern **cellular device, laptop, desktop or tablet.**
 - A **current browser** is important and will always make your experience better.
- **For successful bidding you must have good Internet service!** It is very important to be stationary if bidding. If you are driving and bidding, expect to have some service issues. If you are stationary on a good device, with healthy Internet, expect a very successful bidding environment. If you have slow Internet watch the "asking price" on the screen, it is real time, and refresh your browser if you feel like you have some lag.
- **Support line open during all sales. TEXT 405-400-9505** - Please alert the ranch for your hauling preferences.

*Thank you to our
awesome crew!*

Our crew is second to none! They all work hard to make the wheels turn here. From calving, to clipping, to sale prep, they do it all. Through long days and long nights, they are who we turn to, who we depend upon. We couldn't do all this without them, and we really appreciate them more than they will ever know.
