

BEASLEY ANGUS

Production Sale

APRIL 11, 2026

1PM SALETIME

2755 Goreville Road, Goreville, IL 62939

To Our Friends and Fellow Cattlemen,

We welcome you to our first annual production sale and appreciate your interest in our program. We would also like to sincerely thank the many customers who have supported us through private treaty bull sales over the years, and extend a warm welcome to those we hope to build new relationships with through this sale. Beasley Angus Farm and Feedlot is a family-operated cattle operation located on the same farm our family has owned since 1918. We began our registered Angus herd in 2002 and have marketed bulls through private treaty sales since that time. In addition to the registered herd, our operation includes a progressive commercial cow herd along with backgrounding and finishing cattle. More recently, a calf buy-back and retained ownership program has been added to further connect our genetics to performance and the premiums available through grid marketing.

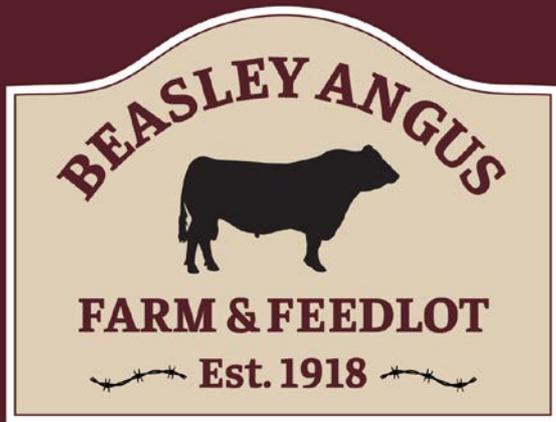

At Beasley Angus Farm and Feedlot, our breeding decisions are made with the full production cycle in mind. We believe cattle should work at every stage—cows that are functional and moderate, calves that are born easily and grow with purpose, and finished cattle that deliver the eating quality and consistency consumers expect from a superior beef product. When selection pressure is consistently applied to traits of true economic importance, the result is cattle that perform reliably and create opportunity throughout the industry.

That philosophy doesn't end on sale day. Through our buy-back and retained ownership program, we remain actively invested in the performance of our genetics. This program gives commercial cattlemen enhanced market access and the opportunity to participate throughout the production cycle. From birth to harvest, while creating value every step of the way. The performance and carcass data generated through these cattle allows us to continually refine our breeding program and ensure the genetics we offer are built to meet today's market demands. We encourage anyone interested in learning more about carcass data, retained ownership, or the calf buyback program to contact us with any questions.

Supporting our efforts is the use of advanced technologies, including genomic testing, carcass data collection, and carcass scanning. As well as innovative reproductive technologies in our cow herd. These tools allow us not only to improve our cattle, but to measure progress with accuracy and accountability. By combining real-world performance data with genetic information, we are able to make more informed breeding decisions and offer genetics that are designed for calving ease, growth, and carcass merit.

Our optimism for the future of the beef industry is shared with the many producers who continue to push for measurable improvements in carcass quality. As more cattle are selected and managed to excel on the rail, the result is a more consistent, higher-quality beef product that strengthens consumer confidence and drives demand—all while leaving sisters behind that will multiply and propagate these genetics for years to come! We are proud to be part of that effort and value the relationships built with cattlemen who share a commitment to producing cattle that add value from pasture to plate.

Thank you for your continued interest and support. We look forward to visiting with you and sharing this offering.

BEASLEY ANGUS

Inaugural Production Sale

APRIL 11, 2026

2755 Goreville Road, Goreville, IL 62939
LUNCH AT NOON, SALE AT 1PM

SALE DAY PHONES:

David Beasley 618.964.5740

This Vision son will be sure to catch everyone's eye on sale day. He has the presence and muscle definition that make him stand out. No questions here, he is a heifer-safe bull. He offers great efficiency value, Milk, with top 35% CW and 2% Marbling. Top 3% or better for \$G, \$B and \$C. His calves will make the grade, and payday will be worth it.

421X is a sleep-all-night heifer bull with top 20% Growth Traits. If you want the genetic advantage for End-Product Merit, this is a bull that needs to be on your short list. Top 2% for Marbling and 1% for RE. He will increase carcass quality in one calf crop. The order buyers will like these calves and will have orders for them every year.

High-growth option here. 2470 brings explosive WW and YW EPDs to the table. He will make a great option for a group of mature cows. There is a lot of Maternal Value in this bull as suggested by his \$Maternal Index. You can also appreciate his management traits for Claw, Angle, and HS. Big-time Carcass Figures that will lead to a great eating experience for consumers.

452D is out of one of our former donors. You have to appreciate his genetic merit for Calving Ease, BW, WW, and YW. Calves will get here easy and have plenty of growth. He has the carcass value to add hanging weight and premium value. Study the indexes, and you will love his +105 \$Wean Index. If you are selling weaned calves, that will be important. His Top 15% \$M is nothing to overlook either if you need replacement heifers.

511A is our leadoff yearling bull. He is stout and heavy muscled. He is in the top 30% of the breed for CED, and you will appreciate his growth traits being in the top 20% for WW and 10% for YW EPD. He offers a balanced set of management traits with and incredible combination of CW, Marb, RE, and Fat. This bull will increase your pay day at weaning, and on the rail. There is a lot of value here!

5007 offers an elite combination of calving ease, exceptional growth and performance, and added carcass value. In our current economic value of the beef industry, you can expect him to sire calves that will have added weaning weight, yearling weight, carcass weight—which all lead to profit with added bonus of carcass quality to lead to premiums!

GAR Powercat

A special note of appreciation...
 Beasley Angus exists due to the hard work and sacrifice of Dale and Connie Beasley. For more than six decades they have epitomized the tradition and values of the American Family Farm. From their family, we want to express our appreciation for their life-long commitment. Thank you for your love and devotion. Thank you for your faithfulness to the Lord and His church. We praise God for your example of hospitality, generosity, integrity, and perseverance.
 To God be the Glory!

This young Veracious son is out of a Home Town daughter. He has a pedigree built to enhance carcass quality. When you study his marks for CW, Marb, and RE, you will see he has the ability to sire calves that will hang on the rail for added premiums. He is a calving ease option with top 25% growth traits, top 25% for \$M, 15% for \$W and 10% or better for \$F, \$G, \$B and \$C.

Calf Buyback and Retained Ownership Opportunities

We understand the value of the genetics our bulls possess. Years of disciplined selection for carcass quality and feedlot performance are paying off throughout the feeding phase and on the rail. We offer calf buy-back and retained ownership programs. This allows our customers to capture the full genetic value of their cattle, and provides us with valuable performance/profitability data to further enhance our "calf to carcass" goals. Whether you're selling weaned calves or looking to retain partial ownership through the finishing phase, we're committed to making sure your investment in Beasley Angus genetics works for you.

 This Paramount son offers performance, and carcass value. He ranks among the top 5% of the breed for Marbling and Ribeye Area, top 35% Foot quality, and multiple terminal \$Value indexes, highlighting strong end-product and grid-based marketing potential. Moderate growth and mature size support efficiency, while solid maternal indicators contribute to functional, productive females. Additional strength in carcass and terminal indexes positions this bull as a versatile option for commercial producers seeking added carcass premiums without sacrificing practicality.

Selling a Flush!

Offering a flush on one of the most unique Craftsman Daughters in production. She was purchased at Brinkley Angus in 2025. She is out of an incredible Fireball daughter that was produced at Katie Colin Farm in Cartersville, GA. Rita 090 has been a great producer for Katie Colin, Brinkley and Lazy H Ranch. Rita 090 also produced the high-selling open heifer in the 2024 Fall Harvest Sale that was the \$20,000 selection of 4 Sons, and also an \$18,000 heifer sired by Kingston in the 2025 Katie Colin Sale selected by Gabriel Ranch in TX. This flush on 3899 is an incredible opportunity for outcross and genetic excellence. She checks all the boxes for Production, Maternal, Management and Carcass Value to add Multi-Trait Excellence to your program! Among all dams sired by Craftsman's she is #5 for WW, #7 for YW, #4 for CW, #1 for RE, #7 for \$F, #4 for \$G, #2 for \$B and #3 for \$C!

This is a high \$M Valued Sure Fire daughter with great marks for Marbling. She is a calving ease female with added fertility, Milk, and efficiency.

Thank You
for Coming!

Commercial Females

Beasley Angus will offer 15 Commercial Bred Heifers.

Offering 10 bred commercial Angus heifers and 5 commercial Angus cows developed in our performance focused program.

Heifers were AI bred to proven, low birth weight Angus sires and cleaned up with a son of GAR Apex. The cows sell pasture exposed to Beasley Angus herd sires.

These females are due to calve in a tight September through early November window, offering a uniform fall calving group built for practical calving ease, rapid growth, and feedlot performance.

All females are sired by Beasley Angus bulls. Heifers will be GeneMax tested. Complete breeding dates, service sire information, and projected calving details will be available in the sale day supplement.

"Since we switched to the Purina Nutrition Program, we have seen an increase in carcass quality grade, over and above already outstanding numbers. We have also seen an improvement in hoof health in all sectors of our operation which is critical for longevity of all cattle. The condition of these bulls offered for sale is super. We are very pleased with the nutrition our cattle are receiving and the added benefits that come with a good nutrition program." - Jeff Beasley

WHY THESE CATTLE STAND OUT

✓ High grading, grid-focused steers

✓ Consistent performance

✓ Proven and repeatable results

Interested in a nutrition consultation? Call Colten Collier today at (618) 697-0404 or reach out to your nearest Southern FS location to learn more.
