

Rocking W Angus

13TH ANNUAL PRODUCTION SALE

With Guests: Two Rivers Cattle Company, Brooks Farm and Miller Angus

Sunday • 2 PM (EDT)

APRIL 26, 2026

Jefferson, Georgia

Rocking W Angus
Robin Wilson
302 Smokey Hollow Rd.
Jefferson, GA 30549

Welcome to our 13th annual production sale!

They say time flies when you are having fun and I can add that it flies faster as I get older as I continue to tell folks that getting old is just not for sissies! Demand for quality cattle is greater than ever before! The differences in carcass quality is more apparent now than ever and that makes our pasture to plate process so much more important. Our attempts are always focused on improving our genetics and offering more and better choices for our customers while working to make beef better. Once again, we bring an offering of our best group yet and hope you find that to be the case as you review the catalog. The challenges in this business are always there but we have learned that it's best to just be thankful for what we have!

We have chosen to follow the breeding discipline and philosophy that has guided one of the oldest, most successful and most trusted programs, our friends and partners at Gardiner Angus Ranch, and enabled significant directional change over decades – selection for ALL traits of economic importance. That equates to a focus that ensures value and the opportunity for profitability from birth to harvest. Every animal has a job description. All our females are expected to conceive within our time restricted breeding. Those that fail to conceive are given a different job and generally find themselves a part of the food chain. The value of females, regardless of end point, is greater today than ever before. Our goal of producing Angus cattle that are efficient in the pasture, express good carcass and maternal traits and meet the needs of our customers in all aspects of the industry is always at the forefront of our decisions. We are proud to be a Gardiner Angus Ranch Allied Producer and as such, we incorporate the time-tested concepts of using proven sires and daughters of proven sires to produce offspring that add value and a higher level of predictability for our customers.

We continue to work closely with an incredible group of partners while using the ever-changing pool of available genetic information to improve our A.I. and embryo transplant operations. These methods assist us to build and sustain a reputable, proven, and preferred cattle program. The rapidly evolving genetic research and strength of the American Angus database continue to serve well to quickly identify proven sires. We rely heavily on the expertise of our sale manager, Roger West to keep us focused to improve our decisions at RWA as well as provide our customers with increased knowledge to add value within their herds. We thank you in advance for taking the time to look through this offering. From the front to the back of the catalog, they are the very best we have to offer, and we are proud to stand behind every lot.

The 100+ females offered in this year's sale rank as follows:

Trait	EPD	Percentile Rank
CED	+10.0	Top 10%
YW	+137	Top 15%
Marb	+1.69	Top 1%
REA	+1.09	Top 5%
\$B	+228	Top 1%
\$C	+363	Top 1%

The time between our annual sale events sure seems like less than a year and the Rocking W Angus operation would like to say thanks to all the buyers from our previous sales and welcome to the newcomers as future customers! We are thankful to have great friends, the Millers from Virginia and Brooks Angus Farm as a part of our spring sale event! A good friend and fellow Angus breeder once told us that this business is all about relationships. Truer words have never been spoken! We appreciate your confidence in our programs and look forward to forming new and strengthening continued relationships with our customers. We look forward to seeing you, and any others you know that might have an interest in our cattle, in person at our sale or on-line through CCI.live. Visit our website and watch for us on Facebook for news and updates.

We firmly believe that a man's word is his bond. You have OUR word that we will work hard to offer the very best and earn your business along the way. Stop by and see us. You're welcome at our door any time. We always look forward to riding through the cattle! Please feel free to contact any of the folks listed in the catalog if you have any questions.

Sincerely,

Robin Wilson, Brock Wilson, Kirk Childress

We lead off this event with an awesome daughter of the ultra-popular Grid Maker backed by five generations of RWA genetics. W1344 posted an individual IMF ratio of 113 and resides among the breed elite for Marb and \$Grid, and offers impressive growth and ribeye potential as well. This exciting donor ranks in the top 5% for 7 of the 8 \$Value Indexes including top 1% for \$Grid, \$Beef and \$Combined. She sells bred, due August 17 with a bull calf by G A R Acceleration.

This year we decided to offer buyer's choice on three flush sisters by the rare and valuable Wallace out of one of our up and coming young donors. These three prospects are coming from the top of the RWA replacements. They combine two of the hottest sires going right now, and come from a highly proven family stemming from the foundation 44 Farms donor Lucy 11209 through her daughter Lucy 4775. The winning bidder will be allowed to make their choice after the heifers are weaned this fall. They were born in January.

The first of two flush sisters by Fireproof that are maternal siblings to the \$25,000 selection of Terraced Acres Ranch in last year's sale. W1194 posted individual ultrasound ratios of 104 for IMF and 106 for ribeye to help place her in the top 4% for those valuable traits. She produced 10 viable embryos in two flushes and sells bred, due August 26 to G A R Peerless.

GARDINER

Feb 4, 2026

Dear Robin and entire Rocking W team,

We consider it a privilege when asked to offer comments to be included in an Allied Producer's sale catalog. We know the request is backed by decades of commitment to Gardiner Angus Ranch genetics AND the disciplined approach required to replicate the process.

The historic market we are experiencing today is also a tremendous opportunity to invest in elite genetics that give your customers a greater chance at profitability. Your proven history of discipline and commitment to excellence provide your customers that very same opportunity.

It is always interesting to observe many seedstock producers' quest to "be different." We believe being different doesn't translate to predictability or improved multi-trait performance, nor ultimately, better beef. We congratulate you and Rocking W for ignoring the noise and staying disciplined for over two decades. The genetic packages you offer your customers today are predictable and designed to make continued cow herd improvements.

We both know the sale of an animal is also a commitment to your customer. Knowing that you and Rocking W stand behind every animal that leaves the farm is, no doubt, equally as important to your customers as the actual purchase. The "Golden Rule" is more than a customer service. It is your word and continued commitment to their success.

As you prepare for your 13th Annual Production Sale on April 26, take a moment to appreciate your chosen journey to make beef better. We, alongside you and your family, are seeking to produce the most wholesome meat protein in great demand today because of consistent quality and taste.

I encourage anyone considering predictable quality and value to their current operations to buy these females with the same conviction you have shown for many years. We appreciate your business over decades, but more importantly, our family is so grateful for your friendship.

Sincerely,

Mark R. Gardiner
Gardiner Angus Ranch
Ashland, KS

Rocking W Angus

13TH ANNUAL PRODUCTION SALE
