

15th Annual Sale Event

SATURDAY, APRIL 4, 2026 • 1:00 PM • EXCELSIOR SPRINGS, MO

Welcome to our 15th Anniversary Sale Event!

Welcome, on behalf of the entire crew at Shoal Creek Land and Cattle, we are excited to share the 2026 offering of the 15th annual Gathering at Shoal Creek. The past year has been fantastic in the beef business. This year we are seeing one steer calf bring what 2 or 3 would just a few years ago. Spending the time to evaluate and invest in new genetics has never been more well spent. The amount of added value an elite female or a high growth bull can add to your herd in this climate can be exponential. Take time to look over this offering, many of these matings happened 2 to 3 years in advance to this sale, we are pleased to show off our hard work and dedication to both the Simmental and Red Angus breeds.

A few standouts to this year's sale are found in the first couple of lots. A pair of absolute stunner full sisters will be sold as a Choice Lot, SC Mary N23 and SC Mary N24. These future donors are daughters of Maple's Mary 1013J, an instant impact donor we own in partnership with Lee Simmentals, not only do they carry a powerful maternal side but they are sired by the \$200,000+ LLSF Dauntless. These girls will compete in the show ring and then produce in the donor pen. Speaking of donor cows, we will be offering HILB Lost in Love E44G in the offering this year, she needs no introduction to the Gathering. E44G is a female that has left a lasting impact on our herd. Multiple daughters roaming the hillsides and sons who have commanded top dollar, with that we decided to share in the opportunities she will surely give to her next owners. The bred female division is as deep as ever. We are excited to offer our first RVR Revolution 063K females AI bred to Five Star Ace, as well as the first calves from KBHR Gunner M089 on side of the spring pairs. As well with calves and service to the \$30,000 MCL Night Move 3015 throughout the Red Angus offering.

This year's bull offering is incredibly deep. What we may lack in number we do not lack in quality. We continue to utilize both Genomic data in DNA testing and Ultrasound Data for carcass quality, to give you the tool for your selections. As always we strive to offer bulls that will work in a multitude of scenarios, be it feeder calves, fat cattle or replacement females. If you are looking for a bull, reach out and we can help you select the right one for you.

We want to take a moment to recognize Ed and Kathi Rule on their commitment to quality in all aspects of life. Dedication to family, cattle and business is without equal. Over the past 40 plus years the family behind the Shoal Creek brand has set the standard of quality that we strive to produce each year. Trust in a brand that has longevity and quality with people who stand behind them all the way.

Once again Thank You, for taking your time to view the offering. Please feel free to stop by and view the cattle before the sale or the videos on CCI.Live, it would be our privilege to invite you to our steak dinner Friday evening April 3rd and of course the 15th annual Gathering at Shoal Creek April 4th at 1pm.

Sale Manager Welcome...

Welcome to the 15th Anniversary Sale for The Gathering sale powered by Shoal Creek Land and Cattle. Ed & Kathi Rule had a vision when they looked at the hill on the Excelsior Springs ranch and knew where the sale facility needed to be built surrounded by cattle that would add value to the beef industry. What a ride it has been and the results to date are cattle that are able to function in any environment while accelerating profit for their customers.

As we continue to review the livestock market results, we all rejoice for the cow/calf producer being rewarded for their calf crop. It is no secret that running a cow herd is not for the faint of heart with challenges of weather and herd health so let us all enjoy this cycle of the beef business. The Shoal Creek team has a passion for that they do day in and day out. This passion is reflected by the 2026 The Gathering offering. The fancy open females are stacked with genetic power along with a stellar look, ready for the tan bark and creating memories for their new young owners. It is not often a program offers donors that have done so much for their breeding lineup, but the breeders are doing just that. There are females for both the spring and fall calving programs so study your lesson for new exciting ladies. The bull division once again carries the same tried and true performance power that Shoal Creek is known for. Long time customer Perry Vandiver recently topped the market with calves sired by Shoal Creek bulls which validates the value of this program. Now is the time to freshen up your breeding program with new breed leading genetics.

Hospitality is "King" at Shoal Creek, please accept this as your personal invitation to come to the beautiful sale facility on the high overlooking the rolling hills of the ranch. Enjoy the delicious meals provided by Kathi and her team and view the cattle that are the result of the vision Ed had so many years ago of loving the cattle business.

Our phones are always open, feel free to call the Shoal Creek team or our friends as guest breeders at Erickson Stock Farms, Vestlane Farms or us at EE. We are here to help and enjoy the visits. See you on April 4th as we celebrate 15 years of "The Gathering Sale!"

Talk about some that are hard to let go. We want to offer the highest quality females we can each year, these two are a prime example. Sired by the \$210,000 Dauntless and from JSUL Maple's Mary 1013J, a daughter of Copacetic and the Famous Proud Mary! N23 is the powerful well designed female that packs so much middle body and base width in a feminine package. N24 is the show stopper, baldy face with elegant front 1/3 and so much balance and presence. We can't decide which one we would keep so we are going to let you do it for us. You will get to buy your choice of these two full sisters on April 4th and either way you cut it, you'll have an instant herd impact.

Try to stack more National Champions in a pedigree than this one. Sired by Double Up who won OKC in 2020, then add the shots of Remedy and Rubys Rhythm 972G, you have elite genetics. But that's only half the story. She has all the phenotype needed to compete regardless the level. This one will be fun all summer long.

Another fun Dauntless heifer for your appraisal. Who doesn't love a red head? This female will get your engine going each day. Long front end and high chest floor, while being deep ribbed and on one heck of a set of running gear. Her mother is a great Executive Order daughter so the maternal attributes are set for the future. The type and kind of female that you can build around!

Tom Hook once told me "You can buy a show heifer here, but my kind of heifer won't really shine until she is pushing two years old." He was prophetic, as before long not one, but two heifers he raised won the percentage Simmental show on the hill at Denver. They were full sisters named Bella and Demi, and luckily, we bought embryos from the flush which resulted in our power percentage cow, J217, dam of TEF Miss Patriot N217. Look at her picture. Miss Patriot is so much like her famous aunts: long as a train, standing on massive bone, with that old fashioned Simmental power that blossoms into a beautiful heavy bred package. Whether you want to show her, own a front pasture cow, or lay in a futuristic donor dam with time honored family blood, Miss Patriot is one to consider. The addition of her sire, Lcdr Patriot adds updated genetic excellence, the gorgeous bald face, and the physical power of the great Sugar cow. We have confidence that this sweet girl will get better every single day, and we offer her only knowing that we own her young mama and will be mating her back the same way.

She's got bone, she's got body, and she's built right! Breed her right and this is the kind of female that should throw heavy muscled, big bodied, and stout featured bulls. Backed by one of the most prominent cow families in the business, N07 is destined for the donor pen. Its hard to lose money on productive females that move like she does. Find her on sale day and look like you know what you're doing next year.

A Red Angus female we are very high on. It took some arm twisting to get this female in the offering. If you know Ed Rule he likes his Red Angus females and this one is without a doubt top end. The length and extension she possesses along with the overall body shape is right for the times. Take her and show her all summer then sit back and watch her produce for years to come.

A truly unique opportunity in the 2026 edition of The Gathering at Shoal Creek. E44G has left her mark from day one at Shoal Creek; she was the \$15,000 selection from Hilbrands Cattle in 2019. The definition of presence and elegance everyday holding her condition and structure at the ripe age of 9 years old. In combination with her youthful appearance, she has 30 prodigy in the ASA with more on the ground yet to be entered, she is a prolific producer of embryos each time averaging 12.4 quality embryos on 10 IVF collections. She has produced both sons and daughters who are working in herds across the country. Check out the 2 fall show prospects in the catalog along with the herd sire prospect. Bid with the confidence needed to add this donor to your herd on April 4th, being bred to UDE New Heights could be her greatest one yet!

These two fall heifers starting off the fall born division are direct daughters of Lost in Love selling as lot 8. These girls are sired by the great Copasetic, who is sire of many of the top genetics in the industry, leaving a great impact across the breed. With the scarcity of Copasetic semen, here is a chance to own a daughter backed by an elite donor cow. We think highly of both sisters and complement each other very well. Bold in their design and with length and structure. You can't go wrong either way!

A little different spin in the next two lots. These females come to you as higher production value cattle with genomic traits. Don't let that fool you, both of these daughters of the newest donor Rubys Yetti 261K are flashy in their type and kind. Well balanced and fundamental cattle with longevity and predictability. N102 is a purebred daughter sired by KBHR Homestead H016 a son of the famed Sugar C4 cow. She packs a high API and calving ease figure into a big structured wide body package. N112 is a super fundamental Sim-Angus daughter of DB Iconic, a bull who needs no introduction into the production trait leaders. She is everything you would want from a breeding piece in a flashy package.

When you study these heifers in person, they really grab your attention. Once you get to the pedigree, you know these heifers are exciting. Sired by the female producing 9 Mile Franchise and from the cornerstone donor SCLC Windsong H512, a female with a stacked pedigree herself and years of producing at the highest levels. N503 and N511 have all the pieces both phenotypically and genetics to become a cornerstone for you in the future.

The first offering from the \$30,000 MCL Night Moves 3015, this bull is going to leave a huge impact not only at Shoal Creek but the Red Angus breed as a whole. N514 is a fancy elegant female that blends so much style into a functional design that is in high demand. This is the type and kind of female that gets you excited to be in the cow business.

Looking at this gorgeous two year old reminds me why I have loved this breed for over fifty years, of how far we have come, and of why we think OMF Epic is the reigning cow maker of the breed. Huge body, impressive udder, striking profile, dripping feminine broodiness, she is a maternal beast. This pic was taken three days after calving, she is special and hard, hard, hard to poke a hole into or to duplicate. Marley is just "good cattle" but she also comes with bells and whistles. She is dog gentle, easy keeping and she is dragging an eye-popping solid red daughter of LLSF Double Time whose ceiling may be even higher than her mother's. Add to that a great cow family and top quartile API that puts her squarely in the hunt to become a top donor for heifers in ASA's new P and G divisions at the Summer Classics. We cannot wait for people to appraise this unit and see what the future holds.

This beautiful matron's dam has written a huge chapter in the book of our farm with successes in all aspects, winning shows, making great replacements and raising bulls who make an impact wherever they go. At just three years of age, L40 surpasses the physical beauty and power of her dam and we feel that she is set to make a difference for whoever has the foresight to own her. Precious few purebreds on the planet combine extension, design, muscle, power and functionality to the level of this young cow. Homozygous polled and black, she is accompanied by an ultra fancy black blaze faced heifer by LLSF Double Time. The mating opportunities she poses as a donor are truly exciting.

Lot 31A: SC Ruby P16

ASA#4654856 • BD: 2/23/26 • Tattoo: P16 • Adj BW: 77

Black Polled Purebred SM Cow

Sire: KBHR Gunner M089

EPDs: 11 0.6 87 128 0.26 0.95 0.008 8 24 67 14 13.5

Carcass: 39.7 -0.21 0.38 -0.040 0.76 144 90

Two very similar Reactor sired females and G45 is backed to the Ruby Cow lines on the bottom side making her jump off the page. This female has calved with a heifer calf sired by KBHR Gunner, making her the first Gunner calf to sell. G45 is no stranger to producing highlight lots, selling a Pay the Price son in 2023.

Lot 32A: SC College Girl P25

ASA#4654855 • BD: 2/28/26 • Tattoo: P25 • Adj BW: 89

Black Polled Purebred SM Cow

Sire: OBCC/GSC College Player C13K

Carcass: 41.0 -0.28 0.06 -0.075 0.71 103 75

This may be the best looking female on the farm. You can not drive in the pasture without stopping in your tracks to admire the F139 cow. She is a crowd favorite on every tour. Sired by Reactor and backed to the Vienna cow and stacked with Sharper Image. This female is super youthful in her design and type. Her calf sired by the 2025 Cattlemen's Congress Champion OBCC College Player will be extremely exciting. Bid to win, you will not be disappointed.

Pasture Sire: LLSF Double Time from 12/20/25 to 2/10/26

The picture does not lie on this powerhouse, elite donor cow. Sired by Executive Order by a Baby's Breath dam who is full sib to HILB Oracle, she comes by her physicality honestly. But to see her is to believe. Huge bodied, absolutely bold in her rib, she is as stout made, big hiped and thick quartered as she can be. She defines a thrifty, fescue adapted, low maintenance matron. What really sets her apart is her incredible design; huge feet, graceful stride, perfect joints, with a high neck attachment and textbook profile. She is also futuristic for genotype in a perfect match to her type and kind. She reads in the top 2% for the all important trait of Dry Matter Intake and the top 10% for \$GN. Top decile birth weight makes her a truly elite low maintenance cornerstone for breed improvement. A proven donor who has worked well in IVF we feel she is one mating away from hitting it out of park for calves to access in the showing and the pasture. She has just weaned a strapping good fall bull calf and sells AI bred to Wallstreet and exposed to LLSF Double Time.

Pasture Sire: SCLC Red Warrior M501 from 12/3/25 to 1/27/26

The last of the Just Right females, M522 is a bigger framed gal who has plenty to offer in terms of genetics and physical profile. Her dam has been a great producer for many years and keeps on doing her job.

Simmental Bulls

Customer Satisfaction

Perry Vandiver has been a long time bull customer at Shoal Creek Land and Cattle. He will routinely buy multiple bulls each year, both Simmental and Red Angus. Recently, Perry took calves to Kingsville Livestock Auction in Kingsville, MO and here are his results:

814 lb Steers \$3.90/lb
674 lb Heifers \$3.64/lb

"Shoal Creek bulls sire very consistent calves each year and they last."
 - Perry Vandiver

Eye appealing growth focused bull. M110 has the frame and doability to cover cows this spring, then do it all again this fall. The High Profile sons bring the added bonus of high carcass attributes as well. If you are keeping calves through the finish line, these bulls will generate dollars on the back end.

Thanks to DNA, we are unable to find this bulls sire, but that didn't matter. His mother brought him across the scales at over 700 lbs at weaning and carried it to 1100+ at a year. Regardless of who his daddy is, this bull will pass on those real world traits.
