

16TH ANNUAL

SPRING PRODUCTION SALE

FRIDAY NIGHT, APRIL 10, 2026

6:30 PM. | at the farm | Gridley, Illinois | CCI.Live

ALAN & THERESA MILLER, 217.840.6935
 BRANDON & CATHY JONES, 309.370.1081
 KYLE CHRISLAW, 608.751.9640 | KURT MEYER, 217.273.1399
 ZACH WAMSLEY, 219.869.0057 | pvfangus@gmail.com

Good things come to those who wait.
 Last year's successes from our Spring Sale customers were flooding in shortly after we ended the sale, and we couldn't have been more excited. Four of the six candidates for the National Junior Angus Show September calf division held a PVF Prefix. Our Lot 25 calf from last year's sale celebrated wins at the Atlantic National Junior Angus Show, National Junior Angus Show and Fort Worth Stock Show. Buying a calf in April and getting her out right after paid dividends to those customers last year, and we are sure hopeful the same successes will come this summer.

It's not too late! This offering of April through October open heifer calves have us ready for the same quick turnaround to a banner. Please consider coming by on sale night – you can not only view the offering, but the calves' mamas, granddams, and sires usually all on the farm.

Please do not hesitate to contact us with any questions and thank you for your interest in PVF.

Sincerely,
 - Alan & Theresa
 - Brandon & Cathy
 - Kurt Meyer, Kyle Chrislaw, Zach Wamsley

GOOD THINGS COME TO THOSE WHO WAIT!

PVF Proven Queen 4087 sold as Lot 25 in the Spring 2025 PVF Production sale and went on to be one of the winningest heifers in recent PVF history, and is ready to make her mark as a donor.

PVF FALL DIVISION DOMINANCE.

Of the four September calf classes at the National Junior Angus Show last year, the division winner, three class winners and second place in the fourth class came from this sale.

Carrying on the Proven Queen legacy that built PVF, the dam of Lot 1, PVF Proven Queen 1033 is sure to be the next great donor in this family. Her five progeny in 2025 averaged nearly \$35,000 in our two production sales. Lot 1, PVF Proven Queen 5087 is sure to be a favorite on sale night. She has been a standout since birth, with show stopping presence and impeccable design. PVF Proven Queen 1033 was a many time champion herself and is a full sib to PVF Proven Queen 3025, the \$100,000 sale topper who went on to be Fourth Overall Owned Female at the National Junior Angus Show in 2024. Retaining half embryo interest.

PVF Proven Queen 3025, this Fourth Overall Champion Heifer at the National Junior Angus Show for Ashton Dillow is a full sib to the dam of Lot 1.

Merging Omega with the Proven Queen family has struck again. Last year, this match resulted in PVF Proven Queen 4087, a feature of last spring's production sale who went on to be the third overall female at the National Junior Angus Show, and Grand at Fort Worth. This line bred Proven Queen has all the parts necessary to fall in her favorite sister's footsteps. Flawless in her structure, and powerful in her build, Lot 2 is truly a highlight of this offering. Lot 2 is a full sister to PVF Proven Queen 5053, the \$85,000 feature of last fall's production sale. Her dam, PVF Proven Queen 1033 is a Marvel daughter from the famous PVF Proven Queen 5186, who was a National Western Stock Show Division Winner and Top 5 Bred and Owned Heifer at the Atlantic National for Amelia and 1033 is a full sister to the \$100,000 NJAS 4th Overall PVF Proven Queen 3025.

PVF BLACKBIRD 3127

Stacking some of the most elite females ever to reside at PVF in one potent pedigree resulted in our Lot 5 offering. This September daughter of Marvel traces to the legendary 645 on the bottom and the 0084 Missie on the top. PVF Blackbird 2201 is a Good Times daughter of PVF Blackbird 3127, who is best known as the dam of PVF The Natural 7042. This impressive young daughter of Good Times has produced the lead off lots in the last two PVF Production Sales, where five daughters averaged more than \$46,000, including the \$65,000 Lot 1 in our October 3 sale. As just a four-year old, 2201 is rapidly cementing her place as a new lead off donor in our program.

 PVF PROVEN QUEEN 2106

From a cow family known for producing power, Lot 21 takes this trait to a whole new level. Incredibly stout from end to end, and simply rugged in her overall design, this late April standout is sure to carry on the potent producing ability of the Proven Queens when she is done with a successful show career. As popular as she was as a show heifer, 2228 is becoming more popular as a donor. Her first natural calf, PVF Gotham 4006 was a featured attraction in our 2025 National Western pen. Retaining half embryo interest.

PVF Proven Queen 2228, this National Junior Angus Show Bred & Owned Grand Champion Heifer for Amelia is the dam of Lots 19 - 21.

PVF Gotham 4006, this National Western Stock Show Feature for PVF is a maternal sib to Lots 19 - 21.

PVF BLACKBIRD 3127

From the Missie cow family, the granddam of Lot 28 is a sister to the immortal PVF Insight 0129. The dam, PVF Missie 0122, was a past PVF sale feature, who went on to be a division champion at the National Junior Angus Show for Ashlyn Mool. A daughter of Casino produced by PVF Missie 6228, who has produced as many sale features and high sellers as any donor in program history. Her sire, Mahogany Prime, blends Style and First Class resulting in a pedigree that blends all the greatest show heifer producers in the Angus breed in the last 20 years.

One of the youngest females in the offering, this heifer exhibits incredible potential and a pedigree to back it up. Her dam, PVF Blackbird 2201, produced the featured Lots 1 and 2 females of our last two production sales, in which five daughters averaged more than \$46,000, including the \$65,000 Lot 1 in our October 3 sale. Her sire, PVF DLX King Pin 0058 continues to be a popular feature of the ABS bull stud and continually produces champions across multiple breeds.

PVF OPEN HEIFERS

ADDED *Value*

We take the business of breeding better Angus seriously. We understand that you have many options of where to invest in Angus genetics, so we attempt to go above and beyond to differentiate ourselves.

DNA TESTING ... We began DNA testing every female born at PVF ten years ago. Animals in this sale have been DNA verified for parentage and will display genetically enhanced EPD's at sale time. We believe the more you know about your purchase the more predictable the outcome will be not only as a show project but as a breeding piece. This starts with making sure that the animal you buy is exactly what we think it is.

HERD HEALTH ... In addition to our normal herd health vaccinations, all sale heifers were BVD tested, with results appearing with their DNA results on the American Angus Association website. We realize many shows require this test so we can provide that information for you if necessary. All calves have also been given the official calfhood brucellosis vaccine.

DISPOSITION ... We understand that most of these calves will see the showing and in many cases with younger exhibitors. These calves have not only been broke to tie but have also been led extensively and had show stick work. This does not necessarily mean they are show broke and they will still need work at their new homes, but we have done our best to eliminate any potential problems. If you have specific questions or concerns, please contact us.

IDENTIFICATION ... All animals have tattoos in both ears and have visual as well as EID tags. EID information has been submitted to the American Angus Association and is on file as the primary identification with tattoo as secondary. Tattoos fade and EIDS get lost so please double check before showing and let us know if there are any issues we can help with.

REGISTRATION ... All animals are registered with the American Angus Association. Papers are stored electronically and ready for immediate transfer upon payment.

Concluding the offering with one of the heaviest bulls in our calf crop. This son of Good Times is a maternal brother to the 2026 Fort Worth Stock Show Grand Champion Female, PVF Proven Queen 4087. From the Proven Queen cow family, this sire offers the power and stoutness of structure you would come to expect, coupled with modest calving ease.

PVF Marvel 9185

PVF Capone 2104

Each embryo package consists of Three Grade One and/or Grade Two embryos that have been frozen by Trans Ova Genetics. All embryos selling are IVF direct thaw.

We will guarantee Grade Two embryos just like Grade Ones and feel that the eggs we are representing are of the best quality.

We will guarantee the establishment of at least one 60-day pregnancy per three embryos transferred, if the following conditions are met:

A. The transfers must take place within one year of the sale date. B. Transfers are performed by a licensed embryologist.

C. We are notified within a reasonable period of time of the failure to produce a pregnancy.

Buyers of embryo packages that fail to establish at least one pregnancy will be given an additional embryo from the seller from the same mating if available, or if the buyer chooses another of similar value.

Embryos selling are Sexed Female IVF embryos but are not guaranteed to result in a female pregnancy, our extensive experience with sorted semen would indicate that in excess of 95% of resulting pregnancies will be female.
