Welcome

I would like to thank everyone who has shown interest in my family's operation. This truly marks one of the most exciting sales in the history of Conley Angus. We are extremely proud to present a set of cattle that represent the very best of our program, and the direction we plan to continue moving toward.

At Conley Angus, our goal has always been simple; raise cattle with true substance and purpose. We strive to produce cattle that excel in phenotype, fleshing ability, maternal strength, and structural soundness—"common sense cattle" that check all the boxes for the fundamentals that make productive, long-lasting livestock.

The bulls offered in this sale represent the top end of our program. They come backed by generations of proven cattle and are developed for fertility, docility, structural integrity, and long-term functionality in mind. These are the kind of herd sires built to go to work, add value, and stand the test of time. Alongside these bulls in this sale, the cow offering represents tremendous opportunity. These females truly reflect what a "BC cow" stands for—maternal strength, longevity, productivity, and real-world practicality.

I am truly excited to welcome new and repeat buyers to the 2026 Conley Angus Annual Spring Sale. Our program relies on the success of our customers. It is our goal and vision to add value to customers' operations. At Conley Angus, we truly believe our genetics will make a positive and lasting impact. This is not just a sale; it is a piece of Conley Angus history, and sharing this moment with the people who believe in the program makes it even more monumental.

Thank you once again for your interest, your support, and your confidence in Conley Angus.

Sincerely, Trey Conley

HISTORY NOT MYSTERY

What makes Conley Angus unique, is the strength and consistency of our cow herd. Many of our cow families trace back over 80 years, and largely as a closed herd, our genetics remain an outcross to much of the mainstream Angus population of today. This history and genetic base have allowed us to build what I believe is one of the most versatile and maternally driven cow herds in the industry.

As I move forward with our program, I remain deeply committed to carrying on my father's philosophy of breeding cattle.

My dad was one of the most disciplined Angus breeders I have ever known. He instilled in me a deep respect for the breed, the importance of cow families, and the value of hard work and honest cattle.

I am incredibly proud of the foundation my grandfather (William C. Conley) started, and as the next generation, I am honored to continue that legacy. My mom has also been a true cornerstone of this operation. Her wisdom, work ethic, and lifelong experience have played a major role in shaping Conley Angus into what it is today. From the day-to-day responsibilities to the long-term vision of the program, her dedication and support have helped keep our family operation strong and moving forward.

With that same passion and commitment, I look forward to pushing Conley Angus into the future while continuing to build on the many years of hard, honest work our family has invested in this program.

History not Mystery!

GENERAL INFORMATION

GUARANTEE

All bulls are guaranteed to be sound breeders. If a bull is determined not to be a sound breeder, the buyer will have a credit of the purchase price in a future sale.

RETAINED SEMEN INTEREST

Unless noted, Conley Angus will sell full possession and retain 1/3 semen interest on all bulls sold.

LIABILITY

All persons who attend the sale do so at their own risk, legal or otherwise, for their safety or for the behavior of animals. The owners and sales service assume no liability for property loss or any accident that may occur.

HERD HEALTH

All cattle sold will be accompanied by proper health certificates for immediate shipment.

FREE NATION WIDE TRUCKING

If you choose to pick up your purchase, we will buy your fuel!

- If any sire has the potential to rival BC Robust, Upper Hand makes a compelling case.
- He matches that same power, presence, and muscle while adding extra length and extension. Bold-ribbed, wide-pinned, and structurally correct, he combines red meat yield with a striking look that's hard to replicate.
- Raised as a twin to BC Enforcer, his performance speaks volumes about both his genetic strength and maternal backing. Upper Hand is a true standout—powerful, complete, and built to lead the next generation.

- A soft-centered bull with tremendous body mass, rib shape, and structural integrity. He carries himself with the same presence and balance that made BC 57G7 so admired, mirroring that prominent look and kind.
- Deep bodied, bold ribbed, and built with quality from the ground up, this bull combines power with eye appeal in a way that's hard to replicate.
- If you admire the build and functionality of BC 57G7, this son carries those same traits and offers exciting breeding potential moving forward.

- Blueprint is backed by history, and making a bull like this sire was Bill's vision from the start.
- He was selected for his incredible shape, body depth, width, skeletal correctness, and structural integrity.
- His balance and phenotype tie together a great deal of Conley Angus history into one exciting package.
- We'll have calves on the ground by fall 2026, and we're extremely excited about this bull's potential and future use. He is owned with LaDue Ranch of Meadow, South Dakota, and was the high selling bull in our 2025 spring bull sale.
