Welcome Friends,

Welcome to our 2026 Annual Production Sale. A little moisture and we are ready for a banner year! Prices have been strong and look to have some staying power. One thing is for sure the cow herd is not in a rebuild, demand for beef is at all time highs and we as producers of beef are finally in a good position.

The bulls have again been fed in Malta at the Hould development feedlot. The care and attention to detail that Bruce, Lance, and the entire crew is evident in this set of bulls. They have literally been developed perfectly. We cant thank them enough. This is the strongest, stoutest, deepest set of bulls we have ever been able to present to you. We are very excited about these bulls and look forward to bringing them to you.

As always we will stand behind this set of bulls 100%! If anything arises please let us know.

We will be bringing the bulls home a few weeks early this year to better help them switch to new feed and a new environment. They will be able to be viewed at the sale barn after the 25th of March. Give me a call if you would like to look at them anytime while they are home. Don't hesitate to contact us with any questions. Take care

The Posers

***Please Join us Monday at 4 pm for a pre-sale meal prepared by Bjorn and Angie Flategraf  
Sale Day Tuesday, April 14 • Sale at 1 pm, Lunch at 11:30. See you there!***

 Kurt Kangas, *American Angus Association* . . . . . 406/ 366-4190  
 Bo Bevis, *Northern Livestock Video* . . . . . 406/ 390-3134  
 Kevin Murnin, *Western Livestock Journal* . . . . . 406/ 853-4638  
 Kate Roberts, *CCi Live* . . . . . 541/ 891-3060

**Bids**

Bids can be phoned in to our publication representatives or auctioneer.

**Terms and Conditions**

All registered cattle sell fully guaranteed under the standard terms and conditions of the American Angus Association. Announcements Sale Day take precedence over all printed material.

**Delivery**

Free delivery in Montana. Beyond at cost. Commercial heifers will be delivered at cost. \$100 discount per load picked up sale day.

**Genomic Enhanced EPDs**

EPDs are current as of March 11, 2026.  
 Updated EPDs available at [www.Angus.org](http://www.Angus.org)  
 All bulls have been DNA tested.  
 See pages 4-5 for further information.

**Retained Interest**

Selling 100% Semen interest and possession on all bulls unless otherwise noted.

**Sale Order**

Bulls will sell in lot order.

**Inspection of Cattle**

Hould Feedlot in Malta and one week prior to the sale at Edwards sale barn in Denton.

**Health**

All cattle are vaccinated with or for: 8-Way, Blackleg, IBR, PI3, BVD, treated for grubs. Fertility tested, scrotal measured and carcass ultrasound measured.

**First Year Breeding Guarantee**

The bull mortality and loss of use insurance which we offered in years past is no longer available. For this reason, we are now offering a first year breeding guarantee. We hope this breeding guarantee is a suitable replacement.

All bulls selling for \$3000 or more will be covered 50% by Hilltop Angus Ranch if they are injured during their first breeding season. Breeding season is defined as the 90-day period following the first turnout of the bulls.

50% of the value of the injured bull will be given as credit in a future sale or towards a replacement bull if one is available. Salvage value, if any, will be split equally between Hilltop Angus Ranch and the buyer. All injured bulls must be diagnosed by a veterinarian. Please notify us as soon as possible should injury occur and prior to the injured bull being sold for salvage. All claims must be made by September 1, 2026.

**Sight Unseen Purchase Guarantee**

Buyers unable to attend the sale may call or send bids to Cory, Gary, Ron, any of the sale representatives or Northern. Let us know your bull needs and your budget range. We'll bid on and purchase the best cattle possible per your specifications. When they walk off our trailer at your ranch, if you aren't satisfied, load 'em back up.

**Online Bidding**

Online bidding options as well as bull videos are available through Northern Livestock and CCI. See page 2 for more information.

*Please Bring This Catalog*  
*With You Sale Day*

### **Desktop**

1. It is best to use the Google Chrome web browser.
2. **Pre-Register at least one day prior to the sale.**
3. Go to [bid.northernlivestockvideo.com](http://bid.northernlivestockvideo.com) and click "Get Approved to Bid".
4. Doing this will prompt you to create an account, after which you will fill out a bidder approval application.
5. Once Approved, an email will be sent to the email account provided, please click the link in that email to activate your account and a buyer number will be provided.
6. On sale day (after approval), visit [www.northernlivestockvideo.com](http://www.northernlivestockvideo.com) to view and bid!

### **Mobile**

Use your mobile device to download the Northern Livestock Auction App and follow the above steps to get approved. *There is an instructional video on how to register to bid on our website [www.northernlivestockvideo.com](http://www.northernlivestockvideo.com)*

### **Phone Bidding**

Anyone wanting to use the Northern Livestock phone bank to bid must pre-register and have a bid number to bid on the phone. **To register with NLVA call**

**866-616-5035 Before Sale Day.**

Northern's Sale Day Bid Line: **1-406-245-0889**

View the Online CATALOG and VIDEO CLIP of each BULL selling at [www.northernlivestockvideo.com](http://www.northernlivestockvideo.com)  
Successful bidders making purchases will be contacted following the sale for payment and delivery arrangements.

For technical assistance with Internet Viewing and Bidding Questions, call Sam Fraser 406-860-0590.

## Watch the Sale on CCI.live!

*The best, the fastest and most comprehensive marketing & bidding tool!*

### How to Bid Online...

- As a buyer, you DO NOT need to login to watch the sale but you must have a validated account to bid.  
To BID ONLINE go to [www.CCI.live](http://www.CCI.live) in your Chrome, Firefox, Safari or other modern browser:  
1) Click on the sale schedule page. 2) Click on the sale of interest.  
3) Click on Bid Online- Register and then Get Buyer Number
- After you are logged in, you must proceed to the sale page for your auction and click Bid Online - Register, then "Get Buyer Number." Some auctions require valid credit card number on file to obtain a buyer number to bid.
  - CCI.live will operate with ease on a modern cellular device, laptop, desktop or tablet.
  - A **current browser** is important and will always make your experience better.
- For successful bidding you must have good Internet service! It is very important to be stationary if bidding. If you are driving and bidding, expect to have some service issues. If you are stationary on a good device, with healthy Internet, expect a very successful bidding environment. If you have slow Internet watch the "asking price" on the screen, it is real time, and refresh your browser if you feel like you have some lag.
- **Support line open during all sales. TEXT 405-400-9505** - Please alert the ranch for your hauling preferences.

## *Welcome to the Hilltop Angus Bull Sale*

This event is truly one of the highlights of the spring sale season, exemplifying the strong sense of community and dedication that defines purebred breeders. Hilltop Angus has always prioritized a community-first approach, deeply rooted in a commitment to both its customers and the industry.

In my opinion, this is the most impressive offering of bulls that Hilltop has had the opportunity to market. The timing of this sale is especially significant given the current strength of the feeder calf market. As a commercial cattle producer, the quality of bulls you purchase directly impacts your bottom line. Hilltop Angus continues to offer exceptional value—ensuring that every dollar spent translates into high-quality genetics and long-term profitability.

The Hilltop cow herd is built on a foundation of structural integrity, maternal excellence, and adaptability. These cattle summer in the rugged Missouri Breaks, where they must travel and thrive in challenging conditions. As a result, structural soundness and doability—traits essential for long-term productivity—are non-negotiable in this program.

Cory and Gary are unwavering in their commitment to their customers, carefully selecting A.I. sires and herd bulls that enhance the strength and longevity of the Hilltop cow herd. Longevity is a cornerstone of their program and one of the greatest contributors to a profitable operation.

Today, cow-calf producers are in the driver's seat of the beef industry. With cow numbers at historic lows and heifer retention at a standstill, the outlook for the beef industry is incredibly strong for the foreseeable future. There's never been a better time to invest in high-quality genetics.

If I can be of any assistance as you prepare for this sale, please don't hesitate to call.

## AMERICAN ANGUS ASSOCIATION SELECTION TOOLS

**Expected Progeny Difference (EPD)**, is the prediction of how future progeny of each animal are expected to perform relative to the progeny of other animals listed in the database. EPDs are expressed in units of measure for the trait, plus or minus. Interim EPDs may appear on young animals when their performance has yet to be incorporated into the American Angus Association National Cattle Evaluation (NCE) procedures. This EPD will be preceded by an "I", and may or may not include the animal's own performance record for a particular trait, depending on its availability, appropriate contemporary grouping, or data edits needed for NCE.

### PRODUCTION

**Calving Ease Direct (CED)**, expressed as a difference in percentage of unassisted births, with a higher value indicating greater calving ease in first-calf heifers. It predicts the average difference in ease with which a sire's calves will be born when he is bred to first calf heifers.

**Birth Weight (BW)**, expressed in pounds, is a predictor of a sire's ability to transmit birth weight to his progeny compared to that of other sires.

**Weaning Weight (WW)**, expressed in pounds, is a predictor of a sire's ability to transmit weaning growth to his progeny compared to that of other sires.

**Yearling Weight (YW)**, expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny compared to that of other sires.

### MATERNAL

**Heifer Pregnancy (HP)**, is a selection tool to increase the probability or chance of a sire's daughters becoming pregnant as first-calf heifers during a normal breeding season. A higher EPD is the more favorable direction, and the EPD is reported in percentage units.

**Maternal Milk (Milk)**, expressed in pounds of calf weaned, is a predictor of a sire's genetic merit for milk and mothering ability in his daughters. In other words, it is the part of the calf's weaning weight attributes to milk and mothering ability

### MANAGEMENT

**Claw Set (Claw)**, expressed in units of Claw-set score, a lower EPD is more favorable, indicating a sire will produce progeny with more symmetrical, even and appropriately spaced toes compared to another sire.

**Foot Angle (Angle)**, expressed in units of foot-Angle score, a lower EPD is more favorable, indicating a sire will produce progeny with an Angle closer to 45 degrees at the pastern and appropriate toe length and heel depth compared to another sire.

**Docility (DOC)**, expressed as a difference in yearling cattle temperament, with a higher value indicating more favorable docility in a sire's offspring compared to another sire

### Carcass

**Marbling (Marb)**, expressed as a fraction of the difference in USDA marbling score of a sire's progeny compared to progeny of other sires.

**Ribeye Area (RE)**, expressed in square inches, is a predictor of the difference in ribeye area of a sire's progeny compared to progeny of other sires.

### \$VALUE INDEXES

**\$Value Indexes**, expressed in dollars per head, are multi-trait selection indexes where a higher value suggests more profit. The \$Value is an estimate of how future progeny of each sire are expected to perform, on average, compared to progeny of other sires if sires were randomly mated to cows and if calves were exposed to the same environment.

**Maternal Weaned Calf Value (\$M)**, expressed in dollars per head, predicts profitability differences in progeny due to genetics from conception to weaning by decreasing mature cow size and improving docility, foot structure and fertility while maintaining weaning weights consistent with today's production.

## Angus Breed Averages • Non-Parent Bulls

CED	BW	WW	YW	Milk	HP	Doc	Claw	Angle	Marb	RE	\$M
<b>+6</b>	<b>+1.2</b>	<b>+68</b>	<b>+120</b>	<b>+27</b>	<b>+11.7</b>	<b>+19</b>	<b>+.48</b>	<b>+.47</b>	<b>+.78</b>	<b>+.71</b>	<b>+66</b>

# Driving the science of better breeding

**There's little room for error in the cattle business.** You need the most advanced information to make smart selection decisions, and Angus Genetics Inc. (AGI<sup>®</sup>) provides it through genomically-enhanced expected progeny differences (GE-EPDs). GE-EPDs have become the industry standard for herd improvement, building on decades of science-backed genetic evaluation tools originated and maintained through the American Angus Association<sup>®</sup>, home to the largest and ever-growing single-breed beef cattle database.

EPDs that traditionally contained all pedigree, performance and progeny information now also include results from available genomic, or DNA, tests. Breeders who use genomic technology give buyers access to AGI-generated GE-EPDs that provide:

- Increased predictability and decreased risk for young and unproven animals due to enhanced accuracy of EPDs
- Better characterization of genetics for difficult-to-measure performance traits (such as carcass traits, maternal traits and feed efficiency)
- The ability to make more rapid progress for traits that are important to you, due to:
  - more accurate selection
  - easier identification of genetic outliers
  - the ability to propagate young animals with confidence earlier in their lives

In fact, GE-EPDs on unproven animals have the same level of accuracy as if they had recorded 9-33 calves, depending on the trait. That's valuable insight, offered regularly through the breed's weekly national cattle evaluation.

Trait	Progeny Equivalent	Trait	Progeny Equivalent
Calving Ease Direct	24	Heifer Pregnancy	28
Calving Ease Maternal	18	Maternal Milk	33
Birth Weight	22	Mature Weight	14
Weaning Weight	25	Mature Height	9
Yearling Weight	20	Carcass Weight	13
Yearling Height	15	Marbling Score	10
Dry Matter Intake	12	Ribeye Area	11
Scrotal Circumference	12	Backfat Thickness	11
Docility	10	Teat Size	12
Foot Claw Set	13	Udder Suspension	13
Foot Angle	12	Pulmonary Arterial Pressure	7
		Hair Shed Score	10

## How do you know if EPDs are genomically-enhanced?

Ask your breeder, refer to the registration paper, or look for the AGI GE-EPD logo, Angus GS<sup>™</sup> powered by partner Neogen GeneSeek or the HD50K by partner Zoetis. These images indicate animals for which low-density or high-density genomic testing has been conducted and incorporated by AGI into GE-EPDs.

Bar None is the most complete sire we have ever owned or used. He consistently sires eye appealing cattle that will work in any environment. His balanced and exceptional EPD profile will rival any bull in the breed. His daughters came into production this spring and they are honestly the best uddered, heaviest milking group of young cows we could ask for. As good as these females are Bar None is a bull that will last.

- Top phenotype bull with muscle, depth, and performance matched with terrific and balanced EPDs. Good carcass, high \$M, low PAP and over 300 \$C. really cool cow family. Dam is terrific uddered as is the grand dam. She has 6@101 NR. Pathfinder grand dam has been a donor for Hilltop and Sitz. She is best known as the dam of Sitz Right Time 8034 who is the sire of S Right 7861 who sired an \$87,500 son at Shipwheel this fall and an \$87,000 son at Spickler north also this fall.

- The first Rapport son and we love them! You'll see why. Big butted, super thick, deep and a great look. Top 4% claw on this good footed bull. Dam is gonna be a rockstar. She bred back and calved as the first 3 year old this year and is raising another stand out. Pathfinder 2nd dam is a herd favorite. Pathfinder 3rd dam was a donor for us and was a beautiful Rainmaker daughter. You will notice her in the pedigrees of a lot of really good bulls.

# DEDICATED. COMMITTED.

WHOLE HERD REPORTING WITH MATERNALPLUS®

## DEDICATED TO DATA.

We devote extra time to collect maternal traits beyond those required to target greater performance and predictability. Our goal is to not only improve today's genetics, but also prepare for the future of the Angus breed.

## COMMITTED TO IMPROVEMENT.

Raising quality registered Angus cattle takes commitment and as your genetic supplier, we take that commitment seriously. That is why we believe a commitment to improvement starts with the female.

Commit to the female — commit to MaternalPlus®.

Contact Customer Service at 816-383-5100 or [angus@angus.org](mailto:angus@angus.org) for more information.
