# WELCOME

On behalf of our entire family at Foster Brothers Farms, we are proud to welcome you to our "Hybrid Advantage" Bull Sale.

After the success of our inaugural sale, we want to begin by saying thank you. The support, trust, and encouragement we received from our customers and friends made that first event truly special. It meant a great deal to our family, and we are honored to earn a place in your operations.

As we move into our second year, our focus remains the same. Providing functional, high-quality Simmental influenced cattle that excel in both phenotype and performance. We believe this year's offering represents a step forward in consistency, quality, and depth, and we are excited for you to evaluate this set of bulls.

We also want to thank everyone who stopped by to visit with us this past show season. We were honored to exhibit the Champion Purebred Simmental Pen of Three at Cattleman's Congress in Oklahoma City and those same three went on to Denver to be part of the Champion Percentage Simmental Pen of Five at the National Western Stock Show. To cap it off, our lead off bull, FBFS NOCTURNAL 039N (Selling a Lot 27), was named Reserve Champion Purebred Simmental Bull at the Fort Worth Stock Show. We are grateful for the recognition and remain committed to doing our best to raise good, honest cattle for our customers.

At Foster Brothers Farms, this is more than a business - it's a family effort. We take pride in standing behind every bull we sell and are committed to helping our customers succeed. Whether you joined us last year or are considering us for the first time, we are here to help you find the right fit for your program. Visitors are always welcome prior to sale day - we'd be glad to show you through the cattle at the ranch. Please give any one of us a call.

Please join us on April 17, 2026, at the Lonestar Stockyards in Wildorado, Texas, just outside of Amarillo. Food trucks will be available beginning at 11:00 AM, and the bull sale will start at 1:00 PM. If you are unable to attend in person, online bidding will be available through CCI.Live, and any of the sale contacts would be happy to assist you.

Thank you for your continued support of our program. We look forward to seeing you on sale day.

*Jody & David Foster*

## **INSURANCE**

*Insurance will be available sale day. We suggest a mortality policy on all bulls purchased. To properly insure your investment please contact, James F. Bessler (815) 762-2641*

## **PHOTOGRAPHY**

*John Reasor (423) 290-6002*

## **CATALOG & AD DESIGN**

*Fave Creative (580) 770-1302*

## **ANNOUNCEMENTS**

*Announcements made sale day and from the auction block during the sale take precedence over printed material in the catalog or other printed material associated with this sale. Anyone attending this sale, attends at their own risk. Breeders or any of the sale force will not be held responsible for any injury while attending this sale.*

## **SUPPLEMENTAL INFORMATION**

*Scrotal circumference measurements and current weights will be available the week of the sale.*

## **SEMEN INTEREST**

*Seller retains 1/3 semen interest in all bulls selling unless otherwise noted or announced from the auction block.*

## **DELIVERY**

*Free delivery within 300 miles on all bulls and we will assist in finding delivery options to other parts of the country!*

## **TERMS & CONDITIONS**

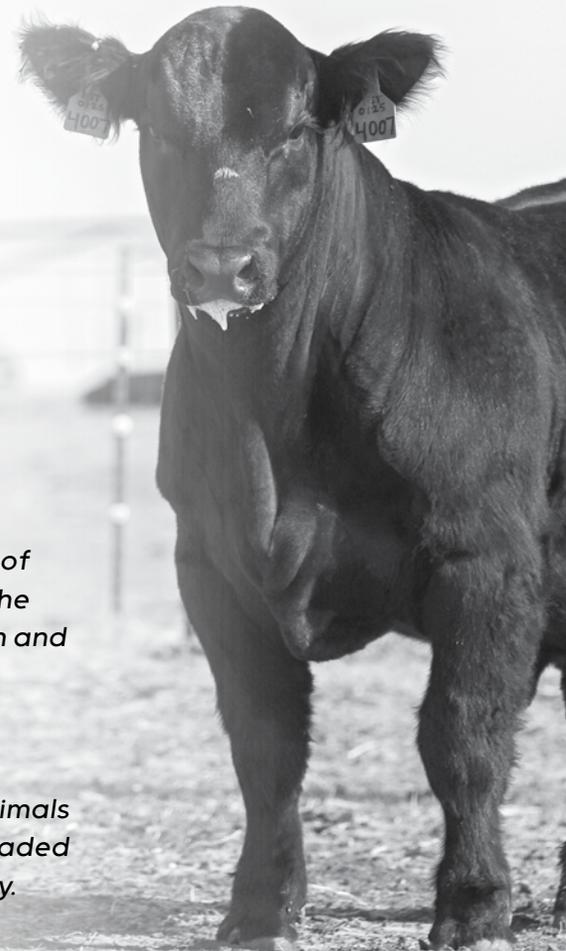

*Terms of sale are cash or check payable immediately upon conclusion of the sale and before animals will be removed. The cattle will sell under the standard terms and conditions of the American Simmental Association and American Chianina Association.*

## **RISK**

*Each animal becomes the risk of the purchaser as soon as sold. Animals purchased are at the purchaser's risk as to loss or injury, and will be loaded according to purchaser's direction. Insurance will be available sale day.*

## **BULL GUARANTEE**

*Unless otherwise noted, all the breeding age bulls will have passed a breeding soundness exam prior to pick up/delivery. In addition to the standard Terms and Conditions of the American Simmental Association and American Chianina Association, we will provide the first breeding season (the 90-day period immediately following turn out) guarantee on all yearling and older bulls. This guarantee is not an insurance or mortality policy, but a guarantee on functional fertility. It is not a substitute or replacement for poor management. Buyer assumes all risks for injury due to running bulls together or management decisions outside genetic control. For the guarantee to apply, we ask that you contact us as soon as a condition is observed and before the animal is sold. We will work with you to determine whether the animal is returned or sold for slaughter. We will attempt to provide a suitable replacement. If one cannot be provided of equal or greater value, we will issue a sale credit to be used in a future sale for the full purchase price less the salvage value of the animal.*

Production and animal agriculture are filled with great people and family-owned entities. While a significant part of the industry is controlled by corporations, the real essence lies in family-run firms that create a lifestyle many aspire to. This lifestyle cannot be duplicated elsewhere; it is highly desirable, but few are willing to make the necessary sacrifices or compromises to truly appreciate the values it offers to those who commit wholeheartedly. The Foster Family is one of those enduring institutions, with the fourth generation taking the lead and the fifth not far behind. The risks and sacrifices each generation have faced shape who they are today. Every generation has maintained hustle and financial discipline, finding honest ways to grow the operation into what it is now.

An operation traditionally diversified between cattle and row crops is the focus today, a plan that has been in place for over 30 years, with the goal of producing quality seedstock beef cattle that balance performance and phenotype. The outfit understands that most cattle procurement is done visually, and until technologies become more approved and accepted for selection assistance, that's where the outfit will establish its presence. Sure, these bulls have DNA on file, but until that science advances to a more foolproof state, the FBF brand will be built from the ground up. Jody and Syann know that a productive female must first have a degree of integrity to fulfill her life's mission. Great foundations lead to great architecture and structural longevity, reducing stress for the female so she can put her energy into fertility, udder quality, and milk production while maintaining a suitable body condition score in a lower input manner. This program and cowherd have been developed and selected to withstand harsh terrains, drastic climate fluctuations, and thrive in an arid, drought-stricken western climate with quality and end-product yield potentials on board.

The FBF brand has invested and experienced every facet of the industry. The operation got it's start with Angus and Chi-influenced cattle that were exhibited by each of David and Jody's children in their youth. That experience led them to invest in the Simmental breed, where they experienced equal success through the coveted exhibition halls of the American Royal, the North American International Livestock Exposition, the National Western Stock Show, the Fort Worth Stock Show and Rodeo, and multiple other arenas throughout this great nation. They have turned stocker cattle out on wheat and stock piled pasture, developed sets of open heifers to market as commercial bred heifers, and they have retained ownership and fed cattle through the harvest phase, they know and understand the needs of each investment class and respect the decisions made at the breeding box with customer success in play.

These bulls showcase the range of the program, featuring purebred Simmental, SimAngus, SimGenetic, Chi-influenced, and Angus options from a hardworking cowherd and leading donor pen. The bulls have been raised on grass traps with a low-calorie diet to promote longevity and provide plenty of physical activity and exercise. Those who have done business with us before know what to expect, which is why they keep coming back for the next generation of herd sire prospects from this family operation. For new customers, we believe you will be impressed with the quality of the product and even more so with the family behind it. The Foster Family is among the best in the U.S. beef industry for building long-term friendships and business relationships. Their family values align with those of most in agriculture, and their customer service will encourage you to stay connected with them for years and generations to come.

We invite all interested parties to attend the 2nd Annual Hybrid Advantage Bull Sale at the Lonestar Stockyards, located between Amarillo and Bushland, TX. This modern auction yard is one of the top livestock marketing venues in the country, and we hope you can join us to see for yourself. If you'd like to schedule an on-farm presale visit, please contact SyAnn Young or Jody Foster. The Innovation AgMarketing team is also ready to assist with additional information, selection help, or sight-unseen purchasing. Please plan to join us on April 17, 2026, as we look forward to connecting with you about your program and how we can help elevate it to improve your operation's bottom line.

- A true phenotype standout to initiate the 2026 offering of the Foster Brothers Farms "Hybrid Advantage" Bull Sale! FBFS Made For More 512M is the first of three ET flushmate brothers that are sired by the very popular STAG Fortunate Son 233 and backed by the influence of the most potent cow family to ever call home to Foster Brothers Farms!
- The dam of 512M is the impressive FBFS Jenney 500J, a daughter of the prolific FBFS Exclamation 045E donor dam. 045E is a direct daughter of the iconic FBFS X-Clamation 76X donor, a past National Champion that has emerged as one of the highest dollar generating females in the history of the Foster Brothers Farms breeding program.
- 512M is a big footed, stout featured SimGenetic stud that is loaded with shape, genuine power, and real-world performance. He offers a proud herd sire presence that is second to none!
- A true sale feature that we firmly believe will leave a lasting impression on the business for years to come. Supported by true maternal excellence!
- **2026 FWSS Division Champion Percentage Simmental Bull.**

# FOSTER BROTHERS FARMS

- An elite, SimAngus trio of brothers from the productive and highly functional FBFS Jenney 500J donor dam.
- The FBFS X-Clamation 76X cow family is saturated with proven, old school Simmental genetics that are proven to milk, raise big calves with added grow and substance, and breed back in rapid fashion wherever they roam.
- We believe that many will be drawn to the dense center body design, muscle shape, and genuine quality brought forth by 507M.

- We can guarantee that each calf he sires will have a full tail!
- We can also promise that the daughters sired by this prospect will be blessed with the utmost maternal quality. Their udder design, teat size, and spacing should replicate near perfection as they have the genetics on board to be big-time calf raisers.
- This slick hided stud is ready for heavy service and will be the kind that will sire bold built, thick ended feeder cattle that will leave your neighbors asking where you bought your herd bull.

JBSF BERWICK 41F  
Maternal Grand sire of Lots 1-6

# HYBRID ADVANTAGE *Bull Sale*

- Next up, a pair of paternal brothers to STCC Tecumseh 058J from the elite daughter of the past San Antonio Livestock Exposition Champion Simmental Female and \$75,000 high seller from a past Black Label, FBFS Exclamation 045E.
- Frame, length, and shear extension with measured performance should leave this brotherly duo on many sale day shortlists.
- Added pounds to your calf crop matters in dollars and cents and those seeking a sire that can do just that, need to focus on this pair of ET flushmate brothers.

- This son of VCL Foresight from the proven FBFS Jenney 500J donor dam should impress many as he should sire a stout, long sided set of calves with industry merit.
- The blaze faced daughters he sires will be the kind to capture a premium when merchandised or gorgeous production females when retained.
- It's proven that both the daughters of VCL Foresight and the daughters representing this extended cow line will hold nothing back in production with utmost fertility and udder quality on board.

# FOSTER BROTHERS FARMS

- The sons of SO Remedy 7F have been well received by those stockman who prefer good footed, long bodied, deep sided cattle, with superb skeletal quality and longevity.
- We are certain that 550M will be well received for his frame, length, and productive look.
- His genetic blend focuses on two breed leading sires, the \$530,000 SO Remedy 7F and the \$109,000 JBSF Berwick 41F. Both are responsible for countless, championship caliber cattle across the nation, but both are known best for their productive daughters.
- Buy with confidence in one you can build a program around.

- One of the great breeding bulls to be offered by the multi-generation family ranching operation that is laced with cow power and the needed qualities to advance any program.
- He is a direct son of the \$110,000 OMF Journeyman J24 and from a proven daughter of JSSC Wide Body 090W from the Shipwreck and Blount donor, WAGR Chanel 5073C. The famed daughter of Mr HOC Broker has been a cornerstone for Shipwreck Cattle Company for over a decade. This past Black Label featured a set of cattle by Reckoning 711F and a direct daughter of SO Remedy 7F that averaged nearly \$19,000 per head.
- Quality in phenotypic design will never falter from this genetic blend, and so the center body shape, muscle design, and substance of skeleton will breed on for the generations ahead.
- This is one of the very good purebred Simmental prospects to sell this year, so pay close attention for those who are still searching for their next herd sire.

# FOSTER BROTHERS FARMS

- A powerful combination of sire and donor power entrenched in one dominant individual!
- Profit, W/C Executive Order 8543B, and Rocking P Private Stock H010 blends with the donor dams of the FBFS program, FBFS Y Not Me 84Y, and FBFS X-Clamation 76X in near-perfect form through this herd sire prospect.
- 529M would be very aggressive in terms of his scaled measurement with an 880-pound adjusted WW to equate to a 120 ratio. He too was very impressive at yearling as he scales with 1249 pounds to ratio 118.
- He represents true power in the blood with a surplus of industry merit and sheer quality from nose to tail.

ROCKING P PRIVATE STOCK H010  
Sire of Lots 9 & 10

- The FBFS X-Clamation 76X donor dam has a big impact on this breeding program. Her influence and her dam's presence, THSF Ms Liberty S600, are certainly noticed throughout the SimGenetic program as one studies the pedigree ledgers. Rightfully so, the cattle were very consistent with production, performance, skeletal integrity, and phenotype. The cattle from these cows weigh heavily with substance, body, and muscle.
- This son of Rocking P Private Stock H010 brings another potent cow to his equation through his paternal granddam, RP/MP Built To Love A021.
- His overall size and scale should be very appealing to any commercial cow/calf operator, and we are confident that his retained daughters will possess the genetics to be some of the best production females in the program.

61.3	16.4	14.2	41.5	-0.12	0.62	-0.02	0.63	147.9	88.7

- We are confident that many good cattlemen and women will gravitate towards this fresh, new sire group, Bar CK/FBFS Nevada 1066J. These cattle will offer a balanced EPD profile and with DNA submission, they should rise above the general population of the ranch for their expected data ledgers.
- This initial duo is from a youthful pair of SimAngus females laced with phenotype from the past National Champion Simmental Female, FBFS X-Clamation 76X.
- 568M is his mother's son, as he sets himself high above the top of his blade and maintains his collected, proud presence when set in motion. His transitions are smooth and his overall build is masculine, athletic, and comes with plenty of center rib design and muscle shape from end to end.

- This stud continues the story of the phenotypic advantages set for the by his maternal granddam and the influence of one of the very best-looking Angus sires, PVF Marvel 9185. 541M is a full brother in blood to FBFS Nevada 568M, and one will notice the stark similarities among the pair.
- Depth, body shape, and muscle drape the quality skeletal build of this age advantaged herd sire prospect.
- He is built genuine and wide from the ground up with impeccable hoof design and structural integrity.

- A genetic blend that favors calving ease and marbling advantages.
- This long-sided son of 1066J is ultra slick hided, smooth in his pattern, but yet masculine, athletic, loaded with skeletal shape, and an ideal center rib design.
- We admire the features and the expected profitability he could inject into any program that retains ownership and/or retains females for reproductive purposes.
- He should prove to be a dual-purpose sire with significant industry and program merit.

- This son of 1066J will offer more frame and capacity to a set of calves without question.
- A standout since birth, this one will turn heads in his direction on April 17, 2026, in person.
- His dam is sired by ETR Blitz, a son of Profit that was utilized heavily in the breeding program years ago, which left a trail of daughters with the extras in terms of performance, skeletal substance, and beef business shape.

- A bit more rugged in his design with extra skeletal width and shape is how many will evaluate this herd sire prospect.
- His EPD ledger is as balanced as any offered, and we expect his cattle to keep an outfit centered on certainty without the extremes.
- His dam is a direct daughter of the \$60,000 OMF Hard Right H21, the son of the proven OMF Epic E27 from the Oak Meadow Farm matriarch Hooks Angel 11A.
- Quality in genetics, quality in design, and predictability in numbers.

62.1	15	12.6	34	-0.17	0.71	-0.03	0.61	151.7	91.1

- Here is the final ag advantaged son of the rising star of the bull battery of FBF, Bar CK/FBFS Nevada 1066J. His dam is a maternal sister of the dam of FBFS Nevada 615M, thereby confirming the HILB Déjà Vu G106W donor influence.
- He should sire moderate birthweight cattle with industry accepted performance with the potential for carcass premiums when retained and fed to harvest as he ranks in the top 15% for Marb in combination with top 25% TI, top 30% ADG, and API, and the top 25% for \$GN.

# HYBRID ADVANTAGE *Bull Sale*

- An impressive, red hided sire prospect with the influence of the late JSUL Something About Mary 8421 from the HILB Déjà vu G106W donor. He and his black hided full brother, FBFS Something About Mary 548M, are very appealing from multiple angles of consideration.
- 544M was moderate at birth but continued to surge in his physical performance to the weaning pen.
- This stout featured, good footed, ground pounder is moderate, dense, bold bodied, and big ended. He could turn a set of Hereford marked or Red Angus cows inside out and leave a set of replacements that would command top dollar when marketed.
- Superior look and balance!

- The black hided, full brother to the impressive FBFS Something About Mary 544M, does not slack in comparison to his red hided full brother!
- In fact, 548M may be smoother through his shoulder, bolder in his forerib, but competitive in his center body and amount of shape he has to offer to any breeding program.
- This stud maintains a bit more of an elevated presence through his front third with comparable bone and muscle expression.
- Regardless of subtle differences, this is a brotherly tandem worthy of keeping together to improve uniformity in any progressive beef entity.

HILB DEJA VU G106W  
Dam of Lots 17 & 18

# FOSTER BROTHERS FARMS

- The JSSC Caddillac Kind 86G sire group was spotlighted in last year's inaugural bull sale hosted by the FBF brand. They were consistent for length of body, muscle expression, and skeletal quality.
- This son of the FBFS Bonafide 027B daughter would certainly be no different from the general population a year ago.
- 563M is ultra complete with a proud, collected presence, and beef business shape and body.

- An elite baldy herd sire prospect from a very wet and productive dam.
- THSF Gianna J118, his dam, was the 2023 San Antonio Livestock Exposition Champion Simmental Female. She was praised for her skeletal flexibility, her hoof integrity, body shape, and genuine width and shape.
- This mating to the proven JSSC Wide Body 090W yielded one that could be accused of being the closest image to his predictable sire. There is little to question about his potential to sire a set of females that will have significant phenotypic value with the right equipment on board to generate for years to come.
- One of the "must haves and don't overlook" individuals of this offering.

THSF GIANA J118  
Dam of Lot 20

# HYBRID ADVANTAGE *Bull Sale*

- This SimAngus herd sire prospect comes from one of the very elite daughters of the famed THSF Ms Liberty S600, FBFS Xtravegant 053X. 053X is a true outcross sired by the late and proven JS Sure Bet 4T and is now owned by Himes Cattle Company of Ft. Cobb, Oklahoma.
- PVF Blacklist 7077 is proven to be a sire with sensible calving merit and industry accepted performance. He's deep, practical, functional, and low input in his kind.

- An aged advantage bull with the sire influence of PVF Blacklist 1003 that will have a positive impact on the cowherd he is selected for.
- Depth of side, a smooth pattern and a big scrotal measurement will allow him to sire a set of easy feeding cattle and the daughters retained should prove to have the fertility and skeletal longevity to remain productive and profitable.

**PVF BLACKLIST 1003**  
Sire of Lots 21-24

# HYBRID ADVANTAGE *Bull Sale*

- This stud comes with the old school cool genetic blend of the total FBF program!
- FBF Smart Choice 808S is one of the very few Angus sires to carry the FBF prefix. He's entrenched in productive, prolific maternal excellence. His dam is influenced by the original Revolution Rose Of R R 9239 and the timeless direct son of OCC Anchor 771A.
- The bottom side of this prospect's pedigree is also laced with the timeless and proven best of the FBF brand as he traces back to two production females FBFS Slacks Better 047S and the other outcross donor dam, FBFS Y Not Me 084Y.
- His resume states that he is expected to sire cattle with extra center body with low input merit, and his daughters should be the milky, awesome uddered, fertile kind with longevity.

- We initiate the yearling division of this year's "Hybrid Advantage" Bull Sale with the very impressive FBFS Nocturnal 039N, one of the greatest breeding achievements in the history of the Foster Brothers Farms breeding program.
- His dam, WHF Godiva 351G, is one the firm sought out for an outcross to the tightly bred program a few years ago from the Wayward Hill program of Kentucky. Dr. Allen has been breeding Simmental cattle for over five decades, with selection pressure placed on hoof quality, fertility, udder quality, pounds of calf weaned, and overall shape and fleshing ability. For these reasons, this herd sire prospect has considerable appeal for many to invest in.
- He is a high capacity, heavy duty, durably constructed herd bull with a big foot that sets to the surface with confidence and authority off both ends of his skeleton. Functional longevity is built in for generations.
- FBFS Nocturnal 039N ranks in the top 10% for REA, the top 15% for YG, top 25% for \$GN, and the better 40% for BW, WW, YW, and ADG.
- 2026 FWSS Reserve Grand Champion Purebred Simmental Bull.
- 2026 Cattlemen's Congress Grand Champion Pen of Three Purebred Simmental Bulls.
- 2026 NWSS Grand Champion Pen of Five Percentage Simmental Bulls.

- Here is one with a double shot of "S600" on the maternal side of his genetic ledger with an "old school" twist that hosts maternal sires that would be over 20 years of age that were the quality that still works for today's beef business.
- These sons of TJSC Coping With Destiny 9K offer so many "real world" qualities that drive profit for most commercial operations in regard to muscle, scale performance, and cutability advantages as well.
- 059N ranks in the top 3% for YG, the top 10% for REA, the top 15% for MW, and the better third for WW, YW, and \$GN.

- SyAnn is very optimistic of this one's potential to sire a set of daughters that will be laced with femininity, presence, center body, milk, and fertility.
- His dam is a proven genetic blend of the late JSSC Wide Body 090W and THSF Ms Liberty S600. She represents a past Denver Champion and demonstrates the proven merit of the legacy established by S600. The firm's belief in what this blend can accomplish is unwavering, considering that over 80% of the FBF Simmental program involves both the sire and dam from the maternal side of this prospect's genetic background.
- If you retain females, then invest with utmost confidence in the potential of 037N.

- A true SimAngus yearling herdsire prospect from an elite bred Angus dam with the influence of PVF Insight 129 and the storied "Missie" cow family!
- This long sided, bigger framed son of Rocking P Private Stock H010 should sire a set of females that are worthy of retention, and the male progeny will be loaded with feeding potential.
- He was moderate at birth with over 740 pounds of weaning performance and ranks in the top 20% for \$GN and top 25% for DMI.

- The cattle by FRKG Alpha 311L are proving their worth as the sire group continues to gain the trust of many at the breeding box for this breeding season.
- The high rent son of STCC Tecumseh 058J is making his stock just a bit softer and a bit more flexible than his proven sire. The cattle trend with consistency in body and muscle as well as their overall skeletal quality.
- We appreciate this performance standout as he graced the scales at weaning to adjust with 920 pounds, pretty impressive.
- His dam was bred in the Cow Camp Ranch program of Kansas and has never backed up or wavered since being introduced to the desert southwest.
- 109N ranks in the top 3% for YG, top 4% for REA, and the top 15% for CW and WW.
- **2026 NWSS Grand Champion Pen of Five Percentage Simmental Bulls.**

# FOSTER BROTHERS FARMS

- This SimAngus prospect's build and type lends to true to what his EPD ledger tells us of his potential.
- He is long, extended, expressively shape, clean in his lines, with substance of bone and foot.
- He should lend cutability and end product yield especially when introduced to a British influenced set of cows. O68N ranks in the top 1% for YG, top 5% for REA, the top 10% for DMI, while posting an adjusted weaning weight of 914 pounds. If those stats don't catch your attention if you retain ownership, then I cannot tell you what will! A true sale feature that is backed by a cow family that you can hang your hat on!

- A certified baldy maker with presence, center rib design, and true beef cattle shape!
- The cattle by W/C Bankroll 811D lend a hand to consistency wherever one finds his proven influence. Consistent for structural integrity, bold center body design, muscle expression, and substance of skeleton.
- We strongly believe that this stud will leave a set of daughters that will be great replacements with longevity in production. His male progeny should have the equipment from his influence to be profitable on wheat and in the feeding phase up to harvest as well.
- One cannot deny his pedigree of appeal to almost any seedstock firm with the upfront influence of the very best of the Prairie View Farms Angus program, with a maternal granddam like PVF Blackbird 3127.
- He ranks in the better half of his contemporaries for Milk, in the top 15% for YG, and in the top 20% for DMI.

W/C BANKROLL 811D  
\$205,000 Sire of Lot 36

# HYBRID ADVANTAGE *Bull Sale*

- Based on his measured data and pedigree, we would expect this stud to be of consideration for use on heifers with management.
- He has plenty of quality to his head shape and shoulder design as he transitions smoothly throughout his build.
- He charts very well for most profit driving traits too, with a top 30% value for WW and REA and the top 35% for \$GN.

- This direct son of the proven Sunset View Farms sire comes with added horsepower and WDA.
- He ratioed 103 at weaning time as he posted a competitive 730 pounds of adjusted weaning performance.
- This stud is longer sided, bigger in his frame, and comes from one of the very productive SimAngus females in the program.
- He will sire the kind with excellent look and quality.

BMS ZSA ZSA 277Z

- The breed that initiated the foundation of the FBF brand!
- This Chiangus herd sire prospect is inclusive to all that is and has been good in Lockney over the years.
- He is long, smooth, and comes with the muscle shape and volume necessary to move any program forward in today's competitive industry marketplace.

## FBF VEGAS 534M

- 534M is a strong age advantaged bull that is sired by Bar CK/FBFS Nevada 1066J and backed by a powerful Angus dam. This low percentage SimGenetic stud is loaded with calving ease, fleshing ability, and skeletal quality.
- An older bull that is extra long bodied, sound footed and offers a fundamentally correct built.
- Recommended for use on well managed heifers.

- Another stud from the FBFS SWC Jordan 23J sire group that deserves a hard look on sale day. We love the genuine shape, power and substance that these sons of 23J offer.
- 083N is a sound structured bull that is loaded with power and substance. He is square built, wide based and big topped, while maintaining a proud herd sire look.
- The dam of FBFS SWC Jordan 23J is the famed FBFS Exclamation 045E donor dam that has been so influential in the Foster Brothers Farms breeding program!

- The first of three powerful ET flushmate brothers sired by the late Riverstone Vegas 49H, one of the greatest sons of KR Casino 6243 to ever surface.
- We love the natural shape, power and herd sire presence that this trio of brothers bring the equation. 032N is a big footed, stout featured, long bodied herd sire prospect that is backed by true maternal excellence.
- The dam of these three ET flushmate brothers is the dominant champion turned prolific producer, PVF Lucy 1056! She was the back-to-back Supreme Champion British Heifer at the San Antonio Stock Show & Rodeo in 2022 and 2023 for Braxton Cole. She continued her dominance by being selected as the 2023 Rodeo Austin Supreme Champion and 2023 Houston Livestock Show & Rodeo Supreme Champion British Heifer. Her decorated career is nothing short of legendary, however we firmly believe that her greatest achievements will come in production!
- 032N is a stout featured, rugged made herd sire that is ready for heavy service.
- Backed by a cow family that has stood the test of time!

- Another son of Riverstone Vegas 49H that is supported by the everlasting influence of the iconic PVF Lucy 1056 donor dam. A very complete herd sire prospect that is big footed, sound structured and offers a low input look of efficiency.
- A heavy weaning weight bull that is so robust in the shape of his rib cage, big hipped and square pinned.
- The Angus division of this year's offering might be limited in terms of volume, but the quality is nothing short of tremendous!

- The third son of Riverstone Vegas 49H that is from the tried-and-true PVF Lucy 1056 donor dam. Consistency is the key to success, and this mating has yielded tremendous results!
- The heaviest weaning weight bull in the Angus division is rugged in his over design, long bodied, big topped, and very thick ended.
- Tie these three full brothers together and add true consistency to your next set of calves!

- It is with great excitement that we present the chance to own a son of the hottest young Angus AI sire in the business! 023N is sired by the \$280,000 UDE New Heights 62/87, one of the most consistent Angus sires in the game.
- The dam of 023N, PVF Missie 2113, is a daughter of PVF DLX King Pin 0058 that is supported by the prolific "Missie" cow family that has been instrumental in the development of the PVF brand over the years.
- The dam of 023N was a many times champion for Braxton Cole that has matured into a role model brood cow with tremendous fleshing ease and udder quality.
