JBS Angus

Angus Traditions REGISTERED FEMALE SALE

Welcome to 2026 Angus Traditions

On behalf of Holt Farms and JBS Angus, we are pleased to welcome you to the Angus Traditions Registered Female Sale.

As you study this offering, we hope you recognize not only the quality presented in these pages, but also the shared purpose behind it. While this sale brings together cattle from our respective programs, it is rooted in a common belief—a deep respect for the Angus female and the lasting role she plays in the beef industry.

The Angus breed has long been defined by its balance of phenotype, functionality, and maternal strength. Those principles remain central to our programs today, while also guiding our vision for the future. Through proven cow families, thoughtful breeding decisions, and fresh genetic opportunities, we strive to offer females with the ability to contribute in meaningful and lasting ways.

Our goal is simple: to present cattle that not only make an impression on sale day, but continue to prove their value in production—females that are structurally sound, maternally driven, and capable of working in a wide range of environments year after year.

We are especially grateful to the many friends, customers, and supporters who have placed their confidence in our programs over the years. Your trust and continued support have made it possible to grow, improve, and carry these programs forward, and we do not take that for granted.

If you have questions regarding the offering, we encourage you to contact us. The cattle will be available for viewing prior to the sale, and visitors are always welcome at our farms by appointment. We would be glad to visit with you and assist in evaluating the cattle in any way we can.

We would also like to extend our sincere appreciation to those who help make this event possible. To our families, friends, neighbors, fellow breeders, and mentors—thank you. Your support and encouragement continue to play an important role in our programs.

Thank you for your interest in the Angus Traditions Registered Female Sale. We appreciate the opportunity to earn your confidence and look forward to visiting with you.

Sincerely,

*David Holt
and Kent Brown*

David Holt and Kent Brown

Lot 1 - HF Emblynette 416 Of 4295

416 is a powerfully constructed, large outlined heifer that stems from the productive Holt Farms and JBS donor EA Emblynette 4295. Her dam has generated over 50 natural and ET progeny for these programs. Her pedigree stacks historic angus sires such as Justified, Resource, Remedy and Traveler 8180 with the productive Emblynette and Burgess cow families. Tons of maternal power and productivity are offered here so don't miss this chance! **Bred A.I. to HF Ringo 338, due to calve 8/31/2026 with a heifer calf. Safe in calf.**

This daughter of the very widely used Hoffman Bar None is deep sided from her chest floor through her middle carrying well into her lower quarter, she is extremely easy fleshing and has the look of a productive brood cow. 472 offers a lot of balance in her EPD tabulation ranking in the top 35% for growth with top 10% \$M, 20% \$W. She traces on her dam side to an easy fleshing, S Powerpoint WS 5503 daughter that post a calving interval of 6@364 days. Solid bred heifer here.
Bred A.I. to Montana Jet 1271, due to calve 9/15/2026 with a bull calf. Safe in calf.

 EA Madame Pride 6899

Powerfully constructed, moderate framed daughter of the most prolific donor here at Holt Farms, EA Madame Pride 9509. This heifer offers lots of capacity through her rib cage and combines that with added top shape and big square hip. Her dam has been conventionally flushed 4 times and averaged almost 11 good embryos per flush and has generated more sales revenue than any other cow in the Holt Farms program. Don't miss this chance at these highly fertile and sought after genetics!

Bred A.I. to Connealy Captivate 37A, due to calve 8/31/2026 with a bull calf. Safe in calf.

485 is a very complete, smooth patterned female who offers extra length of spine. She is level in her design and has added depth and spring of rib to her center third. She stems from Shadybrook Donna 1635 who posts a BR: 2@103, WR: 2@101, YR: 2@103, IMF: 2@113, and RE: 2@109. 485 herself offers an IMF ratio of 130 and a Ribeye ratio of 108 while having 13 EPD's in the top 25% of the breed. Lots of production value and mating flexibility here!
Bred A.I. to Connealy Captivate 37A, due to calve 9/1/2026 with a heifer calf. Safe in calf.

This heifer embodies the key principles of the JBS breeding program, maternally focused cows that will function in a grass based environment, breed back on time, bring in a top end calf and look good while doing all of the things that are absolutely essential at JBS. 403 is sired by Montana Jet known for siring added consistently and uniformity, she reads with a very strong dam side pedigree tracing to four consecutive Donors within the JBS program. This heifer's dam has been flush 3 times and post a calving interval of 4@351 days. Spencer Wright and Lanis Smith own a maternal sister to 403. Strong cows all over this pedigree! This hurts!!

Bred A.I. to S A V Courage 3003, due to calve 9/5/2026 with a heifer calf. Safe in calf.

Very balanced, high caliber daughter of the foundation maternal sire, Basin Rainmaker 4404 that is a product of the JBS ET program with the blending of the Pathfinder Cow/Donor, JBS 334 Bellemere Maid 704. This three year old's dam produced past her 14th birthday and posted in herd ratios of BR 13@105, WR 13@104, YR 12@105, while being flushed 6 times. 224 combines trait leading CED & BW with top 5% HP, Claw; 15% Angle, \$M; 30% \$W. Sweet pair here!

Bred A.I. to Partisover Tradition 241, due to calve 9/3/2026 with a bull calf. Safe in calf.
