

Hosted by Classic Farms

7TH ANNUAL
*Spring Fever
Simmental Sale*

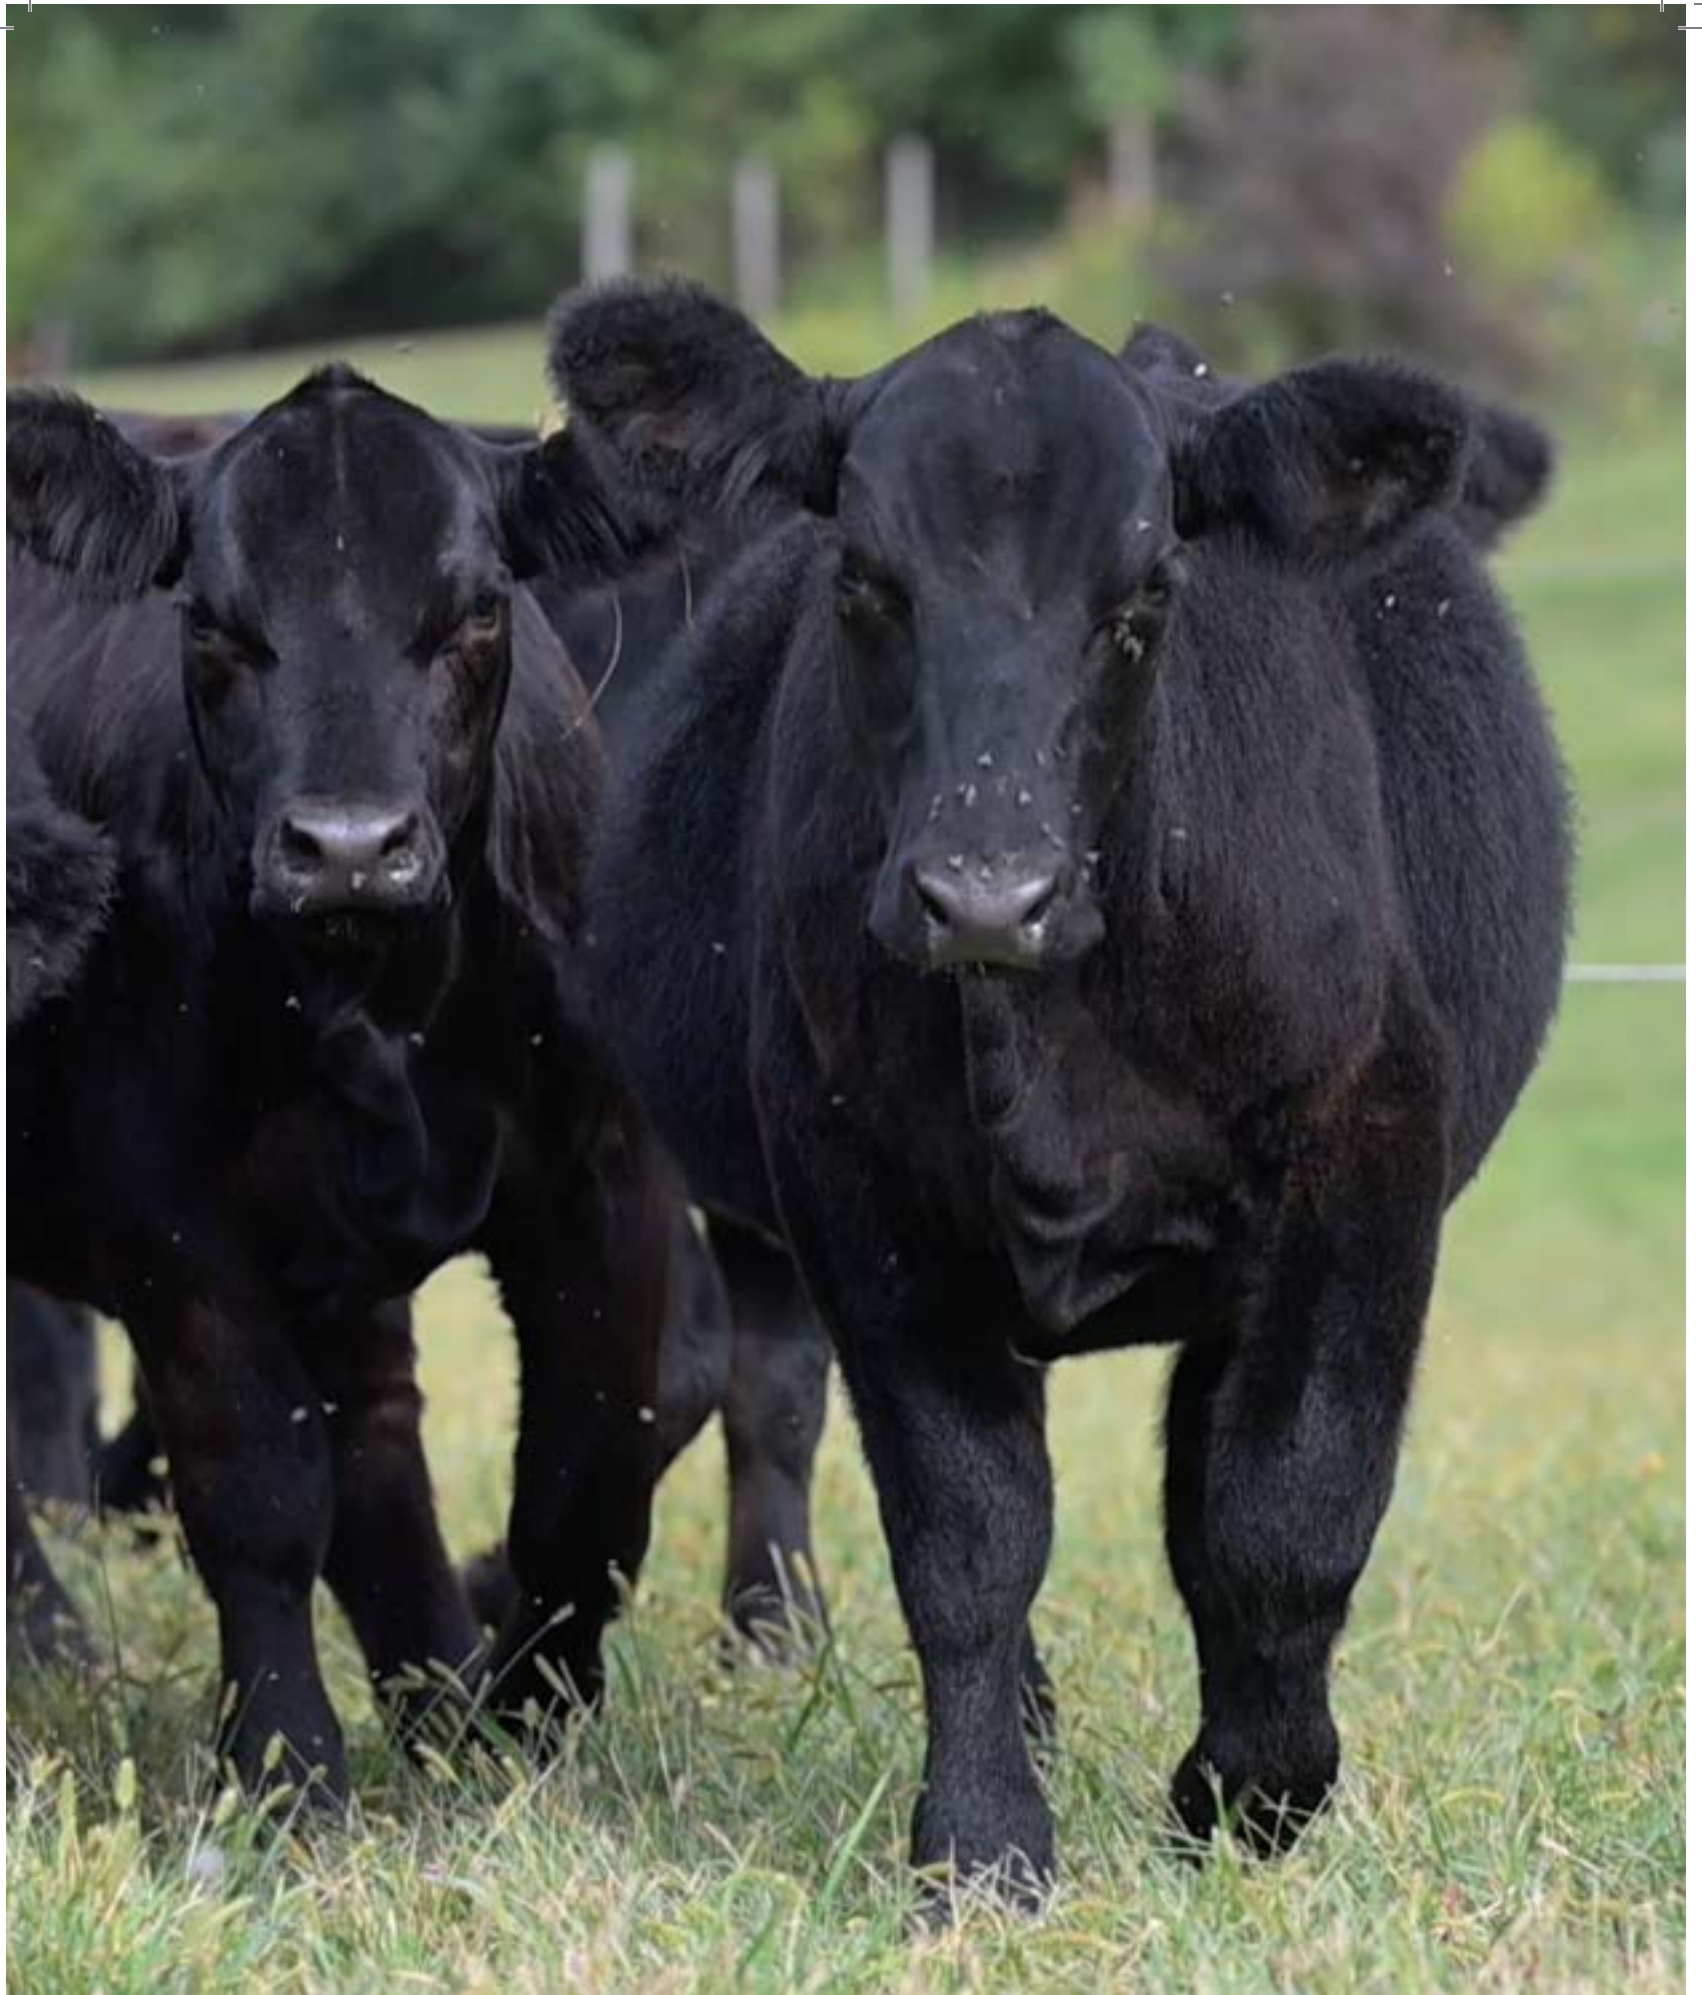

1 PM on Saturday, April 25, 2026
Jackson's Mill State 4-H Camp, Weston, WV

On behalf of the Spring Fever consignors, we would like to welcome you to the 7th Annual Classic Farms Spring Fever Sale. The offering comes from some of the East Coast's best breeders. Our breeders have built their reputation on selling good cattle that they will stand behind. There is something for everyone. The open heifer division offers replacement females and ones that can go to the showring then hit the pastures. Our breds and pairs are from proven pedigrees and in production. We have even added a few PB Angus first calf heifers. We have a set of bulls that are semen tested and passed a BSE, ready to work. We will have updates, updated videos and pictures on Facebook and our websites as they come available, so be sure to keep checking online. Come by the sale on Friday and take a look at the offering and join us for dinner and fellowship. If you can't make it to the sale on Saturday, you can watch and bid online at cci.live.

Hope to see you at sale time!

Sale Schedule

Friday, April 24
Cattle available for viewing
Pre-sale dinner

Saturday, April 25

Concession available
Sale starts at 1 PM

Terms and Conditions

All buyer numbers will be issued only with a valid ID and payment is due day of sale. Cash or check. All cattle are to be paid for during or immediately after the sale and will not be released until settlement has been made. All cattle sell under ASA Suggested Terms and Conditions.

Announcements

Announcements made on sale day take precedence over printed material.

Liability

Persons attend the sale at their own risk. Neither the sale manager nor the owners assume liability, legal or otherwise, for any accidents or loss of property. Classic Sales is only an agent for the seller and has no responsibilities other than those involved in conducting the sale.

EPDs and Health

The EPDs reported in this catalog are the spring 2022 numbers, as reported by the American Simmental Association. Cattle are vaccinated and tested for interstate shipment.

Unique has made her mark on our farm through her stellar production record. She has had progeny do the same for breeders that have bought into this family. A full sib to the SAM embryos made her way to the top 10 at the 2025 AJSA Eastern Regional and she had daughters of her 2025 calf crop make their way to the backdrop, as well. This donor has been very consistent and has not only made fancy heifers that can demand attention in the show ring, but they are also making cows with a beautiful profile and excellent udders. The SAM mating has been a hit and we added Broker to the mix and are really excited for those calves to hit the ground, as well. Just to name a few of her accomplishments, she had the highest selling heifer in our first Spring Fever Sale in 2020, high selling open in the 2024 PA Fall Classic, Reserve overall at the 2025 WV Livestock Roundup going to Teets Cattle Co and has continued to make her mark being named Reserve in her division at VCCP and 3rd in her division at Block and Bridle. We are offering Broker and SAM IVF heifer embryos. We are also offering 3 heifers, 2 SAM and an Executive Order that will help to build her legacy. And be sure to look up her Proclamation granddaughter selling as Lot 20. Selling 3 IVF heifer embryos and guaranteeing 1 90-day pregnancy if work is performed by a certified technician.

Satin has made friends everywhere she goes and for good reason. This pedigree is well-sought after, the Boots family, but to look at her qualities is the place she stands out. We place the utmost importance in cow families and we have been fortunate to have some of the donors we have and we don't take that for granted. Satin was fun to show and placed quite well, but her true asset has been in production. We have used several different matings and haven't hit a pothole yet. The consistency is unreal. She had 9 heifers sell last fall from 5 different matings and they averaged over \$6000. The bone, dimension, style, power and grace this donor and her calves have, make it exciting to offer these lots up for sale. We took a group of our Satins to a few shows last year and they sure got attention. The Mullooly and VanHorn families have also reaped the benefits of Satin heifers, with VanHorns having a high selling heifer at the PA Fall Classic with a full sib to Lot 2D. Satin had the high selling lot in our Classic Farms Fall Showcase and a high selling bred in the PA Fall Classic for us. Selling 3 IVF heifer embryos and guaranteeing 1 90-day pregnancy if work is performed by a certified technician.

GUNN **Z27 DO BLACK ROSE**

Red Rosie is in the mix of the hottest genetics out there. This Peine Rose x SAM daughter is as pretty as they come and still has the rib and capacity and sound structure to make her one of the good ones. She has turned heads and proved herself in the showring several times in her career. With her phenotype, the mating choices come easy. She can be used in any capacity. We have decided to offer up Revelation 2K, John Wick and Next Level and we don't know which ones we're most excited about. A lot of positive calf reports from Rosie are coming in and we're excited to see those calves hit the show scene this summer. Selling 3 IVF sexed heifer embryos and guaranteeing one 90 day pregnancy if work is done by a certified technician.

Selling choice of 3 Bet on Red x Diamond or 3 Change is Coming x Diamond. Anyone that has asked us about our Diamond donor knows we think very highly of her. We bought her out of Sivertowne's dispersal and she's done great things for us. She's a direct daughter of the breed legend Onyx who's now deceased. She has worked with every mating we threw at her and we're excited about these two. Whether you choose the mating to the now deceased BOR whose semen is getting harder to come by or the mating to Change is Coming who's one of the most used bulls in the last couple of years your bound to hit a home run. 3 embryos guaranteeing one 60 day pregnancy if done by a certified embryologist

We have flushed this heifer's granddam because we want more females just like her and Double Trouble has all the parts to do the same. Her dam is a heifer we bought off of Ron & Rhonda Dziembowski and we are glad we did. We have retained 4 daughters out of Lazy H Burnice and that is why we have offered this heifer.

This group of bred heifers are offered up from Young Cattle Co. They are all Simmentals that stem from the Yardley Cattle Co. Lots 37-42 are all out of PB SM unregistered dams and sired by PB SM bulls. This stellar group of females are ready to calve and go to work. The Youngs decided to offer this group, knowing they are a reputable group of females that can be used in multiple ways. They should all be calving around sale time or in May, so your return on investment will be a short wait.

Breeding information will be updated on sale day. I swore I was keeping this pretty red head. I have sold 3 sisters to this girl in the spring sale and each time I say I am keeping the next one. This girl is my absolute favorite cross the 1/2 blood red simmental and red angus. Ruby is gonna be just as good as her sisters. Why am I selling her? I don't know except her dam had another red heifer this year. Ruby has always been a sweet heart and the first one to meet you at the gate. She is a sound, good footed, and comes from one of my best cow families Charmont Foxy Lady. My good friend Twain Beal has had a herd bull out of this cow line and purchased a half sister Charmont Made to Order. Ruby should be confirmed bred by sale day to PVSM Victorious.

AI bred 8/28 to Winslow's Redman (3957259). This big bodied, stout made red cow has been a favorite of ours since she was an open heifer. This Profit daughter is backed by Kitzerow's TK Heart Barbie donor, who herself combines two immortal cow families in Onyx and Partisover Barbie. Heart Barbie calves have topped several sales over the years and been very successful in the showering and pasture alike. Hearts Passion is a soggy middled, sleek fronted cow that has a lot still left in the tank. This is the type and kind that we should be keeping ourselves but we take pride in offering some of our best every year in this sale and she is no exception. We are beyond excited about this mating to our Redman bull - with a high chance of a red baldy baby! We would love to hear back from the new owner once the calf hits the ground and throughout the maturing process. Due June 5, 2026 to Winslow's Redman.

PE 1/1 - 1/31 to Winslow's Redman (3957259). This young baldy cow is extremely productive with a big time future still ahead of her. Aspen is the result of the proven combination of two elite sires in Uno Mas and Steel Force. Both of these sires are well known for producing phenomenal females that have longevity in the breed. This cow is big footed, soft jointed, yet still massive about her build. The mating to Redman excites us even more after hearing the early calf reports on his early spring calves, with a chance of being a red baldy baby! Do not overlook this offering. Due November 1, 2026 to Winslow's Redman.

PE 7/1 - 9/30 to Winslow's Redman (3957259). Talk about front pasture material! This Insight daughter shows exactly why SimAngus genetics just flat work. Tootsie is extremely productive and the type and kind you can stare at for hours in the pasture admiring. It is hard to breed cattle that have this much length, softness, and flexibility in one package, the only thing harder is letting them go. The Redman calves caused a whirlwind last spring and fall and early reports this year are seeming better yet. This mating is one that gets our blood pumping and exactly the type of cow that he works on. Don't miss out on this unique opportunity. Due October 20, 2026 to Winslow's Redman.

Calf information: BULL CALF BORN 3/12 TO PHFC ANTHEM 4015M (4351338)

Another stellar Angus cow here, she is in her prime and ready to work. We selected this cow to breed with our new herd sire PHFC Anthem 4015M. We have a few Anthem calves on the ground and they are exciting. Don't miss your chance on this Sim-Angus calf.

This is a unique opportunity that Pond View Farms has offered and we are excited to have them. As you know, this is a herd that has a great reputation in the east, and pairs like this are just the reason. When Shane called and said, I have 8 cows I would like to sell, but if you don't want that many, I understand, we didn't hesitate to say, bring them all! He and his family have shown some of these or their dams and these are the type to build your herd around. The calves are sired by bulls that will keep that tradition going. They couldn't decide who they liked best, so take a look at them and decide for yourself - you can't go wrong.

Calf information: HEIFER CALF BORN 3/15 TO CVS RED GAMBLER (4243068).

Burn Baby Burn is a cow family that has stood the test of time and continues to make its presence felt in the Simmental breed. Baby Burn is a direct daughter of the Burn Baby Burn cow and has the same body capacity as her famous dam. This is one we had plans of flushing but never did let our loss be your gain. We feel like there's a lot of untapped potential in this one. She calves every year and breeds right back. We have her daughter in the replacement pen and she's coming along great. She will have a bonus by her side by sale day.

We are proud to offer this elite group of bulls. There is something for everyone. We have solid black, black baldies, and even red. They have all been semen tested and ready to work for you. This group has the numbers to work in all programs. There are calving ease bulls to use on heifers. They all stem from solid cows families that are from the heart of our herd. They have been vaccinated and passed a BSE.

89 JWC ENGAGE 144M SEMEN

Semen Lot consigned by **Classic Farms**

Selling 1 set of 5 straw

This is a chance to purchase semen from the \$230,000 high selling bull from the Jared Werning Cattle Production Sale. His genetics are hot right now in the show world and cow/calf operations alike. Engage is a Broker X 8543 bull that not only has excellent genetics, he also has the phenotype to top it off.
