It is with great pleasure that we welcome you to our fifth annual Return of the Southern Stars Sale! It is hard to believe that five years have passed since we joined our good friends, the Martin family of Martindell Shorthorns, to host a sale with a variety of offerings - bulls, cow/calf pairs, bred and open heifers, all backed by proven genetics from our herds and those of our fellow consignors. We are pleased to once again have this opportunity to showcase the quality of Shorthorns bred and raised in our region. Please do not hesitate to let us know if we can be of any assistance as you review our offerings to determine the animals to best match the needs of your program.

We are looking forward to May 9th and the continued fellowship of Shorthorn friends and family.

Southern Stars Quilt

All proceeds go towards the
Shorthorn Youth Development Foundation.

Martindell Farms LLC is extremely honored to have the 2026 Southern Stars sale dedicated to Martha Jane Martin. Martha Jane passed away March 14, 2026. She was the matriarch of Martindell Shorthorns. C.F. and Martha Jane were married for 64 years and family always came first. Martha Jane was a self taught woman of many talents including sewing, knitting and crocheting but quilting was her passion. She won to many Quilt contest to count and many blue ribbons at the Ky. state fair including best of show in 2013. Anyone who was lucky enough to receive a handmade gift from Martha Jane still treasures it today. We are proud to offer a rare opportunity to purchase one of Martha Jane's one of a kind Quilts with the proceeds going to the Shorthorn Youth Development Foundation. Join us in person or on CCI Live for this exciting opportunity.

A very soggy, easy fleshing female with strong maternal instincts. I have sold every heifer this cow has produced. Her first calf went to Johnson Co. IN, probably one of the most competitive counties in IN, where Lily did well with her and is now raising her own 4-H calves. Her second heifer went thru the KY Beef Expo to Eli Thompson and raising calves as well. This year, she has a stout, stylish red bull calf at her side with a CE of 12. We found out about the sale a few days before the deadline, and did not have time for pictures. DSF, THF, PHAF & Johnes Free.

A Hot Commodity daughter with loads of volume an dis an easy keeper. She has earned the name Sweetie, because she has a great disposition. She always seems to throw "that look" in her calves. She comes to you with a nice stout bull calf with lots of eye appeal. This picture isn't the greatest, but the calf was just born the day before, so nobody was looking their best yet. DSF, THF, PHAF, & Johnes Free.

This JSF Goldenrod daughter is one that you won't want to miss out on. She is just getting into her prime, and her roan bull calf at her side shows the type of cattle she can produce for you in the future. She is long and deep-bodied, square-hipped, docile, and is one of the best-milking cows in your herd. If you're wanting calves that have the extra growth and frame, she will make a great addition to your herd.

I held these fall heifer calves for spring calving, I didn't want to grow the fall calving herd anymore than it was and really planned on keeping them all. They all bred on the first service. Feb. Bull calf at side. Nice pair.

We purchased this heifer thru the Kentucky Beef Expo. She has a strong pedigree and has done everything right. She stuck on the first try to Dow Jones and produced a nice roan bull calf with a CE of 16. She has a good disposition and is giving her all to raise a nice, stout herd bull prospect. We didn't get information about the sale until a few days before the deadline, so we didn't have time to clip and primp any, but were able to get a quick picture. Johnes Free.

This is a heifer that is hard to let go but we are committed to offering some of our best for your consideration each year at this sale. Greatly resembling her dam with the added, much sought-after genetics of Evolution, she is a stout-made, easy-fleshing, sound-moving heifer that will make a valuable breeding piece. She is AI bred to Gilman's Basin for an early calf with a good chance of having some added color. AI date 11/29/25. Pasture exposed to Gilman's Pit Boss 12/26/25-2/16/26. Ultrasound pregnant 1/14/26. Expected calving date 9/11/26.

TERMS

TERMS: All cattle in this sale sell under the sale terms as written by the American Shorthorn Association. Updates will be available on sale day. PAYMENT

TERMS: Terms of the sale are cash or check made payable to Brent Elam, immediately following the sale and before the cattle are removed from the premises.

Purchasers or their representatives must sign the bill of sale prior to leaving the sale. BILLED ACCOUNTS: All billed accounts are due and expected within 10 days of the sale date. At 10 days, a two percent service charge will be added to the unpaid balance and an additional two percent will be added every 30 days thereafter. LIABILITY: Each animal will be at the buyer's risk soon as sold, but will be cared for by the seller of a reasonable amount of time. Neither the owner, employees, auctioneer, sale manager or other affiliated personnel can be responsible of any accidents, but they will make every effort to provide for the safety and comfort of those attending. BREEDING GUARANTEE: We guarantee all livestock sold as sound breeders. However, if we feel that a heifer has been fed to an extreme level of obesity for the show ring, we hold the feeder responsible for any reproductive problems and no longer feel responsible to guarantee that individual animal. In the rare case that this should occur, the Southern Stars Group will try and help you through the first breeding season. EMBRYOS: The Southern Stars group will guarantee one pregnancy on each package of embryos selling if implanted by a certified technician. SEMEN RIGHTS: Reserve the right to in-herd semen use for all bulls selling.

 SULL BO'S WORLD 3906 ET

LEVELDALE COWBOY UP 820F
 GILMAN'S DURHAM 5F
 SULL TRAVELER 9807 ET
 SULL MYRTLE BO 46P-1

AI Sire is JSF Namath 14L; confirmed bred to sexed heifer semen. Due 09.10.2026.

SULL Bo's World 3906 ET has been an incredibly productive donor cow for us. She has produced many champions and this heifer is no exception. We believe that she is the perfect combination of show quality meets performance. She is a moderate to large frame heifer that is well balanced in her make up. She is made right with depth and length of body, stout, good bone, and feminine in the right places.

Moderate framed, thick heifer with an outstanding pedigree best describes this heifer. The Dottie cow family speaks for itself as you can find daughters in many herds throughout the breed. Out of a daughter by All Sport (full brother to Propel) combined with the added performance of Ember, this is a heifer that could be bred many ways to suit the goals of your program. If you are after ShorthornPlus cattle, this heifer would be a standout for that option or if Purebred is your thing, she will work well for that as well.

If you know anything about our breeding program, you would have seen or heard about the Majorette cow family in some form or fashion over the years. It is one of our main cow families that have stood the test of time and will continue to do so for the foreseeable future. This particular Majorette K444 daughter is a unique genetic blend combining generations of cows that have served us well on the dam side, paired with modern genetics from Circle K Gilman Dream Easy on the sire side. We think she combines all the right pieces to make a productive brood cow. Just one look at her picture and you will see right off she is as broody and maternal as they come. She is great structured, big ribbed and will be a low maintenance producer for many years to come. We had to dig deep to find some bred heifers to offer in the sale. Our loss is your gain, invest in the future with this one! CHV

We may have messed up offering this one for the sale instead of retaining her back for ourselves! The more you study this heifer, the more things you like about her. She is big ribbed, big topped and gets out and travels with a long fluid stride. Sensored K464 is another descendant of one of our main cow families that continue to produce better than the generation before. The Charity cow family needs no introduction if you have ever studied our genetic program. They are practical cattle that always work hard for us and do a great job no matter which way they are bred. However, the dam side of this phenomenal bred heifer is only one side of the equation. You will notice that the sire side of her pedigree is stacked with our genetics as well. She is sired by the excellent MFK Josey Wales 408K bull that was used here for years as one of our main herd sires. We just cannot say enough good things about the offspring he produced for us in his time with us. Since we no longer have him with us, it gets harder and harder to let go of his daughters since they are now in limited supply. There is no guesswork with this female, her genetics and phenotype speak for itself. Buy with confidence. CHV

This is an extremely long-bodied, deep-made, massive bull ready to go to work. Sired by Gilman's Liberty Valance 25J (whose heifers were much sought after in Bowman's of Indiana past sale) and out of a donor cow for the Greenhorns in Ohio, this bull combines the performance and show ring genetics to produce offspring with "the look" as well as growth. Sound moving with a good disposition, he has been genomically tested and will have a Trich test and breeding soundness exam by sale time to ensure he is ready to travel anywhere in the 48 states. Born unassisted with an actual birth weight of 81lbs, take him home and put him to work in your herd. He is ready!

This fall heifer will truly be a treat for her new owner. When we flushed her dam to Evolution and got this heifer, we were so excited that we decided to flush her the same way again. There are many outstanding Evolution x Ruby/Red Travelers throughout the US, and this heifer is no exception. 1620 has that show ring look coupled with growth and performance. She has depth of body, good top and great neck extension that she carries in a sound, freely moving package. Her maternal grandsire, Red Reward has sired many great females in our breed. Having his genetics in her pedigree just adds further to her brood cow/donor cow potential. Take her home, show her, then let the proven genetics of Evolution x Ruby/Red Traveler perform in your herd.

A moderate, deep bodied, easy fleshing female that travels well on the move. Red Dog (Clifford) females are very good milking, easy doing cattle. The heifers we have retained in our herd are doing very well as first calf heifers. They are maintaining with very little input. We expect this heifer will do the same. Her pedigree has a little hint of Red Angus adding even more fleshing ability. Look at her outstanding EPDs. She is ready to make a cow in any herd.

1578 is a heifer with a strong pedigree that can be used in many ways depending on your breeding program. The Myrtle Bo cow family has earned a reputation that speaks for itself as evidenced by the Myrtle Bo cows that are found in many herds in our breed. Her maternal grand sire, Resolve, worked very well for us, producing daughters with that show ring look. This heifer's sire, Pit Boss, brings calving ease and added growth to her genetic arsenal. Long, deep, up-headed, easy traveling, 1578 is ready to work for you.

Another Pit Boss that is hard to let go but we wanted to offer some of our best yearling heifers. This heifer would be a good candidate to compete in the EDGE shows with her look and EPDs. Very long bodied, deep sided, easy fleshing with a great set of wheels! She has a "gem" of a pedigree. The genetics of Pit Boss combined with Taylor Made and Rosewood add that extra depth of body. Looks, pedigree and EPDs - just think what you could do with her. She is ready to take home and breed to the bull of your choice.
