Starting with a really neat-made, attractive daughter of the popular Bold Ruler whose progeny have been sale toppers all across the country. The maternal side of this great female is pretty special. A Rawhide daughter who traces to Coleman Donna 063 who is a full sib to Coleman Rock 7200! Then study her EPD profile and the top 1% \$M & \$C. Hard to find that pedigree and phenotype in a +\$400 \$C package so pay attention. Talk about predictable and proven genetics from the heart of the replacement pen. Bred AI to Wilks Promise Keeper on 11/29. Just run the numbers on what that mating projects out to be. Safe AI

MAKE YOUR CATTLE STAND OUT

You've made a significant investment in your genetics, but does the market recognize that? Stand out by differentiating your cattle with AngusLinkSM programs: AngusVerifiedSM and the Genetic Merit ScorecardSM. AngusVerified validates your calves are sired by registered Angus bulls and make your cattle stand apart from other black hides on sale day. The Genetic Merit Scorecard gives buyers the confidence they need to pay more for your quality calves.
