Special Mentions

• If you plan to loadout Sunday, please make arrangements with the clerk at checkout so that we can assist you in a timely manner. Failure to do so will likely mean you'll be waiting to be loaded a while.

• Black Hereford Ranch reserves the right to collect DNA on ALL cattle that we sell for cloning purposes.

• 12- to 18-month-old bulls can be used with great success, but we recommend to turn out one cow per bull's month of age for best results. These young bulls are still growing and losing their teeth and may need a little extra care at the end of their first breeding season.

• Black Hereford Ranch retains one-third semen interest and one-third revenue sharing on all bulls and the right to collect DNA for cloning purposes on all cattle sold through Cream of the Crop sales.

• We highly recommend you take out insurance on your purchases. This is a safe way to protect your investment on both females and bulls.

It's taken 48 years to get 'em this good.

Let us help you raise your own champions and high sellers!

PROTECTING YOUR INVESTMENT

All cattle become the risk of the purchaser as they are sold. As noted in the front of the sale catalog, we highly recommend you take out insurance on your purchases. To protect your investment, insurance will be offered and can be purchased at the clerk's table during settlement. The cost of this insurance is minimal compared to your investment. We encourage all buyers to purchase it to cover the animal for at least the first year of your possession.

TEMPERAMENT STATEMENT

Temperament is a high priority on our desirable traits list, and we have culled our cattle for generations on temperament. However, for all interested bidders we do want to note that lots 165, 263, 629, 632, 636 & 675 can get some excited when sorted off by themselves. We have already culled the ones that got very excited. As always, we will stand behind our cattle. If you have problems with any of the lots, please let us know.
