DELIVERY & YARDAGE

Cattle will be available for load out immediately after payment has been made. Aces Wild Ranch will help with arranging trucking of females shortly after the sale, please reach out to Jed for more information. With the shortly impending calving dates of the bred females in this sale, we urge for trucking arrangements to be made promptly.

Trucking, Kip Childers, 256.303.3382

ANNOUNCEMENTS

Announcements made sale day and from the auction block during the sale take precedence over printed materials associated with this sale. Anyone attending this sale attends at their own risk. Aces Wild Ranch and sale team will not be held responsible for any personal injury for attending this sale.

TERMS & CONDITIONS

The terms of the sale are cash or good check payable immediately upon the conclusion of the sale before animals will be removed. Cattle sell under the standard terms of their respective breed association. All sales are final, and the cattle will become the property of the buyer when the auctioneer says "SOLD". All females are sold as sound breeders. Seller guarantees each female to produce a live calf or transferrable embryos.

EPDs

The EPDs listed are Fall 2026 numbers. Please note that EPDs may change from the time the sale catalog is printed until registration papers are transferred.

INSURANCE

We recommend serious consideration is taken about insuring your livestock purchases. Insurance will be available sale day, contact Sale Management for information.

A NOTE FROM THE *sale management*

Welcome to this special Charolais offering from one of the breed's most dedicated supporters, avid collectors, and breeders of elite Charolais genetics. Aces Wild is opening the gate to the heart of its breeding program, offering the next generation of high-end fall-born and fall-calving females through the dispersal of every fall-calving bred heifer and yearling female, along with a select cross section of one of the industry's premier donor pens. This sale will also feature the largest collection of RF SC Miss Maura 8221 ET daughters ever assembled in a single offering. Anyone who has followed the Charolais breed over the past several years recognizes the immense influence that RF SC Miss Maura 8221 ET has had on the show ring and, more importantly, on the future of the breed. Few females in recent memory have generated the level of consistency and elite quality that she has. Three of her daughters have led the charge, combining to earn two Charolais Show Heifer of the Year titles, two AICA Junior National Owned Female championships, and the 2026 AICA Junior National Reserve Owned Female title. We struggle to identify another Charolais donor in recent history that has assembled a production record of this caliber in such a short period of time. The influence of RF SC Miss Maura 8221 ET continues to gain momentum with each calf crop, and this offering provides a truly rare opportunity to invest in one of the most proven and sought-after cow families in the Charolais breed today.

The donor battery that stands in Millsap, Texas encompasses several of the most dominate and proven cow families in the breed. There is no doubt that Jed has been aggressive in his search to secure a group of cornerstone breeding pieces that lead the business. The influences of his leading ladies, RF SC Miss Maura 8221 ET, JIL Misty 123Z, M6 Ms Patsy Bell 527 P & TR Ms Turton 3680A will all be represented through this offering, along with daughters by the industry leading AI Sires that Jed has invested into, SVY Mayfield 30H, WB The Gov 316L ET, and TR Legacy 1707J ET. True investment opportunity lies within this group of females, with exceptional ROI possibilities for those that make the investment.

The team at Aces Wild Ranch, has built its reputation on dedication, integrity, and an unwavering pursuit of quality. Those values are reflected throughout this outstanding set of cattle. Spend even a short amount of time with the people behind AWR, and it quickly becomes clear that their passion for the seedstock industry runs deep. Their optimism for the future, paired with a genuine enthusiasm for the work they do each day, sets them apart in today's cattle business. Rather than simply focusing on the end result, they take pride in every step of the process.

If you haven't had the opportunity to visit Aces Wild Ranch, it's well worth the trip. The AWR team is always eager to walk visitors through the cowherd, discuss the decisions that shape their breeding program, and share the goals driving their operation. Whether you're looking to strengthen maternal traits, stack up legendary cow families, or improve overall consistency, they'll take the time to explain how their genetics can add value to your program.

• Here is a full sister to RF Miss Maura 3322 ET, one of the most dominant champions of recent memory. She was Claire Norris' selection from the 2024 Rosebud Cattle Company Fall-Born Female Sale for \$30,000. RF Miss Maura 3322 ET's first trip to town was rewarded with Grand Champion Heifer honors at the 2024 AIJCA Junior National Show, her next trip to town was to Kansas City, where she was crowned as the 2024 American Royal Grand Champion Junior Charolais Heifer. At the NAILE she was Reserve Grand Champion Heifer behind the Supreme Champion Junior Breeding Heifer; in Oklahoma City she won the Open Show and was Reserve Grand Champion in the Junior Show; then she made the trip to Fort Worth to be crowned the 56th National Champion Charolais Heifer. She capped off her legendary run at the 2025 AIJCA National Junior Show, where she was selected as the Grand Champion Owned Heifer once again, making her the first back-to-back AIJCA Grand Champion Owned Heifer in history.

• 2026 saw another full sister burst onto the scene, as RF Miss Maura 5308 ET, another fall born was selected as the Reserve Champion Owned Female at the 2026 AIJCA Junior National, it will be fun to see if she can fill the shoes that her full sister walked in.

- Here is a full sister to one of the most popular AI sires in the breed right now. RF Elevate K108 is becoming a household name, not just because of his impressive pedigree, but because of the results from his first calf crop that featured on the high sellers list of several programs across the nation. Daughters topped the Charolais division for both Boyert—Core and Coor Cattle with price tags to include \$60,500, \$56,500, \$51,000 and \$25,500. These daughters debuted in the show ring, winning the Charolais breed at both the Hoosier Beef Congress and Badger Brawl and Addyson Sweeney had the 5th Overall Owned Charolais Female at the 2026 AIJCA Junior National.
- AWR Maura Summit 5159 ET has the pedigree to achieve greatness in production, stemming from one of the hottest pedigrees in the business right now, and the phenotype herself to turn heads in the meantime. We think she has donor candidate written all over it, but is going to make for quite the project on the end of the leather lead to begin with.

• The pedigrees supporting this offering are as powerful as you will find anywhere in the nation. We begin with a collection of daughters from the legendary RF SC Miss Maura 8221 ET, a female that has cemented her position as one of the great producing Charolais females in the business over the past four years with several progeny that are the hottest breeding pieces you can find.

• Maternal siblings to 5165 include; back to back Junior National Champion, RF Miss Maura 3322 ET, AI Sire, RF Elevate K108, 2026 AIJCA Reserve Champion Female, RF Miss Maura 5308 ET and RF Miss Maura 2331 ET, the 2023–2024 AICA Female of the Year.

• AWR Maura Mayfield 5165 ET is a fresh twist pedigree wise on the 8221 female, but it looks like it's something we are going to have to keep recreating as we are very excited about these results. Big pieces, wide backed and still extremely balanced and feminine, she is the type and kind you can build a program around.

• Tying together some of the most interesting and high productivity cow families has yielded big time results, and a breeding piece that has incredible potential for returns on investment.

AI BRED ON 12/19/25 TO TR LEGACY 1707J ET (AICA: EM960037).
SAFE AI. EST. DUE 9/27/26.

- There is not a more dominant cow in the breed right now than RF SC Miss Maura 8221 ET. In the last three years her presence has been made very evident at the AIJCA National Junior Show with daughters being either Champion or Reserve Champion Owned Female. She herself won her division at every major show and has become the back bone of the Ridder Farms program with both sons and daughters that are producing at the top of the business.
- Maternal siblings to this LT Badge 9184 PLD daughter include, RF Elevate K108 one of the trendiest sires in the industry right now, Trace Ridder's 2023-24 AICA Female of the Year, Claire Norris' 2024-25 AICA Female of the Year and back-to-back AIJCA Junior National Champion and Brooke Polzin's Reserve Grand Champion Female at the 2026 AIJCA Junior National.
- From both a phenotype and pedigree standpoint, AWR Ms Maura Badge 366L ET looks like a one-way ticket to cash flow in our minds, this female is the type and kind that you center an embryo transfer program around and just sit back and relax as the checks start coming in once progeny begin to hit the market.

SAFE AI. EST. DUE 9/27/26.

- A LT Badge 1538 PLD daughter that stems back to Kashlyn Krebs' National Champion Female, TR Ms Helen 0704H ET through the impressive, TR CAG Carbon Copy 7630E ET daughter, KASH TR Karen 200. Another generation back you will find the National Champion, and prolific producer, BRCHE TR Dory 6501. Several of the most incredible phenotype Charolais in history line the pedigree of this matron of the future.
- Her mating with TR Legacy 1707J ET only doubles down on the National Champion blood embedded in this opportunity and sets her up for making a big splash in production.
- You will be challenged to find many females with this level of phenotype, that are backed by such an impressive dynasty of ancestors across any Charolais offering.

AI BRED ON 12/19/25 TO AWR WHITE CLAW 814 (AICA: M913190).
SAFE AI. EST. DUE 9/27/26.

- It is hard to deny the impact that the LT Rushmore 8060 PLD females have had and continue to have on the Charolais business. His daughters are extra maternal and are built for the long haul, coming with so many positive production traits, and you will find them on the bottom side of many success stories for operations across the breed.
- She stems from the powerful maternal cow family of the Big Creek Mamie's that have been a focus for the Big Creek program for several generations, and are one of the most impressive cow families to be built in Harrisonville, Missouri. As an added bonus, note her very positive set of EPD tabulations, that read with a healthy cross section of production orientated numbers.
- She comes bred up to the very impressive, 2020 Fort Worth Stock Show Reserve Champion Charolais Bull and the 2020 Houston Rodeo Grand Champion Charolais Bull, AWR White Claw 814.

AI BRED ON 12/19/25 TO TR LEGACY 1707J ET (AICA: EM960037).
SAFE AI. EST. DUE 9/27/26.

- A powerhouse pedigree is exactly what you will find in support of this phenotypic standout. Take note that she is a direct daughter of the legendary TR Ms Kay 30A ET, and being sired by the National Champion, TR CAG Carbon Copy 7630E ET makes her a full sister to the National Champion turned impressive producer, TR Legacy 1707J ET. Stacking up the generations of the good stuff here, and it's no secret that there is power in the blood with this genetic bombshell.
- The results of this impressive and consistent mating stand up to even the most outrageous of expectations. There is no questioning the functional build and maternal prowess of this future program spearhead.
- Pedigree wise we aren't sure that you could align more power into a single lineage, so if you are looking for a breeding piece that has the family backing to create high end phenotype and show heifer types then pay attention to this female.

- AWR MS Mayfield Patsy 4120 ET stems from the successful synergy of the trending, International Champion, SVY Mayfield 30H with the most versatile female in our battery, M6 Ms Patsy Bell 527 P. It is not just her striking look that exudes quality, but a glance into the genomics will reveal a set of predictions that are very favorable for a range of production and performance traits.
- She offers immense value from a range of directions, and could suit a variety of operations with differing production goals.
- We place serious value on the fact that she is a female that many would deem geared for high production, and impressively carcass orientated but yet she is still blessed with a great phenotype!

SAFE AI. EST. DUE 9/27/26.

- Stemming from the best of both worlds, AWR Alley May 4111 ET is the coalition of the most powerful genetic lines to ever work for the Aces Wild Ranch.
- There would be very few branded with the AWR that are more exciting than AWR Alley May 4111 ET. Combining the most proven maternal lines, with one of the most anticipated sires of the time has generated us results that have us very excited about the future.
- AWR Alley May 4111 ET is the perfect combination of power and poise, and from a phenotype standpoint, she is and always has represented the goals of our program. Built stout and dense from the ground, and all the way up, we just love how she is able to carry all this power in such a smooth and eye appealing manner. The turn to her ribcage and depth at the center of her underline is impressive, and yet she still floats while in motion. In our mind, this is the future direction of the breed.
- This maternal sister to the 49th National Reserve Grand Champion Bull, ONL AWR Cool Cub 7C, and the rising star of the donor pen, AWR Alley Cat 933 has us on the edge of our seats, not just in excitement for her show career, but for what she offers to the breed going into the next decade, serious investment opportunity awaits here.

AI BRED ON 12/19/25 TO AWR WHITE CLAW 814 (AICA: M913190).
SAFE AI. EST. DUE 9/27/26.

- AWR Ms Mayfield Turton 4100 stems from the influences of the TR Ms Turton 3680A donor, making her a maternal sister to the litter of M&M Outsider 4003 PLD daughters that averaged over \$30,000 in the fall of 2017. Included in this group of full sisters was BK BOY Eye Catching 740E who was purchased by Kelton Arthur for \$83,000. She collected a swarm of championships that included winning the Open Show at the 2018 North American, and being sashed as the 50th Reserve National Champion Female. The 740E female is beginning to put together a nice regime in production also with several competitive daughters on the circuit this past year.
- We truly think that this beautiful profiling female offers huge potential as a show heifer generator, she is built with an ultra-attractive and flexible hind leg, level hip and pin set, sweeping body cavity, and because there is no denying the captivating presence about her front third, talents that have to be bred into one from a maternal source like this standout.
- She comes bred up to one of our proudest breeding achievements in AWR White Claw 814 who was the Reserve Champion Bull in Fort Worth and the Grand Champion Charolais Bull at Houston.

• The dam of the next pair has made many friends during her successful career on the shavings for the Hankins family, as the LT Atlas 0251 PLD daughter, WH Atlee 217 PLD is undoubtedly one of the most massive centered, biggest barreled, and deepest underlined matrons that has been campaigned in the last few years. Just this past summer she was the Reserve Grand Champion Cow-Calf Female at the AIJCA Junior National in Hutchinson, Kansas.

• AWR Atlee Gov 5171 ET stems from the culmination of the incredible "Atlee" female and the impressive WB The Gov 316L ET sire that is a sight to see, coming with massive amounts of shape and power, yet is a sound moving, masculine headed and wide ended stud. The combination of these two power houses has dealt out the goods, with a female that has cow power written all over her!

• We love what the mating with the International Champion, AWR Atlee Mayfield 5172 ET has done with the ultra-maternal WH Atlee 217 PLD. This match made in heaven is one that is perfectly balanced from either side of the equation, with nice complimenting traits coming from both sides of the genetic tree. Speaking of the genetic tree, notice the lack of the popular show genetics in the pedigree here, this female leaves the door fairly wide open in regards to her breeding flexibility once her time on the tanbark ends.

• The body type and powerful build of AWR Atlee Mayfield 5172 ET set her up for what is likely to be a very fun time in the ring, it seems like muscle is starting to become more popular again in the show ring, and we think her awesome balance and functional build are likely to be found quickly once she gets on the lead.

• There is no doubt that there is excitement in the air about the influence that SVY Mayfield 30H is having on the Charolais breed. He was one of the most impressive mature bulls to ever walk into the National Western show ring, and was an undoubtable National Champion that day, which came just a month after his Supreme Champion accolade at the Canadian Western Agribition. His first sets of progeny have revealed his ability to transmit that same powerful phenotype into his progeny, and AWR Alley Mayfield 5173 ET is a prime example of his dominant stature.

• Maternally she is sourced from the 123Z donor that has had a significant impact on the breed, being the source of the 49th National Reserve Grand Champion Bull, ONL AWR Cool Cub 7C, a sire that has proved more than worthy than his accolades in the showing with his ability to sire immense quality in multiple cowherds nationwide. The influence of AWR Cool Cub 7C continues through a sensational set of sons and daughters that are delivering the goods at the front end of the business, including the trending BRCHE Cool Dot 0503 PLD and the incredible AWR Alley Cat 933 donor.

• AWR Ms Insider Belle 5079 ET comes with an interesting genetic twist than we have ventured towards before, stemming from the WIA-Conley Insider D9 P stud, who is a maternal brother to M&M Outsider 4003, that is sired by the National Champion, TR PZC Mr Turton 0794 ET. 0794's inclusion brings the legendary 0641 female to the pedigree; she is a female that has been a one of the most instrumental females in the AICA database over the past 25 years.

• Her dam, AWR BCC Snow Belle 418B was a tenured producer that every year brought something of added value to the weaning pen. The 2022 born maternal sister to 5079 was a daughter of TR CAG Carbine's Vision 9700 ET that was a part of the show string that Belle showed in Oklahoma City. Tracing the generations back finds the DA MS Marion 728 P ET, a female that knows few strangers in this business with both purebred and crossbred progeny sourcing sizable checks, in fact her Monopoly sired steers averaged more than \$10,000 over the years. Another generation back finds the 2014-2015 Show Dam of the Year, OW Miss Marion 0025 ET.

• A direct daughter of the National Champion, TR Legacy 1707J ET that comes with a striking look and incredible structural build. We love the extended profile and silhouette, added functional middle third and square, attractive pinset that she has been designed with.

• We fell in love with the mother of N50, WIA Ms September 3207 P last fall at the “Fall Colors” Sale as this beautiful profiling daughter of VPI Monticello 023H screamed quality from one end of her skeleton to the other. This first daughter is a spitting image of her dam, being sleek designed, robust middled, big footed, square built, and loaded with maternal excellence from end to end!
