SALE LOCATION

The sale will be held at the Tejas Ranch,
located 11 miles east
of Farmington, CA.
A map to the sale site can be found on Page 3.
GPS ADDRESS: 22950 Milton Road,
Farmington, CA 95230

ACCOMMODATIONS

Holiday Inn Express, Oakdale, CA
209-847-9121
Best Western Plus, Oakdale, CA
209-845-2500
Hampton Inn, Stockton, CA
209-659-6596

HOSPITALITY AND LUNCH

Refreshments will be available throughout
the day of the sale. A complimentary lunch,
prepared by the Copper Spur, will be served
at 11:00 a.m.

SALE BULL HEALTH AND FERTILITY

All bulls have passed a complete fertility
examination and semen test prior to sale.
They have been tested for trichomoniasis,
received full Anaplasmosis vaccination,
and are tested free of BVD-PI (persistent
infection).

BREEDING GUARANTEE

All bulls selling are guaranteed to be
sound breeders through the first 90 days
of turnout. Should a problem arise, contact
Dunipace Angus Ranch immediately, prior
to the bull being sold for salvage. All claims
must be made by February 15, 2027.

LIVESTOCK INSURANCE

Full mortality insurance is available through
Livestock Marketing Insurance Agency.
Inquire at the checkout table or contact
Jake Parnell at (916) 662-1298 with any
questions.

DELIVERY & INCENTIVES

Take your bulls home sale day from the Tejas
Ranch and receive \$100 credit, per head,
on your purchases (maximum \$400). Free
delivery within California and surrounding
states. Ask about making arrangements
for housing bulls for pickup on or before
October 1, 2026. We also offer volume
discounts applied at 5% for a purchasers of 6
or more bulls.

ANGUSMEDIA

EPDs contained in the hard copy of this sale book were current as of print
date. Digital versions of this sale book can be viewed online at www.angus.org
and will have EPDs updated every Friday with the exception of EPD references in footnotes and photos.
Any PDF downloads from the website will contain EPDs current as of the date downloaded. References:
American Angus Association®, AHIR®, AngusLinkSM, CAB®, Pathfinder®.

TERMS AND CONDITIONS

Any announcements from the block will
take precedence over statements in the
printed material. Cattle will sell under the
suggested Terms and Conditions of the
American Angus Association (http://www.angus.org/Pub/suggested_sale_terms.pdf).
The terms of the sale are cash. All purchases
must be settled on SALE DAY, unless prior
arrangements have been made. Cattle
not paid for within 30 days of sale will be
assessed a 2% interest charge per month.

SEMEN INTEREST

Buyers will receive 100% interest and full
possession on all bulls unless noted in the
catalog or announced on the block on sale
day.

VIDEOS OF BULLS

Video previews of the bulls will be available
at cci.live or scan this code with your
smartphone:

INTERNET BIDDING

Details and contact information available on
Page 3.

WELCOME TO THE SALE

We would like to welcome you to the 2nd Annual Dunipace Angus Bull Sale.

My family and I are incredibly excited about the opportunity to continue growing and advancing our registered Angus seedstock operation. Just as meaningful, however, is the chance to reestablish the Dunipace Angus name within California's cattle industry—a legacy my grandparents began more than 50 years ago. In the following pages, you'll have the opportunity to learn more about the history and origins of the Dunipace name. Jack and Susan Parnell were deeply passionate about the Angus business, California agriculture, and the ranchers and farmers who form the backbone of this industry. Those same values were instilled in us from an early age, and they continue to guide our decisions and shape the way we operate today.

From a management standpoint, we have taken a more non-traditional approach to developing and preparing these bulls for sale. After weaning last fall, the spring bulls remained on irrigated pasture before transitioning to native foothill pasture, where they grazed through the winter. They were moved to Joe Clarot's feedlot in February and have been carefully developed on a back-to-grass ration. We believe this program promotes a more natural rate of maturity, allowing the bulls to grow and develop in an age-appropriate manner. Our goal is simple—to maximize their longevity and long-term productivity in your operation.

The Angus breed has made tremendous advances in performance over the past decade. While those gains have been beneficial, they also present challenges when developing an 18-month-old bull for sale. Rather than pushing these bulls for maximum gain, we chose to moderate their rate of growth in favor of soundness and durability. You'll notice that approach reflected in the adjusted yearling weights in this book. Rest assured, however, the genetic potential for growth is still there, and these bulls will be ready to go to work. Our fall yearling bulls were raised on the dry until weaning on June 1 and have also been on the same ration to encourage longevity.

None of this is possible without the hard work and dedication of some very special individuals. Shane Lucore, Justin Schmidt, Bowdy Griffin, and Regina Schneider each play a very important and vital role in the Dunipace Angus program. Their level of commitment, knowledge, and dedication is what made the offering displayed through the following pages, and we can't thank them enough.

We strongly believe in providing ultimate customer service and look forward to the opportunity to earn your business. If we can answer questions or take you to preview the bulls prior to the sale, please don't hesitate to contact us.

Parnell Family

FORM. FUNCTION. FOUNDATION.

Our roots run deep in California ranch country, and our breeding philosophy is grounded in common sense and cowboy practicality. We believe good cattle should be built right—cattle that look the part, breed back, raise a calf, and hold up under pressure. That's why we focus on structure, maternal strength, and balanced, proven performance.

Bar KJ bulls are developed under the same standards we hold in our Rancheria Land & Livestock commercial herd, where cattle are expected to work in big country and thrive in real-world conditions. Calving ease, longevity, and functional design drive every breeding decision we make.

This year's offering includes a stout, uniform set of bulls ready to go to work. Whether you're looking to add power, consistency, or stayability to your herd, we're confident there's something here that will fit your program.

We value the strong and integrated relationship with Dunipace Angus and the Parnell Family. We share the same philosophy and standards for customer service and intentions. Thank you for your interest in Bar KJ Angus.

Bar KJ Angus Team

EXPLANATION OF EPDS

Expected Progeny Difference (EPD), is the prediction of how future progeny of each animal are expected to perform relative to the progeny of other animals listed in the database. EPDs are expressed in units of measure for the trait, plus or minus. Interim EPDs may appear on young animals when their performance has yet to be incorporated into the American Angus Association National Cattle Evaluation (NCE) procedures. This EPD will be preceded by an "I", and may or may not include the animal's own performance record for a particular trait, depending on its availability, appropriate contemporary grouping, or data edits needed for NCE.

PRODUCTION

Calving Ease Direct (CED), is expressed as a difference in percentage of unassisted births, with a higher value indicating greater calving ease in first-calf heifers. It predicts the average difference in ease with which a sire's calves will be born when he is bred to first-calf heifers.

Birth Weight EPD (BW), expressed in pounds, is a predictor of a sire's ability to transmit birth weight to his progeny compared to that of other sires.

Weaning Weight EPD (WW), expressed in pounds, is a predictor of a sire's ability to transmit weaning growth to his progeny compared to that of other sires.

Yearling Weight EPD (YW), expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny compared to that of other sires.

Residual Average Daily Gain (RADG), expressed in pounds per day, is a predictor of a sire's genetic ability for postweaning gain in future progeny compared to that of other sires, given a constant amount of feed consumed.

Dry Matter Intake (DMI), expressed in pounds per day, is a predictor of difference transmitting ability for feed intake during the postweaning phase, compared to that of other sires.

Scrotal Circumference EPD (SC), expressed in centimeters, is a predictor of the difference in transmitting ability for scrotal size compared to that of other sires.

Docity (DOC), is expressed as a difference in yearling cattle temperament, with a higher value indicating more favorable docility. It predicts the average difference of progeny from a sire in comparison with another sire's calves.

MATERNAL

Heifer Pregnancy (HP), is a selection tool to increase the probability or chance of a sire's daughters becoming pregnant as first-calf heifers during a normal breeding season. A higher EPD is the more favorable direction and the EPD is reported in percentage units.

Calving Ease Maternal (CEM), is expressed as a difference in percentage of unassisted births with a higher value indicating greater calving ease in first-calf daughters. It predicts the average ease with which a sire's daughters will calve as first-calf heifers when compared to daughters of other sires.

Maternal Milk EPD (Milk), is a predictor of a sire's genetic merit for milk and mothering ability as expressed in his daughters compared to daughters of other sires. In other words, it is that part of a calf's weaning weight attributed to milk and mothering ability.

MANAGEMENT

Claw Set EPD (Claw), is expressed in units of claw-set score, with a lower EPD being more favorable indicating a sire will produce progeny with more ideal claw set. The ideal claw set is toes that are symmetrical, even and appropriately spaced.

Foot Angle EPD (Angle), is expressed in units of foot-angle score, with a lower EPD being more favorable indicating a sire will produce progeny with more ideal foot angle. The ideal is a 45-degree angle at the pastern joint with appropriate toe length and heel depth.

Pulmonary arterial pressure EPD (PAP), is expressed in millimeters of Mercury (mmHg), with a lower EPD being more favorable indicating a sire should produce progeny with a lower PAP score. PAP score is an indicator of susceptibility to high altitude disease commonly experienced at elevations greater than 5,500 feet. Selection for this trait aims to improve the genetic potential for a sire's progeny to have lower PAP scores thus a lower chance of contracting high altitude disease increasing the environmental adaptability of cattle living in mountain areas.

Hair Shed EPD (HS), is expressed in units of hair shed score, with a lower EPD being more favorable indicating a sire should produce progeny who shed their winter coat earlier in the spring. Selection for this trait should improve the genetic potential for a sire's progeny to shed off earlier increasing the environmental adaptability of cattle living in heat stressed areas and producers grazing endophyte-infected (hot) fescue.

CARCASS

Carcass Weight EPD (CW), expressed in pounds is a predictor of the differences in hot carcass weight of a sire's progeny compared to progeny of other sires.

Marbling EPD (Marb), expressed as a fraction of the difference in USDA marbling score of a sire's progeny compared to progeny of other sires.

Ribeye Area EPD (RE), expressed in square inches, is a predictor of the difference in ribeye area of a sire's progeny compared to progeny of other sires.

Fat Thickness EPD (Fat), expressed in inches, is a predictor of the differences in external fat thickness at the 12th rib (as measured between the 12th and 13th ribs) of a sire's progeny compared to progeny of other sires.

\$VALUE INDEXES

Maternal Weaned Calf Value (\$M), an index, expressed in dollars per head, predicts profitability differences from conception to weaning with the underlying breeding objective assuming that individuals retain their own replacement females within herd and sell the rest of the cull female and all male progeny as feeder calves. The model assumes commercial producers will replace 25% of their breeding females in the first generation and 20% of their breeding females in each subsequent generation. Traits included are as follows: calving ease direct, calving ease maternal, weaning weight, milk, heifer pregnancy, docility, mature cow weight, claw set and foot angle.

Beef Value (\$B), an index value expressed in dollars per head, is the expected average difference in future progeny performance for postweaning and carcass value compared to progeny of other sires.

Combined Value (\$C), expressed in dollars per head, is an index which includes all traits that make up both Maternal Weaned Calf Value (\$M) and Beef Value (\$B) with the objective that commercial producers will replace 20% of their breeding females per year with replacement heifers retained within their own herd. The remaining cull heifer and steer progeny are then assumed to be sent to the feedlot where the producers retain ownership of those cattle and eventually sell them on a quality-based carcass merit grid. Expected progeny differences (EPDs) directly influencing a combined index: calving ease direct (CED) and maternal (CEM), weaning weight (WW), yearling weight (YW), maternal milk (Milk), heifer pregnancy (HP), docility (DOC), mature cow weight (MW), foot angle (Angle), claw set (Claw), dry matter intake (DMI), marbling (Marb), carcass weight (CW), ribeye area (RE) and fat thickness (Fat).

CAB TARGETING THE BRAND

MINIMUM GENETIC REQUIREMENTS

Marbling EPD (Marb)	+0.65
Grid Value (\$G)	+55.0

DUNIPAGE

AN ANGUS LEGACY

DUNIPAGE BRUNO - AAA 9178981

Founded in 1968 by Jack and Susan Parnell, Dunipage Angus was the result of a love and passion for registered Angus cattle. At the time Jack was travelling the country selling Angus cattle auctions, and the opportunity to invest in quality Angus genetics overtook him. As they built the Dunipage brand throughout the 1970's, JB McCorkle was one of Jack's closest friends and advisers. They both fell in love with the Wye Plantation program and a large part of the Dunipage herd was built around that exclusive line of genetics from a closed herd. Jack took the opportunity to invest in various herd bulls from the Wye Plantation including Limonar of Wye, Lodge of Wye, and later Chief Justice of Wye, plus many more. Randy & Juli were Jack's oldest son & daughter-in-law and business partners in the operation. They ran the ranch at home while Jack travelled frequently. They became very passionate about the exhibition and showing Angus cattle up and down the West Coast. Highlights from those endeavors included multiple Supreme Champions at the "Cow Palace" Grand National Show in San Francisco, the California State Fair, and many other formidable shows in the West. Randy recalls JB McCorkle visiting the home ranch in Auburn, CA, with Jack and Susan, where they decided to have their first sale called the Black Gold Production Sale. Jack was thrilled to have JB manage the sale and his mentor Paul Good sell it with him. They continued to produce high-quality cattle throughout the late 1970s and early 1980s with a large influence from the Tehama Angus program. When Jack entered public service in 1986 and Randy was busy running the family restaurant, the Headquarter House, the herd was transitioned to commercial. Angus cattle enthusiasts for life, Jack knew Jake carried his same entrepreneurial spirit and encouraged him to stay active in the purebred industry. Now that Jack and Susan are back together, they are smiling ear to ear to see the Dunipage program start again.

MAKE YOUR CATTLE STAND OUT

You've made a significant investment in your genetics, but does the market recognize that? Stand out by differentiating our cattle with AngusLinkSM programs: the Genetic Merit ScorecardSM and AngusVerifiedSM.

The Genetic Merit Scorecard gives buyers the confidence they need to pay more for your quality calves.

AngusVerified validates your calves are sired by registered Angus bulls and make your cattle stand apart from other black hides on sale day.

Users of AngusLink programs earn **\$13-15/CWT PREMIUMS** on average. Give us a call, and learn how to claim your competitive edge with AngusLink value-added programs.

ANGUSLINK.COM | 816-383-5100

The Genetic Merit Scorecard and AngusVerified are administered by IMI Global.

PAF RITA 7096 - \$350,000 Dam of Lots 1-3

EZAR GETTYSBURG 1061 - \$170,000 Maternal Brother to Lots 1-3

Excellent calving-ease prospect with tremendous genetic spread as he posts a negative BW value and then accelerates to a top 10% breed rank for YW EPD. He establishes performance at every level with a top 3% RADG and top 4% Carcass Weight breed rank as well. With the new maternal traits that debuted in the AAA database this spring, he ranks in the top 3% for Teat Length, top 2% for Udder Suspension, and top 40% for Functional Longevity. Combine this with an impressive set on indexes, and this bull will fit a lot of scenarios whether you're producing high-value bulls or replacement quality females.

He is a direct son of the \$350,000 Paf Rita 7096, the cornerstone of the EZ Angus program that has become one of the breed's highest revenue generating females in a short time. Maternal brothers to this bull would include the \$170,000 EZAR Gettysburg 1061, the \$100,000 EZAR EZ Street 2213 at Grimmus Cattle Co., the \$90,000 EZAR Spurs Up 1125 at Edisto Pines, the \$85,000 EZAR Brookstone 2223 at Oldroyd Angus, and many more. This could be the top calving-ease prospect out of the Rita 7096 donor to date.

EZAR SPURS UP 1125 - \$90,000 Maternal Brother to Lots 1-3

EZAR EZ STREET 2213 - \$100,000 Maternal Brother to Lots 1-3

VINTAGE FOREVER LADY 1251 - Dam of Lot 4

EXAR TOMAHAWK 2836B - Sire of Lot 4

This leadoff son of the \$400,000 EXAR Tomahawk will be one of the first sons to sell in the West by the Express Ranches sale-topper from 2023, and is also a maternal brother to GAR Home Town. This bull is built for premiums with an impressive set of carcass EPDs including top 2% CW, top 15% Marbling, and a trait leader in the breed for Ribeye EPD. He balances this production potential with a suite of management EPDs that include top 10% Claw Shape, top 1% Foot Angle, top 30% for PAP, and top 25% for Hair Shed. This comprehensive genetic package results in a top 1% rank in the breed for \$Combined Value.

Perhaps the most intriguing aspect of this young prospect is his exceptional phenotype and overall design. He is a stout, square-hipped individual that exhibits tremendous shape and expression along his topline and throughout his quarter and stifle. His dam is a deep-sided, high-capacity female with an exquisite front-end design, and he has inherited those same qualities in a more rugged, masculine package. When those attributes are combined with his documented genetic potential, this bull has herd sire written all over him.

Elite calving-ease with this Heat Seeker son that ranks in the top 15% for CED and top 10% of the breed for BW EPD. He also has excellent potential for feed efficiency with a top 35% RADG while maintaining a top 25% DMI value. He maintains a flawless set of carcass EPD ranking top 25% for Carcass Weight, top 10% for Marbling, and top 10% for Ribeye. This balance across the board leads to a high level of index values with top 20% \$M, top 5% \$B, and consequently a top 3% rank for \$Combined.

We think you'll appreciate this bull for his added length and capacity with disciplined stature and extra base width. His dam is an attractive, feminine-fronted female with added rib shape and impeccable structure. She was a past Lot 1 female in the 2022 EZ Angus Ranch Sale and currently works in the joint embryo programs of Hopson Angus in OK and Gobbell Farms in TN.

HEAT SEEKER is one of the most heavily used bulls in the breed today with his advantages in calving-ease, foot scores, and carcass merit—with strength for both Quality Grade and Yield potential. His balance across most all traits of economic relevance is apparent in his index levels with a top 15% rank for \$Maternal Weaned Calf Value and top 1% for \$Beef, which then elevates his \$Combined Value into the elite 1% of all Angus sires. His grandam, Isabel Y69, is one of the high growth females in breed history that has landed numerous sons in both AI companies and seedstock programs alike. The dam of this bull, Isabel E048 is proving to be one of the most productive daughters of that great female.

His sons sell as Lots 5-15.

AMBITIOUS is stacked with generations of high performance and carcass bloodlines that result in an elite EPD profile with top 10% growth and a Marbling value in the top 1% of the Angus breed. With that high-end performance and top 10% Carcass Weight, he is unique in the fact that he can do it efficiently. He posts a top 20% Residual Average Daily Gain EPD while maintaining a top 55% rank for Dry Matter Intake, which would be contrary to most high-growth cattle. If you're looking to produce high value feeder cattle that will beat the grid, these AMBITIOUS sons should meet your needs.

His sons sell as Lots 20-48.

One of the breed's highlights in 2022, the \$170,000 GETTYSBURG topped the EZ Angus Bull Sale and was eventually leased to Select Sires where he saw widespread use across the industry. The progeny have not disappointed and today GETTYSBURG ranks inside the top 10% of the breed for WW, top 4% for YW, and elite 1% for RADG and Carcass Weight. With more progeny reports coming in, he has dropped his BW, elevated his CED and maintained strong Marbling and top 1% Ribeye rank.

His sons sell as Lots 53-62.

STEP UP 9178 was the \$132,500 high-selling bull from the 2020 EZ Angus Bull Sale and offers proven performance and a balanced EPD profile with a negative PAP EPD. STEP UP is a stout-hipped, wide-based individual that has impeccable skeletal design. He has great outward rib shape and internal dimension, but his added mass does not sacrifice balance and quality phenotype from the profile. His dam is a model female. And when you factor in his top 10% Heifer Pregnancy, top 10% Teat Length, top 4% Udder Suspension, top 30% Docility, and top 5% Claw Set EPD, his daughters should hold tremendous value as replacements.

His sons sell as Lots 69-72.

RED STATE was the \$140,000 high-selling bull from the 2023 Pine View Sale in Iowa and offers elite growth potential with a top 4% WW and top 3% YW EPD. He is a long sided, square-made, thick-topped individual that also pushes a high degree of end-product merit. He boasts a top 2% breed rank for Carcass Weight, top 15% for Marbling, and sits in the elite 1% for Ribeye EPD. Add in a negative PAP value, and these sons should produce some feeder friendly offspring that should compete on any grid as well.

His sons sell as Lots 69-78.

HR FANNY 8653

HR Fanny 8653
8653 is perhaps the most powerful, stoutest-hipped, widest-based female that came out of the EZ Angus program. She has a balanced EPD profile that generates a top 15% ranking for \$Beef Index and top 15% for \$Combined Value. She produced the \$110,000 top-selling open heifer in the 2022 EZ Angus Female Sale as well as another \$50,000 and \$20,000 features in that same event. In the 2024 EZ Female Sale, she had the \$80,000 EZAR Fanny 2086, third high-selling bred heifer that day. Here is an excellent opportunity on a pair of sons with breed-leading figures out of this powerful donor.

TOMAHAWK topped the 2023 Express Ranches Sale at \$400,000 at 11 months of age. He is a maternal brother to GAR Home Town by the popular Grimmus sire, SG Salvation. Like his sire, TOMAHAWK has some high-end carcass merit with top 2% Marbling and top 15% Ribeye. But, he is very unique across his management traits where he features a top 3% Docility rank, top 25% for Claw Set, top 10% Foot Angle, top 10% for PAP EPD, and top 3% for Hair Shed. His resulting index levels are equally impressive with a top 10% \$M and top 1% \$Beef Index that eventually lead to a top 1% \$Combined Value as well.

His sons sell as Lots 86-90.

This unique prospect offers top-end growth with a 10% WW and 15% YW rank. He is elite for carcass as well, ranking in the top 10% for Carcass Weight, Marbling, and Ribeye. He is very solid across his foot scores and boasts a top 4% Docility EPD. He is a stout-featured, heavy-muscled bull with herd sire potential out of the Clarity donor that was the high-selling heifer at Connealy Angus in 2022. She has turned into a model female at Bar KJ where she is moderate framed, level designed, and extremely sound structured. She has a great udder design with teat refinement as strong attachment, and the mating to TOMAHAWK has produced two unique prospects in Lots 89 and 90.

SALVATION is an elite carcass bull with top 10% Marbling, top 15% Ribeye, and top 10% Carcass Weight. His index profile includes a top 4% \$Beef and top 10% \$Combined Value. SALVATION adds a high degree of muscle expression and body to his offspring while maintaining a disciplined frame size. He has created as many herd sire sons in the industry as any other bull being used today.

His sons sell as Lots 91-96.

PATHFINDER is a high Marbling, calving-ease sire that also ranks in the elite 1% of the breed for Docility EPD. He was selected by Grimmus Cattle Co. out of the 2023 Baldrige Sale in Nebraska where he charted an adjusted YW of 1497 lbs. and a 105 Ribeye ratio. The dam of PATHFINDER is the A030 donor that also produced Baldrige Alternative E125, Baldrige Command C036, as well as the \$250,000 Baldrige Versatile.

His sons sell as Lots 109-113.

2140 is a big-spread bull with negative BW and a top 10% CED that shoots up to top 20% growth rankings for WW and YW. He offers elite potential for carcass merit with a top 3% Marbling and top 10% Ribeye. As a yearling, he posted a 14.8 Adj. Ribeye measurement that calculated to over a 1.33 sq. in/cwt. He is one of the most expressively muscled sons to date out of the Rita 7096 donor that also posts excellent foot scores with a top 4% Claw Set and top 15% breed rank for Foot Angle.

His sons sell as Lots 114-119.

JUSTIFY offers the next level of performance and YW over his very influential sire KG Justified 3023, who is widely known for his maternal strength and quality daughters. JUSTIFY brings these added pounds without sacrificing calving-ease and also adds carcass weight and Marbling in the right compositional package. His progeny have excellent phenotypic balance with sound structure and an attractive look about them. When the retention period develops in our industry, you're going to want to retain these daughters in your program. Not only will they be adaptable for kind—the production will be superb.

His sons sell as Lots 132-135.

One of the breed's highlights in 2022, the \$170,000 GETTYSBURG topped the EZ Angus Bull Sale and was eventually leased to Select Sires where he saw widespread use across the industry. The progeny have not disappointed and today GETTYSBURG ranks inside the top 10% of the breed for WW, top 4% for YW, and elite 1% for RADG and Carcass Weight. With more progeny reports coming in, he has dropped his BW, elevated his CED and maintained strong Marbling and top 1% Ribeye rank.

His sons sell as Lots 53-62.

PARITY is high-performance sire with top 10% breed ranks for WW and YW EPD with a top 5% Carcass Weight value. He has elite values for end-product merit, including a top 3% Ribeye rank. His donor dam is the \$350,000 Rita 7096 making him a maternal brother to the \$170,000 Gettysburg 1061, the \$90,000 Spurs Up, and the \$100,000 EZ Street at Grimmus Cattle Company. However, PARITY is one of the lowest PAP EPD sons of this donor and ranks in the top 10% of the Angus breed for this trait.

His sons sell as Lots 156-159.
